Never before in the history of the state have the common people had the opportunity to accomplish the things they need and are entitled to as we have now. It is just a matter of all the people who voted for Mr. Folsom standing behind him and continuing their support of him. He can only do his best with your support.

In Chilton County, where he received 2,495 votes, he is depending on his friends and supporters to vote the Democratic ticket and continue their cooperation in getting something done for Alabama.

## OVERLOOKING IMPORTANT MARKET

It is well known that manufacturers of products sold on a national scale have directed the major part of their selling efforts toward large city markets.

We have often wondered why these sellers organize their advertising campaigns almost exclusively in large cities. Very often they use every daily newspaper in a large city, thus inevitably duplicating their sales effort, without taking into consideration the vast market that offers profits in the small towns and cities throughout the nation.

The importance of this market is emphasized by Arch L. Thiele, who says that a survey sponsored by Pathfinder Magazine, revealed that towns of less than 5,000 population, representing only ten per cent of the country's total, do twenty-three per cent of the nation's business.

Mr. Thiele points out that sixty per cent of the population of this country lives in cities under 25,000 and on farms. He says that forty per cent of the \$42,000,000,000 worth of retail sales in 1930 came from towns under this size.

## TEACHERS AND NURSES

Two professions that should be well paid for their services and which have been underpaid in sections of this country in the past are teaching and nursing. With a rising cost of living underway and salaried workers bearing the worst of its effects, these two professions should be considered.

Probably the educational profession has received more favorable publicity recently. In many states teachers' salaries are being raised and their profession lauded by responsible officials. But too many hospitals remain underfunded and are suffering from a lack of candidates in nursing schools.

Teachers mold the lives of future generations but nurses save those of today — and a poor or over-worked hospital staff is a serious defect in its community. It becomes even more serious when we have an emergency in the family.

Something is wrong with a wage scale allowing taxi drivers to make more than deans of Universities. Something is wrong when unskilled labor make more money than skilled nurses and teachers. And with inflation possible, and rising cost of living an actuality, both professions need a helping hand from the average citizen of this country.

Even the worker who reaped war profits or those who are making more in a week today than they did in a month formerly, must understand that their children deserve the best opportunity. The best includes an efficient and widespread medical profession. It also includes good teachers and better schools for a generation which is starting out in what we hope will be a peaceful era.

To induce competence in these professions, there must be an adequate living in them. Respect, pride and a good salary should go along with the work. To get these virtues, more money will be needed in the future. Money spent for such purposes should be considered a sound investment.

## MORAL ECHOES

Rev. D. W. Haskew, D.D.

PERSONAL THINGS — We never see a tramp or a "drifter" that we do not think, "But for the grace of God, there go I". . . our greatest fault is never helping around the house. Rather pay and let the other fellow do it. . . probably our worst fault is that we never remember anything. We mean anything that we should . . . we're always promising someone something and then forgetting to do it. . . plan a garden every year but never work in it. . . also buy lots of baby chicks every year. The 'missus' looks after them. . . always piddling in politics and claim not to like it, but can't leave it alone. . . can't stay out of the printing business and can't make a living at it either—but it's lots of fun. . . at times we are a wonderful listener and have had more people cry on our shoulder than Mother McCree. . . very egotistical and afraid someone will find it out. . . do not like to be noticed but resent it if we are ignored. . . love to piddle in the kitchen and try our hand at the cook stove. . . positively will not walk a block if we can ride. . . do not like banquets or meetings. . . can't stand to be 'fenced in'. . . like to play golf. . . hobby used to be hunting, fishing and writing. Now it's just writing. . . even used to write a lot of poetry but that was before we were married and learned you can't eat poetry. . . get the biggest kick in the world out of returning to childhood neighborhoods and seeing old and dear friends. . . like old people and love to talk to them. . . ladies are our favorite people and we get a big kick being with them. Guess it's the sissy in us.

Visitor (at asylum): Do you have to keep the women inmates separated from the men? Attendant: Sure. The people here ain't as crazy as you think.

We bet the most unpopular man in Alabama with the school children this week is the principal of the Florence, Alabama School, who is campaigning for a twelve months school.

Brother Buck tells us that you can see more Clanton people in Selma on Friday than you can in Clanton. Now what they are buying we ain't going to tell.

An odd thing happened the other week out at D. E. (Dinty) Moore's on Maplesville Route. A twister came out of the sky and did considerable damage to his place such as turning a trailer up-side-down. Tarp up some trees and partly unroofed his home but touched nothing else in the neighborhood. It was gone as suddenly as it came. Nature plays strange pranks on us.

The Clanton Baseball Team had a barbecue at the Blue Creek Lodge last Friday night and according to Bob Alred everybody had a swell time. Some twenty or thirty players and their wives participated.

Amon Jones, who with Troy Maddox, own and operate the Chilton Home Furnishing, holds a record that he believes no one else can match. In business a month and he has sold a bill of Furniture to be shipped to Germany. The way it came about is that the former Rosemary Pickens whose husband is overseas is going to join him in the near future and she bought her furniture and is having it shipped ahead. Amon is proud to be able to say, "We sell to everybody in Chilton County and to some folks in foreign countries."

It won't be long now until we can continue those fireside chats that we discontinued last April.

Beh Studdard, our popular Gulf Distributor, asked the other day if we had ever heard of a wedding that someone didn't say they wonder what she could see in him or what he could see in her. We heartily agree with B. N. and think for that line about, "Popular Gulf Distributor," we should get some good service on our kerosene this winter.

Jimmie Bell says it's a funny thing, you always give so much better advice than you receive.

Figs, whether fresh, plain, canned or dried, are high in calorific content, and are excellent sources of iron and calcium, says nutritionist of agricultural extension service.

As far back as I can remember I have always loved books. I carried them with me into the field where I was plowing. I carried them with me when I went to church. They thrilled me every time I saw them. Well do I remember the first time I ever went into a large library and saw a great collection of books. I walked lightly to the door and closed it. Then I turned around and faced the long shelves crowded with those precious things. I walked up and down between the rows of books, and let my fingers touch them gently. I was never happier. Tears filled my eyes as I was alone with my friends. For I have always felt that a book was my close friend. I have loved books, but there was one book, that was loved more than all other books. Nothing had can enter the heart of a young man when he loves books, and The Book.

One frosty morning I left home with the Life of Bishop Marvin under my arm. There was no service at our country church that Sabbath and I took the book with me and went to a warm place in the gully and all day I sat there and read. Late in the afternoon I returned to my home and my mother was a bit disturbed. She wanted to know where I had been. Imagine her surprise when I told her that I had spent the day with Bishop Marvin. I felt his very presence as I followed him through boyhood, as I followed him through school and as I followed him into the ministry. How my heart did burn within me as I caught the fire of his spirit. If you want inspiration I dare any one to spend a Sabbath Day in a gully with a man like Bishop Marvin. There is more lift to the heart with a good book in a gully, than there is to a seat in the theatre or on a picnic at the seashore.

A stream of blessings flow from a good book, but there is poison flowing from between the pages of a bad book. A gentleman in India went into his library and took down a book from the shelves. As he did so he felt a slight pain in his finger like the prick of a needle. He thought that some careless person had stuck a pin into the cover of the book, and his finger had been penetrated by that pin. Soon his finger began to swell, his arm and then his whole body. It was not a pin but a deadly serpent, and soon the man was dead. Many books carry a moral poison that is deadly to the soul. Beware of bad books. They are to be found in some libraries.

## CARD OF THANKS

We wish to thank each and every one who helped us during the illness and death of our daughter and sister, Sula Sanders. Especially do we thank those who were so faithful in helping us to care for her.

We thank the community and friends for the beautiful flowers. Mr. and Mrs. J. D. Sanders and Children.

Wheat could and should be grown on many more Alabama farms for food, feed and for sale. J. C. Lowery, API extension agronomist, believes that many farmers should consider planting the crop this fall.

## SACRED HARP SINGING WAS HELD RECENTLY

The Sacred Harp Singing Convention held at New Harmony, was called to order by the Chairman, W. L. Sanders, directing a song. Prayer was offered by D. H. Taylor. A few songs were directed, then gave way for the regular preaching hour. Elders R. F. Hyde and J. B. Williams came forward proclaiming the blessed truths, the mercies and guidance of our dear Lord and Saviour, Jesus Christ, after which dinner was spread. Every one seemed to enjoy the good food and were thankful for the food and blessings; also the ones who took part in any way.

After lunch was over the house was called to order with a song by the chairman. The singers and directors were: D. H. Taylor, Mrs. J. L. Barton, of Montgomery; Mr. and Mrs. B. F. Gaines, of Birmingham; Elder J. B. Williams, of Tallapoosa; Joe Jackson, Mrs. Bob Burks, Mrs. Vester Oaks, Mrs. Elijah Sanders, Mrs. Tom Jackson, Miss Mildred Jones and W. L. Sanders, all of Lomax.

The day being so bad, there wasn't so many present, but we hope the visitors, together with the ones who were not there this time, will all come and be with us in our next Convention. We enjoyed the good old songs of the day.

The same officers were elected for the coming year: W. L. Sanders, Joe Jackson and Flora Oaks, arranging committee for the next convention.—W. L. Sanders, Chairman; Flora Oaks, Acting Secretary.

## SINGING CONVENTION FIRST SUNDAY IN OCTOBER

The Fall session of the Chilton County Singing Convention will be held at the Courthouse in Clanton the first Sunday in next month and Saturday night before, October 5 and 6, according to the chairman, Prof. Marion W. Easterling. All singers and lovers of music have a cordial invitation to attend. The Deep South Quartet will be present and many other outstanding singers are expected.

## PICK BEST LIKED LIVESTOCK BREED

Choosing the best breed of cattle, hogs or sheep is a simple matter; the best breed is the one of your choice, says W. H. Gregory, API extension livestock specialist. "Each breed has certain outstanding points," and each differs in some respects under different systems of management. To that extent, it is best to select the breed most likely to respond best under the management system to be used.

Three fundamental considerations in the selection of breeding animals are individuality of the animal in question, its ancestry, and its offspring. In the case of beef breeding animals, Gregory recommends attention to these five points: Breed and sex character, constitution, early maturity, natural fleshing, and quality. There are other details which should be considered in selection of best animals, but these outweigh all others.

Five Colombian senioritas and a French mademoiselle have arrived at Alabama College to begin their American academic careers as exchange students. They will each study in chosen fields and will teach classes in modern languages. They are Senioritas Susanne Mallorino, Carmen Beck, Emilia Morales and sisters Julia and Maria Castro, of Bogota, Colombia; and Mlle. Eve Maria Ross Zelveler, of Paris, France.

Almost 73 out of every 100,000 persons in the United States were killed accidentally in 1945, Red Cross figures reveal.

## COTTON MILLS SPENDING HUNDRED MILLION YEARLY

Cotton mills in the United States are currently spending over 100 million dollars a year on modernization of equipment, expansion, renovation and new building, according to an estimate from the Cotton Mills Information Service.

Estimates based on the number of active spindles indicate that nearly \$8,000,000 will be spent by the mills of Alabama and a total of \$80,000,000 in the South Atlantic states during 1946.

A large part of the new investment being made in the cotton mills throughout the nation will be in the form of new equipment. A check of textile machinery manufacturers indicates that a minimum of \$50,000,000 worth of new machinery will be installed in the cotton mills each year for the next four to five years. This figure is based on orders already on the books.

## DAVID GRIFFIN NOW AT FT. SILL, OKLA.

After receiving his commission in the Reserve Officers Training Corps in 1941 at Alabama Polytechnic Institute, he enlisted in the Marine Corps and attended the Marine Corps Basic School. In February, 1942, he attended the Marine Corps Field Artillery School. He participated in the invasion and occupation of Guadalcanal and saw action in Cape Gloucester, and Peleliu. He wears the Bronze Star.

## KILL CHICKEN LICE TO HAVE MORE EGGS

It's so easy to kill lice on chickens that there's no reason why the pest should cut down egg production this winter.

As the birds are brought in from the range and placed in winter quarters, treat them with Black Leaf 40, suggests John Ivey, API extension poultryman. One drop on the hen's back, one under each wing, and another under the vent will do the job.

To keep down later lice infestations, Ivey recommends that all new chickens brought into the flock be treated.

Sufficient rest and sleep are important as proper diet for children. In planning a child's daily program, these should have special emphasis.

## ISABELLA

On account of the rain Sunday and Sunday night, there wasn't any service at Mulberry. We are very sorry we couldn't have service even if it was raining.

## STANTON

A marriage of much interest throughout this section was that of Miss Vara McKinney, attractive daughter of Mr. and Mrs. John R. McKinney, and Mr. Jack Kynard, son of Mrs. Nellie Pitts Kynard, of Selma, Ala. The marriage took place September 7th, 1946, at 5 o'clock in the afternoon, at the home of Dr. and Mrs. John Davison, Selma, Ala.

Another wedding of wide interest was that of Miss Hazel Houston, daughter of Mr. and Mrs. Grady Houston, and Mr. Clifton Atchison, Sunday September 15th, 1946, at 9 o'clock, at the bride's home. A reception was held at the noon hour at the home of the groom's parents, Mr. and Mrs. Ben Atchison. After a short wedding trip they will be at home to their friends in Montgomery, Ala.

Mrs. Woolley, Cox, Ala., visited Mrs. Joe Cox this past week.

Mr. and Mrs. Ezra Lee Lawley visited their parents over the week end.

Mrs. Bob Davis (Ruby Gregg) is in Selma Baptist Hospital. We wish for her a speedy recovery.

Mr. and Mrs. Howard Chism and daughter, Mrs. Jessie Smith, and son, have returned from their vacation. They reported a wonderful trip.

We extend our deepest sympathy to the relatives and friends of Mrs. Vivian Estelle Goff. Mrs. Goff's death occurred at 7:45 a.m., Saturday, at her residence in Maplesville, Ala., after a long illness.

Mrs. Gay Watts of Miami, Fla., is visiting her mother, Mrs. Mary Hicks.

Mrs. A. C. Maness and Miss Charlotte Grammer of Tuscaloosa, Ala., are visiting their parents and grandparents, Mr. and Mrs. Frank Reynolds.

### APPLICATION FORMS FOR DISABLED VETERANS

Application forms to permit amputees to apply for automobiles or other conveyances are now available at the Montgomery office of the Veterans Administration, M. E. Head, in charge of the office announced today.

Veterans who believe they are entitled to receive cars under the provisions of Public Law 663 can obtain the necessary application forms and information at the VA office at 123 Lee Street.

Public Law 663 provides automobiles or other conveyances for disabled veterans of World War II who are "entitled to compensation for the loss, or loss of use, of one or both legs at or above the ankle."

Following is the procedure to be followed:

1. The disabled veteran obtains an application form and information from

The Grammar School P-T. A. will observe Father's Night on Tuesday, October 1st, at 7:30 p.m., at the Grammar School.

All parents are expected to be there and the fathers have a special invitation.

This will be a very important meeting, introducing this year's work, hopes and objectives to the parents.

Be there and bring someone with you.

### FSA FARM LOAN POLICIES CHANGE

The farm ownership program operated by the Farm Security Administration has recently undergone legislative changes which will greatly increase this phase of the FSA program. Hereafter, maximum prices paid for all farms purchased for tenants through the FSA were limited to a specified amount by Congress. This amount could not be greater than the assessed value of an average size farm in Chilton County. Due to the number of small farms in this county this value placed on farms was low, which caused the limit placed on farms by Congress low also.

Congress has recently revised this act to allow a reasonable price to be paid for any farm purchased by a tenant who secured a farm loan through the Farm Security Administration.

In determining a reasonable price for any farm, the County FSA Committee checks the farm to be "family size" or can be repeated by a family purchasing it. The farm is also checked for fertility, yields, crop acres, pasture and woods acres, and also repair of buildings. Farms on which FSA loans are made must show they are capable of supporting a family, besides paying for themselves over a long period of time.

Everyone making application at the local Farm Security Administration office for a loan to purchase a farm is carefully investigated by the County FSA Committee. Insofar as possible all applicants are selected according to their past farming history, with priority being given to World War II Veterans. These applicants must be honest, and evidence good qualities of character, be interested in living on and operating their own farm.

Seventy-two tenant farmers have purchased farms in this county in the past seven years through loans from the FSA. It is felt that many more will be given the opportunity to own farms through FSA funds now available for loans of this type. Any one desiring to make application may do so at the Farm Security Administration office in Clanton, Ala.

his VA office, where he will have help in filling out the form. If there is no VA office in his home town, the veteran may write to the nearest VA office.

2. Every eligible veteran, except retired officers, must mail his application form to the Regional Office having jurisdiction over his compensation claim file. Alabama, generally, will mail the application forms to the Veterans Administration, Montgomery 10, Ala. There the form will be processed, an entry will be made as to his disability, and the form will be returned to the veteran. Retired officers must mail their applications to the Veterans Administration, Washington 25, D. C., and not to a Regional Office. After this step, their applications also will be handled through Regional Offices.

3. The disabled veteran will take the approved form, together with his operator's license, to the local licensing agency. If his license satisfies requirements of the state motor vehicle law, that fact will be entered on his application form, in addition to other necessary information such as special attachments required by state law. If the veteran has no operator's license, it will be necessary for him to get one.

4. After all entries have been made and certified by the licensing agency, the veteran can present his application form to any dealer of his choice and negotiate for the automobile or other conveyance.

5. When the car is delivered, the dealer can submit necessary papers to the VA Regional Office in Montgomery for payment. VA warned that the total purchase price of the car cannot exceed \$1,600. This must include all special attachments necessary to operate the vehicle safely and any tax which is reflected in the purchase price. The veteran cannot buy a more expensive car and pay the difference between the purchase price and the \$1,600 VA limitation. VA can pay

### ALABAMA GIRL GIVES \$750 ESSAY PRIZE TO HER HOME COLLEGE

Lila Fundabark

An Alabama college girl has just presented her home state school with a gift of \$750 in cash—a prize which she won in a nation-wide essay contest.

Miss Lila Fundabark of Luverne, now a student at Northwestern University, Evanston, Ill., has sent the check for \$750 to the Alabama College for Women at Montevallo. Miss Fundabark won the check in a nationwide contest conducted by National Tax Equality Association of Chicago.

### PATES CHAPEL

With September here and the first Autumn breeze in the air, the school girls and boys begin to board school-bound buses, to begin a new year in school.

We all hope them one of the most prosperous years.

The concert given by the Deep South Quartet Saturday night was a great success. The house was filled to capacity and over. Each and every one enjoyed the fine singing and music rendered by this quartet. But we are sorry to say that on the account of the weather, there wasn't many present Sunday. But the singing was enjoyed by all present and the Deep South Quartet rendered some more beautiful singing and music too. There was also preaching Sunday night with only a few present, but Bro. Crumpton brought a wonderful message.

So if the weather will permit, everybody come to Sunday School Sunday morning.

On our sick list this week we are sorry to report that Mr. Bradie Patterson is not improving very much.

Mr. Archie Cleckler has had to have another treatment for his face, but hope he will not have to take another. Helen Dawson gave a birthday party at her home Saturday night, September 7th, in honor of Jessie Dawson. There were games played and refreshments served. Each and every one present reported a grand time. We hope him many more happy birthdays.

Earlie Gene Dawson was the guest of Carl Maddox Saturday night.

We wish to thank each and every one for their nice attendance inside and out the church Saturday night, and invite you back again. You are always welcome at our church and homes.

Jessie Dawson was the guest of Earlie Gene Dawson Sunday night. Mrs. Arline Dawson spent a while Saturday evening with Mrs. Adella Franklin.

Mr. and Mrs. Philip Franklin had as their guests Sunday friends and relatives from Birmingham.

Mrs. Sybil Chalander and two children and Mrs. Leddie Mae Faggard and daughter were guests of Mrs. Lee Hayes Saturday night.

Mrs. Mable Leach spent a while Saturday evening with Mrs. Charley Hayes.

Mr. Enoch Hayes, Earline and Claud Dawson made a trip to Birmingham Thursday.—Reporter.

During September strawberry plants should be thinned, to about six inches apart. Remove old plants and leave one and two-year-old crowns, recommend API extension gardeners. After the bed is thinned and weeded, apply a liberal application of cotton fertilizer.

With indications that the demand for milk and milk products will be greater this winter than ever before, C. E. Teague, API extension dairyman, is encouraging Alabama farmers to maintain high milk production through winter grazing, good legume hay, and more liberal feeding of home-grown feeds.

only the seller and cannot reimburse veterans for cars already purchased.

VA also pointed out that the man must actually be a World War II veteran separated from service, and his claim must be completed by June 30, 1947.

### MACEDONIA

There was a nice crowd at church Sunday in spite of the down pour of rain. The following officers were elected for the coming year:

Pastor, Rev. C. C. Hand; Church Clerk, Mrs. Winston Langston; Secretary and Treasurer, Mrs. D. E. Moore; Superintendent of the Sunday School, Mr. J. C. Veazy; Bible Teacher, Mr. Woodie Rasberry; Delegates to the Association, Mesdames F. C. Gibson, Winston Langston, D. E. Moore, Pratt Crumpton and Mr. and Mrs. Marvin Oates.

Miss Lucille Rasberry, Mr. and Mrs. Woodie Rasberry and family spent the week end with parents, Mr. and Mrs. Fleetwood Rasberry.

Mr. and Mrs. Doyle Thacker and family spent the week end with their parents, Mr. and Mrs. Pratt Crumpton.

Little Alice Faye and Gerald Earl of Randolph spent the week end with grandparents, Mr. and Mrs. F. C. Gibson.

Mrs. Earl West of Clanton and son, Leland West, of the U. S. Navy, San Diego, Calif., visited Mr. and Mrs. D. E. Moore Wednesday.

### QUOTES OF THE WEEK

"I myself am quite well."—Mrs. Eleanor Roosevelt, after doing at wheel and causing three-car smashup.

"Today's hobbysexers are gross, not alluring."—Anita (Gentlemen Prefer Blondes) Loos, author.

"There are all kinds of youth today—mostly good."—Ernest (Wild Animals I Have Known) Thompson Seton, author.

"Increased production is the most important thing to be achieved by American industry. It doesn't mean a 'speed-up' or 'sweating of labor.'"—Pres. Harry A. Duff, General Mills.

"There is imperative need that the people be granted equality with labor unions."—Pres. Robert R. Watson, National Association of Manufacturers.

"I'm not giving up."—C. I. Baxter, Los Angeles cook, who did most day, after fasting 83 days.

# The Newspaper As A Public Servant

Thomas Jefferson once said: "I would rather live in a country with newspapers and without government, than in a country with a government but without newspapers." In this chaotic era that is worth repeating and rereading.

The slogan for the seventh annual National Newspaper Week is: "A FREE PRESS—VOICE OF FREEDOM, GUARDIAN OF LIBERTY," and the theme is "The Newspaper as a Public Servant."

One has only to look over this war-weary world to realize that only a few nations are blessed with a Free Press. Most intelligent people will agree that the Freedom of The Press is the capstone of the four great freedoms and that once you lose this Freedom of the Press, all other freedoms vanish.

However, Freedom of the Press, as we understand it, has become such a common part of our American Way of Life that we simply take it for granted and do not realize that this condition does not exist for millions of people over the globe.

Such freedom of the press is essential in our form of Democracy. The first step of any dictator is to discredit or seek control of the press. Dictatorial governmental officials resent newspapers that do not agree with them. Our form of government is based upon a check and balance system between three major branches—the executive, legislative and judicial. The newspapers as a "Fourth Estate" were recognized years ago because of their power to serve as watchdogs of the people's rights; to keep the people informed and united for their best interests.

For the good of the public it is a healthy thing for our newspapers to have the right to criticize public officials because it is so easy for our high officials to become so surrounded by "yes" men that they lose their perspective and assume the divine-right theory that they can do no wrong. An alert Press helps keep our political leaders' feet on the ground.

During the war the newspapers of the United States met all challenges and helped unite the people on every program essential to the winning of the war. The newspapers wholeheartedly gave their support to civilian mobilization, selective service, war bond drives, Red Cross, USO, OPA, rationing, war production and the development of a united front. Millions of dollars worth of space were contributed to every program.

Without fanfare the newspapers have mobilized to win the peace.

It would be an eye-opener if we had time to show just what our newspapers are contributing to the postwar development and progress of this community, state and nation.

Over a period of a year it is amazing the amount of space that is being given to: Information of special interest to veterans and dependents; rationing news for consumers; industrial and agricultural development; such civic improvements as youth centers, recreational parks, music festivals, city beautification and modernization; improvements in government, tax economy, better highways, hospitals, schools, libraries; improved sanitation, parking conditions, fire and accident prevention; town meetings, getting-out-the-votes; church attendance; rural electrification and conservation of natural resources; aid to various relief organizations, the American Red Cross, Anti-Tuberculosis and Infantile Paralysis drives, U.S.O. and famine relief; and hundreds of other projects and programs that vitally affect the daily lives of the community.

Our veterans discovered what the home town newspapers mean while they were serving on the global battle fronts. They noted that where there were no newspapers there was no progress.

During this National Newspaper Week we urge you to take time out to rediscover what your newspaper means to you and your community. If you don't think that it is a very close part of your life, try this simple experiment: When your paper comes, just set it aside and see how long you can refrain from reading it.

# TO ALL MISSIONARY BAPTIST CHURCHES CHILTON CO. ASSOCIATION

Some three months ago, I was asked to work in this association in the interest of helping to raise our quota of money for "Relief" to go to the war stricken countries. I am asking that the pastors and church treasurers write me the exact amount your church sent to the Montgomery office so I can check each church against the credit sheet sent me from Montgomery. This will greatly help us in discovering any errors in credits and will give us an accurate report for our association in October. Please give the information on a Post Card as early as possible. Your cooperation is greatly appreciated.

Just a few more weeks until our association will meet. As your humble servant and moderator, let me urge all church clerks to please make your church letters to the association, with all care so that our work will show up properly. As you know, these minutes go on file and are kept through the years for reference.

With every good wish to all our churches and may the Lord bless our every effort as we carry on for Him.—Mrs. G. G. Williams, Thorsby, Ala.

## MT. PLEASANT SUNDAY SCHOOL—BEAT 4

There was no Sunday School on account of the weather. Next Sunday is our regular preaching day, followed by singing in the afternoon. Everyone has a special invitation to attend both services.

Mrs. Esther Foshee and kids left Thursday to make their home in Bleweth, Texas, with her husband, Mr. Henry Foshee.

Mr. and Mrs. Sam Foshee, Jr., visited Mr. and Mrs. Sam Foshee, Sr. Mr. and Mrs. George Fox visited Mr. and Mrs. M. L. Ingram Sunday. Mr. Pledger Ingram left today for the U. S. Navy. He has been visiting his parents, Mr. and Mrs. M. L. Ingram.

Mrs. Nell Crew and children, Mrs. Will Cox, Mrs. Myrtle Baker, Miss Marion Cox, Miss Martha Cox, all visited their daughter and sister, Mrs. Esther Cox Foshee Wednesday night before she left to make her home in Texas.

Miss Inez Foshee, Miss Minnie Fay Foshee visited Mrs. Albert Culp Sunday evening.

Mr. John Deramus of Selma, Ala., visited Mr. and Mrs. Jim Foshee Saturday. We are glad to report that Mrs. Jim Foshee is improving.

We will be looking for every one out Sunday and Sunday afternoon; preaching Sunday night. Church begins at 10:30 a.m. and 7:00 p.m.

## NEW OFFICERS IN MYF

Election of officers of the Methodist Youth Fellowship was held last Sunday night. Richard Roundtree is president. James Morrison is vice-president and program chairman and Jackie Caster is secretary and treasurer.

## THOMAS JUNIOR HIGH P.-T. A.

The Thomas Junior P.-T. A. met Thursday night, September 12th, at 7 o'clock. The meeting was well attended. We hope more parents can be present at the next meeting. A well attended P.-T. A. strengthens the teachers. It lets the teachers know that the parents are really backing the school. It was decided that the Thomas Junior P.-T. A. would meet Thursday night after every second Sunday at 7 o'clock at the school.

Parents, it is your school. Please let your teachers and your children know that you are behind them by remembering this date and come every time it is possible for you to. If you do this, I'm sure you will have a good school year.

If hens are slow to come into production, API extension poultrymen advise using lights to step up feed consumption.

## NEW CHURCH STARTED AT NEW CEDRON

The foundation of a church building at New Cedron has been started. This building will be a brick veneer, having an auditorium and four separate Sunday School rooms, which will be heated by a basement furnace. The old building is the first one built at New Cedron and is near fifty years old.

In emphasizing farm safety, Red Cross reports that 6,000 people were killed in farm home accidents last year; 4,300 farm workers were killed on the job, an additional 4,300 were killed in motor vehicle accidents, and 1,000 more farm people were killed in public accidents.

Red Cross has learned that approximately 64 per cent of workers killed accidentally during 1945 were killed in non-occupational accidents—in their homes, on streets and highways, or in other public places.

# HEALTH HINTS for LIVESTOCK

## HOW THE FARMER CAN STAMP OUT MASTITIS

In one state, recently, authorities estimated that farmers were losing \$75,000,000 per year due to the udder disease, mastitis. In another state,

A veterinarian injecting anti-mastitis drugs into the udder.

## ALABAMA TO UTILIZE SWEET POTATOES FOR USE AS LIVESTOCK FEED

That Alabama is making progress toward the goal of utilizing the vast possibilities of sweet potatoes for livestock feed was indicated today, when the State Markets Board called attention to the location of eight sweet potato dehydrating plants in the State. Due to Alabama's low average corn yields per acre, authorities have been urging use of dehydrated sweet potatoes instead of corn, asserting that the average Alabama acre will produce five times as much feed value, planted to potatoes, as when planted to corn. The feeding value of dehydrated potatoes has been proven in tests, which included the famous State Guernsey herd at Kilby Dairy. Dehydrating plants coming into existence over the State are hailed as another forward step in better use of Alabama's resources.

"These plants are in operation and prepared to render a long needed service to sweet potato growers in serving as an outlet for field run, off grade and string potatoes not otherwise saleable for human consumption at a profit, and which in former years have gone to waste," said W. J. Hackett, Director of State Markets. "The dehydrators will either process the potatoes on a custom basis or purchase them outright from the grower at a profitable cash price."

"Cattle and hog producers and dairymen throughout Alabama may purchase the dehydrated potatoes in 100-pound sacks for livestock feed, to be used instead of corn. Dehydrated sweet potatoes have been successfully proven to be one of the finest livestock feeds, comparable in every respect to corn. Growers will find a source of new profit from sale of field run and off grade sweet potatoes to these plants, and livestock and dairy producers now have a source of supply of carbohydrate feed for their livestock."

The eight dehydrating plants in Alabama are located as follows: Alabama State Markets Board, Greenville; W. C. Joy, Citronelle; A. R. Taylor, Mt. Hebron; Otis B. Alston, Atmore; Peterman Agricultural Company, Peter-

quite general, and is showing no improvement.

Yet most any farmer can assist in bringing this disease under control and add greatly to his milk production and profits, if he will take a few simple steps and follow them systematically. Back of these measures is the fact that there are two major causes of mastitis. One cause is bacteria which enter the teat canal and ruin the udder. The other is udder injuries due to accidents or wrong milking methods.

Udder injuries can be prevented by giving cows stalls wide enough and long enough to prevent pinching the udder when lying down or getting up. Also, good bedding and clean floors are very important. The germ form of mastitis is usually spread from one cow to another, in milking. Therefore, for control the first step is to have a veterinarian check over the herd, locate the cows which have mastitis and place them at the end of the milking line. Then, when cows are dry, proper treatment by the "udder infusion" method can save most of them from irreparable damage, if the infection has not progressed too far. But just one checkup is not enough. The cows should be re-checked at intervals to see that the disease has not crept in again. A control program will pay real dividends to the farmer, in longer usefulness from his cows and to larger milk production, year after year.

## IN MEMORY

The death angel visited the home of Mr. and Mrs. J. D. Sanders of Clanton Route 3, Wednesday p.m. and bore away the spirit of Miss Eula Sanders after a lengthy illness. Having died on her birthday, she was 37 years old. She had been afflicted for 24 years. She left to mourn her death a host of friends and relatives. A father and mother, three sisters and three brothers. The sisters are: Mrs. Reecie Smithman, Clanton Route 3, and Mrs. Albert Mims, Clanton Route 3, and Mrs. Walter Little, Billingsley, Ala.; the brothers are David Sanders, Clanton Route 3, Jack Sanders, Clanton Route 3, and Leon Seymour, Billingsley, Ala.

We wish to express our sincere thanks and appreciation to each and everyone that helped us out in any way during her illness and death.

May God's richest blessings abide with you is our prayer. We especially want to thank the people for the nice flowers. We realize our loss was Haven's gain. — Mr. and Mrs. J. D. Sanders and Family.

## CARD OF THANKS

Words cannot express our heart-felt thanks to our many friends, neighbors and relatives who were so faithful and kind during the sickness and death of our dear husband and father, Mr. Elijah Wyatt. Everyone was so nice and kind and it was greatly appreciated.

We thank everyone for the beautiful floral offerings. We also thank Dr. Franklin, Martin & Sons and the Revs. J. L. Bice and G. G. Williams. May the Lord bless you every one in our prayer.—Mrs. E. Wyatt and Children.

# XMAS PACKAGES MAILED WITHOUT REQUEST SLIPS

Christmas packages for Army personnel overseas may be mailed without request slips between October 15 and November 15, Major George F. Heinz, postal officer of the Seventh Army announced today.

That gives relatives and friends of the G.I.'s a month longer to mail packages to insure their arrival overseas by Christmas Day than was the case during the war, Major Heinz stated, due to the great reduction of soldiers in foreign fields since the shooting stopped.

Only one package may be mailed by any one person to any individual overseas in any one week during the mailing period specified. The weight limit per package is 70 pounds and may measure not to exceed 100 inches in length and girth combined.

For Army personnel sent overseas shortly before or subsequent to November 15, packages will be accepted up to December 10, but the sender must present a change of address card from the addressee, received subsequent to October 30 and these packages must be marked, "Christmas Parcel." Only one such parcel will be accepted from any one individual.

A change from the war years is noted in the fact that parcels may be insured or registered, but they must be securely packed or wrapped to be acceptable.

No liquor, matches, combustibles, ammunition, revolvers or other firearms may be mailed and no perishables.

## Chilton County News SCRAP BOOK

### WEEK'S BEST RECIPE

**Creamed Mushrooms and Eggs:** 1/4 lb. mushrooms, 6 T fat, 6 T flour, 1 1/2 t salt, 1/4 t paprika, 1/4 t onion juice, 3 cups milk, 8 hard-cooked eggs, 2 T chopped parsley, 2 T chopped pimiento. Wash, peel and slice mushrooms. Fry in a little fat until soft but do not brown. Heat fat, add flour, salt and paprika and mix until smooth. Add milk gradually and cook 8-10 min., stirring constantly. Add mushrooms, sliced eggs, onion juice, parsley and pimiento. Serve in patty shells or on toast.

### WHEN WASHING

Clothes are starched most easily while they are still damp, after they are washed and completely rinsed. . . Silks, wool and other delicate fabrics should be laundered only in lukewarm water. . . Soak clothes in cool or lukewarm water rather than in cold water, for cold water may cause fabric mesh to close and hold dirt. . . To keep tea towels white, save lemon peels and drop into the kettle in which towels are boiling. . . Put dampened clothes in basket with fabrics requiring low-temperature of heat in iron, on top. This is usually synthetics. Then iron as heat increases, the cottons and linens.

### FALL FASHION HINTS

Campus style calls for gray flannel pleated skirts with studded leather belts. Hand painted sweater blouses of wool or cotton jersey show the painted designs down the front or around the neck. Most coats are fur-trimmed, even the short toppers. Bright-colored raincoats are fitted in at the waistline to enhance the lady's figure. Long basques for evening or daytime wear may be fancy or plain, but worn by the taller woman. Pleats and shirring give soft lines in pleums and skirt drapes.

### INSPIRATIONAL

Think not so much of what thou hast not, as of what thou hast; but of the things which thou hast, select the best, and reflect how eagerly they would have been sought-if thou hadst them not.—Marcus Aurelius.

### REA CO-OP. TO HOLD ANNUAL MEETING

#### Hon. Lister Hill To Attend

Plans that will enable the Central Alabama Electric Co-operative to complete the job of rural electrification in the nine-county area it serves will be discussed and acted upon by the members of the co-op at their annual meeting September 21 at the Autauga County High School in Prattville, according to Maury McWilliams, co-op president. All members are urged to attend and friends and prospective members of the co-op will be welcome, Mr. McWilliams said. Approximately 2,000 visitors are expected to attend this event.

Mr. Maury McWilliams, president of the Central Alabama REA Co-op, announced Tuesday that Hon. Lister Hill, Senior U. S. Senator from Alabama, will attend the annual meeting of the directors and members of the REA Co-op to be held in Prattville Saturday, September 21st. This visit of Senator Hill to Autauga will give many citizens the opportunity of greeting their friend of long standing who has become one of the outstanding national and international figures. Senator Hill has been one of REA's most loyal supporters.

An all-day program has been arranged. It will start at 10:00 a.m. with the reports of directors on the past year's operations. Then expansion plans will be discussed and directors elected to serve until the next annual meeting. Attendance prizes will be awarded. Prizes will include an electric stove, refrigerator, washing machine, hot water heater, water pump and other electrical appliances.

The major business of the meeting will be discussion of future plans, Mr. McWilliams said.

"While we have made remarkable progress in past years, our job of making electricity available to those who want it in our area is far from finished," the co-op president asserted. "We cannot afford to stop now and leave hundreds of our neighbors who want electricity without this modern farm tool. It would be unfair to them and to our whole section of the state. We must complete the job."

"We are a growing and successful business enterprise, paying our debts even ahead of schedule. I can see no reason why we cannot complete the job if we continue to cooperate in the

### U. S. NAVY ANNOUNCES OPENINGS

The Navy Department recently announced openings existing for commissions in the Supply Corps and Nurse Corps. At the same time it was announced that ex-Waves of certain ratings can re-enlist.

Qualified civilians between the ages of 21 and 26 who are graduates of an accredited College or University will be appointed as Ensigns, in Supply Corps, U. S. Navy. Those men selected for commission will be given special training in Supply Corps School at Bayonne, N. J.

Registered Nurses between the ages of 22 and 30 who are graduates of a school of nursing and who meet all other qualifications, will be appointed a Nurse, in Nurse Corps, U. S. Navy, with rank of Ensign.

Former enlisted Waves who meet required qualifications may re-enlist in certain ratings, in pay grade held at time of discharge. The Waves re-enlisted will be called to active duty immediately to serve until July 1, 1947.

For full information concerning these opportunities, write the Office of Naval Officer Procurement, 721 Healy Building, Atlanta, Ga.

### old-fashioned American way.

According to Manager Chester Wingard, the Central Alabama Co-operative is now operating more than 800 miles of line and serving more than 3,000 consumers in Autauga, Bibb, Chilton, Coosa, Dallas, Elmore, Lowndes, Talladega and Tallapoosa counties. It plans ultimately to operate at least 1,500 miles of line and to serve more than 5,000 farms and other rural establishments.

The co-op is expanding its system as rapidly as scarce material can be obtained. At present a new section, consisting of 124 miles of line to serve 400 new members is under construction and is expected to be energized within a few weeks. Another section, to consist of 335 miles of line serving 964 consumers, is under contract. All line construction done by the co-op is financed by loans from the Rural Electrification Administration.

Present trustees of the co-op are: Mr. McWilliams, Prattville; C. C. King, Jones; S. D. DeLoach, Verbena; N. H. Harrell, Billingsley; Mrs. Gordon DeRamus, Booth; Clarence C. Hall, Titus; Seth Johnson, Jr., Wetumpka; J. Max Rogers, Goodwater; and W. E. Ward, Rockford.

### POTATO MARKETING OUTLINED BY GROUP

In an effort to help Alabama farmers get the most profit from their sweet potatoes, the State Sweet Potato Committee outlined ways to market the crop.

The newly-formed committee, composed of growers, shippers, dehydrators and agricultural workers, urged that when possible sweet potatoes be graded, packed and stored by growers to be sold later when the market will not be overloaded and prices will be higher.

Stored potatoes containing at least 50 per cent No. 1's are eligible for a Government loan of \$1.50 per 100 pounds beginning November 15, and by staying in the loan until January 1, the No. 1's will be worth \$1.80 a bushel. Farmers may take their crop from under the loan and sell on the open market at any time they choose.

After all storage facilities have been filled, properly graded and packed potatoes should be sold to regular dealers. W. B. Crawley, chairman of the committee and of the State PMA, said that sound, disease-free potatoes should find a ready market at good prices. "The trade has said it is interested in quality and farmers must make certain that their product is closely graded and packed well," he added.

Whether potatoes are stored or sold now, the culls taken out may be sold to one of the seven dehydrating plants in the state. These plants will buy field run potatoes, if the farmer chooses not to grade his crop.

As a last resort, that part of the crop growers are not able to store or to sell through regular channels might be disposed of at the Government support price of about 50 cents net per bushel to the farmer for No. 1's in carlots after all marketing charges are paid, the committee explained.

### LET PASTURE SHADE BE ON HIGHER AREA

In clearing new pasture, leave shade trees on the higher, thinner area to give this land the advantage of droppings for increasing their fertility, suggests J. C. Lowery, API extension agronomist. Shade trees for cattle should be thinned so sunshine will come in contact with soil to assist in control of parasites.

### SEPTEMBER IS TIME FOR SOWING GREENS

September is "greens month" for Alabama, and gardeners are busy getting these crops into the ground.

W. A. Ruffin, API extension gardener, advises that the seed-bed be prepared and fertilized 10 days before plantings are made. The fall equinox (September 23) usually brings rain, making this the ideal time to plant greens for fall and winter use.

Vegetables that can be planted include turnips, collards, endive, kale, lettuce, mustard, onions, parsley, radishes, rape, spinach, Swiss chard and beets. In the lower half of Alabama, broccoli and cabbage could be set out now, along with English peas of the round-seeded varieties.

"The turnip web worm may injure or kill beets, broccoli, cabbage, collards, mustard, Swiss chard and turnips that are planted at this time of the year. To prevent this, these vegetables should be dusted with rotenone (derris) or Cryolite as soon as they are up to a good stand, and about every 30 days thereafter until cool weather," says Ruffin.

A very light application of nitrate of soda, applied on top of the row as salad crops are up to a good stand, will help to get them off to a good start.

Kitchen fat salvage must continue to supply 10 per cent of the tallow and grease production, or there may be a still greater soap shortage, says USDA. Fat and meat scraps should be saved while preparing foods. Don't regard any grease as too rancid or smelly to save. Every ounce helps.

Eggs are rich in vitamins, proteins and minerals. Every egg added to the daily diet means increased food value and health protection.

### COUNTY FARMERS TO PLANT 1,300 POUNDS MANGANESE CLOVER SOON

Approximately 1,300 pounds of Manganese Bur Clover will be planted by Chilton County farmers within the next two or three weeks. Those receiving seed are: Aaron Dennis, L. L. Traywick, L. M. Yargan, J. R. Oglesby, Hoytt Thrash, R. O. Williams, W. B. Henley, W. A. Williams, Jack Fuqua, J. N. Dennis, Roy Roper, H. M. Nix, Monroe Foshee, C. R. Childress. These seed are to be planted on small areas used for seed patches. Each farmer plans to expand his acreage in 1948 from these patches.

September is the month to seed winter legumes and oats that will be used for winter grazing. Several farmers reported that they have secured the seed and expect to plant. Now is a very good time to plant. Later plantings will not give earlier grazing.

Soil surveys were made this week on the farms of Hoover Moatts, Joe E. Gowan, J. Sam Johnson, C. A. Gilmer, J. N. Smith, Tolbert Roseberry and J. O. Baker.

## PLANT GRASS FOR EROSION ON DAMS NOW

Alabama farmers can control erosion on their newly constructed ponds by planting Italian ryegrass now. In addition to the dam itself, all areas bordering on the pond where soil has been disturbed should be sowed in the grass. A. M. Peason, API extension fish specialist, says that such plantings will serve until a permanent sod of centipede, if available, or Bermuda grass can be established.

Seeding of Italian ryegrass should be made at the rate of 40 pounds to the acre and 1,000 pounds of 6-8-4 fertilizer per acre is advised.

Easterling. All singers and lovers of music have a cordial invitation to attend. The Deep South Quartet will be present and many other outstanding singers are expected.

## CHILTON COUNTY TO RECEIVE \$31,169 INCREASE IN SCHOOL FUNDS

Montgomery, Ala. — Chilton County will receive an estimated increase of \$31,169 in State school funds for the 1946-47 year, beginning October 1, as result of recent action by the State Board of Education in "unfreezing" the teacher unit basis of distributing school funds.

A teacher unit is the number of pupils in average daily attendance who make up a classroom, the number carrying according to density of population. In 1942-43, the teacher unit basis was "frozen," because Congress had appropriated money for schools in defense areas, where all the recent increase in school attendance had taken place. Decision to unfreeze came because Federal funds for schools in defense areas have dropped off to less than half what they were, and also because attendance in some non-defense areas has increased.

The unfreezing action will increase the amount of State school money going to 62 counties, while five counties — Blount, Clay, Cleburne, Lamar and Randolph — will get less than they received for the 1945-46 year. Figures on increases, or decreases for counties include cities within the respective counties.

## THE PROPOSED DEVELOPMENT OF THE ALABAMA-COOSA RIVERS

To Whom It May Concern:

In order to afford interested parties an opportunity to express their views on the proposed development of the Alabama-Coosa Rivers, Alabama, authorized by Section 2 of the River and Harbor Act, approved 2 March, 1945, the District Engineer will hold public hearings as follows: City Auditorium (City Hall), Montgomery, Ala., Wednesday, 9 October 1946, at 2:30 p.m., Central Standard Time, and at the County Courthouse, (courtroom), Selma, Ala., Thursday 10, October 1946, at 10:30 a.m., Central Standard Time.

The River and Harbor Act of 2 March 1945, authorizes the initial and ultimate development of the Alabama-Coosa Rivers and tributaries for navigation, flood control, power development, and other purposes as outlined in House Document 414, Seventy-Seventh Congress, and in accordance with plans being prepared by the Chief of Engineers. For the accomplishment of the ultimate plan appropriations are authorized in such amounts as Congress may from time to time determine to be advisable, the total of such appropriations not to exceed the sum of \$60,000,000.

## Samson E. Davis

## HIGGINS FERRY ROAD TO BE PAVED SOON

### Bids Being Received For Preliminary Surfacing

The State Highway Department is this week advertising for bids on preparing the Higgins Ferry Road for paving.

This preparation includes grading, draining, removing and constructing bridges, setting back fences and removing structures as well as road straightening.

According to the advertisement, this work must be completed in one hundred twenty (120) working days. These bids being received now, it must be understood, is only for preparation. Bids for the paving project have not been let as yet.

## HORTON WALKER NAMED ON NATIONAL COMMITTEE

Horton Walker, Post Commander of the local Post Veterans of Foreign Wars, has been named a member of the V.F.W. National Home Committee representing the Department of Alabama. He had been recommended for the appointment by Henry C. Wood, Birmingham Department Commander. The Veterans of Foreign Wars maintains a National Home for the orphans and dependents of Veterans in Eaton Rapids, Mich.

Walker, who recently attended the annual V.F.W. National Encampment in Boston, Mass., is also District Commander of the Sixth District, composed of five counties.

## Clanton To Play Centreville There Friday

The Chilton County High School "Tigers" will journey to Centreville Friday night for their first off game of the season to play Centreville's "Choctaws" who has been setting quite a record this season.

Coach Waters has been grilling the local squad hard and long this week after noting a few weaknesses last Friday night when Hurt defeated Clanton 19 to 6 before a record crowd at the ball park.

Clanton's team made a strong showing against a favored Hurt team of Montgomery. Hurt profited after a fumble and an intercepted pass. Cox and Mims showed great form in Clanton's backfield.

A large following from Clanton is expected to be in Centreville Friday night to back the "Tigers."

## FAT AND LEAN WOMEN'S SOFTBALL GAME POSTPONED

## Deaf Mute Umpire Draws Praises of Clanton Fandom

(By TOM HALL)  
Staff Writer, Birmingham News

Believe it or not, Clanton baseball fans and the Clanton Baseball Club is well pleased with the umpire-in-chief for local games this season. Strange as it may seem, the umpire is a deaf mute, "Pud" Walker. The ball players say Walker knows baseball, has a keen eye, and the fans in Clanton say Walker has served so well that some are going to try to recruit him for the professional field.

Baseball in Clanton this summer has drawn large crowds all season, and especially on Wednesday afternoons, when semi-pro clubs from Birmingham have been in action. All the players in and around this section of Alabama know and respect Walker. He hustles all the way through, and throughout the game he is "barking" a sound to the players to hurry and make the game a fast one.

Walker always serves as umpire-in-chief, calling the plays from behind the plate. His signs for balls, strikes, safe and out are the same used by all umpires.

Sometimes when the players think they have a kick coming over his decision, they will gather around Walker, making signs. Walker watches the expression of those who are in front of him. He will reply with a wave of his hand, indicating that this was the way he saw the play. He will then walk away from the group and motion he is ready to play ball. Just

Hon. Judge Glover announces that the Civil Jury Circuit Court, which was to be held October 7th, has been changed to November 4.

## Drivers Warned About City's Traffic Laws

Chief of Police Henry Anderson calls attention to certain city laws regarding parking and driving in the city. Trucks parked in the city must not extend nearer the center of the street than nine feet, and unless clearly visible at night must have a light at the extreme rear.

Mr. Anderson also calls attention to flagrant disregard to the traffic lights especially on the highway through the city. The officers are going to tighten down on drivers who run red lights, so the public might as well take warning. Some bad wrecks have happened recently as a result of ignoring traffic signals. This must stop, says Chief Anderson.

## Folsom Denounces Boswell Amendment

James E. Folsom, Alabama's governor-designate, said recently in Birmingham that he is definitely opposed to the Boswell amendment, although he has not yet made up his mind whether he will take an active part in the fight waging over the proposed constitutional change.

It is possible, Mr. Folsom said, that he may "make a few speeches" in opposition to the amendment when he returns from a trip to California in about two weeks.

Mr. Folsom, who was in Birmingham recently visiting friends, said that anyone who followed his campaign last Spring should have no doubt as to where he stands on the Boswell amendment, on which Alabama people will vote November 5th.

"I made it clear then," he declared, "that I was against it, and it is a matter of public record that I said so in my campaign speeches. I took my stand when it counted, when I was trying to get votes. I was not afraid of it then, and I am not afraid of it now."

Mr. Folsom said that if he opposed the poll tax, he is certainly opposed to the Boswell amendment, which would require a person to be able to read and understand any part of the constitution before being eligible to vote. Calling the Boswell plan "undemocratic," the governor nominee said he is "opposed to anything of that kind."

## JURY CONVICTS MCKEE OF 2ND DEGREE MURDER

### Thorsby Lumberman Draws Twenty Year Sentence

The Jury in Circuit Court last week found Dewey Arscale McKee guilty of second-degree murder in connection with the death of his wife, Irene, on Wednesday, June 19th, at their home in Thorsby.

McKee was sentenced to the penitentiary for a period of twenty (20) years.

The death of Mrs. McKee occurred on Wednesday night, June 19th, about 8 o'clock. The body was prepared for burial by Spigener Funeral Home of Clanton. Funeral services were held at Providence Church in Beat 16. Afterwards, it was brought out in court, neighbors of the McKees, reported to have heard her screaming on that night. Suspicion was aroused until the Thorsby Policeman was notified, who in turn, notified the Sheriff. McKee was placed in jail, charged with first-degree murder.

County Solicitor A. B. Foshee ordered the body disinterred from the grave. State toxicologists went to the graveside, removed the body and performed an autopsy and took pictures. The Toxicologists' reports stated that Mrs. McKee died of an injured spleen. Pictures submitted at the trial revealed several body bruises.

## NOTICE TO VETERANS OF WORLD WAR II IN THE JEMISON AREA

The Chilton County Post 3193 Veterans of Foreign Wars will help veterans of World War II with their terminal leave claims next Saturday in Jemison. This Service is given by the V.F.W. and the Auxiliary of Post 3193. For the many in and around Jemison that have not been able to file claim for this leave or who cannot reach the Service Commissioner during office hours, are requested to bring the original discharge, photostatic copy of the discharge of a certified copy to the Office of Dr. Joe Moore Saturday, September 28th, in Jemison, Ala. Clerical help and a Notary will be there and give this aid to all veterans who have not filed this claim.

There will be no charges for this service. This service will be given from 10:00 a.m. to 3:00 p.m.

## EMMETT WILSON IN SELMA HOSPITAL

Friends of Mr. Emmett Wilson will be sorry to learn that he is in a Selma hospital suffering from a heart attack at his home last week. Mr. Wilson was rushed from Clanton to Selma where his condition at this writing is reported to be somewhat better.

## NO WHOOPING COUGH IN CHILTON COUNTY

The 80 whooping cough cases reported from the entire State in July included none from Chilton County, the State Department of Health revealed today.

The State total for July failed by 53 cases to equal that for the previous month and fell short of the July, 1945, total by 18.

Mr. and Mrs. Cecil Wilson and son, Larry, of Selma, were in Clanton last Friday and Saturday due to the illness of Cecil's father, Emmett Wilson.

## HIGH BIRTH RATE

There is a bumper crop in babies, about 500,000 'extra' babies being born each year in comparison with the pre-war birth records. It makes us think how different will be the raising of these children than when grandmother reared her young. The way is made easier with all kinds of modern gadgets, city diaper service, prepared baby foods, popular rompers instead of fussy clothing, washable wallpapers and furniture finish that can "take it." Young feet still scuffle and infant hands scratch, but mother's work is generally lightened, though our children are given full reign in the home. Where they used to be seen and not heard, today they exercise both with a will. Whether, with all our new ways, we are going to raise finer children in this generation than grandmother did in hers, most of us in Clanton seriously doubt.

## BUILDING NEEDS

Country towns have lacked material to repair homes and improve farm buildings. During the depression, lack of funds held the farmer back and during war the necessary projects were given preference. Today the farmer still waits to build that new home or modernize and repair the present dwelling. We haven't an acute housing shortage in Chilton County as the cities but many of our people are in the market for building supplies. In the past four years only about four per cent of the farmer's net income has gone into new buildings and maintenance. There are few around here who would deprive any veteran and his family of the right to a home, but to keep farm buildings in condition and homes in repair, the country dweller deserves a hearing.

## THE QUESTION IS

It is not uncommon to hear a Clanton man remark that this country is a sap to send food to hostile nations such as Yugoslavia, where they shot down American fliers. It is a serious subject, since food is powerful when there is lack of it. To withhold it from a hungry nation because of an unfriendly leader as Tito and his cohorts, is to play into the hands of Russia, who exerts great influence in that Balkan country. They would say we are more interested in feeding a country whose politics met with our approval than we are in feeding the hungry. No doubt but that the halting of UNRRA relief would carry us into a political situation. Politics plays hand in glove with relief, unfortunately.

It is satisfying to know that the Yugoslavians as a whole, do not prefer the Tito administration nor the Russian influence. Also, they realize that America is helping them with food and they appreciate our help. To discontinue it would be to lose this stand. Should we use a policy of creed, color, politics in our ministering? Perhaps our rations may serve to draw to the side of democracy many of the Yugoslavs who have wondered what Americans mean by the word. Can we say, 'If you don't, we won't', as to a child?

## MONEY GOES

Six out of every seven counties in the U. S. are mainly rural. There are more people living in town of under 2,500 than in all the big cities. The farm income has increased from 11 billion in 1940 to today's 28 billion. The average farm family has an income of \$4,500 a year with \$2,500 in savings. With these facts in mind, industry may look forward to further expansion. Advertising is made interesting to the small town resident. The farm family has many places to put their increased income, the high cost of present living digs into the countryman's pocket. He faces inflation with the same reluctance and pays the increase in many of his commodities. He may not pay 80c for a pound of butter or stand in line for meat, rural rents aren't as high, clothes don't cost him as much in the small town. However, the price of farm machinery, the cost of feed are two items that make his bills mount. Higher labor costs affect the price of produce. Upkeep, cash, inflation concerns Chilton County as much as it does Spokane, Milwaukee, Pittsburgh and Schenectady.

The most timid soul in Chilton County will put up a fair-fry good fight at a shirt counter.

Back again in school when the most industrious don't mind the professor being ill and class is called off.

Why would anyone in Los Angeles expect to get away with stealing 27,800 pounds of garlic? You could follow the scent to New York and beyond.

Just because a fellow has a black eye it doesn't mean he has returned home from a peace conference.

According to a Clanton reader, law and order is admirable, but much of it depends upon whose law and whose order.

## FOLKS & THINGS

### ABOUT TOWN

-By BEN

Next week, October 1-8, is National Newspaper Week. We are devoting most of our column to ourselves this week and here is the first 'pat-on-the-back,' written by Louis Taylor Merrill which is a newspaper classic:

#### FILES ON PARADE

In the boundless vast  
Of things that were,  
Out of the past

The echoes stir  
And live once more  
Where the presses roar.

Who says that a paper can't feel and think?

Yellowed pages, ancient ink  
Volumes dusty and touched with mold  
Yet how much of the life of the town they hold.

Starred faiths of the men who dreamed,  
And hoped, and strove, and surmounted  
And all set forth in the musty files—  
Accounts of times when the "eagle screamed,"

Accounts of days when the town's heart bled  
Solemnly mourning heroic dead,  
Stories of triumph and stories of pain,  
Days of sunshine and of rain,

Witty lines and commonplaces,  
Old friends' half forgotten faces,  
Birth for youth, and death for age—  
Tidings that make folk weep or laugh

Borne in column or paragraph  
Marching across the weekly page.

Who says that a paper can't feel and think?

Yellowed sheets and ancient ink  
Volumes dusty and touched with mold  
Yet how much of the life of the town they hold!

#### The Printing Press

I am the printing press, born of the mother earth. My heart is of steel, my limbs are of iron, and my fingers are of brass.

I sing the songs of the world, the oratorios of history, the symphonies of all time.

I am the voice of today, the herald of tomorrow. I weave into the warp of the past the wool of the future. I tell the stories of peace and war alike.

I make the human heart beat with passion or tenderness. I stir the pulse of nations, and make brave men do better deeds, and soldiers die. . . .

I am the laughter and tears of the world, and I shall never die until all things return to the immutable dust.

I am the printing press.

—Robert Hobart Davis (1869-1942)

The old timers always told us that nothing succeeds like success, and that is just what these music lovers of Clanton and Chilton County are going to do about this Community Concert movement that they have undertaken. It is a good thing for the children of our community as well as our grown folks and deserves your support.

When Smith walked into his friend's office he found him sitting at his desk, looking very depressed. "Hello, old man," said Smith, "What's up?" "Oh, just my wife," replied the other sadly. "She's engaged a new secretary for me." "Well, there's nothing wrong about that. Is she a blond or a brunette?" "He's bald-headed."

The other night at the football game we remarked to the wife that Blackie Cox had developed much better form in broken field running since last season. She remarked, "Goodness, I hope he gets to use it before they find it out."

"Why can't this country grow up?" asks Jimmie Bell, "And hear a quarrel in another country without wanting to get into it?"

Boiling water is one of the simplest and most effective remedies for removing fruit, coffee or tea stains. Hold the kettle high above the fabric and the added force given to the boiling water by pouring from a height of two or three feet drives out stains more effectively. A good point to remember is that fruit stains should be treated immediately. They are very difficult to remove after they have dried.

## MORAL ECHOES

Rev. D. W. Haskew, D.D.

In a certain Alabama community two young men were raised under the same kind of influences. Their home training and their church advantages were alike and equal. One of these young men went the way of a desperado, the other went the way of truth and honor. After thirty years had been added to their lives, they were as wide apart in their ideals and living as the poles. When and where did this difference have its beginning? It was in the days when choices were made. The Al Capone type made choice of the Al Capone way of living, while the other young man clung to the church and her ideals, and made choice of the best way of living. The choices made in young life, will tell on you, for better, for worse, according to the standards involved. Beware of bad choices in the days of young manhood.

I was in camp with a Scout group, and at the noon hour I was resting in my tent, when two boys, not knowing that I was on the inside, strolled close to me on the outside and talked over a plan that was in the mind of one of them. Close by was a watermelon patch and one of the boys was of the opinion that it was a good time to slip some melons into their tent. The conversation interested me. The younger boy of the two, protested vigorously to stealing the melons. The other lad wanted to know of him why he would not go with him. I shall never forget what the younger boy had to say in reply, "I do not choose to be a party in stealing anything," was his manly reply. There comes to every young man, young woman, an hour you must make a choice between right and wrong. It is a choice that creates the fork in the road of life, one way going up, the other way going down.

A handsome, clean young man arrived on the campus of the old Southern University at Greensboro, Ala., where I was in college. I noticed that this boy was rather aloof to the other students for several days. He stayed alone and I became sorry for him. One day I volunteered to ask, "Why are you alone most of the time?" Listen to his reply, "Haskew, I am studying the student body, trying to locate the boys with whom I can have fellowship and be safe in my ideals and way of life." That was a wise young man. It pays to study the ways of others before you make choice of comradeship.

## NATIONAL BUSINESS WOMEN'S WEEK

Gov. Sparks in proclamation recently issued designated the week of October 13-19 as National Business Women's Week in Alabama. The proclamation pointed out that the National Federation of Business and Professional Women's Clubs, with its membership of well over 100,000, has planned a peace-time program with the slogan, "Let's work together for better communities." The Governor asked all citizens, civic organizations and other groups to join with the Business and Professional Women in making this program a success.

## NATIONAL NEWSPAPER WEEK

Montgomery, Ala. — In proclamation issued today designating the week of October 1-8 as National Newspaper Week in Alabama, Gov. Sparks called on the public to appreciate and applaud services rendered by newspapers, which he declared are too often taken for granted and unrecognized. Gov. Sparks declared that the right to discuss and criticize is one of the measures of the freedom of a people, and contrasted the free press of this country with the suppression or perversion of the press by dictators.

Following is text of the Governor's proclamation:

"WHEREAS, the week of October 1-8 has been set aside throughout the nation as National Newspaper Week; and

"WHEREAS, the scope of a people's freedom may be truly measured by their right to discuss and criticize, and to formulate intelligent views based upon facts presented without restraint; and

"WHEREAS, our newspapers, although sharing in the imperfection attached in the nature of things to all human agencies, are absolutely indispensable to the preservation of liberty and democracy; and

"WHEREAS, the services rendered by newspapers are too often taken for granted, their errors censured while their vital accomplishments go unrewarded and ununsung:

"NOW, THEREFORE, I, Chauncey Sparks, Governor of the State of Alabama, do hereby proclaim the week of October 1-8 as NATIONAL NEWSPAPER WEEK in Alabama. I call upon the people of our State to realize that a good newspaper is one of the chief assets of any community, and that even a mediocre one is infinitely better than no newspaper at all. I urge our citizens to ponder upon and grasp the significance of the slogan of National Newspaper Week: 'A Free Press-Voice of Freedom, Guardian of Liberty.' I ask that they help our editors and publishers to more fully realize the additional theme of this week we observe: 'The Newspaper as a Public Servant' by appreciating and applauding the public services freely rendered by the newspapers of Alabama, often in the past too little recognized and acknowledged."

## ALABAMA LEGISLATIVE COUNCIL HELD MEETING

The Alabama Legislative Council held a recent meeting deferred action of a proposed bill to change State printing regulations. Representatives of several printers appeared in opposition to the measure, which contains a provision setting up a bureau with a supervisor of State printing. The council voted to hold further hearing before making any recommendation to the next legislature.

Secretary Alex Powe was directed by the council to draw up a bill revising the State purchasing system for consideration by the next legislature.

## Adequate Service Depends on Adequate Earnings

Your Telephone Company is doing the largest volume of business in its history, yet telephone earnings continue to go down rapidly. The reason is perfectly clear. While your telephone rate has remained the same for many years, the costs of furnishing you service have increased. Wages, building costs, telephone materials, services, all have been going up so fast that—

The amount of money Paid Out to provide service is increasing faster than the amount Taken In. Actually telephone earnings today are the lowest in our history!

It is basic with any business that good service depends on reasonable earnings. To render good telephone service and to continually improve and expand it, reasonable telephone earnings are essential.

1 The amount of money Paid Out to provide telephone service is increasing faster than the amount Taken In.

2 Telephone earnings are the lowest in history.

3 Reasonable telephone earnings are essential to good telephone service.

Our public duty demands that we give you these facts.

We welcome our new Southern Railway Agent, Mr. Fluker, to our town.

Mrs. I. A. Dennis entertained her daughter, Laura Ann, with a birthday party Saturday afternoon. Refreshments were served to fifteen guests. Everyone reported a nice time. We wish little Laura Ann many, many more happy birthdays.

Mrs. J. C. Davis visited her husband, who is in the Veterans Hospital in Montgomery, Monday. Everyone is glad to know Mr. Davis is improving.

Mr. and Mrs. H. G. Dennis from Clanton and Mr. and Mrs. J. B. Burnett from Stanton were the guests of Mr. and Mrs. I. A. Dennis Sunday.

Mrs. J. C. Hayes made a business trip to Clanton Monday.

The P-T-A. held its first meeting for the new year last Thursday afternoon. Mr. John Maples spoke for us on our theme for this month: "Guiding Our Youth Through Co-operation." Plans were made to buy some new desks, tables and chairs for the school and to have all the classrooms lighted.

After the business session refreshments were served in the luncheon by Mrs. Hyman Atchison and Mrs. E. H. Fuqua, hostesses.

Mr. and Mrs. Jesse James Hayes, Jr., and little daughter of Birmingham spent the week end with their parents.

## INCOME IS RAISED BY WINTER LEGUMES

Alabama farmers will be about \$25,000,000 richer this year because of winter legumes they turned under last spring.

J. C. Lowery, API extension agronomist, said that based on past experience winter legumes should increase the value of 1946 crop yields by this figure. The second year's effect of the legumes will more than pay for the cost of planting, he believes.

Farmers have learned by experience and by studying Experiment Station results the value of winter legumes in improving their soils. Best proof of this is in the fact that over 25 million pounds of vetch, Austrian peas, Calpey peas, blue lupine and crimson clover seed were planted last fall.

Winter legumes were followed mainly by cotton, corn and grain sorghum. Because commercial nitrogen was so scarce this year, legumes were more valuable than ever in raising yields of the crops following them.

Winter legumes have not only improved the soil, but during the past few years seed saved from them have given farmers another cash crop. Though many of the seed are planted by farmers who grow them, some of the 12 million pounds of vetch, lupine, Calpey pea and crimson clover seed produced were sold to neighbors and seed dealers.

Records on hundreds of farm demonstrations show that since 1935 the farmers making full use of winter legumes for soil improvement are making highest yields of corn and cotton. They are also the ones who are doing the best job in balancing farm programs with livestock, as well as making the greatest increases in income, Lowery explained.

## AUBURN OPENS AGAINST MISSISSIPPI SOUTHERN

Football of pre-war caliber returns to the Plains of Auburn when Coach Carl Voyles 1946 Ticks open their season, against Mississippi Southern at Crampton Bowl in Montgomery next Friday night at 8 o'clock. The important clash with the Mississippians, who are loaded with ex-Navy players, will be the Tigers 18th successive opening battle in the Capital City.

The season will soon be right for killing peach tree borers, and the job can be done quickly and at little cost.

Borers can be dug out of peach trees one and two years old more easily than they can be killed by some chemicals, believes W. A. Ruffin, API extension entomologist. Borers usually are found on the tree trunk at ground level, or an inch or two lower. Gummy spots tell that borers are just underneath the bark of the tree. These can be quickly dug out with a knife.

On trees three years old, or older, Ruffin recommends parathionbenzene—known better by the trade names of PDB, Paracide, and others. From 1/2 to 3/4 ounce of these crystals should be used on each tree three to five years old. One ounce is needed for a tree over five years old. Treating dates are October 1 to 10 in north Alabama, October 5 to 15 in Central Alabama, and October 10 to 20 in south Alabama.

Before treating, Ruffin says to rake all trash from around the base of the tree. Put down the right amount of parathionbenzene in an even circle about 1 1/2 inches from the trunk, making sure the material does not touch the tree. Throw a few shovelfuls of dirt over the material to form a mound; then pack. Tear down these mounds at the end of four or six weeks.

## SOIL CONSERVATION NEWS

Cooperators that planned to use small grain followed by annual lespedeza as a soil conserving and soil improving practice should have their small grain planted by the middle of next month. It is very important that small grain be planted at this time. Some cooperators have planned to strip crop using oats followed by Kobe lespedeza in one strip and row crops in another strip. The strips will be either one or two terraces wide with row-crops and sod-crops alternating.

Willard Hicks, a cooperator from Maplesville, has purchased 400 pounds of Calpey peas. He intends to get Calpey peas established on some of his land to be used for winter grazing. If allowed to reseed, Calpey peas will come back on the land each winter and no further seeding is necessary.

Dr. Nix, another cooperator from Maplesville, is very well satisfied with Calpey peas interplanted with kudzu. The kudzu grows in the summer and furnishes hay or temporary grazing. The Calpey peas grow in the winter and furnish winter grazing.

Applications for North Central Soil Conservation District Farm Plans were made last week by: Dr. Hayes, William Atkinson, Somer Lenoir, J. C. Shires, J. Reed Thompson, W. R. Hayes, Grady Heflin and Audie L. Brown.

Soil Conservation Service personnel from the North Central Soil Conservation District met in Birmingham last Friday and discussed: Safety and Prevention of Accidents; Points to Stress When Making A Farm Plan; Follow-up Work on Farm Plans; Agronomy; and Importance of Mineral Fertilizers in a Conservation Program.

The Production and Marketing Administration will pay part of the cost of carrying out soil improving practices such as planting winter legumes, using lime, phosphate, slag, muriate of potash, and 0-14-10, and constructing terraces. Alabama farmers are using these payments in building a sound farming program.

## ALABAMA LEGION TO LEAD NATIONAL PARADE

Alabama's American Legion delegation—250 strong—headed westward today by special train to claim the highest honor at the San Francisco national convention of the American Legion—the right to lead the national parade down historic Market Street before 3,000,000 spectators.

Aboard the special Pullman as it speeded across the Midwest was Big Jim Folsom, Alabama's incoming governor, who will lead the parade by official vote of the Legion's state convention at Birmingham in July.

The six-foot, eight-inch, Cullmanite will step out in front together with State Commander Otto Cooper of Red Level, Past Commander Albert Stapp of Birmingham, and other past state commanders.

Color and music will come from Birmingham's crack Drum and Bugle Corps, a flag pageant section depicting seven flags which have flown over Alabama, and five picturesque floats showing Alabama's natural resources.

Marchers in the Alabama section of the parade will give 50,000 copies away of a 3-page colored booklet of pictures and stories on Alabama's scenic beauties, industries, agricultural advantages, wildlife, homes, colleges and churches, as well as pictures of outstanding citizens who are known nationally for

## Farmers Know What a Profit Is For

As his own boss, the farmer has long since found out that a profit is not just an extra sum, above the bare cost of doing business, which can be used as you please. It is the main source of funds necessary to pay for a new silo, buy better machinery, and improve the house and the barn.

In spite of the great rise in income, farm profits are no more than necessary to keep the farm plant producing efficiently. It's the same with the iron and steel industry which makes the materials for the farmer's tools.

In 1945 steel companies had left, after meeting all expenses but before paying dividends, only a little more than one-tenth of one cent on each pound of steel sold. The profit on each dollar invested was less than five cents. Year by year since 1941, when the war started, earnings have been declining.

Although last year's output of steel was 19 per cent greater than in 1940, the last prewar year, pay rolls were nearly double but dividends were lower:

There are many misunderstandings and misrepresentations about profits. Some people forget that reasonable profits are a necessary incentive of the American system, which results in abundant low-cost farm products and abundant low-cost steel products.

It is up to those who know what profits are for, and what they can do, to see that they are not destroyed—and with them our high standard of living:

Steel mills need all the scrap iron and steel they can get. The shortage is serious. Farmers can get extra dollars and help increase steel output by sending worn-out machinery, etc., on its way to the furnaces. AMERICAN IRON AND STEEL INSTITUTE, 350 Fifth Avenue, New York 1, N. Y.

## Wedding Announcement

Mr. and Mrs. Samuel B. Settle of Parkersburg, W. Va., announce the engagement of their daughter, June, to Jesse A. Culp of Clanton.

Miss Settle graduated from Parkersburg High School with the Spring Class of 1944, and is now a senior at Berea College, Berea, Ky.

Mr. Culp was recently discharged from the U. S. Navy and is now attending the Alabama Polytechnic Institute at Auburn, Ala.

The wedding will be an event of early June, 1947, and will take place in the Danforth Chapel at Berea College.

Misses Essie White and Sybil Littlejohn were in Montgomery last Friday.

Misses Ila Mae Gore and Virginia Murphree; Messrs. Ousley Nelson and Jimmie Thomas visited Jemison High School last Wednesday afternoon.

Mrs. J. C. Glenn of Orlando, Fla., was the guest of her brother, Mr. R. C. Barrett, last Thursday.

Mr. and Mrs. Lewis Cleckler (nee Annie Pearl Easterling) announce the arrival of a 7½-pound boy, whom they

have named Acie Harold. The new arrival made his appearance last Saturday night, September 20, at the Central Alabama Hospital. Both mother and son are doing nicely.

## Had Birthday Party

A birthday party was given Monday afternoon, September 23, at the home of Mrs. B. E. Miller in honor of her daughter, Annetta Littlejohn, on her ninth birthday. Games and contests were enjoyed, after which cake and cold drinks were served. Ten guests were present and presented the honoree with many beautiful and useful gifts. Several gifts were sent by those who could not be present. Those who enjoyed the occasion were: Peggy Powell, Myra McKee, Annie Sue McKee, Martha Bell, Jack Hunter, Sonny Windham, Ann Hocutt, Beverly Deloach, Myrna Faye Crew and Gerald Williams.

Mrs. L. A. Lambert leaves today for San Francisco, Calif. She is traveling with Alabama's American Legion delegation and will attend the National Parade.

Mrs. Robert Martin and daughter returned to their home in Haleyville Tuesday after a week's visit here with Miss Ada Bennett.

Mr. Jim Parrish has returned from a two-weeks visit with his son in Virginia.

Mr. C. O. Bennett of Tuskegee visited his mother, Mrs. C. Z. Bennett, Sunday.

How to get the bagginess out of trouser knees is really a "pressing" problem for housewives. Clothing specialists of USDA suggest the following procedure for successfully home-pressing trousers:

Lay the trouser leg flat on the ironing board with the baggy part up. Lay a wool cloth over this section and a moistened cotton cloth on top. Press gently, moving the iron from side to side so that the steam goes into the garment. Keep pressing and patting the loose fabric into place until the fullness disappears. Then press the entire leg of the trousers until almost dry. Leave the leg in position on the board until it is completely dry. It should not be pressed until entirely dry, because this makes the fabric stiff and harsh.

Mr. Bonnie Wilson of Clanton was in Selma last Sunday.

Mrs. N. S. Johnson, Mrs. T. C. McSwain and Mrs. Bill Inzer made a trip to Birmingham last Friday.

Mr. and Mrs. Arnold Stewart and son of Anniston visited Mrs. Stewart's parents, Mr. and Mrs. A. C. Bussie, last week end.

Mr. and Mrs. George Tucker and little daughter, Mary Kate, visited in Tuscaloosa, Birmingham and Selma this week.

Mrs. Mark L. Tucker is spending this week in Birmingham with her daughter, Mrs. T. L. Meadors, and family.

Returning to the University of Alabama this week were Dan Alred, Billy Maddox, Bill Eiland, Wallace "Shorty" Headley, Jack King and Marvin Bates. All are ex-servicemen.

## MACEDONIA

There was not so many at Sunday School Sunday and there was no B. Y.P.U. Sunday night on account of rain.

The President of the B.Y.P.U., Mr. Pratt Crumpton, insists that all the members who possibly can to be present next Sunday night, since this is the time to elect new group leaders.

Mr. Raymond Waldrop, husband of Mrs. Arlos Hodges Waldrop, has returned home, being discharged from the Army. We were all glad to see Raymond back at church Sunday.

Mr. and Mrs. Woodie Rasberry's visitors Sunday were Mr. Newt Childress, Miss Alice Childress, Mr. and Mrs. Fleetwood Rasberry, Miss Lucille and Coy Rasberry, Mr. and Mrs. Roy Rasberry and son, Larey Jo, and Mr. Billie Hayes.

Mr. and Mrs. Orville Smith and daughter, Janice, spent Saturday night with Mr. and Mrs. J. D. Hayes and were visitors at church Sunday.

Mr. L. D. Atchison of Opelika and his dad from Plantersville were visitors among the fox hunters here Saturday night.

Mr. Leighton Gibson from Ensley spent the week end with his parents, Mr. and Mrs. H. W. Gibson.

Miss Lorene Oates of Birmingham spent the week end at home with parents, Mr. and Mrs. Marvin Oates.

Mr. J. A. Ward has returned home from Birmingham. He says that Mrs. Ward's condition is about the same.

Mr. and Mrs. J. C. Veazey spent from Friday until Sunday with their son, Wallace, and family of Childersburg.

There are plenty of blue lupine seed and south Alabama farmers are planning to plant a large acreage to this excellent soil improving legume, according to county agents in that section.

How do you do, everybody! Let us come in and have a little chat with you, if it is another rainy day with a cool breeze every now and then.

It seems everybody has been busy all week when it was not raining, and trying to go to church on Sunday, if we didn't have a pretty day to attend church. We had a good Sunday School lesson in which we should practice what it teaches—Be Kind. Just think what a great world this would be if all people and nations were kind to each other.

But it seems like nearly everybody is in too much of a hurry to even stop and say a kind word to some one. Moses emphasized the meaning of being kind in his address in (Deut. 24:14-15; 17:22) "Be Kind to Everybody"—Alien, widows, orphans, wage earners, hungry, homeless, destitute, sick, prisoners and to the Lord.

Everybody remember that on the fifth Sunday and Sunday night, September 29th, Bro. Crumpton will preach, and it is also the time to elect a pastor for the coming year at one of the services. So everybody come and let's make this a record-breaking attendance.

**DREAM OF DECADES PROVES PRACTICAL WORTH:** Travelers along U.S. Highway 80 traversing central Alabama frequently stop this September to get a view of something the South has talked of for decades, a mechanical cotton picker in action. Covering an acre an hour regardless of yield, the picker, shown above, picks cotton about as clean, and leaves about as much in the field, as when picked by human hands. It is good enough to have induced Price McLemore, practical and highly successful Montgomery County cotton raiser, to pay better than \$5,000 for it, and he seemed well pleased with results. Production prospects for Alabama's 1946 cotton crop decreased 50,000 bales during August, according to reports released by the Cooperative Crop Reporting service. The estimate of 850,000 bales based on conditions as of September 1 is 9 percent below the 1945 production, despite a 7 percent increase in 1946 acreage. Average yield per acre was indicated to be 22 pounds, 47 pounds under last year, but 24 pounds above the average for the ten-year period, 1935-44. "The 1946 season has generally been unfavorable for cotton," the report stated. "Heavy rainfall during July and early August resulted in severe weevil damage, particularly in central and southern counties, and interfered with fruiting in all areas. In the heavy producing northern counties, the crop is later than normal and most counties report expected yields below last year."

### WEEK'S BEST RECIPE

**Fig Roll:** Two 3-oz. packages cream cheese, 1/2 c top milk, 3 T brown sugar, 1 c chopped figs, 1/2 c chopped walnuts or pecans, 1 c crushed ready-to-eat corn or wheat flakes, 1 teaspoon vanilla. Soften cheese and blend with milk, add sugar and mix well. Form into a roll about 6 inches long and roll in extra crushed cereal. Wrap roll in waxed paper and chill several hours. Slice in one-inch pieces.

### HOME SEWING

A revival in home sewing calls for a chance for women who want their clothes unusual and different, to exercise their talents, and at a great saving. Using a good basic pattern that fits the form, the seamstress may give the garment an expression of individuality and personality through her cleverness. It will be at a fraction of what such a dress would cost in the store. Buy a good fabric for home sewing, know its cleansing possibilities as to washable or to be dry cleaned, consider the width and seam testing of cloth. For the amount of time and

effort expended, the dressmaker should carefully consider pattern, design, fabric.

### ABOUT DRAPERIES

Some specially-treated drapes may be washed by sponging generously with warm water and soap suds. Rinse in warm water and dry in the sun. Clean draperies by the airing method. Hang carefully over line and with a stiff brush, begin at top and brush down with long even strokes. Shake lightly and then brush the backs as thoroughly as the front. You may prefer to lay the soiled draperies on a flat surface indoors and use the vacuum cleaner to clean them. A subscriber suggests, if your draperies don't hang straight and even, to bend a stiff wire and insert it in the bottom hem. Then they can be made to hang as you want them.

### INSPIRATIONAL

Experience keeps a dear school, but fools will learn in no other.—Benjamin Franklin.

Prospect that employees of Alabama towns might become unionized was jolted in ruling recently furnished by Attorney-General William N. McQueen to J. H. Meighan, president of the Gadsden city Commission. The attorney-general held that a municipality has no authority to enter into contract with a labor union, recognizing such union as the "bargaining agent" for municipal employees. He held also that a town may forbid its policemen employees to belong to a labor union.

**How women and girls may get wanted relief from functional periodic pain**

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1. Taken like a tonic, it should stimulate appetite and digestion, thus help build resistance for the "time" to come.

2. Started 3 days before "your time", it should help relieve pain due to purely functional periodic cause.

Try Cardui. If it helps, you'll be glad you did.

### SPECIAL PROGRAM AT SEVENTH-DAY ADVENTIST CHURCH SEPT. 28th

The success of Christian missions in South Africa, with special emphasis on the educational work in equatorial Belgian Congo and Uganda, will be discussed in the Sabbath school of the Clanton Seventh-day Adventist Church Saturday, September 28, at 9:30 a.m.

There will be a special program featuring the progress and influence of the Gospel among South Africa's peoples. In this service the Sabbath School will join with the denomination's schools around the world in an "overflow" offering for that country. Services are held regularly on Sunday evenings at the church at 7:30. Pastor Marley and his assistant, Mr. Findley, extend a cordial invitation to attend. When statements are filled with alarm at the state of the nation it behooves us to learn "what the prophecies of the Bible tell us."

### THE STUDY CLUB ANNOUNCES PLANS FOR COMING YEAR

"Health, Home, Faith and Country" will be the theme of study for 1946-47 as announced by the program committee, who are Mesdames J. E. Gowan, L. C. Warr, Joe Moore. Other officers and committees are: Mrs. Norman L. Roberts, president; Mrs. W. C. Golden, vice-president; Mrs. Joe Mullins, secretary; Mrs. John Higgins, treasurer; Mrs. J. Hugh Jones, parliamentarian; Mrs. Mason F. Jones, reporter. Education, Mesdames Robert Oglesby, Jr., John Mullins, M. C. Hayes; Civic, Mesdames Grady Heflin, Omar Reynolds, Frank Scott. First meeting of the current season will be Friday, October 4th, at the home of Mrs. Mason F. Jones. Rev. Carlisle will be guest speaker.

### BILLINGSLEY BAPTIST CHURCH

All members of the Billingsley Baptist Church are urged to be present Sunday at both services.

Sunday is the fifth Sunday in September and close our associational year. Mission and local expense money should be turned in so we can make our report to the Association.

At the 11 o'clock hour officers for another year will be elected and other business.

Pastor W. R. Seymore will preach at 11:00 a.m. and 7:30 p.m. Pray for a great day.

### ENTERPRISE SINGING SOCIETY

There will be a singing at Enterprise School, October 13, 1946, beginning at 2:30 o'clock.

We wish to invite all who will to come. We hope to have a good singing. Don't forget—October 13, 1946, at 2:30 p.m.

### SAMUEL H. BROWN

Mr. Samuel H. Brown, age 62 years, of 1200-2nd Ave., North, Clanton, Ala., died suddenly at his home Saturday about 7:00 p.m. Mr. Brown had been making Clanton his home only one month. He and his wife, Mrs. Minnie Roper Brown, had been making their home in Montgomery, Ala., before moving here. The funeral was held at 11:00 a.m. from the Graveside at Mt. Nebo, conducted by the Rev. Carlisle Miller and Rev. Roswell Owens. He is survived by his wife; his mother, Mrs. Emma Brown, of Clanton; three sisters—Mrs. Daisy Martin of Sara Sota, Fla., Mrs. Annie Bailey, of Evergreen, Ala., Mrs. J. E. Powell, of Opelika, Ala.

Active pallbearers: A. E. Henderson, J. S. Arme, George Couthen, Lloyd Lazenby, C. P. Canty and Cahill Jones.

Honorary pallbearers: Joe Grooms, D. A. Wingard, Walter Ward, H. M. Loney, J. E. Milton, E. C. Guldge, F. A. Miller and Charles Cox. Spigener Funeral Home in charge.

### MRS. POLLY GORE

Mrs. Polly Gore, age 78, died at her daughter's home, Mrs. Minnie Samons, Jemison Route 2, September 17th, at 12:50 p.m. Funeral services were held at 2:00 p.m., September 18th, at Mineral Springs Church. The services were conducted by Revs. J. P. Littleton, T. W. Davis and C. B. Davis; interment in Robinson Cemetery.

Mrs. Gore is survived by two sons, Mr. Joseph Gore of Clanton, and Mr. Lonnie Gore of Birmingham; three daughters — Mrs. Darby Robinson of Montgomery, Mrs. Hughie Heflin of Jemison and Mrs. Minnie Samons of Jemison; thirty grandchildren; and 28 great-grandchildren.

Granddaughters were the flower girls and the grandsons were the pallbearers.

Spigener Funeral Home in charge.

## ISABELLA

Bro. Stuckey preached two very inspiring sermons, at Mulberry Sunday and Sunday night to nice congregations.

As next Sunday is the fifth Sunday Bro. Stuckey will preach again.

There will be a promotion program at Mulberry Sunday morning to promote the ones to higher classes who are duly qualified.

The following officers and teachers were elected at Mulberry Sunday morning: Sunday School Women's Class, Mrs. Ethel Cummings, teacher, Mrs. W. T. White, Assistant; Young Women's Class, Mrs. E. S. Jones, teacher, Mrs. R. W. Webster, Assistant; Young Men's Class, Mrs. Molly Smith, teacher, L. S. Calfee, Assistant; Intermediate Girls, Mrs. Ara Calfee, teacher, Mrs. W. T. Tucker, assistant; Intermediate Boys, W. W. Williams, teacher, Leonard McCraw, assistant; Junior Boys and Girls, Mrs. R. W. Stuckey, teacher, Mrs. Mary Grooms, assistant; Primary Class, Mrs. J. H. Wells, teacher, Mrs. James Veazey, assistant; Beginners, Mrs. J. W. Cummings, teacher, Mrs. Howard Wilkins, assistant.

For B.T.U.—Intermediate B.Y.P.U., Mrs. Ara Calfee, leader; Junior B.Y.P.U., Mrs. Mary Grooms, leader; Mrs. R. W. Stuckey, assistant; Story Hour, Mrs. Gladys Calfee.

For Church—O. F. Davenport, Sr., chorist, James Veazey, assistant; Mrs. Kirby Summers, pianist, Mrs. R. C. Veazey, assistant; Clerk, J. H. Wells; Treasurer, Mrs. J. W. Cummings. Officers will be elected later.

The W.M.S. will meet in their regular monthly meeting Wednesday, October 2nd, at 2:00 p.m., at the church. Mr. and Mrs. Lewis McGee of Clanton and Mr. Emmett Conway of Birmingham were among the visitors at Mulberry Sunday.

There was a large number of our boys and girls and some adults that went to Centerville to see our boys win their first football game last Friday night—but they lost.

Mr. R. L. Yielding and Mrs. Nan Heida begin their evening school at the school Thursday, September 26th, at 7:00 p.m., and will meet on Thursday after the second and fourth Sundays at 7:00 p.m. for regular meetings.

Mr. and Mrs. Milton Stevens and Annie Lee of Alex City visited their mother, Mrs. Ethel Cummings, and other relatives Sunday here.

Miss Lorine Lecroy of Gadsden spent the week end here with her parents, Mr. and Mrs. T. L. Lecroy.

Sam Nabors of the U. S. Navy is spending his leave here with his parents, Mr. and Mrs. R. D. Nabors. We were all glad to see him looking so well after being in the hospital so long from the accident in the automobile wreck.

Mr. Smitherman remains about the same as he was at my last writing.

Mr. and Mrs. Oscar Finley and Mrs. Rosie Atwell of Hueytown spent Sunday with Mr. and Mrs. Ben Mooney and Clayton Edwards.

Mr. and Mrs. Lewis McGee and little son, Jimmie, of Clanton, and Mr. and Mrs. Charlie Jones spent Sunday with Mr. and Mrs. Casey Cummings and family.

Mrs. Minnie Carter of Billingsley and Miss Lula Rasberry of Clanton visited their sister, Mrs. Charlie Jones, recently. Miss Lena Parnell and Mildred of Stanton visited her also.

Miss Wilma McCraw, who nurses at Veterans Hospital in Montgomery visited her mother, Mrs. Emma McCraw, for the week end.

### Birthday Dinner

All the children, grandchildren and great-grandchildren and in-laws gathered at the home of Mr. and Mrs. Curtis Lecroy on Sunday morning, September 15th, to celebrate the birthday of their father and grandfather, Curtis Lecroy.

They spent the day talking and enjoying being together. Each one presented him with a lovely gift. At noon a very bountiful dinner was served with everything that it takes to make a good birthday dinner. The cake was in the center of the table, with 64 candles on it.

Those present were: Mr. and Mrs. L. C. Lecroy and Doris and Alton of Spigener; Mr. and Mrs. Mac Lecroy, of Clanton; H. A. Lecroy, of Marion; Mr. and Mrs. Lawrence Calfee and children, of Birmingham; Mr. and Mrs. E. C. Lecroy, Mr. and Mrs. W. C. Lecroy and Betty Gail; Mr. and Mrs. Odie Lecroy and Tommie Louise; and Mr. and Mrs. L. S. Calfee from here.

Visitors were Mr. and Mrs. Byers of Birmingham.

There were four generations present.

### AMENDMENT NO. 6 TO BE VOTED ON IN NOVEMBER

When voters go to the polls, November 5 they will be asked to reverse their decision of a few years ago, by adopting proposed Amendment No. 6, changing the method of holding legislative sessions from the calendar day basis back to the legislative day basis. This amendment, if adopted, will also give legislators an expense allowance, to be fixed by the legislature itself, with the amendment fixing a floor but no ceiling as to the amount.

As the law now stands, legislative sessions are limited to 60 consecutive calendar days. This means that when the Solons assemble the first Tuesday in May of other year, they must "knock off" 60 straight days thereafter, with Sundays, holidays and all other days counting. On the "legislative day" basis, the only days that count against the session are those the legislature is actually in session. If the legislature meets on Monday, for example, and recesses over to Friday, the days in between would not count, although members would receive pay for them.

Alabama used the "legislative day" system for many years with sessions limited to 50 such days. This method was condemned as wasteful of time and money, since sessions could be dragged out for many months. In 1939 the voters ratified a constitutional amendment, placing sessions on the present basis of 60 calendar days. Now some want to go back to the old legislative day system with the proposed amendment limiting sessions to 36 such days. Some who in 1939 favored the change to the present system frankly declare that they made a mistake. They argue that with the session limited to 60 calendar days, there is not enough time for committees to function, or to give proposed legislation due consideration, and that there is a tendency to "railroad" legislation through.

The amendment provides that in addition to salary and travel allowance, each legislator shall have an "expense allowance," to be fixed by the legislature. It is stipulated that such allowance shall not be less than the smallest similar allowance for any other person in the service of the State. There is no limit as to how much it may be.

### JACKSON CHAPEL

We are glad to report to our friends that we now have the deeds to the Jackson Chapel Missionary Baptist Church, which we are very proud of. We will soon begin repairing our church building. The dedicating service will be announced later.

In case our friends wish to contribute to our church, please send same to Mrs. Clyde Easterling, Clanton, Ala., Route 5.

### REV. E. J. DEASON TO PREACH AT SARDIS

Rev. E. J. Deason will preach at Sardis Church at the 11 o'clock hour on the 5th Sunday, which is September 29. Everyone has a cordial invitation to attend this service and hear Bro. Deason.

### EARN FULL PAYMENT UNDER PMA PROGRAM

A half million dollars of the total money available to help Alabama farmers pay for conservation practices under the Production and Marketing Administration program may be lost unless more of these practices are carried out before the year's end.

Though supplies of some fertilizers are limited, farmers can use greater quantities of 0-14-10, muriate of potash, and lime to help earn full payments. A. W. Jones, State PMA director, also suggests the planting of pasture grasses and construction of more terraces.

"Farmers should discuss their problems with local PMA workers, who may be able to help them work out conservation practices that will earn full farm allowances," Jones said.

### ATTENTION CALLED TO BIG FIRE LOSS

Fire Prevention Week will be observed October 6 to 12 when Alabama Extension Service workers will concentrate on calling attention to the heavy loss of life and property because of fires, and stressing means by which such losses can be reduced.

According to the National Fire Protection Association, fire losses of the Nation continue to mount, threatening to reach an all-time high. If the present rate of destruction continues, the figures show, the toll this year will be 590 million dollars, or an increase of more than 20 percent over losses last year. Farm fire losses have been keeping pace with the general increases. Almost 4,000 fatalities of last year were from farm fires.

Emphasis will be upon using fire-resistant materials for repairing and remodeling, and in construction of new buildings. Another point to be stressed is the importance of a general clean-up on the farm.

If you need a piece of waxed paper than the standard size, you can seal two strips together by ironing with a hot iron.

Pastures with a fresh supply of running water at all seasons of the year are best, says W. H. Gregory, API extension livestock specialist. Stagnant ponds and lakes may be a source of disease and parasites in many sections of the State.

Late September or early October is the time to harvest seed of large partridge peas. The seed should be spread to dry and stored so rats cannot eat them, cautions Allen Pearson, API extension wildlife specialist.

**GRAPEVINE FISH STORY**

We have read quite a few fish stories in the papers lately. However, a story one comes from our spinning room this week. We wouldn't call anyone's name in this connection since this comes to us by grapevine. However, we will say his first name is James and his last name starts with "D."

Anyhow, this fellow was on the bus the other day telling how many fish he brought home the day before, when someone behind him said, "Buddy, guess you didn't know I was the game warden." James said: "And I guess you didn't know I was the biggest liar on this bus."

**MILL COMMITTEE ON SAFETY NAMED**

Alabama Mills, Inc., has appointed the following employees to serve as members of the safety committee from September 1, 1946, to September 1, 1947:

Superintendent, H. C. Arnold; Cashier, B. L. Venable; Master Mechanic, R. M. Robinson; Spinning Room, W. L. Jones; Weave Room, Irene Sides; Cloth Room, Myrtle Patterson; Tying-in Room, Dewey Driver.

The purpose of this committee is to have regular meetings, receive suggestions from employees on accident prevention, see that worthwhile suggestions are put into effect, make regular inspection of the mill and emphasize safety at all times. The company awards a trophy to the mill making the best record in each accident prevention in each six month period.

**ALABAMA'S CROPS ARE SHORT THIS YEAR**

Not only is Alabama's cotton crop short this year, but other major crops, except sweet potatoes, are expected to be below the 1945 harvest, according to estimate by the Alabama Cooperative Crop Reporting Service, based on condition as of September 1.

The indicated corn yield is 44,780,000 bushels, 12 percent below that of 1945. Dry weather during August caused some damage to late corn in northern counties, while prospects were described as improved in the central part of the State.

The estimated hay yield, 693,000 tons, would be 11 percent below 1945 production.

Peanut prospects declined from the August 1 estimate owing to dry weather and damage from worms. The indicated yield of 284,700,000 pounds picked and threshed cowpeas with 340,900,000 pounds production in 1945.

Peanut prospects declined sharply during August, with the September 1 estimate at 7,872,000 pounds, 13 percent below 1945.

Production of sweet potatoes is estimated at 4,660,000 bushels, about 1 percent above the 1945 yield.

**NEW PAY SCALE FOR STATE EMPLOYEES**

A new pay scale for State employees, granting automatic increases to 2,800 workers, most of them making less than \$150 a month, will go into effect October 1. The increased scale was adopted by the Personnel Board and approved by Gov. Sparks after a survey had showed that the level of State pay was below that of private employment. The Personnel Board has announced that examinations will be held soon for positions of clerk, and typist, for which the pay scale is now \$115-\$135 per month; stenographer, \$120-\$140; senior clerk, and senior typist, \$135-\$170; senior stenographer, \$140-\$170; principal clerk and principal typist, \$170-\$210; and principal stenographer, \$170-\$210. October 10 is deadline for filing applications, with forms obtainable on request to the State Personnel Department, Montgomery.

**POPLAR SPRINGS**

Our church service was well attended Sunday and Sunday night.

We were very glad to have Bro. Carroll and his family of Aliceville with us. Bro. Carroll brought the morning service.

We had some other visitors at both services and we hope they will visit us again soon.

Our pastor, Rev. Cook, preached a fine sermon Sunday night.

Rev. J. D. Hughes will be with us for an all-day service next Sunday. We are expecting a large crowd of this good man's friends to meet him out at our church for a real day of worship. Service will start at 10:00.

About 1920, Alabama farmers began buying winter legume seed from Europe; in 1926 they started buying these seed from West Coast producers; by 1930 a program of growing the seed in Alabama was begun by the Alabama Extension Service and the Experiment Station. As a result, last year farmers in the State harvested over 12,000,000 pounds of winter legume seeds.

**OCTOBER 5th, 1946, DEADLINE FOR ENLISTMENTS**

The next few days are important ones to any young man planning on enlisting in the Army, according to an announcement issued today by T-Sgt. James J. Aussant, of the local recruiting station.

October 5, 1946, is the deadline for enlistments if one is to be assured of the full benefits of the G.I. Bill of Rights. One feature of this bill provides for a full college education, with all expenses paid after completing a three-year enlistment.

T-Sgt. James J. Aussant, located in the recruiting station at Clanton, Ala., has full particulars and will be happy to give them to any interested visitor.

**SET YOUR SIGHTS**

It takes planning to achieve a goal

Some young men know what they want and plan for it. Others are still looking for their niche. The new Regular Army can help both.

Perhaps you want to go to college but can't afford it. If you enlist in the Army, you'll get your chance. Honorably discharged after a three-year enlistment, you are eligible for 48 months of education at any college, trade, or business school for which you can qualify. The Government will pay your tuition, laboratory fees, etc., up to \$500 per ordinary school year, plus \$65 a month living allowance—\$90 a month if you have dependents.

If you haven't found your spot, an Army enlistment offers you training in any of 200 trades and skills. You leave the service eligible for further training at the best civilian schools.

You can assure yourself of the benefits of the GI Bill of Rights if you enter the Army on or before October 5, 1946. See your nearest Army Recruiting Station for details.

**HIGHLIGHTS OF REGULAR ARMY ENLISTMENT**

1. Enlistments for 1½, 2 or 3 years. (1-year enlistments permitted for men now in the Army with 6 or more months of service.)
2. Enlistment pay from 18 to 34 years inclusive (17 with parents' consent) except for men now in Army, who may reenlist at any age, and former service men depending on length of service.
3. A reenlistment bonus of \$50 for each year of active service since such bonus was last paid, or since last entry into service, provided reenlistment is within 3 months after last honorable discharge.
4. A furlough for men who reenlist within 30 days. Full details of other furlough privileges can be obtained from Recruiting Officers.
5. Mustering-out pay (based upon length of service) to all men who are discharged to enlist or reenlist.
6. Option to retire at half pay for "the rest of your life after 20 years' service—increasing to three-quarters pay after 30 years' service. All previous active federal military service counts toward retirement.
7. Choice of branch of service and overseas theater (of those still open) on 3-year enlistments.

**NEW, HIGHER PAY FOR ARMY MEN**

## Fat Women To Play Leans Monday Nite

Composed of the following players the Fats and the Leans will meet at Athletic Field at the Chilton County High School next Monday night in what is expected to be one of the most hilarious ball game ever played in the county.

FAT TEAM—"Honolulu Ruby" weighing 235 pounds direct from Hawaii will be here in person. Doing the pitching for the Fats, she will wear her native grass skirt because by so doing she says it gives her plenty of room for action. Having had several years experience in soft ball it is expected according to her reputation of pitching a stella game. Other players on the Fat Team are as follows: Mrs. Mary Will Browder, Mrs. Bessie Fiquette, Mrs. Kinard Hardy, Mrs. Lucile Bean, Miss Alice Mae Robinson, Mrs. Myrtle Wesson, Mrs. Mervina O'Rear, Mrs. Jimmie Taylor, Mrs. J. C. Parr, Mrs. Ruby Morgan, Mrs. Grover Walker, Mrs. R. E. Owens, Mrs. Flora Mae Vines, Mrs. H. H. Glenn and Mrs. Era Wyatt.

LEAN TEAM—"Texas Lil", height 6 foot 3 inches, weighing 118 pounds, known throughout the entire west as tops in soft ball pitching, will do the tossing for the Leans. Others are as follows: Mrs. James Carl Martin, Mrs. Clifford Manning, Mrs. Cecil (Amy) Murrah, Mrs. Pauline Baker, Mrs. Juanita Stringfellow, Mrs. Irby Popwell, Miss Jackie Ellison, Miss Edna Hand, Mrs. R. H. Kirkpatrick, Mrs. Ben Tucker, Miss Margaret Perry, Miss Eleanor Lewis, Miss Fay Woolley, Mrs. Dutch Nivens, Mrs. Ruby Williams, Miss Helen Blake, Mrs. Red Glasco, Mrs. Ruby Brown and Mrs. Irene Garnette.

If any of the "names given in have been left off this lease turn in your name again to Mrs. Chick Fiquette, Phone 180 or to Marvin Marcus and be there Monday night. A real program of fun is being arranged by the Pilot Club and if you miss this game you'll miss lots of fun. It has been mentioned if you can't laugh don't come or you may burst.

This program is being sponsored benefit of the Boy and Girl Scouts of Chilton County for the purpose of building a Camp.

The admission will be a donation by each person attended.

### FELICITATIONS TO CLANTON

One of the cultural differences between the United States and the Europe of old has been that in this country artistic movements and enjoyment have been largely confined to the big cities, while in Europe even little communities had symphony orchestras or opera companies; or attracted them from nearby places. It is a sign of our developing culture that smaller cities are reaching out for a broader musical life.

A current example is supplied by Clanton. Halfway between Birmingham and Montgomery, the Chilton County capital has organized a music course of its own for this year. It has planned a series of concerts that would do credit to much larger places. The Clanton movement is headed by business men who know that a city's wealth is not restricted to its stores and its industries—An editorial appearing in the Birmingham News.

### CHICKEN SUPPER AT COLLINS CHAPEL SAT. NITE

There will be a chicken supper at Collins Chapel school house on Saturday night, October 5. Plates will be 60 cents each. Everyone invited.

## Clanton Loses Another; Play Holt There Friday

Coach Eddie Water's Chilton County High School "Tigers" lost their second game of the season last Friday night in Centreville to Bibb County to the tune of 18 to 6.

Bibb County scored in the first quarter with Clanton scoring twice in the second leaving Clanton in the lead 12 to 6 at the half. Bibb scored again in the third to end the ball game with Clanton trailing 18 to 6.

Next Friday night Clanton will play Holt there.

### PILOT CLUB MEETS

The Pilot Club of Clanton held its regular program meeting Tuesday, September 24 at the home of Miss Maie Bean. The president, Mrs. N. S. Johnson, presided.

Mrs. A. B. Foster gave a most interesting review of the book, "The Report on the Russians" by White. Mr. Henry DeVerneer, a representative of Columbia Concerts, Inc., explained to the club the organized audience plan for Community Concerts.

The hostess served a delicious salad plate. The next business meeting will be held at the home of Miss Sybil Littlejohn on October 8th.

### REV. SANDLIN RESIGNS

I have resigned my church and have accepted a school in the county and would like to contact any church or preacher of any denomination who would like to engage our services in a series of "End Time Messages." How the age ends, What God will do with the earth after Christ returns, The People and Nations who are left after the church is gone. All who are in Christ at his coming will be delivered. All who are truly redeemed by faith will be redeemed a second time. Known as the redemption of the body. I would like to make "Goodwill visits to as many churches as I can this fall and winter, any where and any church within 15 miles of here at nights only.—Rev. H. M. Sandlin.

### UNITY BAPTIST ASSOCIATION

The Unity Baptist Association will meet with Floyd Baptist church on October 8 and 9 1946. Floyd is 8 miles South of Clanton. May I humbly ask the clerks of the churches to have their church letters properly made out so the clerk can make up his report correct.—W. J. Billingsley, Moderator.

### PROMOTION DAY AT METHODIST CHURCH SUNDAY

Mr. Cohen Stapp, Superintendent of the Clanton Methodist church, announces that Promotion Day will be observed this next Sunday, October 6. All members of the Church School are urged to be present for this occasion. Certificates of promotion will be awarded in each class.

## TO THE DEMOCRATS OF CHILTON COUNTY, ALABAMA:

The National Democratic Committee is waging a strenuous campaign in its effort to give our President a Democratic Senate and Congress with which to work and to do this in a proper manner, it is necessary to have funds with which to wage an efficient campaign throughout the United States.

The National Committee has assigned to Alabama a quota of \$200,000 and the leadership of our party in Alabama has assigned the Democrats of Chilton County a quota of \$2,000, which should be raised without any great amount of trouble if the Democrats of Chilton County are conscious of the many benefits we have received in the past and will receive in the future by a continuation of a Democratic administration.

The Honorable James E. Folsom, Governor Nominate of Alabama, has agreed to raise the state quota and the Democrats of Chilton County are urged to give him wholehearted support and let him know that we are squarely behind him in his efforts, in our behalf, and we, therefore, urge each and every Democrat of Chilton County to contribute to this cause as liberally as you can.

Yours for a Democratic Victory,

—J. B. ATKINSON, Chairman; R. M. TUCKER, Secretary, Chilton County Democratic Executive Committee.

## OLLIE BLALOCK WITH SERVICE BARBER SHOP

Mr. Ollie Blalock, who for the past several months has operated the Ideal Barber Shop, has sold out and is now connected with the Service Barber Shop. He invites his friends to come see him.

## Deep South Quartet Here Monday Night

The Stamps Deep South Quartet will appear in person in a concert at the courthouse in Clanton next Monday night, October 7th. The program will get underway at 8 o'clock. The Deep South Quartet has appeared in person in the county before and have quite a following throughout the state. Lovers of sacred music and especially quartets will do well to attend. The program is being sponsored by the Chilton County Singing Convention.

## WORLD-WIDE COMMUNION SUNDAY OCT. 6TH

Sunday, October 6, is World-wide Communion Sunday. This service will be observed at the Methodist church at the eleven o'clock worship hour. Every member of the church is urged to take part in World-wide Communion Sunday worship. Other Christians having no church home in Clanton are cordially invited to participate.

### SAMPSON E. DAVIS

Mr. Sampson E. Davis, age 88, of Clanton, died at 12:45 p.m. on September 24 at the home of his daughter, Mrs. Guy Higgins.

Funeral was held at 2 p.m. from the residence, conducted by the Rev. Hickman and Rev. Miller. The remains were laid to rest in Elmwood cemetery in Birmingham.

He is survived by four sons, Frank A. Davis of Greenville, Ala.; J. Leroy Davis of Washington, D.C.; Sampson E. Davis of Hattisburg, Miss.; James E. Davis of Washington, D.C.; three daughters Mrs. J. Wagner, Alameda, Calif.; Mrs. Guy Higgins of Clanton, Miss.; Jewel Brown of Oakland, Calif.; 14 grandchildren, one great grandchild.

Spiegner Funeral Home directing.

### PETE JARMAN IN SAN FRANCISCO, CALIF.

Congressman Pete Jarman departed last week for a stay of several days in San Francisco, Calif., where he is attending the American Legion National Convention, both as a member of the International Good-Will Promotional Committee for the national organization, and as Chairman of the Alabama Department, Foreign Affairs Committee in the Alabama Delegation. Mr. Jarman has established offices in the Federal building in Tuscaloosa, Ala., and his present plans are to maintain these offices there until the 80th Congress convenes in January, 1947.

## COMMUNITY CONCERTS MEMBERSHIP DRIVE CLOSES

The Community Concerts membership drive came to a successful conclusion last Saturday. Basing its selection on membership choice, budget and a satisfactory spacing of events, the artists committee announces a varied first season which is a credit to our city.

Appleton and Field, duo-pianists of increasing renown, will play here on November 12th. Walter Cassel, star of the production Desert Song and successor to John Charles Thomas's laurels, it is whispered, will appear here January 22. The harmonica virtuoso and authority, John Sebastian, will give us a program of the world's great music on his unusual instruments February 26.

Members of Clanton Association will be receiving their permanent membership cards and further details very soon.—Mrs. Raymond P. Mims, Publicity Chairman.

## DANIEL QUARTET TO APPEAR IN JEMISON FRIDAY NITE

Lovers of music and fine singing as it is rendered by the famous John Daniel Quartet from WSM in Nashville and the Grand Ole Opry will have a special treat in store for them Friday, October 4, at 7:30 p.m., when this nationally known concert group will appear in person at the Jemison High School.

From the widespread interest this coming appearance has created it is expected that an overflow crowd will be on hand when the curtain goes up. These radio, recording and concert artists have been heard for the past several years over WSM and other leading stations over the Country as well as being featured on NBC's coast to coast network and have the distinction of being one of the leading concert groups of the Nation.

Don't forget the date and place—Friday, October 4th, at the Jemison High School. Be there early and get a good seat.

### MRS. DELLA ELMAR HARRELL

Mrs. Della Elmar Harrell, age 67, of Jemison, died at 9:27 a.m. on September 25th. Funeral was held Friday at 2 p.m. from Rocky Mount church conducted by the Rev. J. A. Manasco and Rev. C. E. ## Mayor Proclaims Week For Disabled Vets

Disabled veterans deserve the opportunity to prove to employers that selection of workers through the matching of skills and capacities with job requirements is good business for both the employer and the veteran. W. W. Allen, manager of the local USES office said today.

"The disabled veteran with a skill that matches the job makes an excellent worker," Mr. Allen said. "There are few jobs that cannot be matched with some handicapped worker's qualifications."

Mr. Allen pointed out that the USES selective placement program for disabled veterans and other handicapped workers provides that when a referral is made to an employer the applicant must have the ability and qualifications to fill the job opening. "Selective placement is a positive program with the USES," Mr. Allen said. "It matches the right handicapped worker with the right job."

The local office has applications from 65 handicapped workers living in this area, 61 of these veterans of World War II. All of them can become assets to our community by proper placement. Employers and workers interested in learning more about the USES selective placement program should inquire at the local office.

### Mayor's Proclamation

WHEREAS, Victory in World War II cost us more than 2,000,000 casualties and WHEREAS, there are many millions of handicapped persons in the United States, many of whom by their efforts were of great aid manufacturing munitions or providing essential service for the war effort, and WHEREAS, all of these persons including disabled veterans of World War I and II deserve self-supporting self-respecting jobs in which they can make useful contributions to our community, state and nation . . . NOW, THEREFORE, I Leo Thompson, Mayor of the City of Clanton, do set aside the week of October 6th to October 12th as EMPLOY THE PHYSICALLY HANDICAPPED WEEK, and I call upon all local officials, all local employers, all local civic organizations and all citizens to assist in every way possible, to the end that it shall be brought to the attention of all members of our community that disabled veterans and other handicapped civilians are fully capable and are performing efficiently, safely and reliably in thousands of different occupations.

AND I FURTHER URGE ALL EMPLOYERS to place all their job orders with the United States Employment Service so that disabled veterans and other handicapped workers may be given an opportunity to prove their value in productive and self-respecting jobs.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the City of Clanton to be affixed.—F. L. Thompson, Mayor of the City of Clanton, Ala.

## MR. FOLSOM TAKES HIS STAND

The announcement by James E. Folsom, Democratic nominee for governor of Alabama, that he will throw his full weight into the fight to defeat the Boswell Amendment comes with little surprise. No one could think that Mr. Folsom would advocate ratification of the amendment, which is the exact antithesis of nearly everything for which the gubernatorial nominee stands politically. And few thought he would choose to remain silent or non-committal on the all-important issue of whether Alabama shall keep herself attuned to the voices of a virile democracy in this new atomic age or go into a long period of reaction by restricting the suffrage in Alabama to a select and favored few.

The announcement is significant in a lesser but related aspects also. Since Horace Wilkerson, Birmingham lawyer and reactionary, early made himself the most vocal advocate of ratification of the amendment, he is generally regarded as the leader of the movement to purge Alabama democracy. Now that Mr. Folsom has taken a stand in opposing the amendment there will perhaps be a general recognition of his leadership of the forces rallying to prevent ratification. Thus the contest, in addition to its primary repercussion, will be a test of strength between king and kingmaker and will serve rather effectively to dissipate whatever suspicion there may have been that Horace Wilkerson was destined to exercise an undue and sinister influence over Goat Hill during the next four years.

Whatever else it may mean, Big Jim's participation in the forthcoming battle for democracy does not mean that others can afford to ease up in their efforts to defeat the Boswell Amendment. True, Mr. Folsom's announcement is cheering news, but it should serve to redouble the efforts of the rest of us. It should be remembered that Horace Wilkerson is coaching a string of seasoned performers who are not noted for amateurism. Not only is the chairman of the state democratic committee one of the team but he has a majority of the committee members backing him. They are behind the amendment with all of their official and personal prestige, and are also putting cash on the line—committee money which really belongs to the Democrats of Alabama—in an effort to score a victory.

There should be no mistake about the real issue at stake in the Boswell Amendment. It is democracy versus oligarchy—an issue so big that it is beyond one man's ability to carry the fight. For that reason, advocates of democracy cannot relax their effort simply because the Big Shoe himself has entered the lists on their side—Montgomery Advertiser.

## FARM LAND BOOM

The average price of farm land has risen 77 per cent since the 1930's. Speculation in farms is a danger to our economic system. Note that the farms that are being sold are generally after short periods of ownership, changing hands too often to be stable sales. Farmers around Clanton who remember the hard times of the 1920's, when a land boom followed the war, will recall the mortgage debts that placed a heavy burden upon them, leading to the collapse of 1929. None want a farm-land boom today if the result would be the same. This is a warning to farmers against speculating in buying farm land at current high prices.

## THOSE USEFUL CORNCOBBS

Those pesky corncobs that always pile up for burning, have become useful through development by industry. As the lowly milkweed, the corncob was processed during war and now finds a place in commerce. They made a grit of corncobs and cleaned airplane engine parts without harming the highly polished parts of the machinery. Blasting grit will be used in other lines in machine shops. Chemists connected with the government have found four valuable commodities from the cobs: furfural, ligin, wood sugar and ethyl alcohol. It is hoped for another outlet, making a corncob flour for manufacture of plastics. Making use of everything proves that Americans are learning the meaning of thrift.

## FOLKS & THINGS

### ABOUT TOWN

-By BEN

The mean things others have said about you.  
The injury any person has done you.

The mistakes you have made in the past, except as they may warn you in the future.  
The kindness you have tried to do others.

The days when you were better off than you are now.

The promises other people have made you.

The ill-natured gossip you have heard concerning others.

The secrets entrusted to your confidence.

The worry that hinders your happiness.

The drawback that seem to stand in the way of your success.

—Baptist Messenger.

Amon Jones, who with Troy Maddox organized the Chilton Home Furnishing Store at Thorsby has sold his interest in the business to Mr. Maddox. Mr. Jones hasn't stated yet what his future endeavor will be.

Went to Lomax Sunday afternoon to pay our respects to King West and his bride of fifty summers. Mr. and Mrs. West are hale and hearty after a long, happy life together and proof positive was the many, many friends who visited them and sent gifts as a token of their friendship. We wish for them many more years of happiness.

Wish Jim Parrish would read the paper. He "jacked us up" Sunday afternoon for leaving an article out of the paper about his trip. We did publish a notice of his trip, but my goodness, Jim should know that we are too good a friend of his to publish the truth about ALL he did.

Some was discussing the magnetic personality of a certain young lady in town when someone spoke up and said: "She should have a magnetic personality, everything she has on is charged."

Our good friend, Mr. T. L. Williams, district manager of the local Alabama Power Office, got his picture and a write-up in this month's powergrams. The picture shows Mr. T. L. Williams holding a 42-pound grouper that he caught on a recent trip to Panama City. Also in the picture are his two grandchildren, Jim and Henry Roberts. The writer says that Mr. Jim Roberts of Linden vouches for the catch and the writer of the article asks the sixty-four-dollar question when he asks: Why is it that catchers of big fish must have witnesses before people will believe their story?

M-Sgt. Morris Johnson and wife Virginia, are the proud parents of a baby girl born last week at Birmingham. This is the way it happened. We mean the way it happened that Morris was home. You know he is stationed in Alaska now and was flying from Ladd Field, Alaska, to Eglin Field, Fla. When he arrived at the airport in Birmingham he went to the phone to call his wife and tell her hello. She greeted him with the news that she was leaving for the hospital at once and Morris headed for the hospital. Three hours after Morris arrived the stork arrived leaving for them a girl weighing 8½ pounds. Both mother and daughter are doing fine. Papa likewise.

### My Town

"My town is the place where my home is founded; where my business is situated and where my vote is cast; where my children are educated; where my neighbors dwell, and where my life is chiefly lived. It is my home spot for me. My town has the right to my civic loyalty. It supports me and I should support it. My town wants my citizenship, not my partisanship; my friendliness, not my dissension; my sympathy, not my criticism; my intelligence, not my indifference. My town supplies me with protection, trade, friends, education, schools, churches and the right to free moral citizenship. It has done things that are better than others, the best things I should seek to make better, the worst things I should help to suppress. Take it all-in-all, it is my town, and it is entitled to the best that is in me."—Powergrams.

## MORAL ECHOES

Rev. D. W. Haskew, D.D.

A truck loaded with poultry was making a hill just ahead of my car and it was best that I should not attempt to pass it. I slowed down and while I looked on from behind, an old rooster stuck his head out from between the slats of his coop and crowed. There he did lustily three or four times while the truck climbed the hill. There he was crowing with joy while his liberty was taken from him, and while he traveled toward his execution. I thought to myself, "That is the spirit of old boy." Too many of us grow mope and sad when things go wrong with us. Paul and Silas suffered much while they waited in jail, but towards midnight they started a song. Can you sing in the midnight hours when you suffer and wait? Midnight may come upon you, your liberty may be taken from you, but do not lose heart.

There was a knock upon my study door and a mother entered. She was loaded down with problems, and asked that I help her solve them. Patiently I listened to her story and soon saw that I could not solve them. This is what I said to that good mother, "My Sister, your problems are of such a nature until it is impossible for me to solve them for you, but let me join you in carrying them to Jesus. He will not solve them for you, but He will dissolve them and you will find comfort and relief." Christ cannot solve all of our problems, but if we have faith and trust in Him, He can dissolve them. Many a problem goes not because it has been solved, but because it has been dissolved.

When I was a boy I tried so hard

## TIME TO BEGIN TERRACING YOUR LAND

Now that fall is here, it's time for Alabama farmers to begin terracing again, reminds J. B. Wilson, API extension agricultural engineer.

When weather will permit, farmers are urged to repair all breaks and clean out channels of old terraces. New terraces should be built on all unterraced land having a slope of one per cent or more of row crops to be grown on it, Wilson says.

PHA payments are available for farmers who terrace their land this year. For further information concerning this, farmers are advised to see their county agent or county PMA officials.

to dam up a stream that flowed down between the hills. When I would get it stopped at one place, it would break over at another place. Have you not built a fence at one place and at another place it was falling down? That is a picture and an index finger to the work of my life. We can check the flow of sin at one place, but it breaks out somewhere else. We build at one place but it tumbles down at some other place. My friends, it takes a lot of patience and perseverance, even to do our best in life. We rejoice today to see our work prosper, but tomorrow we are sad because we see it tumble down. Do your best in spite of the break over and the tumble downs that take place.

## CONCRETE PAVEMENT

for Low Annual Cost

The strength and stamina of portland cement concrete pavement enables it to give long years of all-weather service under the heaviest traffic.

For all but the lighter traffic, concrete pavement usually costs less to build than any other pavement of equal load-carrying capacity.

Although the smooth-riding and all-weather safety of concrete generally attracts the heaviest traffic, records show that annual maintenance costs of concrete pavement are generally lower than for other types of paving.

Low first cost, low maintenance expense and long life mean low annual cost—the reason why concrete is the logical pavement for new principal urban highways and streets.

Mr. Carl Glass of Jemison was in Clanton last Thursday morning.

Miss Rosalind Owens of Clanton, was taken into the Eunomians during dush week at Blue Mountain College.

Last Thursday, September 26, a party of some 23 people gathered at the Dixie Cafe to celebrate the 77th birthday of their mother, grandmother and great-grandmother, Mrs. G. M. Weldon. Mrs. Weldon is formerly of Clanton but now resides with a daughter in Birmingham. For the first time in eighteen years Mrs. Weldon had all her children together, so it was a great celebration.

Those who were present to enjoy the affair were:

Mr. W. A. Kemp, a brother who is 74 years of age; Mr. and Mrs. O. C. Weldon and daughter, Jean of Birmingham; Mr. and Mrs. E. T. Weldon of Clanton; Mr. and Mrs. W. C. Weldon of Memphis, Tenn.; Mr. and Mrs. H. C. Weldon and daughter, Louise, and son, Donald of Birmingham; Mr. and Mrs. J. W. Crim of Pensacola, Fla.; Mr. and Mrs. J. L. Hazel and daughter, Dora, of Birmingham; grandchildren present were: Mrs. E. D. Cantrell, of Tusculumbia; Mr. and Mrs. Charles E. Watford of Gadsden; a grandchild, Miss Jane Cantrell of Tusculumbia; a first-cousin, Mrs. W. G. Billingsley of Clanton.

This gala affair was held at the Dixie Cafe, who prepared and so graciously served a most delicious meal. After the meal a huge birthday cake, adorned with lighted candles and beautifully decorated was cut and enjoyed by all. This cake was baked by the Clanton Bakery.

After the party everyone departed with the wish that Mrs. Weldon may have many, many more happy birthdays.

Mrs. T. L. Jacobs of Jackson, Miss.; Mrs. A. E. Curry, Sr. of Hattisburg, Miss. and Mrs. H. I. Stewart of Hattisburg, Miss. were the week end guests of the Rev. A. T. Hickman's.

A few of the many who attended the game in Centerville last Friday night from Clanton: Mr. and Mrs. James Arnold, Mr. and Mrs. George (Buck) Tucker, Mr. and Mrs. Jimmy Bell and family, Carl McDowell, Ella Mae Bean, Adell Thornton, Helen Nelson, Carl Jones, Robbie Hardy, Mrs. Julia E. Paul Gowan, Ellen Shiff of Mobile, June Tucker, Carol Carter, Sallie Gowan, Thomas Kennedy, Charles Wade, Dan Alred and many, many more whose names could not be listed with the News' inaccurate coverage of the game.

Andrew Hickman who enrolled at the University last week was home for the week end.

Among the Clanton people attending the Alabama-Tulane game in New Orleans, La. last week end were Clark Headley, Billy Maddox, Dan Alred, Wallace (Shorty) Headley, Joe Frank Higgins, Blanche Cox, Dr. Charles Moore, George McCain, Jr., Rip Burnett, Jr., Mr. and Mrs. Dick Hayes, Frank Cox, Mr. and Mrs. Guy McKee, Lt. Paul Gowan left Monday for San Diego, Calif. from where he will go to Manila, where he will be stationed with the U. S. Army.

Mr. and Mrs. Roy Adkins were in Montgomery Sunday.

Mr. Emmett Wilson, who has been in a Selma hospital for the past ten days, is reported to be much improved and expected home soon.

### WRIGHT - RUSH

Mr. and Mrs. Mathew Wright of Huntsville, Tenn., announce the marriage of their daughter, Betty Iveline, to Mr. Wm. Porter Rush of Clanton. The marriage was solemnized at 2:30 p.m. Thursday, September 26, 1946, in Washington, D.C.

The bride wore a suit of skipper-blue with black accessories. Her corsage was pink sweetheart roses. Mrs. Geraldine Fink, who was the bride's only attendant, wore a grey suit and a corsage of yellow roses. Mr. E. J. Price of Clanton served as best man to the groom.

The groom is the son of Mr. and Mrs. G. E. Rush of Clanton, Ala., Rt. 4.

Both the bride and groom are employees of the Navy Department, Washington, D. C. They are at home at the Alabama apartments 1015 N. Street, N. W. Apartments 505, Washington, D.C.

### M. Y. F. HAS SCAVINGER HUNT

Last Wednesday evening a group of M. Y. F. boys and girls met in the basement of the Methodist church where their leader had planned a "Scavenger Hunt" for them. They were divided into groups of four and each group was given a list of nine articles to find and be back in a given length of time. The first group back and with the largest number of articles found won the prize.

After the hunt the boys and girls were most graciously served delicious refreshments by the following ladies: Mrs. Omar Reynolds, Mrs. Joe Mullins and Mrs. Chick Fiquette.

### Quest Club

Quest Club members enjoyed a stated tea at the home of Mrs. Dawson on Friday, September 20th. The program committee, Miss Melba Patton and Mrs. Jack Lenoir, presented the following program:

"On The Lake"—piano solo, Sybil Langston.

"Vagabond Song"—Carolyn McNeill.

"Goldenrod"—Annette Reynolds.

"God's World"—Melba Patton.

"Will-O-The-Wisp"—piano solo, Sue Bratton.

"Moon Folly"—Alyce Jo Langston.

Guests enjoying the courtesy were Mrs. Tom McConnell, Mrs. Lester Pate and Miss Nell Smith. The hostess poured Russian tea and the party sandwiches and mints beautifully carried out the Club colors of red, gold and white.

### P-T. A.

The September meeting of the P. T. A. was held in the Jemison High School Auditorium on September 18, with the president, Mrs. Leo Langston, presiding. Members agreed to buy a piano for the school and general committees for the year were appointed. The organization will again sponsor the Halloween fete which the public is encouraged to support as all money cleared will be used for worthy school projects.

The program committee following the year's theme, "Guiding Our Youth," chose the topic, "Guiding Our Youth Through The Cultured Arts," and presented "A Stupendous Foster Sing." The Rev. Homer Carroll brought the devotional. The life of Foster was reviewed by Miss Henson, a medley of Stephen Foster melodies was played by Mary Catherine McNeill, the haunting love lyric "Beautiful Dreamer" was sung by Miss Patton and group singing of well known Foster songs completed the program.

The Quarterly Conference was held at the Methodist Church September 29th.

The church officers for the coming year at the Baptist Church include: Sunday School Superintendent, Mr. L. C. Shields; Assistant, Mr. C. C. Conway; Chorister, Mr. Joyce Howard; Pianist, Mrs. Preston Shaw.

Sunday School Teachers: Adult, Miss Paralee Henson, Mr. J. A. Peterson; Intermediate, Mrs. Joyce Howard; Junior, Mrs. Sam Woodley; Training Union Director, Joyce Howard; Adult Leader, Mrs. Sam Woodley; Young People, Miss Miriam Harvey; Intermediate, Mr. J. O. Cobb; Junior, Miss Nell Smith; Story Hour, Mrs. Joyce Howard.

## VETS' HEAD PRAISES PRESS

"The Alabama Press has been most kind to us in our efforts to disseminate information to veterans," C. C. Horton, Director of the Alabama Department of Veterans' Affairs, said here today. "It is fitting and proper that we take occasion during the observance of National Newspaper Week to thank them for it," he continued.

"I know of many specific cases where newspaper publicity in the press of Alabama has been the means by which our citizens have benefited," he said. "It is fitting, at the moment, of the case of a bedridden widow of a World War I veteran who lived in a remote section of one of our rural counties, dependent upon the charity of the community for her very existence. Being without family or means of support, she read in the weekly newspaper of that county of the availability of a \$3500 monthly pension (since increased to \$4200) for widows of veterans of World War I, regardless of the cause of the veteran's death. Unable to leave her bed to file the application for this benefit, she addressed a letter to the representative of this Department, the County Service Commissioner in that County, requesting him to visit her to assist in the preparation of her claim. This was done, and she now enjoys a security for the remainder of her life which could never have come to her except for her medium of information—the newspaper. No better example of the fact that 'The Newspaper Is A Public Servant' could be found," he concluded.

"In behalf of the 300,000 veterans of Alabama, we recognize, applaud and appreciate the unselfish, unbiased and oftentimes unwarded service rendered by the public press to our communities, our States, and our Nation. In the fashion of good soldiers, we salute you."

Many homes have been destroyed by fire as a result of carelessly dumping ash trays and matches into waste baskets before the fire is thoroughly out.

Between February and September, the Department of Agriculture procured nearly 10 million cases of dried and frozen eggs for Great Britain. Another million cases are expected to be purchased this fall.

Attractive hairpin lace can be made from thread raveled from feed sacks and can be used to ornament handicraft articles which are made from the sacks, say extension home improvement specialists.

## Little Rebel Rhymes

Say, have you tried our beef stew?  
It doesn't come from cans;  
We make it here to suit the taste  
Of Little Rebel fans.

If you've not tried our eggs and toast  
You've really missed a treat;  
With ham or sausage extra  
They're even better to eat.

We take pride in serving coffee  
That our patrons say is good,  
We keep it fresh and to our taste,  
The way we think we should.

Our prices all are reasonable;  
We couldn't make them lower.  
If we did, our profits would leave  
When you walked in the door.

Mr. and Mrs. Melvin Carter (Sug) have moved into their new home at Old Dixie.

Mr. and Mrs. Robert Gay have moved to the home of Mrs. Sallie Carter.

Mrs. Bill Ruddick, Miss Irene Forsee and Miss Peggy Ann Ruddick shopped in Selma Saturday.

A number from here attended the Auburn-Mississippi Southern football game in Montgomery Friday night.

The football game between Maplesville High and Perry County High was well represented. Eddie Ruddick is an outstanding player on the Maplesville High team.

Donald Hicks Latham, having had 53 months sea duty is at the separation center in Jacksonville, Fla. awaiting his discharge. Donald plans to enter the University of Miami next semester.

"Little Bob" Davis entered A.P.I. in Auburn last week.

Miss Ruth Chism has returned from Selma hospital. Both Miss Chism and Mrs. Bob Davis are doing nicely.

Mrs. Ernest Cole and Mr. Hicks Harrison underwent a major operation in Selma Baptist hospital last week.

We wish for them a speedy recovery.

Mr. and Mrs. Phil Hicks Hand returned to Auburn last Monday after visiting friends and relatives for a few days.

Phil is a student at API majoring in mechanical engineering.

Mrs. Bill Gay has returned from a visit with her parents in Birmingham Ala.

Mr. and Mrs. Clifford Gay have purchased a trailer and are "at home" to their friends on the lawn of the

Jim Gay's.

Mr. and Mrs. Earl O'Neal have recently purchased acreage from Mr. Jim Gay and plan to begin construction of their new home soon.

Mr. and Mrs. Lareed Parnell, of Selma, visited Mr. and Mrs. Edward Parnell and Garland over the week end.

Miss Elmyra Oshorne, is visiting her sister, Mrs. Elsie Ivey in Nashville, Tenn.

Mr. Lewis Fuqua, Miss Martha Fuqua and Miss Ruth Hicks visited friends in Brown and Centerville last week.

Mr. and Mrs. Eddie Lindsey have returned to Tuscaloosa after an extended visit to relatives here. Eddie is a student at the University of Alabama.

Garland Parnell is sure enjoying his new bicycle.

Mr. Bill Ruddick joined a number of Maplesville football fans and attended the Auburn-Miss. Southern game in Montgomery Friday night.

then continued on to New Orleans to witness the Alabama-Tulane game. The party returned Sunday and reported a very enjoyable trip—and a wet time in New Orleans.

All household brushes—from tooth brushes to scrub brushes—should be turned bristle side down to dry. If dried on their backs, water stands on the place where bristles are fastened and loosens them. Brushes with wooden backs are very easily harmed by drying on their backs.

Try to prepare only the amount of food needed by your family each day. If there are "leftovers," use them promptly.

#### W. L. SANDERS WRITES VOTERS OF COUNTY

In the beginning of my campaign I gave you my stand on health, Old Age Pension and Education.

The following will give you my stand on other issues.

##### Election and Recall of Officers

Since the Legislative bodies derive their powers from the consent of the governed, to hold them more closely subject to the will of the people, I advocate an amendment to the State Constitution providing for the recall of the Governor, any member of the Legislature and any county official during their term of office, if and when they fail to comply with the wishes of the people.

I further advocate that the Governor and the State Superintendent of Education be allowed to succeed themselves.

##### Reapportionment

Since the State Constitution provides that the Legislature reapportion every ten years representation in that body and since the failure of the Legislature to comply with the constitution has led to an undemocratic representation, in the legislature, I declare that the next Legislature should reapportion representation in the Legislature on a fairer and more equitable basis.

##### Veterans

The Veterans of World War II have and are still returning home, many of them with physical handicaps that will never be overcome.

The sacrifice of health, loss of limbs and an opportunity to establish themselves financially on equal basis with war workers is due careful consideration and attention.

The State government should establish such agency as is necessary to work with the National government in securing justice and eliminating discrimination among ex-servicemen.

The best we can do for them will not equal the sacrifice they made for us.

##### Cooperation with Governor Folsom

The people of Chilton County gave Jim Folsom a landslide in the nomination for Governor of Alabama.

This is evidence that the people are behind his program and have faith in his honesty and ability to put over, but faith is not enough, it is going to take work to put the program through the next Legislature.

We must all realize the majority of the next Legislature will determine the kind of program that will be enacted into law.

If you elect me to the Legislature I will support his program in every way possible.

I believe in Jim Folsom's honesty and interest in the common people and will stand behind his program as outlined in his campaign.

Your vote and influence will be appreciated.

The most common cause of fire in farm dwellings is the defective chimney, including flues and stovepipe connections. Before cool weather comes, these should be cleaned thoroughly. In addition, a check should be made for cracks, or loose mortar.

Always iron with the weave of the fabric, up and down across, and never on the bias.

## Does Stomach Gas and Bloat Make You Feel Miserable?

If so, here is how you may get blessed relief in freeing your stomach from this nervous distress. It works this way: Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, overweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that 888 Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the 888 Tonic formula which contains special and potent activating ingredients.

Also, 888 Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-eating of soda and other alkalies to counteract gas and bloating when what you digest food for body strength and repair. Don't wait until the loss of happy people 888 Tonic has helped. Millions of bottles sold. Get a bottle of 888 Tonic from your drug store today. 888 Tonic helps Build Sturdy Realism.

## ISABELLA

Bro. Stuckey brought us two very inspiring sermons Sunday and Sunday night at Mulberry.

The following were promoted in Sunday School Sunday morning:

From Cradle Roll to Beginners: James D. Nabors, Novie Jean Veasey, Betty Gail Lecroy, Mary Virginia Veasey and Joe Lee Green.

From Beginners to Primaries: Randall Veasey, Hubert Earl Cummings, Aura May Fox and Nabors Johnston.

From Primaries to Jrs.: Ruth Dean Broy, Ophelia Ann Conway, Pat Webster, Jennelle Hayes, Brooks Carter and Kathleen Popwell.

From Juniors to Intermediates: Ruth Edna Grooms.

The singing at Mulberry Wednesday night was fine as we continue to learn and enjoy new songs. We plan to go to Concord on Wednesday night October 9. Come Wednesday night and let's learn more new songs.

There will be an Oden reunion at Mulberry Sunday. Sunday school will begin at 10:00 o'clock a.m. as usual and preaching by Bro. Paul Oden at 11:00 o'clock a.m. Singing in the afternoon.

Our football boys of Isabella played Verbena there Friday afternoon and the score was 13 to 6 in favor of Isabella.

There was a nice crowd at both the Men and Women's evening school at the school house Thursday evening.

The ladies had a demonstration on food and the men talked on pasturing cattle on winter crops.

We all were served nice refreshments in the home economics room. The lunch room at Isabella is really proud of their nice large refrigerator which they recently purchased.

"Pep" Lecroy has been suffering with an infection on his eye.

Simple measures are often effective in controlling farm fires. For example, a strong, lightweight ladder for quick use in case of trouble will help in many situations.

County PMA committees may issue purchase orders for use of farmers in getting potash and mixed fertilizer containing superphosphate and potash. Such orders will permit farmers to get these materials from a dealer without paying their full cost on the spot.

Truman Luker, care Luker-Harrelson Furn. Co., Clanton, Ala.

### STILL TIME TO PLANT SOIL BUILDING CROPS

Farmers who failed to get winter legumes planted in September were urged today by W. B. Crawley, State PMA committee chairman, to plant them in October.

"A good crop of winter legumes will keep soil from washing, provide winter grazing, and increase the yields of crops following them," Crawley declared.

Seed and fertilizer for legumes can be secured through county PMA offices. Crawley advises farmers to ask for these materials as soon as possible because the supply of some of them is limited.

A recent amendment to the veterans housing program permits farmers to saw their own logs or have them custom-sawed for their own use up to 5,000 board feet each quarter, states A. W. Jones, State PMA director.

According to Dr. Bennett: Life expresses its self better, spiritually, physically and mentally in a body well fed, well developed and well trained.

## ODEN REUNION BIG SUCCESS

The plans for the H. R. Oden Reunion at Mulberry Baptist church the first Sunday in October developed into almost a complete reunion for the W. M. Oden family. There were seventy-four of the family present to enjoy the day together. There were twenty-eight grandchildren and nineteen great-grandchildren present.

The H. R. Oden's family was complete, there being twenty-six present. Those present that were out of the country came from San Diego, Calif.; Pensacola, Fla.; Mobile, Foley, Magnolia Springs, Montgomery, Birmingham and Rockford, Ala.

The Rev. Paul Oden preached at the eleven o'clock hour to a full house.

The afternoon was spent in meeting and chatting with old friends and relatives, singing and making pictures.

We appreciate and enjoyed very much the large number of people who joined us in making it a grand success.

## Montevallo Defeats Marbury 86 to 6

In a score-at-will gridiron affair last week, Montevallo defeated Marbury to the tune of 86 to 6. This is Marbury's first attempt to try issuing a team since the war.

## VOCATIONAL AG CLASS ATTENDS STOCK SALE

The Vocational Agriculture Classes of the Chilton County High School attended the Black Belt Feeder calf Sale Sept. 25th at Montgomery.

For the most of us, it was our first time to observe the proceedings of an auction sale. We are still wondering if the auctioneer knew what he was saying.

It was one of the largest sales of its kind held in this section. There were over 10,000 head of cattle sold during the day.

Three Chilton County boys bought calves that they hope will win them honors in next year's calf shows. Boys buying calves were Delbert Avery, Hoover Moatts of Clanton and Preston Burnette of Jemison.

Other boys attending the sale were: Thomas Blalock, Willie Johnson, Bronson Minor, R. C. McGee, J. E. Nicholson, Gene Parrish, L. C. Ray Douglas Todd, William Wells, O. L. Wells and Russell Williams—Russell Williams, Repters.

Dr. and Mrs. W. C. Golden spent a couple of days last week on the Gulf.

Mrs. Charles Wade and daughter Elizabeth, are spending a few days this week on the Gulf.

## LATE CITIZENS AWARDED MEDALS POSTHUMOUSLY

Two who did much for their city, their county, their state and their nation were honored posthumously Wednesday morning when the Treasury Department, represented by J. L. Hollis presented to the widows of the late Judge L. H. Reynolds and Arkie Mahan a silver medal and certificate in honor of the service rendered during the war.

Judge Reynolds acted chairman of the County War Bond Committee for one year and was invaluable because of his knowledge of Chilton county and her people. After his death his assistance in this work was sorely missed.

Mr. Arkie Mahan also gave graciously of his time and money to aid his county in meeting her quota in all bond drives. Mr. Hollis was chairman of the last War Bond Drive.

## SACRED HARP SINGING AT NEW HARMONY

There will be an all-day singing at New Harmony Primitive Baptist near Lomax on the third Sunday in October, the 20th.

All singers and lovers of sacred music have a cordial invitation to attend. Singers throughout this county and all adjoining counties have a special invitation to attend this singing.

Bring your Harp song books and your lunch, spend the day singing the sacred songs.

## MRS. DELLA HARREL

Mrs. Della Elmar Harrel, age 68 years, 4 months, 26 days, of Jemison, Ala., died Wednesday a.m. at 9:22 o'clock, September 25th, 1946.

Funeral services were held Friday, September 27, at 2:00 p.m. at Rocky Mount church, conducted by Rev. J. A. Manasco and Rev. C. E. Perry, both of Birmingham.

She is survived by her husband, S. A. Harrel; three sons, T. C. Harrel of Jemison; L. H. and F. E. of Robertsdale, Ala.; two daughters, Mrs. Lewis Neal of Summerville, Ala. and Mrs. Lewis Duke of Arlington, Va.; two brothers, Bob and Clocher Crim, both of Birmingham; one sister, Mrs. T. J. Glass, Jemison, Route 2; four grandchildren.

Nephews served as pallbearers: They were Ralph K. Crim, Glenn Crim, Holly Harrell, Alton Glass, Edward McDaniel, J. V. Harrell and Earl Harrell.

Flower girls were: Miss Velmer Price, Mrs. D. L. Langston, Mrs. Myrtle Jackson, Mrs. Earl Harrell, Miss Eunice Glass, Mrs. Lori McGowan, Mrs. Ruth Crim, Mrs. Lorene Morgan, Mrs. Delene Packard, Mrs. Sam Woodley, Mrs. Louise Crim, Mrs. Ethel Campbell, Mrs. Kathryn Wood, Mrs. Bob Green, Mrs. Lester Northcutt, Mrs. Shirley Sample, Mrs. Doris Graham, Mrs. Irma Bleshar and Mrs. Davis. ## WOMEN'S AUXILIARY MEETS

The Women's Auxiliary of the Presbyterian church met Monday for a luncheon meeting at the home of Mrs. T. B. Hudson. Special guests were the following state and group officers from Montgomery:

Mrs. B. F. Austin, Mrs. H. M. Crooks, Mrs. William Hall, Mrs. Flynn Hudson, Jr. and Mrs. Howell Turner.

## Amendments Appear In This Issue Of The News

Elsewhere in this issue of the Chilton County News are three of the Amendments that you will be asked to vote on at the polls on Tuesday, November 5th, 1946. It is your duty to study these amendments so that you will be able to vote intelligently when you go to cast your vote.

Two, three and nine, are the Amendments appearing in this paper. Amendment No. Two allows the state to "acquire, build, establish, own, operate and maintain hospitals, health centers, and other health facilities."

Amendment No. Three gives to the municipal corporation of Haleyville through its constituted governing authority the right to levy and collect a property tax.

Amendment No. Nine is in favor of Mobile County continuing to "have and possess all rights, powers and authority granted it by Amendment XVIII of this Constitution..." provided as to building of roads, bridges public buildings, etc., that all debts incurred or bonds issued by Mobile County under the provision... shall be in addition to the limit fixed by said Section 224, and shall not be taken into account or considered in determining or arriving at the debt limit of Mobile County...

## CARD OF THANKS

We wish to thank our many friends neighbors and relatives for their words of sympathy and thoughtful acts of kindness during the illness and death of our wife and mother—S. A. Harrell and family.

## JAMES MONROE MINOR

James Monroe Minor, age 23, died at his home in Beat 16 at 2:45 a.m. Monday, September 23rd, 1946. Funeral services were held Tuesday at 11 o'clock at Refuge conducted by Rev. M. Lockhart, assisted by Rev. N. E. Cook and Rev. Willie Robinson.

## W. M. U. TO MEET

The third quarterly meeting of the Woman's Missionary Union of Unity Association will be held at Wadsworth as guest of the Wadsworth Woman's Missionary Society on Sunday, October 15th, beginning at 10:00 a.m. The theme for the meeting will be "Open Doors" and our own Mrs. Roswell E. Owens will bring the missionary message. Members and visitors are urged to attend.

## Old Man Stork Visits News Employee

If errors pop up or you see ads printed upside down, blame it on old-man-stork. He delivered to Ernest (Jack) Jones and the Mrs. a wallowing 74 pound baby girl early Wednesday morning at the Central Alabama Hospital. Jack and Aileen have named their first Shirley Faye. The mother and Shirley Faye are both doing nicely. The father's condition is very uncertain.

## NOW IT'S SERIOUS

From all accounts the groans from shortages are found mostly among the adults. The injustices and functioning of certain agencies of control have caused the teeth-gritting of the oldsters.

It is apparent that most children are unconcerned about present operations that cause parents to worry over doing without and over shopping inconveniences. However, now the OPA is coming in for a lot of juvenile criticism with the announcement of smaller candy bars for the same old price.

Also affected will be numerous other candies and packaged sweets and gum. This venture into a small-scale invasion of youth's delights will bring remarks from a crowd usually quiet on such matters and a crowd that as a rule cares little about government restrictions.

But forces of today are no restricter of persons and if candy bars shrink, they still are larger than that beef-roast we had for dinner last week.

## WHETHER TO RETURN OR REMAIN

Families of servicemen and women who died overseas in this war, will be asked to select one of four options on whether the war dead will be brought home or remain abroad. The four options are:

1. Burial in a permanent military cemetery overseas.
2. Return to the U. S. for burial in a private cemetery.
3. Return to the U. S. for burial in a national cemetery.
4. Return to a foreign country, the homeland of the dead serviceman or next of kin, for burial in a private cemetery.

From this list, the last would probably be the least chosen. The third would be next, inasmuch as a family would want the body in a cemetery near them, to tend the grave. This leaves two choices that will be more apt to be selected by the next of kin. If we consider what the victim would choose, it would probably be to lie with his comrades, close to where he or she died. Also, these dead, would not want the added grief visited upon their family of the moving of the body. As for the foreign cemeteries, they are given thoughtful attention and care, enclosed with shrubbery and flowers, peaceful with their lines of hallowed dead.

It is a choice that is a personal matter for widows and parents to decide, and a sorely grievous decision it will be, in any case.

We would like to call your attention this week to an article elsewhere in the News regarding the assistance that is offered the farmer by the Production and Marketing Administration. According to the figures given there is approximately eight thousand dollars available in this fund for the Clifton County farmers and this amount will be lost to the county if the farmers do not take advantage of the opportunity offered by this office.

It is to the advantage of the county and yourself to investigate.

It still looks like there won't be many folks injured in accidents this year involving new automobiles.

It's getting to where we would even accept a good five-cent cigar without wanting to know who judged it good.

We understand that a new road program is underway in America. That will make it much more comfortable for people to go over the hill to the poorhouse.

Some women don't begin to care for a man until they see another woman chasing him.

## MORAL ECHOES

Rev. D. W. Haskew, D.D.

Wherever you're working, in office or shop And however far you may be from the top. Although you may think you're just treading the mill, Don't ever belittle the job that you fill.

For however little your job may appear, You're just as important as some little gear.

That meshes with others in some big machine And helps keep it going although never seen.

They could do without you, we'll have to admit. Still business keeps on when the big fellows quit.

And always remember, my lad, if you can: The job is important, more so than the man.

So if it's your hope to stay off the shelf, Think more of your job and less of yourself.

Your job is important. Don't think it is not.

Just try hard to give it the best that you've got.

Don't ever think that you're of little account.

Remember: You're part of the total amount.

If they didn't need you, you wouldn't be there;

So always, my lad, keep your chin in the air.

Whether digger of ditches, mechanic or clerk—

Think well of your company, yourself and your work.

—Author unknown.

Visited our good friend and kinsman Dr. Harvey Nix in Maplesville Monday morning. Found him down at the lake working. He's draining it and this week will scine for the larger fish. He is afraid they are eating the little fellows. We always enjoy a visit with Dr. Nix although not so old in years he is truly a gentleman of the old school.

And speaking of the doctor, we are reminded that when we told him that the Wesley Fellowship Class of the Clanton Methodist church was planning a "possum" hunt, he graciously offered his woods for the hunt. Of course it's up to the entertainment committee to say where and when but thought if they would pick that particular spot it would be a nice place for us to loaf while the rest of them hunted.

A new father was looking over the babies through the big plate glass window in the infant ward. Every baby there, it seemed, was crying. "What's the matter in there?" he asked the nurse. "If you were only a few days old, out of a job and owed the government \$2,050, you'd be bawling too" the nurse replied.

Mr. R. W. Lowe asked us to remind the populace that he could buy air-mail stamps now for a nickel. If that isn't a bargain in stamps we never saw one. Come to think of it, we never saw one. Anyway, that's what he said tell you and we told you.

## SARDIS

We had a large attendance at church Sunday. Rev. E. R. Dennis brought a wonderful message on "Love" and everyone seemed to enjoy it very much. After services church went into conference and elected officers for another year. Rev. Dennis was elected pastor for another year. Our preaching days are the First and Third Sundays and Sunday nights. We invite everyone out to these services. Everybody come to Sunday school Sunday at 10:30. We are going to elect teachers for another year. All who will come and worship with us.

## CIRCLES TO MEET

The tenth monthly circle meetings of the Clanton WSCS Methodist church will be held at the following ladies' homes on Monday afternoon. All circles meet at 4:00 o'clock p.m. with the exception of Circle 3 which will meet at 3:00 p.m.

Circle 1—Mrs. Mason Jones.  
Circle 2—Mrs. Malley White.  
Circle No. 3—Mrs. Oscar Jones.  
Circle No. 4—Mrs. C. C. Fiquette.  
All ladies are urged to attend their respective circles.

ed my driver of that Brewing Company made any provisions for the worship of their working force, and he said, "No, this business does not approve of churches." Do you not ask why? I can tell you. The Breweries in America are in the killing business. Look how drinking strews our highways with death. Look how it pulls the trigger and covers over our streets with human blood. Look how it marches into our homes and there piles up the dead. Yes, the Breweries are in the killing business.

It is not safe to buy land or to lend money and accept land as security without first investigating the Title of the land. Often there are unpaid mortgages and judgments or other liens, affecting the Title, which an Abstract would set out. Therefore, when buying land or lending money thereon, it is important that an Abstract of Title be furnished. A few dollars spent for an Abstract is cheaper than going ahead and having a law suit a little later on.

## Improving Their Skills to Serve You Better

THE above picture, drawn from a photograph, shows a study class of World War II veterans employed by Alabama Power Company who are receiving "on-the-job training" through the cooperation of Alabama Power Company, Veterans Administration and the State Department of Education. These trainees regularly attend classes outside of working hours to help them become more skilled in their jobs of serving you.

There are many such groups with us; over three hundred employees who are World War II veterans are taking these training courses which cover 19 skills. Other groups of employees also participate in specialized training classes.

You may be interested in knowing that 847 employees of Alabama Power Company entered military service and over three-fourths of those who have been discharged have elected to return to their jobs with us. Many of the remaining one-fourth are completing their education and will want to be employed by Alabama Power Company after graduation. (Over 250 are still in military service.)

The average number of Alabama Power Company employees during the war was 2,800. The average now is 3,625. Most of these additional 825 employees are World War II veterans.

STATE OF ALABAMA  
A PROCLAMATION  
BY THE  
GOVERNOR

WHEREAS, the Legislature of Alabama, at the Regular Session 1945, ordered an election to be held by the qualified electors of the State of Alabama upon a certain proposed amendment to the Constitution of Alabama, which said amendment is herein set out, and ordered that said election be held at the general election on the 1st Tuesday after the 1st Monday in November, 1946; and

WHEREAS, the first Tuesday after the first Monday in November, 1946, which is the 5th day of November, is the time for holding the next general election;

WHEREAS, notice of such election, together with the proposed amendment is required by law, and by the provisions of the Act submitting the amendment to the Governor to be published in each county in the State of Alabama once a week for four successive weeks next preceding the said 5th day of November;

NOW, THEREFORE, I, Chauncey Sparks, as Governor of the State of Alabama, do hereby give notice, direct and proclaim that on Tuesday, the 5th day of November, 1946, an election will be held at the several polling places within the State of Alabama, in the manner and form provided by law, upon the following proposed amendment to the Constitution of the State of Alabama of 1901:

"Notwithstanding any other provision of this Constitution, Mobile County shall continue to have and possess all the rights, powers and authority granted to it by Amendment XVIII of this Constitution and Act Number 246 of the Local Acts of 1927, as the same has been heretofore amended, and shall have and possess the power and authority to become indebted for the construction or erection of public buildings, bridges and roads within the limit prescribed by Section 224 of this constitution; provided, however, that all debts incurred or bonds issued by Mobile County under the provisions of Amendment XXIX shall be in addition to the limit fixed by said Section 224, and shall not be taken into account or considered in determining or arriving at the debt limit of Mobile County under said Section 224, and provided further that the six and one-half percent (6 1/2%) limitation in Amendment XVIII aforesaid shall be construed to refer not to the total amount of bonds issued under authority of the Amendment, but to the total amount of bonds so issued which may be outstanding at any one time."

I further direct and proclaim that notice of this election upon Tuesday, the 5th day of November, 1946, upon the above set forth amendment to the Constitution of the State of Alabama of 1901, be given by publishing the same once a week for four successive weeks next preceding Tuesday the 5th day of November, 1946, in each county in the State of Alabama in a newspaper published in said county.

IN WITNESS WHEREOF, I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed by the Secretary of State, at the City of Montgomery on this, the 23rd day of July, 1946.

For light-traffic roads and streets, secondary and auxiliary airport surfaces, large auto parking areas

Wherever light-traffic pavements must be built at lowest first cost, it pays to use Soil-Cement.

SERVICE-PROVED. Soil-cement has thoroughly demonstrated its durability and strength under all weather conditions. Hundreds of miles of roads and millions of square yards of airport runways of soil-cement are now in use.

SOIL-CEMENT is a scientific mixture of portland cement and the soil on the site. Moistened and compacted, it hardens into a strong, durable

material highly resistant to sun, rain and frost. First cost is low because soil-cement is about 90% soil. Large areas can be put down rapidly with simple equipment and ordinary labor. Precise but simple methods of laboratory control assure durability.

MONEY SAVING. Soil-cement does for light-traffic what portland cement concrete does for heavier duty—it provides long serviceability at low annual cost. Urge your officials to use soil-cement where light-traffic pavements are needed.

## SERICEA SEED SAVED

## SHOULD MEAN PROFIT

Seed needed for planting lespedeza sericea on thousands of acres next year are being harvested all over the state.

Sericea is becoming more popular each year for grazing and hay, so the price of planting seed should give a profit to farmers who have them for sale next spring.

J. C. Lowery, API extension agronomist, says to combine the seed when they have turned brown and are fully mature, usually just after the first killing frost. If small combines have trouble in handling woody stems, cut less than a full swath.

Farmers may wish to cut plants with a mower having a windrow attachment. If plants are cut with a sharp mower early in the morning, Lowery says there will be little loss of seed from shattering. Let plants lie in windrow until leaves and smaller stems have dried. Then thresh seed. Lowery adds that seed of annual lespedeza—common, Kobe, Korean—will also be in demand, and should be saved.

Mustard, turnips, radishes, Bermuda onion sets and multipliers should go into the garden now, suggests W. A. Ruffin, API extension gardener.

We the children, grand-children and great-grandchildren, take this means of thanking our many friends for their kindness in coming to us in our hour of sadness, at the death of our father, H. W. Gibson and we would not forget our colored friends for their help nor would we forget to thank all those who had a part in bringing the beautiful floral offering.—The family.

## MORE IRRIGATION SEEN IN ALABAMA

Chances are that within a few years quite a number of commercial vegetable growers and home gardeners won't worry too much about droughts, but will let an irrigation system give their crops the needed "rain".

Interest in irrigation is rapidly growing and when there are more materials many farmers will install watering systems, believes P. B. Wilson, API extension engineer. Irrigation is cheap enough for use on field size operations and on home gardens, he says.

Farm ponds, creeks, and flowing wells give the best supply of water, so areas to be irrigated should be located near there.

## DEMAND GOOD FOR QUALITY TURKEYS

Never has the gobble of a turkey been sweeter music to the ear of meat-hungry folks — and that's why Alabama farmers have never had a better time to sell quality turkeys.

Only those that show good finish, fat over the back, good breast development, no pen feathers — should be sold. John Ivey, API extension poultryman, advises keepers others until they have reached their best finish. Birds that have always been on full feed usually are ready to market when 28 weeks old.

It's time to start heavy feeding of grain, if this hasn't been done. Ivey says to keep oats before turkeys at

## IF NO LATE BLIGHT TOMATO CROPS GOOD

One important thing farmers will remember about their gardens this year is that control of late blight of ten meant the difference between plenty of tomatoes and no tomatoes.

Where five per cent copper dust or diathane spray was used to keep late blight from getting started on tomato plants, John Bagby API extension vegetable specialist, says that no losses were reported. From 25 to 100 per cent loss took place when a spray schedule was not followed.

Farmers found that blight could not be cured; it had to be prevented from getting on plants. Dusting or spraying that completely covered the plants had to be made every week or 10 days.

The Home-makers Sunday school class will meet at the home of Mrs. J. C. Burnett, Friday, October 18 at 2 o'clock.

Turkeys grow off faster if toms and hens are separated at about 18 to 20 weeks of age.

## YOU MAY NOW JOIN ARMY RESERVE CORPS

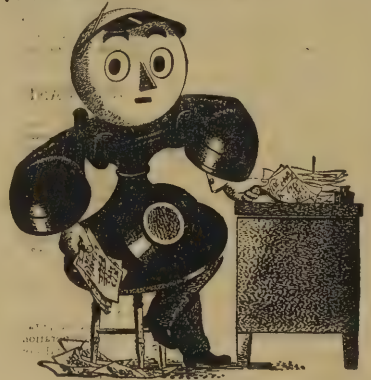

Of interest to all former flight officers, warrant officers and enlisted personnel who served in the Army after September 16, 1940 and who were discharged on or after May 12, 1945, is a recent War Department Circular whereby they may join the Enlisted Reserve Corps in grades as high as Master Sergeant, provided they join within six months after discharge or before July 1, 1947 whichever is later.

For further information see Sgt. Brantley next door to draft boards in Clanton.

"A good crop of winter legumes will keep soil from washing, provide winter grazing, and increase the yields of crops following them," Crawley declared.

Seed and fertilizer for legumes can be secured through county PMA offices. Crawley advises farmers to ask for these materials as soon as possible because the supply of some of them is limited.

THE PAY OUT IS INCREASING FASTER THAN THE TAKE IN

Your Telephone Company is doing the largest volume of business in its history, yet telephone earnings are still declining rapidly.

The reason is perfectly clear. Your telephone rate has remained the same for many years while the costs of furnishing you telephone service have increased. Wages, telephone materials, building costs, services, all have been going up so fast that—

the amount of money Paid Out to provide service is increasing faster than the amount Taken In. Actually telephone earnings today are the lowest in our history!

As every business man knows, good service depends on reasonable earnings. That is basic. To render good telephone service and to continually improve and expand it, reasonable telephone earnings are essential.

Our public duty demands that we report these facts to you.

Over 100,000 acres of blue lupine will be planted this fall to improve Alabama soils. The largest acreage will be in Southeast Alabama's commercial peanut counties.

It's time to change from growing to laying mesh when egg production has reached 20-24 per cent, say API extension poultrymen. If chickens are slow to come into production, use electric lights to make them eat more.

Do not allow sweetpotatoes to become chilled when they are being cured. API extension truck crop specialists say that potatoes should cure at a temperature of 80 to 85 degrees for 10 days to two weeks.

CORRECT—ATTEST:

F. J. CALLEN, M. S. SHAW, W. L. POPWELL, Directors.

State of Alabama, County of Chilton, ss:

Sworn to and subscribed before me this 8th day of October, 1946, RUBY BRANCH, Notary Public.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACTS OF CONGRESS OF AUGUST 24, 1912, AND MARCH 3, 1933, of Clifton County News, published weekly at Clanton, Alabama for October 1, 1946.

STATE OF ALABAMA,

County of Chilton,

Before me, a Notary Public in and for the State and county aforesaid personally appeared R. M. Tucker who, having been duly sworn according to law, depose and says that he is the Editor of the Clifton County News, and that the following is, to the best of his knowledge and belief, a true statement of the ownership management of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended by the Act of March 3, 1933, embodied in section 537, Postal Laws and Regulations, printed on the reverse of this form, to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:

Publisher: Mrs. Mark L. Tucker Clanton, Alabama.

Editor: R. M. Tucker, Clanton, Alabama.

Managing Editor: Clark Headley Clanton, Alabama.

Business Managers: R. M. Tucker, Clanton, Alabama.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: Peoples Savings Bank, Clanton, Ala.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's knowledge and belief as to the circumstances under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

Sworn to and subscribed before me this 7th day of October, 1946, J. C. BURNETT, Notary Public.

R. M. TUCKER, Editor.

H. W. GIBSON

The Macedonia community was shocked and saddened last Thursday October 3, at the death of our friend and neighbor, Mr. H. W. Gibson whose life was ended about 12 o'clock.

He leaves to mourn his loss, a wife, 2 sons, F. C. and Laton Gibson, five grandchildren, 4 great-grandchildren many other relatives and friends.

Funeral services were held at Macedonia church conducted by Rev. Paul Oden, Bro. J. J. Jones officiating. Interment was in the adjoining cemetery with Spigener Funeral Home in charge.

Palbearers were: J. E. Moore, Crit Moore, Floyd Nix, W. A. Raspberry Leonard Lenoir and Proctor Davenport—J. C. Veazey.

F. F. A. Group Visits State Fair

The Clifton County High School FFA visited the Alabama State Fair last Wednesday. There were many attractions such as the motion picture of the Atomic Bomb and the educated monkeys which could do many things. There were also the motion picture and the real car in which the notorious bandits, Clyde Farrow and Bonnie Parker were killed. The car had approximately 150 bullet holes in it. There were many devices for riding.

The auto races drew many sightseers from all over the state. The Agriculture exhibit contained many jars of different fruits and vegetables such as corn, cotton, oats, hay and wheat. There were many beautiful tables.

The Army displayed many guns and other weapons unused in the war.

I am certain that all members who went to the State Fair enjoyed it.—Horace Headley, Sr. Agriculture.

MRS. EVIE BURNETTE

Mrs. Evie Burnette, age 64, died at the residence of her niece, Mrs. J. R. Hays, Clanton Route 1 Friday at 10:30 a.m.

Clanton Recapping Co.  
ANNOUNCES

It is with pleasure and pride that we announce the purchase and installation of several new OK TEADWELDERS which gives Clanton the best equipped recapping plant in Alabama.

GUARANTEED TRUCK TIRE RECAPPING. Modern patented features of the OK truck treadwelder allows us to guarantee every truck tire to be recapped with precision efficiency. There is no distortion to tire or casing, the sidewalls float absolutely free from all damaging heat or pressure.

ONE DAY SERVICE. No longer will your truck tires have to be shipped to other cities for recapping. This plant is equipped to recap all sizes truck tires. Tires brought in by 9 a.m. will be ready by 4 p.m. the same day.

Why can we guarantee truck treadweld recaps? Because this new and proven recap method of OK tire servicing is superior to any other equipment. NO HEAT ON THE SIDEWALL—only the tread is subjected to a curing temperature during the recapping process. The inside of the tire is protected by the solid rubber pressure band which gives a follow-up pressure for Longer Wearing, tougher, recaps.

NON-SKID TREADS. You will like the new Radi-Grip tread, it is good on all roads—Mud and Snow tread is available in the 600-16 size. Get your car or truck ready for winter mud by having two of your tires recapped with a Mud and Snow tread.

## PATES CHAPEL

We hope everybody was as happy as we were about the attendance of our Sunday school and church.

We were also blessed Sunday in having with us Mrs. Thomason and Mrs. Grant who gave a very interesting talk about W.M.U. and its work. We invite them back when they can come. Also visiting were Mr. and Mrs. Malcolm Manning.

Sunday night was the time to re-organize our B.Y.P.U. an there was a nice crowd. And, the following officers were elected:

President—Mrs. Claude Dawson.  
Vice-president—Mrs. Enoch Hayes.  
Sec.-Treasurer—Mr. Jessie Dawson.  
Adult Bible Group Captain—Mr. Arline Dawson.

## How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.

2 Started 3 days before "your time," it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.

## FLOYD NEWS

We are glad to say that the health of this community is good at present. Everybody are busy trying to get their gathering done.

Sunday was our regular preaching day and Bro. Frank Hill was with us and brought the message and also preached for us Sunday night which was enjoyed by a large crowd. We invite Bro. Hill back when he can come our way.

Bro. Wilkins and Bro. Hill were the dinner guests of Mr. and Mrs. A. O. Taylor.

Mr. J. M. and wife, Mrs. Annie Scott and Mrs. Earnest Martin were the dinner guests of Mr. and Mrs. W. J. Huett.

Mr. and Mrs. Joel Prickett are the proud parents of a fine baby boy which arrived October 4th.

We want everyone that can to come to Sunday school next Sunday and bring someone with you. We need you.

Bro. Frank Hill will be back with us the 2nd Sunday in November. Everybody bear this in mind and come out to hear him.

Mr. and Mrs. Irvin Hudinan and Mrs. Floree Sims from Montgomery were the week end guests of their parents, Mr. and Mrs. John Hudman. Mr. and Mrs. Newt Strength of Prattville were the week-end guests of Mr. and Mrs. A. O. Taylor.

To have house flowers for Christmas, October is the time to plant bulbs in pots. They should be planted in dishes of moist pebbles and placed for 2 weeks in a dark closet. As roots develop, they can be brought in to the light and placed in a cool sunny window.

Before winter sets in, all closets, attics and storerooms should be cleared of rubbish, old magazines and the like. This will avoid fire hazards.

## VERMONT SCHOOL NEWS

Our attendance for the last month was very good.

We are glad to have Mrs. Morony back with us but sorry that Mrs. Broadhead isn't with us any more. She has been going to school and teaching ever since she was five years old and she thought she needed a rest.

We have had several visitors the past month of school. Sure were glad to have them and we welcome them any time they wish to come.

We gave Mr. Broadhead a G. I. and put him on KP but we didn't have anything for him to do.

Coach of Alabama

# "NOT TWICE AS MUCH... BUT TWICE AS GOOD!"

says *Frank W. Thomas*

And Coach Thomas knows his cola—as well as his football! He led the famous University of Alabama team to another smashing Rose Bowl victory last season, and is looking forward to a repeat performance.

Frank Thomas prefers LIME COLA for the same reason you will. It's the quality cola drink—not twice as much, but seven ounces of twice-as-good cola. Not over sweet, but tangy, sparkling, just right for delicious thirst-quenching refreshment. Ask for LIME COLA every time you want a cooling pick-up. Reach into the icebox for ice-cold LIME COLA every time you want an appetizing treat with meals. Look for the big white "LC" that means satisfying, twice-as-good LIME COLA!

## Good News For Folks Who Suffer From

- ✓ STOMACH GAS
- ✓ SOUR FOOD TASTE
- ✓ ACID INDIGESTION

Do you feel bloated and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief from this nervous distress.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, lousy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional ailments—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better. Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait until the best of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

## Syphilis Survey To Be Made In Chilton County

The County Health Officer, Dr. E. M. Moore, announces that Mr. A. G. Bumpas, of the State Health Department, is now in Clanton and will remain in the community for six weeks in the interest of the forthcoming syphilis blood test survey, which is to get underway in the County on Monday, November 11th.

This blood test program is conducted by the Chilton County Health Department in cooperation with the State Health Department under the provisions of the Henderson Act, a law passed by the Alabama Legislature in 1943, which provides that all residents of the county between the ages of 14 and 50 inclusive, shall have a blood test for syphilis at the time designated by the Health Department.

The purpose of the mass blood test survey is to detect the hidden cases of syphilis, the blood test being the only way this stage of syphilis can be discovered.

Dr. Moore feels sure the people of Chilton County will appreciate the value of this survey to the community and to the state and county as a whole and urges all persons to give this program, including the schedule of the blood-testing stations, will be published at a later date in this newspaper.

## Letter From Sheriff Nivens To Voters

My deep appreciation is extended to the voters of Chilton County for their cooperation and interest in my campaign for re-election as your Sheriff. My past administration of this office has better fitted me as an officer and I feel that I can be of more service to the county for the next term of office than I have in the past.

I ask you to continue your work in my behalf with a full knowledge of the importance of this office and its duties and point with pride to my record for the past term as your Sheriff. I have been willing at all times to answer when called to enforce the law to the best of my ability, wherever or whenever it was, and assure the voters of this county that you can continue to call on me and know that I will be ready.

We are coming to the end of this campaign and I must admit that I have not been able to see all the voters but it was not because I did not want to. The duration of my office requires a lot of time and I do not get to see you it is because I do not have time.

I do want each and every one of you to continue the good work in my behalf and I will try and justify your confidence in me by making you the best Sheriff Chilton County ever had. Yours for victory on Nov. 5th,  
J. A. NIVENS.

(pd. pol. adv. by J. A. Nivens, Clanton.)

## Jersey Cattle Club Formed; To Sponsor Jersey Show

Purebred Jersey cattle owners met in Clanton Saturday for the purpose of organizing a Jersey Cattle Club. For some time purebreds have been brought into the county as 4-H Club projects along with those purchased by adult farmers of the county.

Purebred Jersey cattle owners have recognized the need of a local organization to promote better breeding and management of Jersey cattle in the county. Several purebred herds have been started and the owners feel by testing and proving the individual of the herd it will be very helpful in building a recognized herd. Through a well-organized club this will be possible.

Officers of the club have been elected and are as follows: President, O. Lawrence, Route 1, Billingsley; Vice-president, R. O. Williams, Route 1, Clanton; Secretary, Clyde Henderson, Route 3, Clanton. All of the officers are purebred Jersey owners and have a definite interest in getting a Jersey improvement program.

A committee was appointed by Mr. Lawrence to make arrangements for

## Clanton Wins Over Shelby; Go To Lanier Friday Night

The Chilton County High School football "tigers" recorded their second victory of the season last Friday night when they defeated Shelby County High 7 to 5 in a close, hard-fought gridiron tie.

In the first period Clanton was outplayed from the beginning with Shelby County on the march after receiving the initial kickoff. Shelby scored, failing to convert the extra point.

Midway the second quarter, Clanton came to life and demonstrated superb football and teamwork as they marched toward the goal in the fourth period. Clanton scored on a pass from Shelby County's thirty yard line. McCain, who has been making quite a record for himself this season, threw a beautiful pass into the zone to Cox good for Clanton's marker. Thomas-McSwain was rushed into the game for the conversion, which was good patting Clanton in the lead 7 to 6.

An estimated crowd of 1800 spectators saw the game.

Next Friday night Clanton journeys to Montgomery to play the Lanier Poets in the first contest with the Montgomery eleven. Last Friday night Lanier was defeated at the hands of Selma 12 to 6. What Clanton can do with the strong Poets remains to be seen. One thing sure: Clanton will have plenty of moral support from the sidelines from hundreds of Clanton backers who expect to follow the "tigers" to the Capital city.

## 1946 FOOTBALL SCHEDULE

Oct. 18—Lanier at Montgomery  
Oct. 25—Selma at Clanton  
Nov. 1—Holville at Clanton  
Nov. 8—Montevallo at Clanton  
Nov. 15—Wetumpka at Clanton.

## Charlie Cox Writes Voters

First I want to say to my friends in Chilton County that because of the short time I have to make my race I will not get to see all of you. However, I want you to know that I appreciate your help and cooperation and assure you of my sincere effort to be governed in all my legislative work by the will of the residents of Chilton County.

I want to repeat that I am absolutely in sympathy with the Old Age Pension plan. Mr. Folsom and will do all in my power to secure this needed aid for the aged as soon as possible. Let it be said here that I agree with Mr. Folsom in all of his worthwhile campaign plans and intend to cooperate with him in all that he does. Since there is a better state in which to live.

I will introduce and promote a bill in the Legislature to abolish the sales tax system, which will do away with the token. It is a nuisance and I believe that the large majority of people are dissatisfied with the method used in paying this tax.

I could write a long platform that would look good on paper but in my opinion the people have been fooled so many times by campaign promises I have decided to promise only that which will do all that I can for the people of my county and let them decide the laws that will govern them.

Before November 5th, I will have more to say regarding the election and my campaign. I will mean to put the word at the bottom of my heart for your favors to me, past and future, and ask you to call on me at any time. I am always at your service—politically or otherwise.

Your friend,  
CHARLIE COX.

## 100 FAMILIES TO MEET IN CLANTON 17TH -- TODAY

One hundred farm families will meet with representatives of the FSA at the City Hall in Clanton Thursday October 17, at 9:30 a.m.

The families who have recently made application to the Farm Security Administration for loans to purchase farms have been invited to attend a meeting with representatives of the FSA. This meeting is being held in order to better acquaint interested persons in the Farm Ownership phase of the Farm Security program.

Farm Security is one branch of the United States Department of Agriculture. This agency is responsible for making supervised loans for purchasing farms to worthy farmers.

Every person who anticipates getting such a loan through the FSA should have a complete understanding of the advantages and disadvantages qualifications needed by each person to whom a loan is made will be discussed. Also types of farm and buildings required by regulations set up by Congress will be reviewed as pertaining to Chilton County.

Out of county representatives of the Farm Security Administration are Mr. M. Pearson, State Director, and Margin Durbin, District Supervisor.

Also assisting B. N. Ivey, County FSA Supervisor, will be the local county personnel and members of the County FSA Committee.

Approximately 1,350 farms have carried out soil building practices to date in Chilton County. This is about fifty percent of the total number of farms in the county. Since there is still ample time to carry out soil building practices under the 1946 program year, which ends Dec. 31, 1946, Mr. Campbell urges more participation during the remainder of the year.

## GOLDEN RIVER BOYS AT CLANTON COURTHOUSE

Yes, these likeable, lovable and fun loving boys, along with the jolly radio announcer, Joe Rumore, heard over WAPI daily, will appear at the courthouse on Wednesday night Nov. 6th in a full hour and a half of the best of entertainment. This program is sponsored by the Thomas Jr. High school P-T. A. The time is 7:30 and admission will be 30 and 60 cents. Come early to be sure of a seat. Joe says he wants to see and shake hands with all his Chilton radio fans. We're looking forward to having the entertainers and the crowd.

Mr. and Mrs. Ernest (Jack) Jones had as visitors last Sunday Mr. and Mrs. Crawford Carroll of Columbiana, C. D. Stuffedfield of Sylacauga, Mr. and Mrs. Stewart Arnold of Aniston and Mr. Floyd Busby of Aniston.

## AMENDMENT NO. 7

At the general election on November 5, the state will vote on an Amendment to the Constitution which would permit the state to assist financially in the construction, improvement, maintenance and operation of public airports.

The passage of this Amendment (No. 7) is necessary if the State of Alabama is to participate effectively in the Federal Aid Airport Program now authorized, and is to provide State Aid to local communities for airport construction.

Public airport construction will be highly restricted and Alabama will be handicapped if this Amendment is not passed. The Amendment should be of interest to all who are interested in the welfare of Alabama, for an adequate airport service. Air transportation is affecting the economic status of Alabama and every person in Alabama, consequently Alabama must be provided with the best possible service.

With Federal Aid and State Aid, Alabama's airport system can be steadily expanded and many more essential fields can be built. We look forward to the time when every town will have some kind of airfield facility. Thus, every town in Alabama has a stake in aviation, either currently or in the future.

Amendment No. 7 places no burden on the State of Alabama. A similar Amendment was necessary before the state could participate in the Federal Aid highway program.

This is to urge your support of Amendment No. 7 and we hope that you can assist its passage. There are no personal interests of any kind involved. It is for the welfare and progress of the State of Alabama.

## COMPULSORY TRAINING

Present international turmoil may have some effect on the Congress that will pass legislation in January providing for universal military training for six months of continuous duty with the Army. Although the Army had originally asked for a year of military training, even the six-months training will meet with disapproval. There are those who feel such a step on the part of this country wouldn't help to solve peace programs, feeling it would intimidate other nations. This insecurity among other people would not further our cause. But there is a large group of Americans who do not want to be in the unprepared position as before the past war and who believe compulsory military training is vital. January will tell what Congress intends to do about it.

## ANIMAL BLOOD BANKS

None deny the value of human blood banks. The saving of life in war and peace, through this means, is exceptional. Blood banks are now founded in animal clinics and hospitals, to save livestock. They can store blood of cattle and horses as long as 120 day. Cow blood doesn't need "typing" but horse blood does. The animal donor must have a clean bill of health, as do human donors. Cows have safely yielded up to two quarts of blood for the bank and the sick animal, if large, can be given from half to three quarts of blood at a time. Wire cuts where much blood is lost, sweet clover poisoning, foundered horses, pneumonia, navel ills, all have been cured through the animal blood banks. This is real service to animals and to man.

## STILL PITCHING

It didn't take baseball and its fans long to swing into their post-war conversion. Back in the ball parks fans proceeded to yell and holler and the batter continues his pre-war strike outs and home runs. Interest in the national game has not died down with the years when the big league names were batting for their Uncle Sam. To the millions of fans here and overseas, baseball is still king. A man can work for his daily subsistence and face pressure groups in economy, can worry over hints of war cloud and still return to his sport with fervor. This is the reason we, here in Clanton, like being Americans.

Politics in China give us an idea of what one means by a "Chinese Puzzle".

### ABOUT TOWN

-By BEN

The melancholy days have come,  
The saddest of the year.  
The frost is on the pumpkin  
And corn is on the air.

And if you have been listening to the fall radio programs lately you know exactly what we are talking about.

Youse guys and gals who utter belong to the Wesley Fellowship Class at the First Methodist Church and don't go there any more had better get out your (or should I say our?) Sunday clothes and get ready to attend next Sunday. The class officers have set their goal, 100 old and new members and the idea is if you don't go Sunday and get yourself in good standing you can't attend the wiener roast and possum hunt on next Monday night. Also, that's the tenth anniversary of Mr. Omar Reynolds teaching of this class. We have said often before, Omar Reynolds is just about "tops" when it comes to teaching a Sunday School class and his listeners are always glad they had the privilege of hearing him.

The young folks dance at the City Hall the other night after the game was very well attended. It is proof of the need of recreation facilities here for the teen agers. Cecil Ramsy and Mrs. Ramsey were watching the kids Cecil suggested that the merchants of Clanton make donations for the expenses of the hall and the music each week for the youngsters. We think it a wonderful suggestion and for one are ready and willing to do our part in helping the high school students. They certainly shouldn't have to seek their own entertainment. It is our duty as parents to supply it and supervise it.

We believe this about the right season for this story. Seems five good friends decided to go hunting. They drove out in the country some ten miles and when they came to the likely looking farm they stopped. One of the men went over to the farm house to ask permission to hunt and found that the resident was an old friend. He told him that they could hunt to their heart's content but asked him to do him a favor. He had a horse in the lot that had to be destroyed because of old age but he didn't have the heart to do it and asked his friend if he would do the job. "Why certainly," the hunter replied. Upon returning to the car the other four asked him what the farmer said. "The tight old so-and-so wouldn't let us hunt" he complained. "I'm great mind to go over to his lot and shoot his horse." So saying he went over and shot the horse dead in its tracks. The four friends who had got out to stretch their legs jumped into their car and headed for home. It took thirty minutes of telephoning by the practical joker to catch his friends and bring them back.

We couldn't say just where to, but the morning after November 5th anyone wanting to write a personal letter can write across the front of the envelope, "Please Forward". We plan to hibernate for about two weeks.

Our deepest sympathy to the Alred family and the Callens. Mrs. Hance Alred's place in the community cannot be filled. She was a willing and cheerful worker in all things for the betterment of her friends and her surroundings. She will be sorely missed by all who knew her and her friends were legion.

### Week's Best Recipe

Chicken Marengo: 1 young, frye chicken, drying fat, three-quarter lemon salt, one-quarter teaspoon pepper, one dozen small white onions, one dozen mushrooms, one garlic clove and pour over chicken This is a favorite French recipe.

### Crumbs for topping

Dry bread, ground into very fine crumbs, mixed with melted butter or oil is used for topping baked corn or broiled tomato halves. Serve with fricasseed or stewed chicken, egg noodles laid in chicken stock and topped with buttered crumbs. To make buttered crumbs for casserole dishes, cut stale but not dry bread in fine cubes. Four melted butter or margarine over them and toss lightly until all crumbs have taken up some of the fat. Pour over top of dish and bake for 20-30 min. in moderate oven so crumbs are lightly browned. Another way to use crumbs over vegetables, as green beans broccoli or Brussels sprouts: cut stale bread in fine cubes. For one c crumbs melt 4 T butter or margarine in heavy frying pan. Add 1 t onion juice, black pepper, one-quarter t powdered thyme. Brown crumbs is seasoned butter and sprinkle over cooked vegetables.

### Drying Sweaters

A subscriber gives the following as an easier way to dry sweaters: take an ordinary window screen, depending upon the size of the garment. Place this on chair arms or any other support that only touches the edges of the screen. Lay a bath towel over the screen, pull sweater into shape on the towel. It dries in less time since it gets complete circulation of air and the shape is not stretched out of shape.

## NEW SALEM

The singing at the church was real good Friday night. The Dixie Melody Four from Birmingham was with us. They did some wonderful singing. We want to invite all lovers of music back Friday night. Also we invite all quartets. After this week we will change our singing from Friday night to Wednesday night. Everybody remember that Sunday is our regular preaching day. Rev. Nunley will bring the message.

Come and bring someone with you

### TEMPLE CHURCH

We have just closed a very successful year at Temple church with Rev. and Mrs. A. T. Hickman as pastor. With their untiring efforts we have about twenty-five added to the church. Our average attendance was 85 for the year and also the offering was very good going over \$4,300.00 for the various departments of the church. We are truly thankful to everyone for their cooperation with us and for our Heavenly Father's great blessing to us. Our church maintains a full-time pastor and you are cordially invited to come and be with us every Sunday and Sunday night and Wednesday night.

## MACEDONIA

Sunday was the last day for Rev. Oden to preach for us. He brought two wonderful messages. Those who were absent sure missed something. We will miss Bro. Oden a lot.

Next Sunday will be the time for Bro. Hand, our new pastor, to preach. Everyone come and let's cooperate with our new pastor for the coming year.

Miss Bertha Hayes of Selma spent the week end with her sister, Miss Lula Mae Hayes.

Mr. and Mrs. Harvey Glasscock and daughter, Peggy, of Bessemer, spent the week end with Mr. and Mrs. W. A. Rashley.

We were glad that uncle Zack Jones was able to be at church Sunday and enjoyed him teaching the Sunday School class. He had dinner with Mr. and Mrs. Pratt Crumpton.

Miss Mariah and Hoyt Freeman's visitors Sunday were Mr. and Mrs. Mack Oden and Mr. Raymond Oden of Lawley and Mr. and Mrs. Stanley Hayes of Maplesville.

Mrs. Joe Ward has returned home from Birmingham.

Mr. and Mrs. D. E. Moore, Mrs. Winston Langston, Mr. and Mrs. Walter Jones and Mrs. Maude Duncan of Loxley, Mr. and Mrs. F. C. Gibson and Mr. Crit Moore were Aunt Mat Gibson's visitors Sunday.

Mr. and Mrs. J. C. Veazey spent Sunday afternoon with Mr. and Mrs. Floyd Nix.

Miss Lorene Oates spent the week end at home with parents.

Mr. and Mrs. Bill Abney of Cox visited Mr. and Mrs. F. C. Gibson Sunday afternoon.

Visitors at church Sunday were Mr. and Mrs. Mack Oden, Mr. Raymond Oden and Miss Bertha Hayes.  
Mr. Austin McCarty of Birmingham visited his parents, Mr. and Mrs. Carl McCarty during the week end.

### WORK ON PASTURES SHOULD START NOW

There's no better time than right now to begin making a new permanent pasture. The first job is to choose the land where the pasture is to be located. Lime it and then break soon if it isn't steep enough to wash. Early fall breaking gives grass and weeds plenty of time to decay.

In late January or in February the land, disk, and smooth down, advises J. C. Lowery, A.P.I. extension agronomist. Rain will settle the soil into a good seedbed and planting can be done at the right time. The mixture most commonly seeded in the spring is lespedeza, dallis grass and white Dutch clover.

Farmers who planted pastures last year, or before, should now get the fertilizer that needs to be put down when growth begins next spring. Lowery says that if orchard grass, blue grass, and white Dutch clover are the main plants in the pasture, it is better to fertilize this fall.

## LESS SOIL EROSION IF STALKS ARE CUT

Cotton and corn stalks standing on about six million acres in the state can help keep fields from washing this fall and winter if they are cut down soon after crops are gathered.

These stalks are cheapest "cover crop" because the only cost is running a stalk cutter or a disk over them. plants—cut now will make the soil conservationist, says that when stalks are lying on the ground they make millions of little dams on every acre. The dams keep rainfall from running quickly off the land, washing soil it. Besides checking erosion, cotton and corn stalks—and any other kind of plants—cut now will make the soil more fertile. Also it is easier to fix the land for planting next spring if stalks have decayed through the winter.

## LIVESTOCK BETTER WHEN NOT IN BARN

Livestock kept on green grazing, crops and away from barns the year around usually are not bothered with sedias and internal parasites.

Nearly all cases of hog cholera found are in animals kept in or around barns, rarely in those that stay on grazing crops, says W. H. Gregory, A.P.I. extension livestock specialist.

Cattlemen have learned that a pine thicket on a well-drained slope is the best barn. Calves raised out in the open do better than those penned in barnlots.

Soil in and around barns becomes infested with eggs of all kinds of internal parasites and disease germs. The main use of barns should be to store surplus feed, not to house livestock.

## PATES CHAPEL

As we come to another beautiful autumn day like Sunday, with a cool breeze in the air, there were many bright and shining faces at church which we should all be thankful for as there is so much need for church work everywhere now.

We are also blessed with health in our little midst, too. So let's everybody come to church while we can and bring the children or someone with us, especially the parents.

Let's not send our child to church or Sunday school by themselves, by going with them this will help to plant the seed of righteousness in his mind and help him to grow into a strong christian character and when he grows to go out from his or her home he will depart from the way he was taught by his parents and fall into the wicked ways of the world.

He will stand firm through all these temptations. So let's remember there is only one right way, and that is God's way. May we all realize that we cannot expect our children to overcome all these temptations by themselves because the soul of child is the loveliest flower that grows in the garden of God.

Mr. and Mrs. Ollis Watley and children were guests of Mr. and Mrs. Evans Dawson Sunday.

Mr. and Mrs. Arline Dawson had as their guests Sunday Mr. and Mrs. Earl Flays and little daughter, Pat.

Mr. Carl Maddox's guests Sunday were Mr. Jessie and Earline Gene Dawson and Jimmie Patterson.

Sunday, October 6th, Mrs. Earl Hayes was blessed in having her mother, Mrs. Jimmie Franklin and children spend the day with her.

Mr. Clyde and Charles spent Sunday with Mr. Carl Franklin.

As Sunday night was our first in BYPU, we will have to praise our young folks on such nice behavior and such a good prepared lesson. It was just wonderful to see such an interest they are taking in it.

Next Sunday is our regular preaching day and night. So let's everybody come Sunday and Sunday night to BYPU at 6:00 and preaching afterwards.

### JEMISON F.F.A. NEWS

Our chapter has made many improvements this year. We have 58 boys enrolled in vocational agriculture, have initiated 29 new F.F.A. members and organized a chapter quartet.

Our officers for this year are Mr. L. C. Shields, advisor, Douglas Glasco, president; Preston Burnett, vice president; Dane Lowery, reporter; Grady Martin, treasurer and Junior Blow, secretary.

During the summer months the vocational building was painted on the inside and fluorescent lighting was installed after school began.

Several boys have decided to raise beef calves to compete in the coming annual stock show this year.

In the shop the boys have been repairing farm machinery and on the outside they have been building concrete doorsteps for the elementary school buildings.

In the future we plan to make many other improvements in our chapter—Dane Lowery, reporter.

### CREAT YEAR EXPECTED AT SOUTHERN UNION COLLEGE

Reading 'riting and 'rithmetic are in full swing at Southern Union again and when we say "full swing" we mean "full swing". The enrollment doubles that of last year with students who hail from Alabama, Georgia, Kansas and New York.

The brand new faculty includes: Miss Marguerite Davison, Dean of Women from Thorsby, Ala and Miss Annie McKee, dietician, also from Thorsby, Ala.

## Does Stomach Gas and Bloat Make You Feel Miserable?

If so, here is how you may get blessed relief in treating your stomach from this nervous distress. It works this way: Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else food may ferment. Sour food, acid indigestion and gas frequently cause a morose, lousy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

SSS Tonic helps build-up non-organic, weak, watery blood in nutritive anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better. Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait till the host of SSS people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Body Health.

### SOIL CONSERVATION NEWS

Cooperators who have planned to do fall seeding of White Clover should do so as soon as possible on a thoroughly prepared seed bed. In many cases, seeding of White Clover on an unprepared seed bed has resulted in complete failures. For information on fall seeding of pastures see your County Agent or your Soil Conservationist.

H. M. Nix of Maplesville has a wonderful stand of Caley Peas seeded this time in Sericea. Caley Peas, a reseeding winter annual, will furnish winter grazing and the sericea will furnish summer grazing and hay.

Upon examination of sericea lespedeza for mature seed you will find that they are almost ready for harvest. Check your machinery and have them ready to get these badly needed seed. A good seed crop from sericea or annual lespedeza can be another good source of income.

Kudzu that is going to be cut for hay should be done within the next two weeks or before November 1st as this will be about the date of the first killing frost.

J. G. Dida has just completed drilling oats in on his Kobe Lespedeza after applying three-hundred pounds of 0-14-10 per acre and is now awaiting moisture to germinate his oats.

### MORE WHEAT NEEDED ON FARMS IN STATE

Maybe you haven't figured on it but a few acres of wheat might fit right into your farm plans.

Thousands who grow wheat each year for food, feed, and cash are "sold" on the crop that API extension agronomists say could be grown at a profit on many more Alabama farms. Wheat grows best in the northern half of the state, but some has been successfully grown further south.

Wheat should be planted in October on a seedbed prepared several weeks beforehand, or in cotton and corn middles. Five or six pecks of treated Stan, Sannet, or Alabama Blue Stem seed per acre can be drilled or broadcast. The crop needs fertilizer under it and a side dressing of nitrogen in the spring.

### LESS FOREST FIRE WHERE LANES USED

Forest fires that ruin nearly a million dollars worth of Alabama timber each fall and winter can be cut both in number and size by fire lanes.

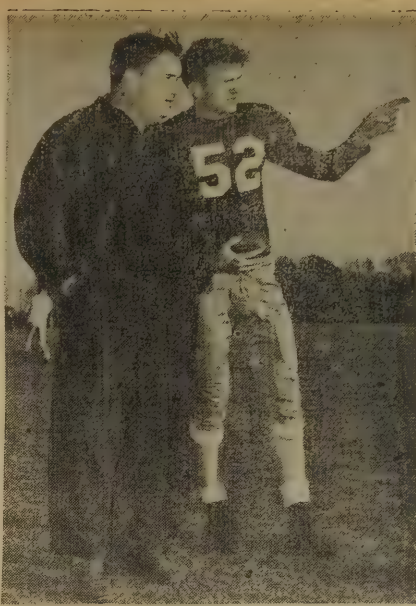

Fire lanes can be made by plowing strips at least four feet wide through forests at places where a few of them will divide woodlands into small areas. Narrow strips can be used where the ground cover is mostly pine straw, but grassy areas need strips at least 20 feet wide.

"Small necks between large woodlands are ideal fire lane locations," says Cecil Clapp, API extension forester. "Always put strips either at the bottom or on top of hills, never on slopes because fire travels uphill too fast to stop."

Where fire lanes are already made, plow a furrow on each side and then burn the grass and trash in the middle.

### FIVE MILLION BALL PENS IN YEAR SETS NEW RECORD

Milton Reynolds, chairman of the Board of the Reynolds Pen Company announced the manufacture of the five millionth ball pen on October 5. This was the anniversary of the making of the first ball pen constructed by the engineer and four assistants in a small store converted into a machine shop.

Today more than three thousand people are engaged in the manufacture of the Reynolds ball pen. More than 100,000 retailers are selling them throughout the United States. They are on sale in every civilized country in the world. There is a manufacturing plant in Canada and assembly plants are being constructed in France and other foreign countries.

Mr. Reynolds, an aggressive American business man, started the pen company with a capital of \$26,000. The profits in one year of actual operation will be over \$3,000,000.

The introduction of the New Rocket Pen has taken the country by storm and more than two million were sold before a single pen was shipped. \$574,000 worth of national advertising was contracted for on the Rocket Pen. Most of the advertising planned for the balance of the year and the first of next year will be placed in newspapers. Franklin Lamb, President of the Reynolds Pen Company and formerly associated with the advertising department of R. H. Macy Company in New York, said that newspapers produced more direct response than any other form of publicity. "This year

### Nations Eyes Will Turn To Knoxville Saturday

Football fans all over the nation will cock their eyes toward Knoxville Tennessee Saturday where the Crimson Tide of Alabama will play Tennessee. Both teams are undefeated this season. Alabama will be depending on Harry Gilmer, who has been proclaimed the greatest passer in the nation.

Red Cross headquarters in Montgomery today passed on a warning from the War Department to families interested in repatriation of war dead, against "racketeers," who, it declared, offer, for pay, to ascertain and furnish additional information to a family about the circumstances of a soldier's death and burial. The War Department is the only authority for information about American war dead

we will spend \$1,500,000 in advertising and next year's appropriation will probably be double this amount and will be divided 60 per cent in newspapers and 40 per cent in other national publications. It is probably the most talked about item ever sold and the pens are given away on more than 600 quiz programs throughout the country and every Hole-in-One or Double Eagle player is awarded with a Reynolds pen. All tournament bowlers who make from 278 to 300 are given a Reynolds pen. One of the famous sags that has been responsible for the sales of millions of the pens is that it will write under water. Why anybody wants to write under water I don't know but the gag value is terrific."

## A Sign of Wise Investment

Many communities are looking forward to the day when their highways and streets can be rebuilt to fit traffic.

Concrete pavement means the end of spring break-up dusts—frost boils, mud and ruts. Seasonal load restrictions, dills and the inconvenience of constant road tinkering can be forgotten.

Concrete stands up under all legal loads in all weather. It permits speed with safety. It cuts driving costs to motorists. It reduces road maintenance costs.

## Text Of Pilot Pres. On 25th Anniversary

Below is the text of a message delivered by Miss Harriet McSweeney, international President of the Pilot Club:

On this, our Twenty-fifth Anniversary, what could be a more fitting topic for my message to you than the one thing that is PILOT in every respect, our CODE OF ETHICS.

The great Galsworthy in his *Flowering Wilderness*, gives us a thought well worth considering. "Religion... may be just a sense of an all-pervading spirit and the ethical creed that seems best to serve it." A rather important place, one might think, to give an ethical creed in evaluating the forces that shape our lives, but not too important when we analyze the influence ethics, or the lack of it, has on our lives and the lives of those around us.

To be ethical means more than to be moral. Like "best" and "good" they represent in character the superlative and the positive degrees. The man is moral who "drives a hard bargain." He has observed the rudiments of honesty, he is within the law, he "got by with it." He is not, however, in most cases, ethical. More than likely, in order to accomplish his end, he has taken advantage of someone else's misfortune, or higher sense of honor. He has violated a higher code which bade him not be just simply honest but fair and square, to live and let live, to consider the means as important as the end. Yes, an ethical creed is that inner urge that bids us voluntarily seek to live on a higher plane than that demanded by simply morality, to cultivate the best that is in us and not just the minimum of good, to take the high road to lastingly happy, satisfying human relationships.

No more beautifully expressed, more briefly comprehensive or more fundamentally sound ethical creed could be found than our own PILOT CODE OF ETHICS written by Pearl Sparks of Florence, Alabama. How many times have you read it? Oh, many times. How many times have you heard it read in Pilot gatherings? Oh, many, many times. How many times have you lived it? The words are most beautiful and inspiring, but, until they have been translated into action, they have not served their ultimate purpose.

Indeed, let us "cherish our visions and our ideals" but let us not stop with the cherishing, let us vitalize them, let us turn the "seedlings" into "reality", let us personally adopt them as our own, and let them thus become truly the moous operandi of our organization.

—HARRIET MCSWEENEY, pres.

FRANK THOMAS  
Coach of Alabama

# "NOT TWICE AS MUCH... BUT TWICE AS GOOD!"

says *Frank W. Thomas*

And Coach Thomas knows his cola—as well as his football! He led the famous University of Alabama team to another smashing Rose Bowl victory last season, and is looking forward to a repeat performance.

Frank Thomas prefers LIME COLA for the same reason you will. It's the quality cola drink—not twice as much, but seven ounces of twice-as-good cola. Not over sweet, but tangy, sparkling, just right for delicious thirst-quenching refreshment. Ask for LIME COLA every time you want a cooling pick-up. Reach into the icebox for ice-cold LIME COLA every time you want an appetizing treat with meals. Look for the big white "LC" that means satisfying, twice-as-good LIME COLA!

### NOTICE TO NON-RESIDENT

The State of Alabama, Chilton County Circuit Court in Equity, October 8 1946.

Genie V. Dawson, complainant, vs George L. Dawson, defendant.

In this cause it is made to appear to the Register by the affidavit of Genie V. Dawson that the Defendant is a non-resident, and that his place of residence and post-office address is unknown, and that such address cannot be ascertained after reasonable effort; and further that, in the belief of said affiant, the Defendant is of the age of twenty-one years.

It is, therefore, ordered by the register that publication be made in the Chilton County News, a newspaper published in the County of Chilton, once a week for four consecutive weeks, requiring him, the said George L. Dawson to plead, answer, or demur to the bill of complaint in this cause by the 11th day of November, 1946, or after the expiration of thirty days thereafter, a decree pro confesso may be taken against him.

Done at office in Clanton, this 8th day of October, 1946.  
M. D. FOSHEE, Register.

### MAPLESVILLE HIGH SCHOOL

Everybody looks happy today. No wonder! We won a football game Friday when we defeated Verbena 25 to 6. The touchdowns were made by Rogers, Glass and Carter.

We are proud of boys and especially our coach, Mr. Daniels. Good work cheerleaders, you helped to win the game. We had our first recreation party Friday night. Everyone had a grand time. Thanks to Mrs. Billingsley.

We are planning another big football game Friday evening with Hicks Memorial. Go to work boys!

All home games start at 12:45 p.m.

### PLANTING ALFALFA? THEN PLANT VETCH

There are a few crops that must be planted a year before they are planted, and alfalfa is one of them.

So farmers who will plant alfalfa in '47 should now select well-drained land that makes a bale of cotton per acre, then spread a ton of lime on each acre of the land, and plant it to vetch. J. C. Lowery, API extension agronomist, says to turn the vetch next spring before it seeds, then fallow the land often enough to keep down weeds and grass until planting time.

Farmers most successful with alfalfa carefully do each of these things and also buy their seed a year before time to plant, Lowery has observed.

Mr. Charle Cox of Clanton attended the Alabama-South Western La. Institute game in Tuscaloosa last Saturday.

Former Member Of Partnership.

### NEXT TWO MONTHS SET YEAR'S EGG PROFIT

Hens that lay well during November and December make their owner a profit for the year.

Since these two months spell the difference between profit and loss John Ivey, API extension poultryman, urges farmers to do all possible to boost their flocks' production during this period.

"Keep plenty of high quality laying mash before hens all day and feed wet mash at noon. Have green grazing crops for flock, or if birds are kept in houses at all times, cut green feed for them. Ample fresh water raises egg production. Keep plenty of deep, clean litter in the laying house, which should have its north ventilators closed. Check hens for mites and lice," suggests Mr. Ivey.

### DIG SWEET POTATOES BEFORE FROST

Now is the time to dig and store sweet potatoes in Chilton County. Dig and store them now while the ground is dry and before the frost kills the vines, for sweet potatoes dug after frost WILL NOT keep in storage.

The crop of sweet potatoes looks good over the county and we will definitely need every one of them this winter and next spring. "Sweet potatoes in the hill or house is as good as money in the bank."

Do not let sweet potatoes lie in the sun to cure but hill them as soon as possible after digging. Do not store cut or badly bruised potatoes — use them first.

### MEAT EVEN SCARCER IN WINTER, SPRING

Even less meat this winter and next spring is the prediction of API extension livestock specialists. They base their statement on these facts:

1. Recently at seven big markets, cattle receipts were off over one-half and hog receipts off four-fifths from last year.

2. U. S. farmers are producing about one-fifth fewer fall pigs than in '45 and feeding less than half the cattle fed last year.

3. Normally 600 million pounds of meat are in storage; hardly half this much is now on hand.

A dose of Epsom salts one day each month, or sometimes more often, will boost egg production, John Ivey, API extension poultryman, says to use one pound per 100 hens for each dosing.

Though it's a long time until spring planting, many Alabama farmers are already getting the fertilizers they will need. API extension agronomists strongly urge that all farmers see their fertilizer dealers about next year's needs as soon as possible.

About \$6,000 was involved which has been recovered.

## Little Rebel Rhymes

By now we hope that you have learned.  
To like our little rhymes.  
We write them just for you to read.  
Each month, two different times.

In case you've wondered why we say  
Our food is good to eat.  
We try some of it every day,  
And think it can't be best.

For instance, there's our chili.  
That's thick with sauce and meat.  
It's made with our own formula,  
And frankly, bud, it's "neat".

There'll be more rhymes in two more weeks,  
But don't you wait that long;  
To linger in our little shop,  
And let us tempt your tongue.

### Members Of Local Board Honored

In appreciation of five years service as active members of the staff of the local Selective Service Boards Mrs. Mable Woodson and Mrs. Zora Guy Smith were recently awarded certificates of appreciation by General Lewis B. Hershey, Director of Selective Service in Washington, and State Director Col. J. T. Johnson, Jr.

Mrs. Smith's period of service dates back to October 16, 1940, when she served as registrar in the first registration. She was appointed clerk of Local Board No. 2 when it was organized in October of that year, and has served continuously since that time.

Mrs. Woodson was employed later in the year as a part time clerk serving in that capacity until 1942 when she was appointed a full-time clerk.

The uncompensated personnel of the two local boards were awarded Selective Service medals at Montgomery the earlier part of this year by Governor Sparks. This recognition was for their contribution to their country during the war.

Effective October 18th, Mrs. Mable Woodson was relieved as Clerk of Local Board No. 1, due to reduction in personnel and Mrs. Zora Guy Smith became the clerk of the two local boards. All registrations and records of the two boards will be kept separate as in the past.

### BRADY N. JONES NOW IN GERMANY

FURSTENFELDBRUCK, GER-MANY—Here to do his bit in "winning the peace", Pvt. Brady N. Jones, Chilton, has arrived at the European Theater Army Air Forces Replacement Depot, and will soon be assigned to permanent duties with the occupational Air Forces.

Before entering the service in February 1946, Pvt. Jones attended the Chilton County High School. Later he worked for a cement block company at Thorbsy.

### Forty - Niners Here Monday, 2nd

One of the most popular groups of entertainers now touring the country will make a personal appearance at the courthouse in Clanton on Saturday night, November 2, under the auspices of Post No. 6, The American Legion.

The Forty-Niners, famous radio entertainers from WSGN, Birmingham, for an entertaining evening and an evening full of laughter and fun, remember the date November 2, courthouse in Clanton. The show will get underway at 7:30 p.m.

### NOTICE

Dr. Lawrence's office will be closed on the evening of October 26th.

### Dr. Jagers Addresses County School Teachers

"Not a child in Alabama ought to have a teacher worth less than \$5,000 a year," says Dr. R. E. Jagers, of Kentucky's State Department of Education. This statement was the highlight of a speech made to county teachers at their meeting in Clanton last Monday.

Dr. Jagers also stressed the need for the people to take up the fight for education. He stated that world peace can result only when nations learn to work together. They will learn to do so only when individuals get rid of their prejudices and intolerance for others. These, Dr. Jagers believes, are caused by ignorance, and he hopes for world peace lies in education.

For people to learn tolerance Dr. Jagers argues that schools must give the students a chance to share responsibilities and decisions. Thus teachers must not have more than a few pupils, he thinks. In addition, he also insists that every teacher be as well trained for his job of teaching as a doctor is for his job, and that a teacher be paid as well for his trained service as a doctor is paid for his skill.

Mrs. Georgia Billingsley of Mapleville Schools, president of the County Association, reported events of the District A.E.A. meeting in Birmingham last Saturday. She announced that Miss Melba Patton of Jemison honored the teachers of this county by her way of handling a panel discussion at this meeting. Patterson Hicks of Clanton was elected president of the District V of the Alabama Education Association.

### LOCAL GIRL SCOUT LEADER RETURNS FROM CONFERENCE

Miss Eleanor Lewis, athletic director at Chilton County High School and leader of Girl Scout troop 2 returned the latter part of last week from Nashville, where she attended the fifteenth conference of the Dixie Region of Girl Scouts. Also in attendance at the conference was the national president Mrs. C. Vaughn Ferguson. Mrs. Ferguson's inspiring report on the recent world conference held in Evian, France, brought to her audience an awareness of the responsibility of American girls and women toward those who have suffered great privations in other countries.

Miss Myrtle Wesson, teacher in the commercial department at the Chilton County High School, is leader of Troop 1. These two troops were organized in May 1945. At present the troops are working to get every member in uniform before the next troop's birthday.

### Frank Stamps To Appear Here

Frank Stamps, brother of the late Virgil Stamps of Dallas, Texas, also a widely known guitar singer will appear at the courthouse in Clanton next Wednesday night, October 30. Mr. Stamps will appear with the Harmony Boys Quartet of Station WWSA, Montgomery. The concert is being sponsored by the Chilton County Singing Convention. Everyone has a cordial invitation to come out and see and hear Mr. Stamps. The program will get under way at 7:30 p.m.

### BEST CARE NEEDED FOR STRAWBERRIES

Bigger yields of better quality strawberries can be made next spring by giving the crop good care now.

If strawberry plants haven't been thinned, this should be done. Lyle Brown, API extension horticulturist, says to thin the plants to six or nine inches apart and clean out the middles. In patches three years old, the oldest plants need to be chopped out.

After thinning, put five pounds of 6-8-4 on each 100 feet of row. Two pounds of nitrogen can be used where mixed fertilizer is not available.

### WETUMPKA PASTOR TO SPEAK HERE SUNDAY NIGHT

Rev. John McMahon, pastor of the Wetumpka Presbyterian church, will speak at the local Presbyterian church next Sunday night at 7:30 o'clock. Local Presbyterians invite everyone to hear this visiting minister.

### DONALD P. TYUS

Donald Paul Tyus, age four weeks, died Friday p.m.

Funeral services were held Saturday at 11 o'clock from Mr. Piagah Church, conducted by Rev. G. C. Courtney; interment in Mt. Piagah Cemetery.

He is survived by his parents, Mr. and Mrs. Hall Tyus, of Clanton; one sister, Barbara Tyus; grandparents Mr. John T. Singleton of Wetumpka and Mr. D. H. Tyus of Clanton.

Spigener Funeral Home in charge.

### VISITED IN CLANTON

Mr. R. V. Watson of Akron, Ohio, son of Mr. and Mrs. W. J. Watson of Route 4, Clanton, and Mr. Bob McKinney, also of Akron, were in Clanton last week end.

The two gentlemen, both members of the Akron Baptist Temple, were en route home from Fort Valley, Ga., where they purchased two new buses for the 4,000 members of their church.

After a short visit with Mr. Watson's parents, Mr. McKinney went on to Cullman to visit with relatives until Monday when they would resume their journey back to Akron.

### Music Appreciation Club Hostess To Visitors

The Clanton Music Appreciation Club was hostess to the Fourth District last Thursday. Towns represented were Montgomery, Opelika, Greenville and Selma. Mrs. T. D. Samford of Opelika, District Director, presided over the meeting. Reports from each active club were given and the ground work laid for another federation year. Officers for this year will be: Mrs. D. B. Black of Montgomery, Director; Mrs. Herbert Vaughn of Opelika, Vice Director; Mrs. Blake Hudson of Clanton, Secretary-Treasurer; Mrs. W. D. Wood of Camp Hill, Junior Director.

Mrs. Philip V. Speir, State President, brought an inspiring message and an over-all view of state plans and urged the full cooperation of the Fourth District. State officers present were Mrs. W. S. Woolsey, Chairman of Department of Education and Third Vice President; Mrs. J. A. Sellers, Editor of the stage bulletin; Mrs. Charles L. Levy, National Projects Chairman and Mrs. Raymond P. Mims, Chairman of the Student Division.

In addition to federation business the following interesting and varied program was given during the day:

Invocation — Mrs. Roswell Owens. Welcome — Mrs. Luther E. Little. Response — Mrs. Caroline Samford Jiles.

Choral program — C.C.H.S. Glee Club, under the direction of Mr. Maurice Brausa.

Vocal numbers — Mrs. Erle Ellis dramatic soprano.

Luncheon speaker — Mr. J. R. Oglesby, President of Clanton Community Concert Association.

Piano selections — Joe Mullins, Jr., winner of piano scholarship at Alabama Music Camp last summer.

The meeting closed with a group of Chopin numbers by Mrs. Speir, who is not only a fine pianist but an artist at the piano.

The Young Matrons Missionary Circle of the Baptist Church distinguished themselves with the delicious luncheon and the musical and dramatic motifs they used in decoration. — Mrs. W. A. Willis, Publicity Chairman.

### DANCE AT CITY HALL SAT. NIGHT, NOV. 2ND

Saturday night, November 2, there will be a dance at the City Hall starting at 9:00. Music will be furnished by Zeke Phillips and his orchestra. Admission will be \$1.00 per person.

### FIVE CHILTON UNEMPLOYED PERSONS REFUSED CHECKS

Because of failure to meet the requirements of the new "availability for work" policy, five unemployment compensation claimants at the Clanton employment office were disqualified from receiving benefits during the week ending October 5.

The policy was adopted by the state department of industrial relations effective September 9th. It requires claimants to make a conscientious and diligent search for work, with the employer likely to need their services and skills.

Mere registration at an employment office is no longer enough. In the state as a whole, Frank R. Broadway, state director of industrial relations, said 717 persons were disqualified during the week for this reason.

Veterans and civilians are affected by the new policy.

R. C. Williams, Hollis Jackson and Dubb Huddleston attended the Alabama-Tennessee football game in Knoxville, Tenn., last week end.

## Republican Leaders Accused of Being Traitors To Party

### Republican Sees Democratic Landslide In November; Says GOP In County Is Confusing

Editor, Chilton County News:

Please let me have space for a final word to the Republicans of Chilton County about our present political mess we are in.

You will recall that when the Republican Executive Committee refused to let us have a primary, it was a confusing and unexplained action. It placed us in a state of uncertainty never before known to the present generation of Republicans. The leaders said they would nominate a ticket in a convention.

Along came the convention and what did they do? They did the unheard of thing of nominating a Republican ticket with no head to it. The main office of Probate Judge was left wide open for the Democratic candidate. Now what have we? More confusion and uncertainty than ever. What will be the result? My prediction is that there will not be a Republican elected. The few Republicans who vote for Republican candidates will be more disgusted than ever, because it will be final proof that our party leaders have done just what they set out to do: deliver our county finally and forever into the hands of the Democrats. The only Republicans left will be the few so-called leaders (traitors) who want to keep only a small patronage group.

It is already evident that the mess has got so stinking that Republicans are sickening it out. As a sample of the situation, our party Secretary, Prof. Harrell, has openly declared he will wash his hands of the whole business and vote the straight Democratic ticket. I think that is about as good a

### Clanton Loses To Lanier 14-0

Chilton County High School lost their game 14 to 0 to Lanier last Friday night, but at the same time won themselves a moral victory—by holding the Lanier eleven to two touchdowns.

Lanier was predicted to be 32 points better than Clanton. The Clanton line operated efficiently while McCain, Cox, Mims and Wade tore through the Lanier line for eight first downs to Lanier's seven.

To prove the effectiveness of the Clanton line, Lanier lost 45 yards trying out the Clanton line while Clanton lost only 15 yards rushing.

McCain was hitting his mark again Friday night with passes when he completed six out of ten. Lanier lost 80 yards on penalties to Clanton's 25.

This week Clanton plays Siluria here. The game called at 7:30. The rest of Clanton's games will be played in Clanton. After Thurston comes Holtville, Montevallo and winding up the season against Wetumpka.

### Charles W. Wade, Sr. Passes Tuesday

Mr. Charles William Wade, Sr., age 84, of Calera, Ala., passed away at the West End Baptist Hospital in Birmingham at 11:25 Tuesday morning.

Mr. Wade was born in Starkville, Miss., September 10, 1862. He came to Alabama when a young man and settled in Chilton and Shelby Counties where he spent the remainder of his life. Mr. Wade opened Chilton County's first moving picture theatre in Clanton, Ala.

Survivors are his wife, Mrs. Janie B. Wade; one brother, Mr. Alva Wade, of Birmingham; two sisters, Mrs. Bertha Ross of Clanton and Mrs. Rather of Houston, Texas; one son, Charles W. Wade, Jr., of Clanton; two daughters, Mrs. F. D. Walls of Texas and Mrs. Surey Langston of Centreville, Ala.

Funeral services will be conducted by Rev. Pate of Tuscaloosa, at the Calera First Baptist Church, on Thursday at 11:00 a.m.; interment at New Salem Cemetery; Brown Service of Birmingham directing.

Pallbearers were grandsons: Chas. W. Wade, III, James N. Langston, Jack Martin, and Thurston, Dick Martin, Raymond Thompson, Cecil Wells and Bill Freeman.

### HALLOWEEN PARTY

The Clanton Grammar School will have a Halloween Party at the Grammar School on Thursday night, October 31st, at 6:30 p.m.

Everyone is invited to come and have "spooky fun" together.

There will be eats, drinks, apple bobbing, fishing, and of course, the ghost room.

The membership contest will end at this party and the winner will be announced at that time.

Come and let's have fun together and at the same time help our school. Admission will be ten cents.

Corp. and Mrs. Raymond Cox are the proud parents of a 7½-pound girl, who made her arrival at the Central Alabama Hospital on Tuesday, October 22nd. They have named the young one Donna Cheryl. Both mother and daughter are doing nicely.

### Collins Chapel P-T-A. To Meet

The P-T-A. at Collins Chapel will meet next Friday night, October 25. All members and parents are urged to attend.

### War On Syphilis Declared In Chilton County

Beginning on Monday, November 11th, Chilton County will begin taking blood tests in the state's effort to stamp out syphilis. Chilton County's Health Officer, Dr. E. M. G. Smith, expressed himself as being well pleased with the progress made thus far in the campaign Tuesday.

During the past week the schedule for the blood testing-stations was completed and the list will appear in the Chilton County News at a later date. The locations of the stations have been arranged throughout the county so that no person will be put to any hardship in getting a blood testing station.

Dr. Moore pointed out that it will require four weeks to take the blood specimens during the two weeks of the survey. All four nurses to be registered in Chilton County are graduate registered nurses and are well equipped by training and experience to take the blood specimens, making the nurses having had vast experience in other counties where the program has been conducted. Mrs. O'Rear, our very able county health nurse, will assist in this blood taking.

Dr. Moore further stated that he would expect sixteen clerks to do the clerical work incident to the program, which begins November 11th. Those desiring employment for the two weeks of the survey are invited to apply at an early date at the Chilton County Health Department, where application blanks are available.

### CARD OF THANKS

We wish to thank our many friends of Pine Dale community and relatives for their kindness and help shown during our recent illness. May God's richest blessings rest upon each and every one of you as my prayer.—Mr. and Mrs. J. B. Ray.

### Maplesville Eleven Victorious Over Hicks Team, 13-0

A fast charging Maplesville eleven staged a comeback last Friday at Maplesville by defeating a game Hicks team to the tune of 13 to 0. The Hicks Club had overthrown Maplesville 12 to 0 in a previous game, this season at Autaugaville.

During the first half of Friday's game the Hicks boys more than held their own, and at the half they had a slight statistical edge.

Early in the third quarter a long break away run by M. G. Smith of Maplesville placed the Crimson-White team deep in Hicks' territory and a pass by Harold Walker paid off. Another pass capped on the extra point and Maplesville led 7 to 0.

Again in the final period a Maplesville rushing attack put the team in scoring position and the struggling Hicks eleven was unable to prevent a second touchdown, this time on a run from the 8-yard line. After an unsuccessful attempt to run the extra point, Maplesville held the score at 13 to 0, while the whistles blew.

Maplesville overbalanced Hicks in most of the statistical categories with 154 yards net rushing, 11 first downs and six completed forward passes for a total of 78 yards as against Hicks' 38 yards net rushing, five first downs and five completed passes for a total of 91 yards.

Miss Sarah Deady-Shifty of Montevallo was home last week end.

Finally, I want to say again that this mess was not my idea. You know I have spoken out against such actions from the very beginning of this Republican New Deal. I have stood practically alone in my public objection to it. But I was not alone in my objections. Other Republicans stood with me at heart. I think it will not be long until more will be the light.

Yours truly,  
—W. G. SHAW.

## THAT BOSWELL AMENDMENT

The Boswell Amendment is the 4th Amendment. Remember to vote against it when you go to the polls on November 5th.

Our better judgement tells us to vote against this undemocratic amendment to the Constitution. In our opinion it's bad points far outweigh the good it will do. It is like our absentee voting law. There are hundreds and thousands of honest law-abiding citizens who through necessity must vote an absentee ballot — and they should be able to vote their conviction in any election, but the bad that is done through absentee voting, far outweighs the good that is accomplished through it. This law should be amended or abolished.

So too, with the Amendment No. 4. We heartily agree that something should be done in regards to our present system of qualifying to vote—but the Boswell Amendment or Amendment No. 4, isn't it. We need something else. In our opinion the Amendment takes away our right as free men and places it in the hands of a chosen few. Who can say that we live in a democratic country under a republican form of government when a three-man board has the right to say whether you are qualified to cast your vote or not. The race issue is beside the point and is brought to the front to sway the vote of the ill-advised.

Of course, when we line up with the papers opposed to the Fourth Amendment we will be called "pinkish". We will probably be cussed and discussed by the "rightist", whatever that is, the Ku Klux, and various other organizations who believe that if you don't think just as they do then you are an enemy to our country.

Nothing could be further from the truth. It is through prejudice, narrow-mindedness, and selfish thinking that laws and amendments like the "Boswell Amendment" are passed. There is nothing democratic about it. It is the duty of all fair-thinking voters to go to the polls on November 5th and vote "no" to this Amendment.

Remember it is Amendment No. 4.

Getting the baby to sleep before midnight gets more difficult after she gets to be seventeen.

Love makes a man think almost as much of a girl as he does himself.

We'll always wonder why they talk about a doctor "practicing".

The man who boasts "I run things around this house" usually refers to the lawn mower, washing machine, vacuum cleaner, baby carriage and the errands.

Call it anything you like: If you make out your income tax honestly you go to the poor house. If not, you go to jail.

It is to your benefit and the benefit of the nation that you go to the polls November 5th and vote the Democratic ticket. Do just that.

Time aint as long as it has been. You better start thinking about how you are going to vote on those nine amendments that will appear on your ballot November 5th. It will save everybody time if you will make up your mind before you go to the polls.

Isn't it silly. They talk about building houses for veterans and then put the price of the house in a bracket that the veteran couldn't possibly pay for. The man that holds the mortgage now will sell the same house within the next few years for half what the veteran agreed to pay for it.

Too many present day murderers are giving the popular excuse, "just felt the urge to kill."

A Clanton man says it is all right to build prisons decently, but not too comfortably.

It is almost as difficult to find an optimist of world affairs in Clanton, as a cigar store Indian.

ABOUT TOWN

-By BEN

HOME TOWN SIGHTS—Burke Allison sitting in his car studying an insurance policy with a big bunch of turnip greens in his lap. Ed Probst who gives driving tests, getting into a big army truck with a would-be driver and the driver of the test. Charlie Wilkins of the Enterprise Community wondering around all dressed up and going places. That new married team, Bonnie Wilson and Lois Beatrice (Bee) Dutton happy as if they were single. May all their troubles be, etc. Wonder why Elaine is going to put on a hum-dinger of a sale in December and then go out of business? That is where we are going to get some bargains in ladies' clothes. We've always wanted to get some bargains in ladies' clothes. The Wesley Fellowship Class missed the hundred mark by twenty-six. Not bad. The opossum hunt at Dr. Edgar's farm drew about forty. All of which had a wonderful time, according to reports. Wonder how Saw, making the hot dog sauce? Watch the paper next week for some real bargains contained in some advertising that is coming up. Too, the semi-annual report of the County Treasurer will appear as will the annual statement of the County Board of Education.

Truman Luker reminds us of a good one this week. Says Truman, "Always remember: Being forty is the old age of youth; but too, it is the youth of old age."

Clanton should be proud of some of her people. For instance, look what two state-wide publications had to say this week. From the Alabama Local Government Journal: Clanton's ever-alert Mayor Leo Thompson dropped in at League headquarters a few afternoons ago while Lucius Burns, Sr. was able and outstanding mayor and Union Springs' Sen. Lawrence K. Andrews were chatting with us. The four of us really had a general discussion of all sorts of municipal problems. Leo is doing a jam-up job for his city. He knows the problems and he has the right approach to their solution. He is young and aggressive. Clanton is fortunate to have him.

And, about our old friend, Delos Culp, taken from the Alabama School Journal: D. P. Culp was appointed supervisor of school bus operation and maintenance on July 7 to fill the vacancy created by the resignation of J. Pope Baird. Mr. Culp was born in Chilton County, attended Isabella High School, Jacksonville State Teachers College, and holds a B.S. and M.S. degrees from Alabama Polytechnic Institute. His teaching experience was in Chilton and Butler Counties. For the four years preceding his appointment to the Department of Education, he served as superintendent of Education in Chilton County. Mr. Culp has had wide experience in operation, maintenance and repair of motor equipment and has received national recognition for the school transportation program developed under his leadership in Chilton County.

Wonder what Mrs. Williams, Mrs. Jackson and Mrs. Huddleston mean letting "Jack", R. C. and "Dubb" go to the football game at Knoxville last week by themselves. Gosh, anything could have happened.

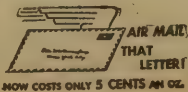

The following notice is from a Chinese newspaper: "Sir, I am Wang. I can drive a typewriter with good noise, and my English is great. My last job has left itself from me, for the good reason that the large man has dead. It was on account of no fault of mine. So, honorable sirs what about it? If I can be of big use to you, I will arrive on same date that you should guess."

Boy to Dr. Upchurch: Give me a dime's worth of castor oil please.  
Dr. Upchurch: The tasteless kind?  
Boy: No sir, this is for my father.

### NINTH DISTRICT WMU TO MEET IN BHAM OCT. 28TH

The 9th District meeting of Baptist WMU, composed of Birmingham, Chilton, Mineral Springs, Mud Creek, Shelby, Sulphur Springs, and Unity Associations, will meet in Birmingham with South Avondale Baptist church Monday, October 28th at 10 o'clock.

The principal speakers for the day will be: Miss Kathleen Mallory, Southern Baptist WMU Secretary; Miss Beatrice Glass, Missionary to Argentina, Mrs. R. S. Marshall, State Secretary, and Miss Doris DeVaul, State Young Peoples Leader. All members of societies and Young Peoples organizations are urged to attend.—Mrs. W. A. Willis, Secretary

## MORAL ECHOES

Rev. D. W. Haskew, D.D.

I saw a cartoon that spoke in loud language about our peace dangers. A mother was rocking her babe, the babe of peace, to sleep, but she was rocking to and fro on the precipice of hatred, jealousy, greed, aggression and the like, and at each rock it seemed that she would topple over with the babe of peace in her arms. The trouble with the U.N.O. is that there is still too much hatred, greed and jealousy for a lasting peace. As long as we sit on a foundation like that, we may rock the babe of peace forever, but there will come no peace to our world. Not until the nations get on foundation of brotherhood, equal rights to all, justice to every man, and a Christian love for all mankind, will the U.N.O. be able to put the babe of peace to sleep. It is time for the U.N.O. to get a different base.

When the Armistice to the First World War was signed, the Bishops of the Methodist church were in session. On the announcement of that great event, Bishop Quale was asked to speak for the group. All expected him to give out a great patriotic utterance. As they waited, the good bishop was meditating, but finally he said "Now that the war is over, let us be decent to the Negro". Indeed this was a great patriotic utterance. He said nothing about social equality, or the intermingling of races, but he did ask that the Christian church be decent to a race for whom we are held responsible. Should democracy, should Christianity, fail to do this, we, as American citizens, will injure ourselves more deeply than we injure the color race.

I heard a man say in a gathering of church workers where the problems of our day were being discussed, "What can I do about all these things. I am

## PATES CHAPEL

We were blessed with a large attendance Sunday and Sunday night. Bro. Crumpton delivered two wonderful messages—one Sunday and one Sunday night.

We want to express our sincere appreciation for each and everyone who was present. There were several visitors who we want to invite back in our midst.

We also had a nice program at B.Y.P.U. Sunday night which seemed to be enjoyed by all, especially the song by the Juniors. We always want to express our thanks to all the older folks for coming, and have been missing them in our service.

We are sorry to say that Mr. Bradie Patterson is back on our sick list this week, and was part of last week in the hospital, but returned home Sunday and is going back for treatment this week. We hope he will soon be able to stay at home.

Mr. and Mrs. Houston and daughter, Sue, visited Mr. and Mrs. J. A. Cleckler Sunday, also Mr. and Mrs. Roy Liveak.

Mr. and Mrs. Chester Maddox and guests Sunday were Mr. and Mrs. Enoch Hayes and daughters.

Miss Leone Cleckler was the guest of her sister and family, Mr. and Mrs. Harvey Davenport, of Macedonia Community Saturday night.

Mr. and Mrs. Charles Hayes' guests Sunday were Mr. and Mrs. Lee Hayes and Bro. and Mrs. Rabie Crumpton. After lunch they visited Mr. and Mrs. Bradie Patterson.

Mr. Herman McCary visited Mr. and Mrs. Ollie Watley of Mrs. Carmel Community Saturday night.

Miss Gladys Scott spent Saturday night with Miss Louise Maddox and Sunday, Mr. and Mrs. W. B. Maddox and family returned with her and spent the day with Mr. and Mrs. Lee Childers.

Mr. and Mrs. Arline Dawson spent Sunday with Mr. and Mrs. Evans Dawson, also Mr. Bill Dawson spent Saturday night with them.

Everybody be sure and come to church Sunday as Bro. Northcutt will be present and will deliver our 11:00 o'clock message. We do not know where he can be with us Sunday night or not, but let's everybody come as we will have B.Y.P.U. beginning at 6:30. We hope he can be with us. Let's all come to church Sunday and show Bro. Northcutt that we enjoy his presence with us.

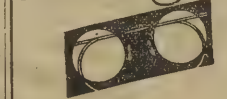

Let's not forget that the fifth Sunday evening singing will be here and all are welcome to come and attend.

In doing almost every job on Alabama farms there are short cuts that can be used to save time and labor.

Earle Williams, API extension farm labor specialist, suggests that farmers study each job to find quicker and easier ways to do it. This will make family and hired labor "go further."

Farmers should store their winter's supply of fire wood in a dry place. Dry wood makes a hotter fire than wet or green wood, reminds Cecil Clapp, API extension forester.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like aches and nervous strain of functional periodic distress. Here's how it may help:

1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.

2 Started 3 days before "your time," it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

## STANTON

Mr. and Mrs. Jack Kynard, of Selma, Mr. and Mrs. John R. McKinney and family spent Sunday, with Mr. and Mrs. Sherman Motley and family in Birmingham.

Mr. Hollie McCormie of the U. S. Navy is home again on a 30-day leave.

Mr. Grady Houston is improving from his recent illness. Mr. and Mrs. Hicks Harrison are at home and doing fine since the recent confinement to a Selma hospital.

Ten members were present at our first P-T-A meeting. Next meeting November 19th at 7:00 p.m. at school-house. Please come and bring someone with you. We are planning some good work this year.

Had a good attendance at evening service at the Baptist church.

Mr. and Mrs. Walter Ruddick of Cardona, Ala. spent the week-end with Mr. and Mrs. Bill Ruddick and family. Also guests in the Bill Ruddick home recently were Clint Stabury and Fred Hommel of Freehold N. Y.

Little Bob Davis, student at API.

## Good News For Folks Who Suffer From

STOMACH GAS  
SOOR FOOD TASTE  
ACID INDIGESTION

Do you feel bloated and miserable after every meal, taste your bitter food? If so, here is how you may get blessed relief from this nervous distress. Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment, sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that 888 Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the 888 Tonic formula which contains special and potent activating ingredients.

Also, 888 Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is 888 Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people 888 Tonic has helped. Millions of bottles sold. Get a bottle of 888 Tonic from your drug store today. 888 Tonic helps Build Sturdy Health.

spent the week end with his parents. Mrs. Red Benton and Mrs. Jessie Smith are employed in Plantersville Ala.

Mrs. Annie O. Chism, Mr. and Mrs. Howard Chism and two daughters Frances and Venice, Miss Dorothy and Miss Willodean Smith, Mrs. Dan Royster and children spent Sunday with Mrs. Susie Green and Elbert at Lawley, Ala. They reported a delightful visit.

Miss Ruth Chism has recovered from a recent operation and returned to Birmingham, Ala. Ruth holds a position with the State Health Department at the airport.

Mr. Lloyd Davis and Mr. Jimmie Latham spent the week end with their parents. Both are students at Mississippi Southern.

Mr. and Mrs. S. B. Rogers, Mr. Russell Shultz, Mr. J. R. McKinney, Mr. Millard Reynolds and Miss Ruth Hicks attended the motorcycle race

Furs sold from 218 Alabama farms last year brought \$49,400 to the farmers who trapped the fur-bearing animals, reports API extension fish and wildlife specialist. They add that hunting rights were sold on 444 farms for \$42,665.

Government loans on sweetpotatoes will be available to farmers on November 15. Dealers and cooperatives may also secure loans provided they have paid growers prices equal to the support price at time of purchase.

The best time to wash blankets is a clear, mild day. Extreme temperatures and friction tend to damage woolen blankets and they should be washed on hot, cold windy days.

## Pattillo Writes County Voters

J. C. PATTILLO

To The People Of Chilton County:

Naturally, I want you to vote for me for Clerk of the Circuit Court on November 5th and I am taking this method of endeavoring to tell you so. The duties of the office have prevented my calling to see you and solicit your support in person.

I am fully conscious of the fact that this, as well as all of the offices of our County and State, belong to the people and it is for them to say who shall hold the offices. I am therefore, deeply conscious of the duty an office holder owes to every person within the jurisdiction of the office, to perform that duty fairly, courteously and impartially to each and every one, regardless of party affiliation, race, social standing or any other distinction.

You know how I have performed these duties and obligations while I have held the office of Circuit Court Clerk and I am willing to stand on my past record of two terms as your Circuit Clerk, as my qualifications for another term. If you agree that I have met requirements of this office I ask you to keep me as your Circuit Clerk.

If you agree to keep me as a public official I will deeply appreciate it and do all within my power to justify your confidence in me.

When I can be of service to you at any time do not hesitate to call on me.

Most Sincerely Yours,  
J. C. PATTILLO.

**SELECT SEED CORN  
FOR NEXT SEASON**

Thousands of Alabama farmers are busy making selection of seed corn—a practice that has given many communities outstanding varieties suited to local conditions.

J. C. Lowery, API extension agronomist, says to get corn from vigorous stalks having two ears that aren't too high off the ground. The stalks chosen should have average spacing and be in soil that is the average of the field.

Select ears with shucks extending well over the tips. There should be no disease or discoloration in shuck or cob. The ears need to be well-filled with smooth, hard, dense, heavy and fairly large grains.

Lowery cautions farmers that field selection should be made only with open pollinated varieties. "Do not field select hybrid corn because seed

**INCREASED LIGHT  
MEANS MORE EGGS**

A longer lighting period for pullets and stronger lights for hens might be just what's needed to make your flock lay more.

This suggestion comes from John Ivey, API extension poultryman, who says that where lights have been used for an hour or two on pullets, the time might now be stepped up another hour. It is better to use morning or evening lights on pullets, rather than all-night lights. A 40 watt bulb for each 50 to 100 pullets give enough light; the size of the bulb used should not be changed.

On second-year hens all-night lights increased in size every month or so are recommended by Ivey. If a 1½ or 25-watt bulb has been used on each 50 to 100 hens for a month or six for this corn must come from the breeder each year," he added.

weeks, the use of a 40 watt bulb should give a jump in production.

Ivey cautions that if lighting is once begun it should be continued for the season. Any decrease in length of time lights are on, use of a smaller bulb, or irregular lighting cause moulting and production slumps.

Friends:

I was nominated for the office of Superintendent of Education for Chilton County in the Democratic Primary in July. At that time I had been serving as Superintendent for one month on an appointment that extends until next July. As you remember, I was appointed by the County Board of Education to fill the unexpired term of Delos Culp.

Education has been my life's work. I am 34 years of age and have spent practically all of this 34 years as student, teacher and administrator. I plan to spend the remainder of my life in the same manner. Nearly all of this time has been in Chilton county. My college work has been done in the State at Jacksonville Teachers College and Auburn, where I received a degree and did graduate work in school administration.

The only promise I make in my campaign is to administer the duties of the office to the best of my ability. I see the needs of Chilton County Schools and have definite plans for remedying bad situations as rapidly as possible. Of course you realize that in order to carry out these plans, time is needed. I sincerely hope you will see fit to give me this needed time by electing me on November 5.

All of you realize that the duties of a school superintendent are many, and that the welfare of many people, especially our children, depends upon his being on his job. There is never a day without details and problems that should receive attention. I believe that you expect me to see after these matters, for there are many that cannot be put off. Therefore, you can easily see why I have little time to canvass. If I don't get to see you, I'm sure you can understand.

My opponent is a very capable and honest man. I have only the highest regard for him. Chilton County Children deserve only the best, and the choice is yours.

Exercise your right as an American Citizen and vote on November 5. I will greatly appreciate your vote and influence.

Your friend,

**HOWARD BOOCKHOLDT**

### REPENTANCE IN THE CASE OF WILLIAM EDGAR ALSTON

Do you think that those people who have died in the electric chair at Kilby Prison were sinners above all other people in Alabama, "because they suffered such things? I tell you, nay; but, except you repent, you shall all likewise perish" (Luke 13:3). And now also the axe is laid unto the root of the trees: Every tree therefore which bringeth not forth good fruit is hewn down, and cast into the fire" (Luke 3:9). God "now commandeth all men every where to repent: because he hath appointed a day, in the which he will judge the world in righteousness by that man who hath ordained; whereof he hath given assurance unto all men, in that he hath raised him from the dead" (Acts 17:30).

Do you think that one who is more sinful in the sight of God than another sinner? Be ye not deceived "for there is no difference: for all have sinned, and come short of the glory of God" (Rom. 3:23, 24). Jesus himself said "I am good but one: God! At the bar of God's just and righteous judgment there will be no respect of persons with God. On that terrible day of justice before the bench of the judge of all the earth, you will not be judged as up against such people as those who have died in the electric chair; but, instead, all of us will be judged as up against the one and only perfect man, Christ Jesus, the son of the living God. And, on that day, the very worst sinner will look just as good as the best sinner (when compared to Jesus) as the very best sinner there. One lost sinner is just as lost as any other lost sinner, and Jesus is the only hope for any sinner.

Do you think that it is easier for God to save one sinner than for Him to save another sinner? It takes just as much of the grace of God in Christ Jesus to save the smallest sinner as it does to save the greatest sinner. Christ died for sinners, and he died for the big sinner just the same as he died for the little sinner, and the precious blood of Christ will cleanse the worst sinner from his sins just as freely, and as quickly and easily as it will cleanse the heart of the best sinner for no sinner is saved without repenting of all of his sins and neither is one saved without faith in Jesus Christ with all of his heart. Jesus died just as fully for the sinner and save the penitent thief on the cross (Luke 23:40-43) for his crime, as he forgave the penitent Harlot (John 8:11) or the penitent publican (Luke 19:10). "Christ died for our sins," and "if one died for all, then were all dead" and it is just as easy for the Lord to bring a dead man to life as it is for him to bring a dead baby to life. Jesus died for us all, because we were all dead in sins. For this reason, Jesus is just as willing and ready to forgive a penitent as he is to forgive a penitent little girl who is only five years old.

Do you think that it is wise for one to go on in his sins after the son of God has died for our sins? Do you know that it will be far more terrible for a sinner who heard about Jesus and died in sin, to stand before the judgment seat of Christ, than it will be for a lost sinner who never heard of Jesus and died in sin? What a risk to gain from a life of sin? Will you run the risk of being lost in hell, not for a little mess of sin and pleasure? Take heed, lest you yourself be as foolish as the five foolish virgins who took no warning and went right to their doom and endless night without Christ, all who fail to believe in Jesus will die in their sins. Are you tired of your load of sin? Then turn from your sins and receive Jesus into your heart and life as your sin-bearer and law-satisfier and soul-savior.

With some corrections in spelling and grammar added, I give you the statements of William Edgar Alston which he wrote in the afternoon of August 15, 1946, and gave to me to make known to other people. He wanted these statements to be published so that they might help some people. The message that he wrote that night is not given herein.

The message follows:

To whom it may concern:

I, William Alston, through shame and sin, made a failure in this life on earth. I am sorry and have shame in my heart. I have bent down so low in shame and regret to wait till the last few days to offer this sinful body to my blessed savior, Lord and Jesus Christ. I took my dear old praying mother's heart and almost sent her to her grave. I drank and sinned till I just didn't believe there was a Lord. Friends, please look at me, what sin has caused me. Oh, brothers, look up to Jesus before it is too late. I know I was made blessed. Just look at me, what if God had took me in all my sins and wouldn't allowed me to find the Lord and saviour Jesus Christ: I would be in hell now, but, thank God, He loved me enough to give me a chance to repent. Praise His blessed name. My dear friends He may not let you go as far as I have let me go, and you will be lost forever in hell, away from Jesus your saviour. Don't you want to be with him and love him and praise him for what he has done for you? Friends, he has paid a greater price for you. You are bought with the precious blood of Christ. Brother E. Raymond Dykes beloved brother in Christ Jesus, has helped me in finding Jesus; and brother John R. Rice has sent me lots of books and helped me out lots of ways in growing in the grace of the Lord. Jesus and brother took of the Nazarene church of Jasper, Ala. I want you people to know what Jesus Christ the son of God has done for a sinful man like me. It don't matter what you have done, the blood of Jesus Christ

W. L. SANDERS

### Life Story Of W. L. Sanders Printed

Wilburn Lorenza Sanders was born September 5th, 1898, in Tallapoosa county. He was the son of Wilson Quitman Sanders and Elizabeth Jackson Sanders. The family moved to Clanton county in 1901 and W. L. Sanders has lived here since then, except at brief periods while on construction work. He attended school at Jackson Chapel while a boy. His adult education consists of attending opportunity schools, walking four miles to W. T. Bean, who taught him as a private tutor. He took a two-years correspondence course with the Chicago Technical College.

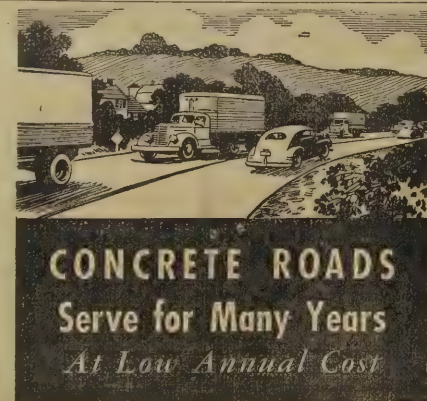

In 1918 he was married to Lucile Bell Weldon, daughter of Mr. P. C. Weldon, of Can Creek community. To this union was born eleven children: seven girls and four boys; all these children are still living.

W. L. Sanders is a lover and singer of sacred music. He taught singing schools in both the old and new music. He served many times as president of the Old Book Convention and is now serving as president of the Clanton County Sacred Harp Singing Convention. He has served for the past two years as president of the State Farmers Union, and is also serving as a member of the Board of Directors of the National Farmers Union.

Mr. Sanders served as a member of the Clanton County Board of Education from 1930 to 1936. He sponsored the bill that made the County Superintendent of Education elective by popular vote. He is a farmer and construction worker.

will wash you whiter than snow, if you will repent of your sins and lay all on him. Jesus Christ came into this world to save sinners: he bided the heavenly host good bye and gave up his glory for a while to live here and die for you and me. Now say He don't love you. Praise His name. I hope who reads this, if you are not a Christian, please give the rest of your life to Him, for He loves you, and wants you in His kingdom. Please let this sink deep into your heart and turn you from your sins and meet me in Heaven. I am to die tonight in the electric chair at Kilby Prison, at a few minutes after twelve o'clock. To go be with my loving saviour Jesus Christ. Glory to His name. May the rich blessings of God rest with you all. Your brother in Christ Jesus, WILLIAM E. ALSTON.

Concrete pavements generally carry the heaviest traffic. Yet their annual maintenance cost is far lower than any other pavement intended for similar service. And the rugged strength and stamina of concrete assure long life — many years of all-weather service without interruptions for frequent repairs or rebuilding.

### Life Story Of Clifford Manning Is Given

Below is published the life story of Clifford Manning, Republican candidate for Clerk, Circuit Court of Clanton County subject to the General Election to be held on November 5th. Born June 1, 1914, the son of Duncan O. Manning and Emma C. Lecroy Manning, Clifford M. Manning spent his boyhood days in Isabella community. He joined the Mulberry Baptist church at the age of eight and soon became active in church and Sunday school work; was later president of the B.Y.P.U. at Mulberry. As a youth he was identified with FFA work, becoming president of that organization in 1933. The following year he finished at Isabella high school, was president of the Senior class and salutatorian. He attended A.P.L. at Auburn until the death of his father, when he returned home to become joint administrator with his mother of the family estate. He built a business for himself on the Manning farm in 1936 and ran for Tax Assessor the same year.

In 1938 he was married to Mary Alice Williams of Clanton and Thomasville, Ga., daughter of Hudson Williams and grand daughter of the late Attorney A. C. Smith. For three years he worked at T.C.I. in Birmingham and at Consolidated Vultee in defense work. In 1942 and 1945 he was a member of the Merchant Marines seeing combat service in three countries and being in nine other foreign countries. While in service he obtained the Atlantic War Zone Bar, The Mediterranean Middle East War Zone Bar, the Pacific War Zone Bar and the War Combat Bar. He arrived home Christmas Eve day, 1945 joining his wife and three children.

Early in 1946 he purchased the Clanton Lunch Room, operating it successfully for several months. He was nominated for Circuit Clerk by the Republican Convention in August this year subject to the general election November 5th.

Mr. Manning, now 32 years old, is the youngest man and only veteran of World War II running for office in Clanton county. He holds a fine recommendation from Prof. Curtis Matthews, who was principal of Isabella where he finished. Likewise, he holds a nicely worded recommendation from the assistant superintendent of the Vultee Corporation, as well as one from Chaplain Ralph O. Harpole, Lieutenant USMS.

Adequate Service Depends on Adequate Earnings

**A** The amount of money paid out to provide telephone service is increasing faster than the amount taken in.

**B** Telephone earnings are the lowest in history.

**C** Reasonable telephone earnings are essential to good telephone service.

Your Telephone Company is doing the largest volume of business in its history, yet telephone earnings continue to decline. The reason is perfectly clear. While your telephone rate has remained the same for many years, the costs of furnishing you service have increased. Wages, telephone materials, building costs, services; all have been going up so fast that—

the amount of money Paid Out to provide service is increasing faster than the amount Taken In. Actually telephone earnings today are the lowest in our history.

It is basic with any business that good service depends on reasonable earnings. To provide good telephone service and to continually improve and expand it, reasonable earnings are essential.

NEWS FROM

Alabama Mills, Inc.

MRS. B. L. VENABLE, Corres. Phone 116-R

Loveable little Jane was dead—run down by a hit-and-run driver, the beast. A frantic crowd gathered around trying desperately to do something for her. Some lacerated her and ran away from the tragic scene. Some walked away tearfully, realizing little Jane was breathing her last breath.

Only six months ago she came strolling in the Mill, all wet, thin and shabby in appearance. Her feet were muddy and she wore a dirty grey fur coat that looked as if it had been chewed and licked the wrong way by a great dane. Curious and sympathetic eyes were cast her way as she went from one machine to the other silently watching the operators. No one made her leave. In fact, all were anxious to share their lunch with her. As the days and weeks passed, Jane became everyone's friend. She was so loyal and faithful and always the first on the job each morning. She was no longer thin, but plump and beautiful. She now wore a new grey coat, sleek and clean. But now sweet little Jane was dead. We will miss this little kitty that only six months ago took up her abode in the Spooler Room.

"NOT TWICE AS MUCH... BUT TWICE AS GOOD!"

says Frank Thomas

Coach Thomas knows the cola — as well as his football! He led the famous University of Alabama team to another winning Rose Bowl victory last season, and is looking forward to a repeat performance.

Frank Thomas prefers LIME COLA for the same reason you will. It's the quality cola drink — not twice as much, but seven ounces of twice-as-good cola. Not ever sweet, but tangy, sparkling, just right for delicious thirst-quenching refreshment. Ask for LIME COLA every time you want a cooling pick-up. Reach into the icebox for ice-cold LIME COLA every time you want an appetizing treat with meals. Look for the big white "LC" that means satisfying, twice-as-good LIME COLA!

**SOIL CONSERVATION NEWS**

Mr. J. H. Wells of Isabella community has started combating his Sericea for seed. The yield of seed per acre will be two hundred and fifty pounds which will clean out at least one hundred and fifty pounds per acre. This would be a net of forty-five dollars per acre, which is good returns considering no fertilizer bill and no hoeing or plowing.

There is a lot of sericea seed in Clifton County that could and should be harvested. There is a great demand for the seed. Harvest yours, if you have some to expend your acreage or sell on the local market. If planted on your own farms the PMA will pay you eighteen cents per pound the following spring.

C. R. Childress is planning on cutting his kudzu for hay this week.

Application for soil and water conservation plans were requested by B. F. Rouse, O. A. Posey, S. D. Posey and another farm of C. R. Childress last week.

Thursday night, October 17th, a group of farmers and their wives (approx. fifty) met at Isabella school to see the film "This is Our Land", a picture on soil and water conservation. Robert Butts, agriculture agent, for Standard Oil Company showed the film.

## Sunday School Class To Hold Rally Sunday

Two weeks ago the Wesley Fellowship Class of the Methodist church celebrated Mr. Omar Reynolds anniversary as teacher for the tenth consecutive year by making a drive for 100 members and visitors on that Sunday. With all members working but not too hard, the attendance that day was 72. Now according to the class president, Dr. Joe Edgar, with all members working hard, the goal of 100 that has been set for the coming Sunday can be reached.

On Sunday there will be held a church-wide Rally Day all classes having goals set.

No goal that has ever been set in Clanton has ever fallen short of its mark, so why be the first to fail, is the attitude of Class members in this drive. A special message has been prepared by Mr. Reynolds for the occasion and we are counting on every member and prospective member being present with a friend.

We guarantee you will be benefited.

## Forty - Niners Here Sat., Nov. 2nd

One of the most popular groups of entertainers now touring the country will make a personal appearance at the courthouse in Clanton on Saturday night, November 2, under the auspices of Post No. 6, The American Legion.

The Forty-Niners, famous radio entertainers from WSGN, Birmingham, for an entertaining evening and an evening full of laughter and fun, remember the date November 2, 1946, as the date of the show will get underway at 7:30 p.m.

## Deep South Quartet At Friendship Soon

The Deep South quartet of Birmingham will be present at the regular Thursday night singing at Friendship Church, November 7th. A program of Gospel songs will begin at 7:30 and there will be no admission. However, there will be taken a free-will offering to assist in defraying the expenses of the boys in making the trip. The cooperation of music lovers in our community is solicited, promising a good gospel program of gospel songs.

## Dance At City Hall Saturday Night

The American Legion will sponsor a dance at the City Hall in Clanton on Saturday night, November 2, beginning at 9:00. Music will be furnished by the Phillips and his orchestra from Birmingham.

## County Health Doctor Expresses Need For Syphilis Blood Test

Dr. E. M. Moore, County Health Officer, in explaining the forth-come blood test program to begin in the county on November 11, pointed out that ordinarily syphilis will manifest itself in its early stages in such a way that the person who has become infected will become concerned and consult his or her physician. However, there is a certain percentage of the cases of syphilis in which the body gives no early sign that the syphilis germs are in the system. These germs may remain hidden in the body for many years without producing any outward sign, but in later life may result in serious complications involving the heart and central nervous system, kidneys, lungs, and many other serious afflictions. Many deaths and cases of insanity as well as many partial disabilities result from these cases of syphilis which have not been discovered and treated.

It is with the hidden case of syphilis that this program is most concerned. It is by means of the blood that the hidden case of syphilis is discovered. Once it has been determined that an individual is infected, he or she may be treated at the apid Treatment Center in Birmingham, at government expense, or may go to a private physician of his or her choice.

Dr. Moore further points out that syphilis up to four years duration is infectious and that by discovering and treating the disease in the infectious stage, the chain of infection is thereby broken, and the spreading of the disease is checked. It is not pleasant for one to learn that he has syphilis, but it is far better to have it and know it than to be infected and not know it.

## Appleton and Fields To Open Concert Season Nov. 12th

Initiating an impressive first season of Clanton Community Concerts will be Appleton and Field who play here in concert Tuesday, November 12th the program to be at the Methodist Church, 8:15 p.m.

Hailed by critics as "two artists of the keyboard who play and think as one," the duo-piano career of Vera Appleton and Michael Field was merged almost by accident. The feminine half of this now famous team was born and reared in Tulsa, Okla.; Michael Field is that rarity, a native New Yorker; yet the fates decreed that they were to come together and form a pianistic union which wins audience enthusiasm wherever they appear.

Member of a musical family, with a mother who studied piano at the

Imperial Conservatory in Russia, Vera Appleton grew up in a household where at least two people were always practicing at the same time. Gifted with an innate sense of rhythm, she studied dancing as a child and danced professionally until high school days. At eight, however, she turned to the piano and when forced to a choice between career activities chose the instrument as her life's interest. At nine Vera gave her first concert and subsequently won first prizes annually in state-wide contests of the Federation of Music Clubs. She continued her musical studies in Chicago on a scholarship and after a year won a fellowship at the Juilliard Graduate

## MR. EUGENE BOWDEN

Mr. Eugene Bowden age 68, died Monday at 11:30 a.m. at Jemison, Ala. Funeral services were held at 1:00 p.m. at the residence, also grave side services at Elmwood cemetery, Birmingham. He is survived by wife Mrs. Mamie Bowden; three sons, J. H. of Atlanta, H. J. of Birmingham, M. E. of Birmingham; one daughter, Mrs. Mary Morris of Birmingham; one step-son, Harry Steele of Birmingham; one step-daughter, Mrs. Gertrude Henderson of Sylacauga, Ala. and six grandchildren.

Spigener Funeral Home in charge.

## Sacred Harp Singing Held At New Harmony

The Sacred Harp Singing of Chilton County held an all-day singing at New Harmony Primitive Baptist church the Third Sunday.

The opening song was sung by our pastor, Elder J. B. Williams of Tallapoosa followed with prayer by Elder R. F. Hyde.

The arranging committee for the day were Mrs. Flora Oakes, Arnold Jackson and Elder J. B. Williams. Directors for the day were Bro. Wells from Montgomery, J. H. Hays, Mrs. Grady Jones, Marvin Jackson, T. C. Jackson, Ellie Shirley, Mrs. G. S. Gaines of Leeds, Elder J. B. Williams, W. S. Jackson, Mr. G. S. Gaines, of Leeds, W. L. Sanders and Mr. Ike Blankenship of Clay County.

We wish to extend our many thanks to our many friends who helped us to make this day a success. And thanks to those who helped to provide such a wonderful lunch. There was plenty for all and some to carry back home. Visitors are always welcome and appreciated at our church at either the singings or our regular church services.

The regular meeting of the Chilton County Wildlife and Conservation Club will be held Friday night, November 1 at 7 p.m. at the Courthouse. All members and interested parties are requested to attend this regular monthly meeting.

## Luker-Harrelson Celebrates First Anniversary Here

## MAYOR URGES LEAF BURNERS TO BE CAREFUL

A notice for all fall cleaners who burn leaves and high grass and weeds to be careful with the fire until it is out and safe to leave before you go away. Do not risk it in the hands of small children, and above all, do not try to do your burning while there is a high wind were a few of the "don'ts" that was contained in the notice.

## PASTORS WILL MEET HERE NOVEMBER 5TH

The pastors of the Unity-Chilton Association will meet at the First Baptist church in Clanton November 5th and group together and drive out to the Baptist Church at Maplesville for the services.

The Rev. J. Robinson will bring the devotion and the Rev. W. J. Jones will bring the inspirational message. Rev. Jones has just recently moved back from New Brocton to take up regular work at Refuge and Chestnut Creek churches. We are glad to welcome him back into our midst.

## Maplesville Team Again Victorious

Maplesville Red Devils are victorious again. A fast-improving Maplesville eleven trounced Billingsley 19 to 0, Friday afternoon. The first quarter was scoreless, but in the second the Red Devils started rolling. A pass by Walker to Glass was good for about 50 yards and a touchdown, the first extra point was no good. A fourth down pass by Billingsley no good, and the devils took over on the Billingsley 30 yard line. A pass to McGee was good for a first down, another pass by Smith to Glass was good for eight yards, putting the ball on the 10-yard strip. Smith went over for six yards, in the third down Martin went over from the four standing up for another score. The point by Rudick was made to the left and at the end of the half the score was 12 to 0 in favor of Maplesville.

In the third quarter, an exchange of punts put Billingsley on Maplesville's 25 yard line. A fifteen yard penalty against Maplesville put the ball on the 10. Two incomplete passes and two running plays moved the ball only 3 yards and the Red Devils took over at the third quarter ended. Carter picked up eleven yards around his own right end. A pass from Smith to McGee was good for 12 more. Walker over Carter picked up three yards. Rudick around left end raked up four yards making it third down and three to go. Smith over left tackle gained a yard, Walker kicked out of bounds on the Billingsley 12-yard line. Two running plays and a pass gained only seven yards. Billingsley elected to kick. The pass from center being high, Fuqua broke through for the tackle and a three yard loss. Maplesville took over on the 19 yard line with only two and one-half minutes to play. An end-around to McGee was good for eleven yards. Carter around left end moved the ball to the one-foot line. Walker

## OLD-TIME SINGING AT MOUNT ZION

Upon the request of Uncle Frank Martin the old-time singers will have an all-day singing at Zion Church the second Sunday in November. The Sacred Harp and Christian Harmony song books will be used. Everybody come. — W. L. Sanders.

## Home-Coming To Be Held At Refuge

Refuge Baptist church, six miles east of Clanton, will have a homecoming reception for their new pastor, Rev. J. W. Jones, the first Sunday in November. This will mark the beginning of the work by the new pastor and the church is looking forward to a great day.

We will have some special singers as well as some interesting speakers. Prof. Marion W. Easterling and Mr. E. Wyatt will furnish plenty of up-to-date books. Prof. Easterling said that he would leave no stone unturned in the interest of the singing part of the service.

The Harmony Four quartet of Clanton will be present to render several numbers.

The new pastor will bring the message just before the noon hour. The former pastor, Rev. N. E. Cook will give a talk some time during the day. Plenty of good eats will be served at the noon hour. The afternoon will be largely devoted to singing. Come and bring your song books.

Everyone has a special invitation to keep the above service and date in mind and come out and spend the day with us.—M. Lockhart.

## Pioneer Citizen Of Chilton County Passes

Mr. Alfred Baker, age 88, one of the pioneer citizens of Chilton County, passed at the home of his son, Glauco, of Maple Springs Community on Thursday afternoon at 4:30.

Mr. Baker was laid to rest at Walnut Creek church last Friday afternoon at 2:00. Services were conducted by Rev. T. R. Greenwood and Rev. N. E. Cook.

Pallbearers were grandsons and

flower girls were grand daughters. He is survived by two sons, G. M. Baker of Clanton Route 2 and Jim Baker of Clanton Route 5; two daughters, Mrs. Enoch Thompson of Clanton Route 5 and Mrs. Lester Powell of Clanton; 21 grandchildren, 11 great - grandchildren and 2 great-great-grandchildren.

Martin and Sons were in charge.

## Rise Is Seen In Airmail Volume

Inauguration of the new five-cent United States flag rate October 1 immediately brought a sharp rise in air mail volume. Postmaster R. W. Lowe said, "Airdrop and mail service, of the rise time at a low postage rate, should stimulate commerce business leaders here believe. For that reason, they are encouraging large air-mailing during the nation-wide air mail promotion week."

## Freeman Writes To People Of County

To The People of Chilton County:

On next Tuesday, November 5th, a Commissioner for the Second District will be elected. This district now comprises Precincts 3, 9, 11 and 14. I have served you one term as Commissioner of this district and it is my wish to serve you again. I was born in and have resided in Chilton County all my life and I believe that I understand the people in the county and the kind of government you want. With my experience as County Commissioner for one term and the knowledge I have gained through my service in this office, I am in a position to render better service the second term.

I have always stood for progress and will in the future. I am for doing all we can for the aged. I am interested in Chilton County acquiring the best hospital possible and I favor all legislation and help we will be able to give our boys who were handicapped by being away in the service of their country.

I know that our progress and road during the war and this could not be avoided. In my district, I am the best we could with the help we had and the machinery and equipment to keep our roads in passable condition. We plan greater improvement as soon as material and equipment are available.

I pledge you my word that I will cooperate with all County Officials, all State Officials, and all City Officials, in any matters which may be of interest to the people of the county.

Thanking you for your vote and influence, I am

Respectfully,

—HOYT FREEMAN

## Increased Interest Is Being Shown In Tuesday's Election

### ORPHANAGE PRODUCE TO BE LOADED NOVEMBER 12TH

The churches of the Unity-Chilton Association will load this produce at Clanton and Thorsby on Tuesday, November 12th.

We are urging the respective churches to have the date in mind and send or bring their produce to the peach shed in Clanton or to the home of Rev. G. G. Williams in Thorsby.

We also have plenty of empty jars for distribution at Mullins and Scott warehouse in Clanton. Any of the churches can get them for refilling.

—W. J. Billingsley, M. Lockhart Representatives.

## Chilton Football Team Roms on Weak Siluria Eleven 40 to 0 To Win

Sparked by Cox and McCain, the Chilton County High School Tigers last Friday night romped on Siluria to the tune of 40 to 0. This was Clanton's third win of the season making them three wins and three losses.

The Clanton line and the backfield completely outplayed Siluria from the starting whistle. Cox got away for two nice runs through the Siluria line for touchdowns. McCain was deadly with his passing and plunging of the line. Clanton's line played a jam-up offensive game. Siluria had possession of the ball only a few times the entire game.

Tomorrow night, the Tigers will be out trying for a repeat performance against a stronger Holtville team.

## Water Bills Will Be Mailed Out In Future

Mayor Leo Thompson announces that beginning November 1 water bills will be mailed to patrons. Hereafter, they were delivered by a city employee. The Mayor requests that everyone watch for their water bills through the mail this month and be governed accordingly.

## Halloween Party At Collins Chapel School

There will be a Halloween party at Collins Chapel school next Friday night, November 1. Everyone invited to come and have a real enjoyable evening; surprises and thrills for everyone. You will get your money's worth at one booth.

### ALL-DAY SINGING AT MT ZION

There will be an all-day singing at Mt. Zion church the second Sunday in November. All singers and friends of this kind of music (Sacred) have a special invitation to attend.

These people extends to everyone a hearty welcome to visit them on this day. They are ready to make you feel welcome.

Mrs. Ernest Jones, of Clanton visited her sister in Columbiana last Sunday.

## Candidates Busy As General Election Draws Nearer

What appears to be a Democratic victory is expected when the final votes are counted in next Tuesday's General election, according to the best information from the older political doers of the county.

All candidates have taken new life and here at the finish of the race for the respective offices have renewed their efforts and the campaigns will end in a whirlwind finish.

Increase by the voting public in the election has greatly increased in the past few weeks and what was expected to be a light vote a month or so ago looks like will be an average vote for a general election if not much larger. Hottest of the hot races and the one creating most attention seems to be the race for Sheriff between J. A. Nivens, incumbent, and Ed Littlejohn former sheriff's deputy and insurance man. Both are working hard but the edge goes to Nivens who has made a fine record as sheriff for the past term.

Other races drawing much interest are: Howard Bookholdt and Rascoe Maddox for Superintendent of Education; J. C. Pattillo and Clifford Manning for Circuit Clerk; C. B. Cox and W. L. Sanders for the Legislature; Howard Roper and J. E. Cobb for Commissioner, First District; Hoyt Freeman and A. J. Davis for Commissioner, Second District; Two members of the County Board of Education will be elected. Pope Payne and Fred Smith are running on the Democratic ticket and Lonnie Cobb and M. Lockhart are on the Republican ticket.

## HALLOWEEN PARTY AT THORSBY PUBLIC SCHOOL

There will be a Halloween Festival at Thorsby Public School on Thursday night, October 21st. Refreshments will be sold. A program will be given by the pupils and adults and shivers that go with Halloween will be there in the "House of Horrors" and other features that are planned. So come on out and enjoy the fun, young and old.

### RAY CALLAWAY

## FOR OUR DEFENSE

The Pacific Islands were taken at a great sacrifice in American lives. If we had had possession of them before the war, the struggle with Japan would not have been so long. To retain control of them now is but a defensive move on our part. We are not interested in these islands for commercial purposes, as any critic must admit. To hold them now is but an effective means of carrying for our national defense. This is not an aggressive move on the part of the United States, nor do we consider the islands as reparations. Many a home in Chilton County was affected by the suffering and sacrifice in the Solomons, Carolina, Marshall, Mariana and Alutians. We consider them in the light of a defensive frontier and feel this is no time to tear down our defenses.

No wonder so many Clanton girls are stoop-shouldered the amount of costume jewelry they wear!

We miss having a political candidate with a heavy mustache, so we can joke about it or make funny drawings in pencil on campaign posters.

They say shivering makes you warmer. We are now heading for a season in Chilton County in which we should therefore be most comfortable.

Some Clanton girls hesitate about marriage because they don't want to spend a housing shortage honeymoon.

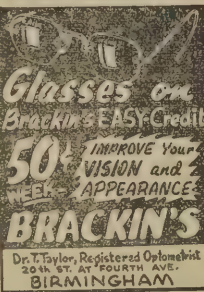

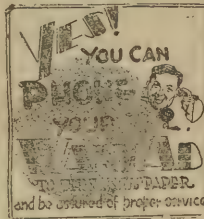

## Does Stomach Gas and Bloat Make You Feel Miserable?

If so, here is how you may get blessed relief in freeing your stomach from this nervous distress. It works this way: Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment, sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juices, plus rich red blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-consumed food and blotting when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait until the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your doctor today. SSS Tonic helps Build Sturdy Health.

### ABOUT TOWN

-By BEN

The time has come, the walrus said,  
To talk of politics.  
Of Democrats and Republicans  
And whether both play tricks.

The best, of course, are Democrats.  
We leave it up to you.  
There's Parrish, Cox and Gullledge,  
Each one of them—true blue.

Take Nivens, Smith, Pattillo,  
You'll find no better men.  
And Bookholdt, Payne and Foshee,  
No finer—kith or kin.

Of Freeman and of Roper  
For those who give a care,  
Can travel north and westward;  
You'll find have proved their ware.

So sing a song of politics  
No matter where you're at.  
But go to the polls on Tuesday  
And vote for a Democrat.

We know that sounds awful but we  
are in a hurry.

A small army of ladies were in the  
A & P Tea Company Monday. Seems  
that the management, Mr. Cecil Ramsey,  
had located a good supply of things  
that have been mighty hard to get.  
Now don't get excited—they didn't  
last as long as it took the  
butter and snowdrift to melt.

Our deepest sympathy to our friends  
the Wades, who lost their father, Mr.  
Wade, Sr., last week. He died in a  
Birmingham hospital. He had been  
in poor health for a long time.

This is Airmail Week. Uncle Sam  
is advertising the fact that you can  
now send a letter airmail for five  
cents where it used to cost you eight  
cents. The idea is that if you send  
your mail up—the price is down.

Leo Thompson is coming right along  
with that new laundry that you can  
now send a letter airmail for five  
cents where it used to cost you eight  
cents. The idea is that if you send  
your mail up—the price is down.

We read the definition of a joint  
account as this: An account where  
the husband makes the deposits and  
the wife makes the withdrawals.

Everytime we think we are going to  
make ends meet someone moves the  
ends.

We know a lady who picks up more  
dirt with her telephone than she does  
with her vacuum cleaner.

An old man groped around under the  
seat in a theater. A woman in the  
next seat could contain her curiosity  
no longer and asked him what he had  
lost.

"A caramel" he told her.

"My goodness," she exclaimed. "Do  
you mean to say you're going to all  
that trouble for a caramel?"

"Yep," was the reply, "my teeth  
were in it."

Why, oh why, won't these ladies be-  
lieve us. We said last week that when  
they let their husbands go off from  
home anything could happen—well it  
has happened. Hollis Jackson left  
Sunday for some sort of a convention.  
Before he got to Thorshy he had a  
puncture. While he was fixing the  
puncture (he says) a dog slipped up  
behind him and made off with the seat  
of his pants. "Jack" had to call the  
missus and replenish his wardrobe  
before continuing his journey. We  
told you so.

We understand that the word is go-  
ing around that Mr. Charlie Cox, who  
is a candidate for Representative in  
the State Legislature, is crossways with  
our next Governor, Mr. James E. "Big  
Jim" Folsom. This is not true. Mr.  
Cox has had four conferences with the  
next governor to date, working out  
plans for the coming administration  
and he is for the incoming governor  
one-hundred percent. Personally, we  
believe he can do Chilton County more  
good than any man that could be  
named to the office.

ANNUAL JUNIOR RED CROSS  
ENROLLMENT NOV. 1-15

November 1-15 is the time for the  
Annual Junior Red Cross Enrollment  
for service this year. At that time  
pupils in every private, public, ele-  
mentary and high school will be given  
the opportunity to be members of  
the young people of Chilton County  
will respond one hundred per-  
cent. We are proud of what our  
young people are doing, without bene-  
fit of uniform and with very little  
laurel, and we are proud that they  
are members of the American Junior  
Red Cross. Louise Foshee, Chair-  
man Junior Red Cross.

## FLOYD NEWS

Our Sunday school, although it is  
small, is progressing. We would like  
to invite anyone that will to come  
every Sunday. It starts at 10:00.  
Our superintendent was absent Sun-  
day but he hopes to be back next  
Sunday.

Mr. and Mrs. Jimmie Williams were  
the guests of Mr. and Mrs. A. O.  
Taylor Sunday for dinner.

Mr. Samuel Headley and Mr. A. O.  
Taylor were absent Sunday but we  
hope to see them back next Sunday.

Mr. and Mrs. E. M. Prickett were  
absent Sunday but we hope to see  
them back next Sunday.

Mr. and Mrs. William Headley were  
absent Sunday. We want to invite  
them back with all the rest for next  
Sunday.

The Young People's class was small  
Sunday. We want to see all the  
young people back at Sunday School.

Remember next Saturday night and  
Sunday is our regular preaching days.  
We want everyone to come and hear  
our good pastor, Rev. R. E. Wilkins.  
He is a man true to God. He will  
preach at the eleven o'clock hour af-  
ter Sunday school.

The second Sunday in next month  
Rev. Frank Hell, a new minister, is  
going to preach for us after Sunday  
school.

We want everyone to come next  
Sunday and be on time for Sunday  
School. Everybody come and bring  
someone with you.

## TO THE PEOPLE of CHILTON COUNTY

### TO THE PEOPLE OF CHILTON COUNTY:

On account of my work as Commissioner I have not had the opportunity to contact as many of you as I really wanted to see. The truth is I wanted to meet and talk with every citizen of the county but you know and I know that if we are to have good roads in the winter they must be put in the proper shape in the Summer.

I have tried to be an honest, pleasant and conscientious servant of all the people and believe I have just that.

Good roads, good schools, old age pensions, and a square deal to every one of our War Veterans will in the future, as in the past, be first among things for which I will work and fight.

There are many things I could write, but they are things you already know, so in conclusion, let me say that I am again placing my candidacy in your hands on my record as a public servant and on my merits as a citizen of our county.

I hope you can support me, feeling that I am worthy of your trust, and that I will continue to do my best for all the people.

Sincerely yours,

HOWARD ROPER.

(Pd. Pol. Adv. by Howard Roper, Jemison, Ala.)

## E. P. Littlejohn Writes Voters

I wish to extend to my friends of Chilton County my sincere thanks and appreciation for your help and cooperation during my campaign for Sheriff of the county.

It has been my pleasure to see a large number of the voters of the county, but would not permit me to see all of you and I'm sure you will understand this. To you whom I have seen, my deep appreciation for your encouragement and cooperation, and to you whom I have not been able to see, let me assure you that your vote and influence will be just as deeply appreciated.

I have done my utmost to conduct a clean, honest and upright campaign, such as the many fine citizens of the county deserve.

I do not consider it necessary to write a lengthy letter or make a lot of promises, as I believe what the people want is performance and service rather than campaign promises, so in conclusion let me say, should I be your choice, I will fulfill the duties of the office to the very best of my ability, keeping the office open at all hours as provided by law, ready to serve the people in any event. Always keeping in mind your interests and my duties to you and try to prove myself worthy of your confidence.

Again, may I solicit your vote and continued influence now and on Nov. 5th.

Your Friend,  
—EDGAR P. LITTLEJOHN

## MEETING OF CHILTON COUNTY COUNCIL OF P.-T. A. ASSOCIATIONS

The Chilton County Council of Parent-Teacher Associations met at the Vocational Building of the Chilton County High School on October 24, at 9:30, with Miss Elsie Schurter presiding. The devotionals were given by Mr. Patterson Hicks. After a discussion of the work of P.-T. A.'s in the past, plans were made to organize a P.-T. A. in the few schools in which there is no organization. The following representatives reported on the aims and objectives of their organization:

Chilton County High School—Mrs. Joe Mullins, Mrs. Reid Mullins.  
Mapleville—Mrs. J. R. Meherg.  
Miss Maude Johnson, Mrs. C. B. McKee, Mrs. Garland Smith.  
Isabella—Mrs. Fannie L. Cummings.  
Verbena—Mr. J. R. Cooper, Mrs. Jean Irvin, Mrs. T. H. Hudson, Mrs. H. G. Daniel.  
Clanton Elementary—Mrs. R. M. Tucker.  
Baker—Mr. Oliver Duke.  
Cooper—Mrs. W. W. Devaughn.  
Enterprise—Miss Thelma Pierce.  
Mrs. E. P. Edwards.  
Stanton—Mrs. Eula Ruddick.  
Thorsby—Mrs. Charles Cleckler.  
Thomas Jr.—Mrs. Aubrey E. Smith.  
Mineral Springs—Mrs. J. F. Gilmore, Mrs. F. E. Paschal.  
Miss Louise Foshee, Supervisor of Attendance, discussed, "Guiding Principles for Parent-Teacher Work."  
The following officers were elected for the year:  
President—Mrs. H. G. Daniel

## W. L. Sanders Writes

To The Voters Of Chilton County:

As the campaign draws near the end, and election day is just ahead, I'm sure that you are considering well the great responsibility of selecting the man that will serve you for the next four years.

As a candidate for Representative to the Legislature of Alabama, it has been my purpose to make known to the people how I stand on the many issues of the day.

This campaign has been short with me, and I have not had the time to contact each voter, however, I have tried to get my program, in the pamphlet form, to every section of the County in order that the people may fully understand how I shall vote if elected to the Legislature.

I appreciate very much the encouragement given me and the many friends that are carrying my program to the people of Chilton County.

I hope that every voter will realize that the people's program is my program and the people's wishes are worth while with me.

The record of my official action, as a member of the Board of Education, is open for public inspection.

The things I shall support in the next Legislature, if elected, are also open for inspection, and I shall not attempt to keep you guessing as to how I stand.

I believe the people of Chilton County to be fair and honest and with sufficient intelligence to know what they want.

As this campaign will soon be closed, I know I will not be able to see every voter, therefore, I will appreciate your taking this letter as a personal request for your vote and influence.

The decision is yours and the future must accept what you give.

Yours for the people,  
W. L. SANDERS.

(Pd. Pol. Adv.)

Verbena—Vice-President—Mrs. R. M. Tucker, Clanton.  
Secretary-Treasurer—Mrs. Luther Yeargan, Enterprise.  
At the close of the business meeting, the representatives met in the luncheon of Chilton County High School for lunch.

The Forty-Niners from radio station WSGN in Birmingham, one of the most popular groups of entertainers now touring the country, will make a personal appearance at the Courthouse in Clanton on Saturday night, November 2nd at 7:30 p.m. sponsored by the American Legion.

This famous troupe of radio recording and stage stars, featuring Zeke The Hayseed, who is one of the funniest and original comedians in the entertainment field today. He alone

is worth the price of admission. Others included in the group are "Chubby" Gus Clark, former star of the Grand Ole Opry, Copper Phillips from radio station WLW, Boone County Jamboree; "Smiley" Hoggeland, No. 1 head-fiddler; Hayzel Atcherson singing cowgirl. Also the banjo king from the Grand Ole Opry, Flip Strickland.

Admission to this show will be for children 35c; for adults 50c.

## J. H. Jackson Writes To All Voters

Well, the time is near when we will make our choice for officials to serve us. In this choice I feel that we should all break down party lines that stand between us and a good man.

Of most important to the people of Chilton County is that of our next representative to the Legislature. I realize we have two good men running for this office but do they both come out in full for the Folsom program?

I know that Mr. Sanders was for the Folsom program in the first primary. And if he is elected will do all in his power to aid Mr. Folsom in all his program.

Now Mr. Cox said that he agreed with Mr. Folsom in all his worthwhile campaign plans. This of course could be interpreted as only a small part of Mr. Folsom's plans was worthwhile.

We will make no mistake in sending Mr. Sanders to represent us, as I feel that he is fully qualified for this position.

The people of Alabama have endorsed Mr. Folsom's program, then why not send a man that is in full accord with the program.

If we send a man that is against part of the program he will only serve as a stumbling block.

This is the first time in the history of my life that we the common people nominated a governor to work in behalf of the common people, so let us give Mr. Folsom our support by electing W. L. Sanders to the Legislature of Alabama.

J. H. JACKSON.

(Paid pol. adv. by friends of W. L. Sanders).

## A RED CROSS TRUE STORY

A field director at an Army base in California was downing a coke in the PX one day recently when a civilian came up to him and said, "Sir, where is your office? I want to visit you, not for help or to get anything, but to give something to the Red Cross."

Moderately flabbergasted by this unusual approach, the Red Cross director managed to say "Where?" and then pressed the man for details on why he felt the way he did.

"Well, when I was in the army, I served from a few miles to as far as 7,000 miles away from home. I've had trouble . . . including an unfaithful wife and a divorce, and I lost a child and my mother. Not once has the Red Cross failed me—at home or 7,000 miles away."

He paused and continued: "I'm a civilian now. I have to pay alimony and support my child. I have no money for myself, but I have some talent as a commercial artist. If you want any signs, pennants, flags, banners, posters or anything, please call me."

## KILL WEEVILS IN CORN CRIB

Farmers who grow corn to feed to livestock rather than to insects may profit from these suggestions on how to control weevils in stored grain.

W. A. Ruffin, API extension entomologist, says that weevils can be killed by (1) harvesting the corn as soon as it is dry, (2) storing it in an airtight crib, and (3) fumigating it 10 days after it is stored with carbon disulphide, better known as "highlift."

Cribs that are not airtight can be sealed with tongue and groove lumber, building paper or old pasteboard cartons before the corn is brought in from the field, he says.

Ten days after the corn is stored, commercial grade carbon disulphide at the rate of one gallon for each 1,000 cubic feet of space (250 bushels of ear corn) can be poured directly on top of the corn. The crib should be kept closed for 48 hours and then thoroughly aired before corn is used from it.

"Be sure to keep all fire away from the crib while it is being fumigated," warns Ruffin. The fumes are highly inflammable.

## E. E. Porter Endorses Manning For Clerk

To the Voters of Chilton County: As election day draws near, we should all be considering our officials for the years ahead. We all want honest, capable men to represent us. It is time we were getting some younger men, for the older men need relief from their duties. We owe it to veterans who served us during the war on battlefield and ship to give them recognition.

In Clifford Manning, candidate for Clerk of Circuit Court, we have a man who meets all these requirements. He is young, he is a veteran, he is

capable, he is honest. He comes from a prominent Chilton county family. I have known him for many years and I am confident he will ably serve us as Circuit Clerk.

His opponent is an esteemed Christian gentleman, who has served creditably in this office for twelve years. But he is now entitled to retire honorably from his labors just as Mr. Manning deserves recognition for his service to us and his country.

Let's vote for Clifford Manning and give representation to the hundreds of Chilton County veterans by electing one of them to office—Respectfully Yours, E. E. PORTER, Thorsby, Ala.

## TO THE VOTERS OF CHILTON COUNTY:

May I review a few facts concerning my qualifications for County Superintendent of Education.

I hold, in addition to an A.B. degree, an A.M. degree from the University of North Carolina, and have done graduate work in Peabody College for Teachers in Nashville. I hold a Class A Certificate in Administration and Supervision.

RASCOE MADDOX

I have worked twenty-three years as teacher, principal, and superintendent in the schools of Chilton County.

As your County Suprintendent I worked in harmony with the County Board of Education, the teachers, and educational leaders over the State. This administration was marked by progress in new school buildings, the establishment of a school transportation system second to none in the State, school lunchrooms, county band, sound financing, and harmony. My four years experience as County Superintendent and subsequent experience as teacher and principal have given me a much better understanding of the needs and problems of the schools than I had eight years ago.

I sincerely feel that great days are ahead for Chilton County and its schools. If you elect me your County Superintendent, I shall be happy to devote my best efforts in the service of your schools and children.

## A MAN QUALIFIED

C. B. COX

As a last reminder to the voters of the county, I wish to say that I am satisfied that when the votes are counted on November 5th I will be honored by you with the office of Representative in your Legislature for the next four years.

I feel that I am well qualified through experience to represent you and I am sure you know that my interest will be for the betterment of our county and its people.

I have had a wide experience in every department in the state government and you realize that only one who is experienced in such matters can accomplish anything for their constituents.

I deeply appreciate your cooperation during my campaign and to those of you who have worked in my behalf, I thank you.

As I have often stated, if I can be of service to you in any capacity and at any time, please let me know.

Sincerely your friend,

**CHARLIE B. COX.**

## Plotz Says Cox and Folsom In Complete Accord On Program

There seems to be a rumor going the rounds that Mr. Charlie Cox who is a candidate for the Legislature is not a supporter of Mr. J. E. Folsom, our next governor. I also understand that a man has been sent into the county to run his opponent's campaign who is not a Clifton County resident or voter. This man is trying to make the people believe that Mr. Cox will not cooperate with Mr. Folsom. To my certain knowledge, this is not true as I know that Mr. Folsom's choice would be Mr. Cox.

There are 160 members of the House. Now what could one man of a different political party do with 105 votes to his one? I am as close to Mr. Folsom as any man in the county as I was with him four years ago when he ran for governor and have been with him ever since. He told me in Montgomery recently that he and Mr. Cox had been in conference and he was glad to have him on his side because of his experience.

Mr. Folsom has offered Mr. Cox a place on any committee he wishes to be on and what could a newcomer of different political affiliations couldn't get on any committee.

I am writing this letter to let the voters know the truth where Mr. Cox stands with the incoming administration.

Sincerely,

JIM PLOTT,

Vernona, Ala.

## METHODIST W. S. C. S. STUDIES INDIA

The spacious and hospitable home of Mrs. Sophia L. Jones was the scene of a delightful spend-the-day for the Women's Society of Christian Service on Tuesday, October 29th when Mrs. Carlisle Miller, Secretary of Missionary Education directed a comprehensive study of India. The arriving guests were welcomed in typical Indian fashion. They received a flower to adorn their hair; they touched their fingertips in sandalwood paste and to the chin; they were anointed with rose water. Two honor guests received mala garlands of flowers that were worn as necklaces. With this ceremonial greeting an invitation was extended to them to sit on the floor. India, thinking on the charming traditions and rich culture of this ancient land now at the threshold of a new day of hope and promise.

Displays representative of the artistry of India consisted of lace, intricately patterned silks, and jewelry of delicate filigree-work. There were other displays of maps, pictures, articles from secular and religious magazines. Life in India was further revealed to those who spent a few minutes with the illuminated stereoscope.

Eight ladies assisted in presenting the textbook, "India at the Threshold" by L. Winifred Bryce. Interspersed with serious study were refreshing moments skillfully introduced by Mrs. Miller. She gave a most entertaining description of Indian music, and illustrated the same by playing as a piano solo a beloved Indian Hymn. Mrs. Dick Kemp sang the song, "Song of India," first reading the beautiful words. Mrs. Miller read several whimsical bits of Indian folklore.

At the noon hour an Indian dinner was enjoyed. The ritual accompanying an Indian meal was demonstrated. Small rugs were laid on the floor in a circle. An arrangement of a lotus blossom and a crescent of lotus leaves was placed in front of each rug. Guests were then seated on the rugs, first removing their shoes. The ceremony of hand washing was observed.

An attendant, provided with a bowl around the circle. Each guest held her hands over the bowl, water from the pitcher was poured over them and then the hands were dried. Two attendants served the dinner, placing the plates on the floor in front of the guests. The guests ate with the fingertips of the right hand. After the meal the hands were washed. This time the guests dipped their fingers in a small bowl of water. The menu consisted of curried rice, chutney sauce, Indian bread (Puris), and hot tea, with a desert consisting of rice pudding (Khir), and an assortment of delicacies, coconut, raisins, peanuts, bananas and oranges.

The Methodist ladies were most happy to have the Presbyterian ladies as their guests. Two Presbyterian ladies assisting with the program wore the garland of flowers, symbolic of the honor bestowed on special guests.

Twenty six ladies registered in the Guest Book. As the day closed all felt a deeper understanding, and a greater appreciation of India.

PLENTY OF GREENS NEEDED IN WINTER

Greens that can be seen in almost every garden over the state are a good sign that Alabama homemakers know the value of leafy vegetables in the family's diet. Enough turnip greens, mustard greens, kale, and collards can be easily grown to furnish plenty of this needed food through the winter. These greens contain vitamins A and C plus calcium and iron, all of which make for better health and resistance to diseases, says Mary Hulsey, API extension nutritionist.

## Shelton Cook Writes To County Democrats

To the Loyal Democrats of Clifton County:

As we all know we are supposed to go to the polls on November 5th and elect our opinion in an important election. We also have nine amendments that we should read, study and think over.

First of all I am a strong admirer of the good people of Clifton County. My association with them has been very pleasing. I also wish to congratulate all the nominees. I think they are all fine, Christian gentlemen who have records they can point to with pride.

They are men of high project clear vision and supreme courage. In reading their letters it denotes that they have the interest of the people at heart, wishing to continue being servants for them in line of duty.

So as citizens and good neighbors let's vote and help keep democracy in our County, State and Nation.

Very respectfully,

J. SHELTON COOK.

## POPLAR SPRINGS

We had a very good attendance for preaching Sunday morning and night. Rev. Cook delivered two very fine sermons. We had several visitors for both services. Among them Sunday morning were Mr. and Mrs. Jessie Jones of Clanton; Sunday night Mr. and Mrs. Lloyd Mims of Refuge. Visit us again—all of you.

Beginning next Sunday night at 6:00 o'clock we will have old-fashioned prayer services. Mr. J. D. Popwell will conduct services next Sunday night and will explain for us the meaning of the 21st chapter of Revelations. Read this chapter for yourself, then come out Sunday night and hear Mr. Popwell.

Don't forget the singing at 9:30 Sunday morning—Mrs. A. H. Litchfield, Church Reporter.

## TRADING LIVESTOCK SPREADS DISEASES

Farmers who "trade and traffic" in livestock are inviting trouble for themselves and neighbors in the form of animal diseases which they spread from one farm to another, declares W. H. Gregory, API extension livestock specialist.

## District F.F.A. Meets

The County F.F.A. held its regular monthly meeting Monday afternoon at Isabella.

Billy Hayes, President, opened with the regular F.F.A. ceremonies instead of a roll call each member introduced himself and his Chapter. A short business session followed. The County Chapter set up and adopted a District Program of work. This program as adopted is to:

1. Hold one meeting each school month.
2. Have district public speaking contests.
3. Have quartet and string band contests.
4. Have one fish fry and barbecue.
5. Sponsor athletic tournaments.
6. All officers attend state convention.
7. Advance members to higher degrees.
8. Set up regular working committees.
9. Reporter write up all meetings for paper.
10. Put on two radio programs.

After the business was transacted there was a short program. The Jemison quartet sang two numbers and then two members of the quartet sang a duet. After these numbers the Isabella quartet and string band entertained with several good numbers.

## STRIP TREES TO CUT BROWN, BITTER ROT

There'll be less peach brown rot and apple bitter rot in orchards next seasons if all old fruit hanging on trees are stripped off and burned.

The main way these diseases are carried over to the following peach and apple crop is on fruit left hanging on the trees through winter. W. A. Ruffin, API extension entomologist, says that right now is the best time to get rid of the old fruit and generally clean up orchards.

"If this job is done well, farmers will find that next year's spray program will give better control of brown rot, bitter rot, and other diseases," added Ruffin.

## STANTON

There will be a Hallowe'en Party Friday night, November 1st, at Stanton Schoolhouse. Everyone is invited. Meet your friends there and have loads of fun.

Prayer meeting every Wednesday night. Won't you attend? Have you noticed the lovely monument at Rev. and Mrs. W. J. Rudick's graves?

Mr. and Mrs. Thomas Hilliard Gay of Fairfield, Ala., spent the week end with Mr. and Mrs. Grady Houston.

Mr. Clifford Gregory of Talladega, Ala., and mother, Mrs. Mary Walker, of Siluria, Ala., visited the Edwards Parnell's over the week end.

Clinton Stotesburg and Fred Hommel, recent visitors in the Bill Ruck home, have returned to the home in Freehold, N. Y.

Mr. John McKinney suffered a heat attack last Friday morning. We are glad to state he is improving and able to be up.

Mrs. Will Suttles is very ill at her home in Bessemer, Ala.

Mr. and Mrs. Charles Rush of Chickasaw announce the birth of a son, Richard Allen.

Mack Terry, student at the University of Alabama, spent the week end with his parents.

Mrs. Eugene Fallen is seriously ill at her home in Mobile, Ala.

Roy Fallen and Mrs. Willis Smithman have been called to her bedside.

Home on terminal leave are Funk Davis and Donald H. Latham.

Lloyd Davis and Dudley Miller of Mississippi spent the week end with Mr. and Mrs. J. B. Davis.

Several from here attended the funeral of Clayton Bearden last week.

Tip Burnett, Billy Dennis, Clint Stotesburg, Fred Hommel, Mr. and Mrs. S. B. Rogers and Bill Rudick were among those witnessing the game between Alabama and Kentucky Saturday afternoon in Montgomery.

### COLLINS CHAPEL P.T.A. MET FRIDAY NIGHT

The P.T.A. at Collins Chapel met Friday night, October 25th, with a large and enthusiastic crowd.

The President, Mrs. Strain, called the meeting to order. The discussion was opened by our principal, Mr. Smith. The objectives for the coming year, all entered into the discussion. A committee was appointed Mr. Smith Chairman, to decide what objectives to work for.

Mrs. Parker conducted the devotional.

The Halloween party for November 1st was an important topic. So come to the party Friday night, November 1st. Ten and fifteen cents admission. The P.T.A. thanks Mrs. Vancile Hilyer and Mrs. Eunice Higgins for refreshments.

Come next time, parents, November 22, and fill the room again and have a good time.

### MT. PLEASANT P.T.A.

The Mt. Pleasant P.T.A. is sponsoring a Halloween Party at the school tonight. We will have sandwiches, drinks, popcorn, peanuts and entertainments of all kinds. Mr. Thompson is going to show us a picture. We want to start selling sandwiches and drinks about 6:30 p.m., and our picture will be shown at 7:30 p.m. I want to thank all the parents for their attendance at our last meeting. We had a large crowd. We will be expecting a big crowd out tonight.—Mrs. W. M. Blalock, President.

### ISABELLA

Both services at Mulberry were well attended Sunday and Sunday night.

The Laymen of the church had charge of the Sunday morning service and Bro. Roswell Owens of Clanton brought us a great message Sunday night on "Love".

The W. M. S. Circles met last week in their regular monthly meetings.

Next Wednesday, November 3, the W. M. S. of Mulberry will meet at the church for general monthly meeting at 2 p.m. Come.

Andrew Jones from Birmingham, spent Saturday night with his parents.

### A.A.U.W. HOLDS MEETING

The A.A.U.W., Chilton County Branch, held its first meeting of this season on October 24 in the Baptist Church. Mrs. George Dean of Montgomery, Vice-president of the A.A.U.W., gave a very inspiring talk on "Organization of the A.A.U.W."

New members who registered at this meeting were: Miss Helen Evans Parrish, Messrs. T. H. Lawrence, Joe W. Moore, Charles L. Patterson, S. B. Mayo, Edward M. Davis, B. N. Ivey, Bert Allison, and L. C. Warr.

Following the meeting the group enjoyed a delightful social hour when refreshments were served by the hostesses: Mrs. John B. Dramus, Mrs. B. F. Hayes and Mrs. Luther Light.

### E. S. Jones.

Isabella football boys played Autaugaville team over there last Friday the score being 27 to 7 in favor of Autaugaville.

Mr. and Mrs. R. E. Tucker of Birmingham spent Sunday and Sunday night with her mother, Mrs. Emma Manning.

Mr. and Mrs. O. F. Davenport, Jr. and Linda of Montgomery spent several days here last week with his parents. Mr. Davenport enjoyed hunting while here.

Sam Nabors of USN has been spending a few days here with his parents. Sam's arm is improving.

Harold Evans of USA is here spending his furlough with his parents, Mr. and Mrs. Wallace Evans, who have recently moved back from Miami, Fla.

Mrs. J. H. Wells visited her daughter, Mrs. J. A. Jones in Birmingham over the week end.

### Clifford M. Manning FOR CIRCUIT CLERK Of Chilton County

Subject to the Action of the General Election November 5, 1946.

YOUR VOTE AND INFLUENCE

APPRECIATED!

(Pd. pol. adv. by Clifford M. Manning, Clanton, Ala.)

### MACEDONIA

Sunday will be our regular preaching day by our pastor, Rev. Hand. We invite all who will, to come.

Sunday afternoon is our monthly afternoon singing, beginning at 1:30. Everybody is invited.

Rev. and Mrs. Hand met with the ladies here Thursday afternoon. There were nine ladies present to organize a W.M.S. Officers elected were: President, Mrs. Pratt Crumpton; Secretary, Miss Mariah Freeman; Treasurer, Mrs. Woodie Rasberry; Community Committee, Mrs. F. C. Gibson; Social Committee, Mrs. Marvin Oates; Mrs. Emmon Rasberry and Mrs. Harvey Davenport; Collect Coupons, Mrs. J. C. Veazey.

### PATES CHAPEL

As we have started a new week after such a beautiful Sunday for each and every one enjoyed it I know, especially if they attended our morning service in which Bro. Northcutt delivered a wonderful message. We should all be doing not only just hearers.

We all wish Bro. Northcutt the greatest success and happiness in his messages and life. We want to invite him back with us at any time.

Bro. Fred Lowery will show his religious pictures here Wednesday night, November 6th. Everybody is invited to come and see them. We know you will miss a blessing if you do not come.

We were glad to see so many at church Sunday, and glad to know that Mr. Bradie Patterson, who has been sick, was able to be at church.

Miss Ester Patterson and Miss Leone Cleckler spent a few days last week in Sylacauga with Mrs. Zonie Castleberry and Mrs. Y. Z. Dale and reported a grand time.

Mr. and Mrs. J. A. Clecklers' guests Sunday were Mr. and Mrs. Roy Liveoak and Mr. and Mrs. Eugene Cleckler and children.

Pfc. Curtis Patterson is home on a few days leave with his parents, Mr. and Mrs. Bradie Patterson.

Mrs. Bama Sorrell has been visiting her father and sons for the past four weeks.

Miss Mary Evelyn Hayes spent Sunday evening with Miss Louise Maddox.

Mr. and Mrs. Phil Childress were the Sunday evening guests of Mr. and Mrs. Oscar Pate.

The following were Sunday guests of Mr. and Mrs. Newman Hayes: Mr. and Mrs. Harrison Hayes, Mr. and Mrs. Jess Hayes, Mr. and Mrs. Lee Hayes and Mr. and Mrs. Lennie Porter and children.

Mr. and Mrs. Evins Dawson spent the evening with Mr. and Mrs. Jim Dawson.

Our B.Y.P.U. was well attended Sunday night and everybody with a well prepared part. So let's everybody come to church Sunday and to B.Y.P.U. Sunday night.

# Can A Sheriff Be RE-ELECTED?

This is an office which all voters will agree is the hardest to be re-elected to.

'Why?' Someone asked. Another answers, 'Because regardless of how sincere an officer is in fulfilling his duties, he creates ill feeling to many when only doing his duty.' You seldom hear praise of this office even from those who are for law and order.

This is the first time in our State that the Sheriff has been allowed to succeed himself, and it does seem there is no better time to show our sincere endorsement of law enforcement than by re-electing a man who has shown by his past four-year record that his entire time was spent in doing just that.

Let us consider several of the following questions: Has there even been a Sheriff in this County who has actually spent as much time, day and night, many times all night, attending the duties of his office as has Sheriff Nivens?

Has there ever been before in the County less open law violations?

Even taking into consideration the facts the last four years there has been more money in circulation than ever before, causing naturally more incentive for law violations, has there ever been less established places of law violators than now? How many honky tonks are there operating in this County compared to five years ago?

How many well established bootleggers are there in this County compared to five years ago?

## STOP LONG ENOUGH TO ASK YOURSELF THIS QUESTION:

Is this the kind of man that we want for our Sheriff?

Mistakes? Yes. The Sheriff of this County or any other County makes mistakes and will always make mistakes, just as anyone who accomplishes anything. There are many who make mistakes that we know nothing about, but just let a Sheriff make a bobble and the whole cockeyed County knows about it.

We have had quite a few good men who were kind, considerate and accommodating as our Sheriff in the past, but has there ever been one in office who showed himself to be more so than our present Sheriff?

Sheriff J. A. Nivens has all of these qualities and on November 5th will prove that a good Sheriff can be re-elected and rewarded for his fine spirits of conducting his office according to the endorsements of law abiding citizens.

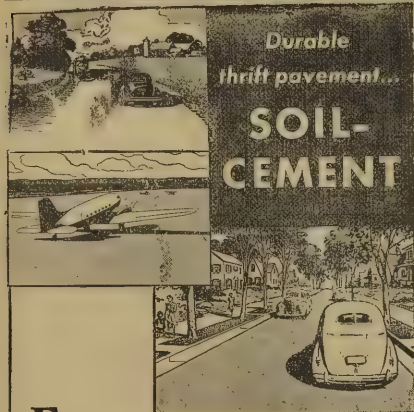

GO TO THE POLLS ON NOVEMBER 5 AND VOTE FOR A SHERIFF WHO HAS BEEN TRIED AND HAS QUALIFIED HIMSELF TO DO THE JOB.

(Pd. Pol. Adv. by Friends of J. A. Nivens)

FRANK THOMAS  
Coach of Alabama

# "NOT TWICE AS MUCH... BUT TWICE AS GOOD!"

says *Frank W. Thomas*

And Coach Thomas knows his cola—as well as his football! He led the famous University of Alabama team to another smashing Rose Bowl victory last season, and is looking forward to a repeat performance.

Frank Thomas prefers LIME COLA for the same reason you will. It's the quality cola drink—not twice as much, but seven ounces of twice-as-good cola. Not over sweet, but longy, sparkling, just right for delicious thirst-quenching refreshment. Ask for LIME COLA every time you want a cooling pick-up. Reach into the icebox for ice-cold LIME COLA every time you want an appetizing treat with meals. Look for the big white "LC" that means satisfying, twice-as-good LIME COLA!

Blood Test Program To Get Underway Here November 11.

Dr. E. M. Moore announces that final arrangements have been completed to begin the Chilton County syphilis blood test survey on Monday, November 11th.
No one need fear the blood test, as the nurses who work on this program are all greatly experienced in blood testing work, each having worked with the blood testing program in several counties. In some of the blood testing stations, and especially in areas where the population is large, it is unavoidable that people will have to stand in line before getting their test. To speed up the blood testing, participants are asked to be prepared to give samples, without hesitation, their full name, age, month and year of birth and their exact postoffice address. Preferably this information should be written on a slip of paper prior to arrival at the blood testing station and handed to the clerks at the proper time. If this is done the length of time spent in line will be lessened. It is further recommended that persons have their test at the station nearest them, and that they also go early to the station.
You will find a schedule of the stations in this paper.
Dr. Moore urges all citizens to give full support to this program and help wipe out one scourge of syphilis from our state and community.

Santa Claus Pays Early Visit To Clanton Firestone Store

Negro Killed Sunday Night

While American industry on many fronts still is struggling with problems in the path of complete reconversion, the No. 1 hero of childish minds - Santa Claus - has completed his task and the first showing of his handiwork, a full line of pre-war toys, will open on November 6, at Clanton Home & Auto Supply Co.
For the first time since Pearl Harbor, the shelves and display areas in your Firestone Store will be completely stocked with such old-time model building sets, airplane gas motors, bicycles, tricycles, wagons, skates and other wheel toys that for the past several years have been war casualties.
It is no accident that Santa Claus made Firestone Stores and Dealer Stores his headquarters for this first real peacetime Christmas.
Firestone started planning for this Christmas immediately after V-J Day. End of the war came too late to permit a real pre-war Christmas in 1945, and even this year, while stocks are complete, there may not be enough of some particular toys to go around. That is why the Firestone Toylands, from coast to coast and from the Lakes to the Gulf, are having their formal openings on November 6 - to permit early selections and sufficient time for arrangements to be made for delivery of long-wanted toys well in advance of Christmas.
Boys and girls all over America are

Clanton To Play Montevallo Here Fri.

After defeating Holtville 48 to 0 the Chilton County High School football team will take on a strong Montevallo team here Friday night. Montevallo, it has been reported, has a strong team this year and are expected to give the Tigers some strong opposition.
Clanton easily won their fourth victory of the season here last Friday night while rolling over Holtville. Cox and McCain again combined their efforts to make a great showing. Cox demonstrated beautiful broken field running. Thomaston showed up exceptionally well with his extra point efforts. He kicked six of seven tries; the one failure due to a bad center.

LISTEN, MR. FISHERMAN!

Mr. and Mrs. A. B. Windham and Mr. and Mrs. R. L. Windham returned Monday from a fishing trip at Panama City, Fla. They report a catch of 275 pounds. Now, Mr. Fishman, I ask you: is that good fishing? - R. L. Windham.

ELIZABETH NEWELL ELECTED SECRETARY-TREASURER OF FRESHMAN CLASS AT U. OF A.

Elizabeth Newell of Clanton has been elected secretary-treasurer of the freshman class of the University of Alabama's School of Home Economics.
Class elections in the school were held recently with the 431 students enrolled participating.

Dan B. Deason, 23, boatswain's mate, second-class, son of J. B. Deason of Clanton, Ala. has been discharged from treatment at the Naval Hospital, Seattle, Wash.
Deason entered Naval Service on June 17, 1942. Before he attended the Chilton County High School.

HERSHELL PATTERSON PROMOTED TO CORPORAL

Hoyt Freeman Leads Ticket With 2,631 Boockholdt Next

The Democratic ticket won a decided victory in Tuesday's general election. Hoyt Freeman, candidate for County Commissioner led the ticket with 2,631 votes to his opponent's 1,357. Howard Boockholdt, candidate for Superintendent of Education, won over his opponent, Rauceo Maddox by a vote of 2,510 to 1,478. The high vote on the Republican ticket went to Ed Littlejohn who was defeated by incumbent Sheriff J. A. Niven's by a vote of 2,303 to 1,819. Other than the office of Sheriff all Republican candidates were defeated by a thousand votes or better.

Dr. W. L. Parrish was elected to the office of Probate Judge without opposition, as was A. B. Foshee, Solicitor.
As the News went to press Wednesday no definite information could be obtained as to whether the nine Amendments carried or not. You will find a Beat by Beat count of the candidates elsewhere on this page!

MOTION PICTURE EQUIPMENT SECURED BY BAPTIST CHURCH

The most recent equipment secured by the First Baptist Church is a Bell and Howell 16 millimeter sound motion projector, with an 8x10 foot screen.
The next film will be shown in the church auditorium on Wednesday night, November 13th, following the usual prayer meeting. Our whole church family and friends are cordially invited to attend, especially the boys and young men in whose honor this film was selected.

"We, Too, Receive," is a modern story based on facts. It portrays the thrilling drama of an actual experience in the South Pacific during World War II. Christian natives who were educated in mission schools are responsible for saving the lives of American airmen shot down in the jungles. It is an excellent film for teaching the effectiveness of missions.
Senator James M. Smith was said: "American doughboys have reaped heavily where missionaries have so long and patiently sown." An airman, serving in the New Guinea theatre of our war home:
"Dear Mom:
Because of missions I was feasted and not feasted upon, when I fell from the sky into this native village."

WE APOLOGIZE

The other week we run the Gracilla Beauty Salon advertising with the wrong operators listed. We wish to know just where the little Gracilla got that line he stuck in there, but the regular operators there are: Mrs. Cilla Adkins, Mrs. Delene Smith and Mrs. Grace Robinson Windham, proprietor. We apologize to the ladies and gladly make this correction. -The Editor.

REV. SANDLIN AT THE SECOND BAPTIST CHURCH

Rev. Sandlin and family are conducting services every week end at the church near the Alabama Mills, and on Wednesday nights they conduct singings there, also.
The Sunday School for young people services are running in full blast. We cordially invite those near that section and any others who are interested.

JUNIOR CITIZENS' CLUB

The Junior Citizens Club, composed of pupils in Mrs. War's room at the Grammar School, receive recognition for their outstanding work in the P. T. A. Membership drive. During the drive there were 432 new members added to the P. T. A. and the Junior Citizens club receives credit for 284 of the number. 24 were awarded the \$5.00 prize. Special recognition goes to two members of the club, Frank Watts, who is responsible for 42 members and Glennis Askins, who is responsible for 33 members. Our hats go off to this Club for their splendid work in the Membership drive, and also in many other instances.
The School surely appreciates the interest shown by the people of our town in making this a better school, for a great number of the P. T. A. members are people who do not have a child in school.

### APPRECIATION

The residents of Clanton are deeply grateful to Mrs. E. E. Upchurch and Miss Della Latham for the beautiful chimes in the Baptist church. The sisters gave the chimes to the church as a memorial to their sister, Mrs. John T. Ellis, who died the past year.

Mrs. Erie Ellis, daughter-in-law of the deceased, plays the chimes each Sunday morning at nine o'clock and Sunday afternoon at sunset. They are also played on Wednesday afternoon at sunset. No more fitting gift could have been presented in honor of Mrs. Ellis. She was truly a Christian wife and mother in all her thoughts and deeds.

### WHO WOULDN'T GET ENOUGH?

Those who have worked so hard to get special privileges and some recreation for the young folks of the community are about "fed up" with the way some of the boys and girls are behaving. Especially is this true of the boys.

In the first place it is no fun to be responsible for a group of young folks when you could be doing other things of more pleasure to yourself. And when the group turns out to be "rowdies" and unmanageable it is enough to disgust anyone who is trying to help them in their fun.

We believe the two parties last Thursday night just about caused two or three of our most enthusiastic teachers to "give up the ghost" when it comes to helping with entertainment for the younger set. They (the kids not the teachers) acted like a crowd of Dead-End kids at the high school and although we have preached and pleaded for recreation centers for the younger set we could not blame the teachers and the mothers if they gave up trying. Of course the innocent have to suffer with the guilty and the innocent are in the majority.

The way we see it is for the ones responsible for such "rowdiness" to be prohibited from attending these parties until their parents can teach them how to conduct themselves in such places.

### ARMISTICE DAY

This Armistice Day finds our country substantially inclined toward universal peace and praying hopefully for the success of the United Nations through conferences, to maintain it. Thumbing through histories of past councils called to work for a permanent peace program, it would appear the world has ever been searching for a solid structure of understanding. The inability to convince all nations that humanity everywhere suffers from war, whoever the victor, finds the conference table again drafting, debating and delaying. Involved in problems to return to a normal life and a solid economy here at home, we can't withdraw from the vital issues that disunite the conferees of the U. N. Political campaigns, food prices, strikes, housing keeps the attention on the home front, as tension and wrangling persist in baffling the committee that is trying to bring a world peace.

Extending the hand of friendship is a natural American gesture, but the acceptance must be genuine to cement understanding. With Communist and non-Communist interests raising charges and propagandizing, we know there can be no solid peace. It is a dangerous, ominous situation and more important to Clanton than meat prices and soap shortages. The Federal Council of Churches states that differences of systems and beliefs need not lead to war, which is true if we can cope with the delay in arriving at a common understanding. One nation will not give entirely to all the demands of another, especially if there is a moral principle involved as in the present stand between Russia and ourselves.

Naturally let us try to solve our national troubles, but as we commemorate Armistice Day, let us ask for special guidance to protect our people and the world and that the United Nations may arbitrate in fairness, understanding and friendliness.

New York stores handed petitions about the meat question, to patrons. And evidently the customers found something to chew on that wasn't beef.

## FOLKS & THINGS

### ABOUT TOWN

-By BEN

WE WONDER WHY? Jimmie Bell always sits on the top seat in the rear at every football game, softball game and so forth. So many people get excited about politics. "Folks won't attend church, including me. . . Five ex-G.I.'s quit school at the University in one week. . . Kids don't have something to do in Clanton to keep them busy. . . About those G. I.'s we're talking about Clanton G. I.'s. . . We wonder why we didn't say so. . . Our trash men are so careless. . . Why the merchants can't see that it is better that no merchandise is out on the sidewalks. . . That our City Park hasn't got underway. . . Why good pictures at the Wadesonian comes in "Sports". . . We wonder about a lot of things too that we better not mention.

Funniest thing the color scheme they have on the Alabama automobile tags this year. They are a deep brown and a deep black. You can hardly tell where the brown stops and the blacks starts. Some fun.

Some one tells us that they were supposed to be black and—let's see we believe it was silver or aluminum. Anyway they missed by a mile.

Mother in 1950: "You must attend to Tommy." Father, "What's he been doing now?" Mother, "You told him to have the back yard all cleaned by the time you came home, and he's been flying back and forth over the Atlantic Ocean all afternoon."

Had a wonderful surprise the last week end. Bonnie had come to see us. Bonnie you know used to be in Clanton and at one time was an employee of the Chilton County News. Now Bonnie is at LaFayette as Editor and owner of the LaFayette Sun. He is also President of the Alabama Press Association. But what we just had to tell is that Mr. and Mrs. Bonnie (nee Pearl Hughes) are to be parents soon. We are glad for them and wish them all the luck in the world. We are glad because Pearl and Bonnie are glad.

Election Day in Chilton County means the end of a long, weary year of campaigns and politics. We are really glad to see it over with. We say "over with" but we have to add in the official county Thursday. We have been in Clanton nearly nine years and we have either made or aided in making every official count of votes in every election since we came here. Wonder how many that has been. This one is going to be a humdinger, besides a long list of candidates we will have to count the total vote on all those Amendments. That's bad. If you want me Thursday, don't come to the office—come to the courtroom.

There's a new Drive-In in Clanton. It's the Tiger Grill and it is located out on the Maplesville Highway across from the old PW camp. The operators will be Cecil Jones and Horace Rutherford. Going to be a very nice place and operated by very nice folks. Go out and see them.

This is the best one we have heard since Ben Studdard fell into Dr. Nix's fish pond at Maplesville. "The Longshoremen were busy loading a ship. The smallest of them were working the end of the line, handing the packages to the men off the ship. After about an hour's work, an anvil was passed down the line. When it came to the little longshoreman, he lost his balance and fell into the ocean. He went down, surfaced after a moment and shouted, Help! No one went after him. Down he went for the second time, surfaced and again shouted, Help! Still no one paid any attention to him. Another moment and he went down for the third time, surfaced and shouted desperately. If somebody doesn't help me, I'm going to drop this anvil."

When John L. Lewis talks of Union suits, he isn't talking about the same kind you are when you speak of union suits.

### MORAL ECHOES

Rev. D. W. Haskeew, D.D.

Here are two pictures that I see almost every day. A crowded bus comes along and a lady pushes her way to the driver to pay her fare. After reaching him, she then opens her purse and fingers among it's contents for her fare, and finally finds it and drops it into the receptacle. With forethought she could have had her fare in her hand and without delay she could have passed down the aisle. That picture is a reminder of the other picture that I see. This time a man steps quickly into the car, holding his fare in his hand, drops it into the receptacle and goes on his way. No delay, no embarrassment; a real joy to other passengers and the driver. It matters not what is coming up, it pays to make preparation and be ready.

Some things can take us by surprise, but we should stay prepared for the most of the things that come our way. There is profit in keeping an orderly house, so that you can put your finger on any object that is needed. It pays for any one to have plans made and ready to execute at a moments notice. When your neighbor phones you that she will be by for you in her car at ten o'clock, you are the embodiment of discourtesy if you fail to be ready when she blows her horn. She may smile when you stick your head out of the door and say, "Will be ready in a few moments," but that is not the way you should treat her. Amos said, "Prepare to meet thy God," and yet you may be delaying the preparation that will give you a safe entry into the Kingdom when death shall call.

Here is what I heard at the camp where the Scouts had gone for an outing. Two boys were going to fish that morning, and one said to the other, "I forgot to bring a pole. I have no bait, I have no hooks and lines no coris, in fact I made no preparation to go fishing." Then I heard the other boy say to him, "That is just like you, Tom, you never make preparations for anything. I happen to have an extra pole, plenty of bait, lots of hooks, coris and lines, and I will share with you." That is just like many a person in life. They never make preparations for anything. Just go empty handed and trust that somebody will. There is one preparation that you have come to their aid in the time of need. Got to make yourself and that preparation to meet God. I can not do that for you.

### CONCRETE PAVEMENT

for Low Annual Cost

The strength and stamina of portland cement concrete pavement enables it to give long years of all-weather service under the heaviest traffic. For all but the lighter traffic, concrete pavement usually costs less to build than any other pavement of equal load-carrying capacity. Although the smooth-riding and all-weather safety of concrete generally attracts the heaviest traffic, records show that annual maintenance costs of concrete pavement are generally lower than for other types of paving. Low first cost, low maintenance expense and long life mean low annual cost—the reason why concrete is the logical pavement for new principal urban highways and streets.

STUDY CLUB MEETS WITH MRS. MASON JONES

The November meeting of the Study Club was held last Friday with Mrs. Mason F. Jones as hostess. A lovely arrangement of fall flowers in the club colors of green and white was used in profession throughout the hour.

Reading of the Collect opened a half hours business session, presided over by the president, Mrs. Norman Roberts.

Variety of the program furnished a delightful afternoon of entertainment.

Mrs. J. P. Hayes read an interesting and informative paper on "Our Nation's Libraries". Mrs. Helen Evans Parrish, dramatic reading of Paul Gallico's "The Snow Goose" was superb. The story embodies the spirit of ALL men who fought at Dunkirk. To give a perfect ending to the program, Mrs. Carlisle Miller, violinist, played the lovely "Humoresque" and "Dance of the Gnomes". Program arranged and introduction by Mrs. M. F. Jones.

A dainty plate featuring the club colors was served to seventeen members and the following guests: Mesdames Arthur Johnson, Clara Jackson, Sam Johnson, W. G. Searcy, John Niblett, Carlisle Miller and Misses Bette Mullins and Helen Parrish.

## 4-H Boys And Girls Begin Fat Calf Feeding Project

Clanton County 4-H boys and girls have again started feeding out beef calves to enter in next year's Fat Stock Shows. For the past two years, the Clanton County 4-H Beef Club has been recognized as being one of the largest in the state and has won more honors in the show ring than any other county group.

Last year Clanton County boys and girls sold club animals for an average of 33c per pound. The average net profit per animal was \$100 and total receipts from all 4-H calves amounted to approximately \$25,000 last year.

Club calves this year are a little heavier on an average than they were last year. It was thought advisable to start with heavier animals due to a shorter feeding period. Club calves will be stall fed until May, when they will be exhibited in the county and state shows. At this time animals will compete for show honors and then be auctioned off to the highest bidders. All of the Club boys and girls who

are feeding animals are using home little cottonseed meal will be bought grown feeds except in cases where a many of the club members carry corn as a club project with the intention of feeding a beef calf with their own corn.

Next year's shows will probably find club boys and girls exhibiting animals in the largest and best organized shows that have ever been held in the state. Since beef club work has grown so rapidly it is a good indication that club boys and girls have found this type of work to be very interesting as well as profitable.

Below is a list of the club members who are feeding calves this year:

Willie Minor, Route 1, Clanton, Ala.  
Patsy Morgan, Route 1, Maplesville, Ala.  
Fred Popwell, Route 2, Clanton, Ala.  
Billy Baker, Route 2, Clanton, Ala.

### Facts About Duo-

#### Piano Team To

#### Appear Here Soon

In answer to a number of inquiries concerning next Tuesday's program by Appleton & Field, eminent duo-piano team, your concert's publicity chairman is happy to have some information about the concert and the personal lives of the artists.

The concert is so well-rounded that every music lover ought to be satisfied. There is a bit of Frescobaldi, Bach and Mozart in the first group for those who have a penchant for the classical school. The Brahms Variations on a Theme of Haydn is a duo-piano masterpiece and one of the main compositions of the program. Rachmaninoff and Liszt are brilliantly represented. A Brazilian samba and Spanish bolero are rhythmic treats. Such popular stand-bys as The Blue Danube, The Flight of the Bumble Bee and Kreisler's Caprice Viennois are delightfully familiar but at insulating in their new treatment.

While their professional lives are closely linked with musical sympathy, career interests and a sort of "sixth sense" which gives them complete unity at the keyboards, their personal lives do not follow the usual duo-piano pattern. Appleton and Field are not Mr. and Mrs. Field in private life. Vera Appleton is Mrs. Alan Bessler, wife of a young business executive who is an amateur musician and one of the team's greatest boosters. When not concertizing, she enjoys a happy domesticity, in which the baking of taste-delicious pies and cakes is a relaxation from strenuous concert travel. Small, dark and vivacious, Miss Appleton is eye-appealing off stage as well as on, and prefers simple, feminine clothes for both street and concert wear.

Michael Field keeps bachelor's hall in a New York apartment where he spends his limited free time with a variety of hobbies. He too is fond of the kitchen, and cooks whenever possible; then his interests range from the culinary to the cultural by collecting contemporary paintings reading modern non-fictional and poetry. The male half of Appleton & Field is also a tennis champion, and in his spare time he enters a tournament whenever the situation presents itself.

But most of his leisure is devoted to exhibitions at the Museum of Modern Art. Since he was a child, and for no particular reason the he can explain, he has always adored Chinese Art; and he can't resist the bric-a-brac that turns up in the windows along the Avenue of America.

"Mike" also likes cats—he used to have four Siamese, but found they multiplied as he says, "geometrically", too fast.

Appleton and Field are among the few artists who have been systematically re-engaged for the following season after nearly every concert; this helps explain why their present tour includes some sixty-odd engagements.

### P.-T.A. MEETING

The November meeting of the Clanton Elementary School P.-T.A. was held Tuesday afternoon in Mrs. Warr's classroom. The meeting was called to order by the president, Mrs. R. M. Tucker, who then turned the meeting over to the program chairman, Mrs. Roswell Owens.

Mrs. Owens began the program by having the group read the P.-T.A. prayer after which Miss Camp gave a most interesting devotional.

Miss Kathryn Bryan led in group singing, accompanied at the piano by Miss Audrey Popwell.

Mrs. Owens then introduced Mr. Henry Adair who gave a most interesting talk on "Recreation For Our Children"; and Mayor Leo Thompson, who gave a most encouraging talk explaining ways of improving our school play ground.

The program was concluded with a lovely solo by Miss Bryan. After the program a brief business session was held and the room count went to Mrs. Mayo's fifth grade.

# THE BEST IN RECAPPING EQUIPMENT

Guaranteed Truck Tire Recapping. Modern patented features of the OK truck treadwelder allows us to guarantee every truck tire to be recapped with precision efficiency. There is no distortion to tire or casing, the sidewalls float absolutely free from all damaging heat or pressure.

ONE DAY SERVICE. No longer will your truck tires have to be shipped to other cities for recapping. This plant is equipped to recap all sizes truck tires. Tires brought in by 9:00 a.m. will be ready by 4:00 p.m. the same day.

Why can we guarantee truck treadwelder recaps? Because this new and proven recap method of OK tire servicing is superior to any other equipment.

NO HEAT ON THE SIDEWALL—Only the tread is subjected to a curing temperature during the recapping process. The inside of the tire is protected by the solid rubber pressure band which gives a follow-up pressure for longer wearing, tougher recaps.

NON-SKID TREADS. You will like the new Radi-Grip tread, it is good on all roads—mud and snow tread is available in the 600-16 size. Get your car or truck ready for winter mud by having two of your tires recapped with a mud and snow tread.

Mrs. Charlie Gay was kicked by a mule late Tuesday afternoon. She was rushed to King's Memorial Hospital, Selma, Ala. Mrs. Gay suffered a broken rib and a side injury. Miss La Ruth Gay from Atlanta, Ga., came to be at her mother's bedside during her confinement at the hospital.

Friends of Kenneth McGee regret his misfortune in getting his leg broken Friday afternoon in Verbena playing football. Kenneth plays on the Maplesville High team. He is confined to King's Memorial Hospital in Selma.

Mr. and Mrs. William (Bill) Gay spent the week end in Birmingham with their parents.

Mr. A. C. Maness of Tuscaloosa, Ala., is a visitor in the Frank Reynolds home.

Mr. and Mrs. Cecil McKee and daughter, Ann, spent Sunday with their parents in Clanton.

Mr. and Mrs. John J. Hicks, Mr. and Mrs. I. M. Hicks of Newark, N. J., Mrs. Fannie Haley of Corpus Christi, Texas, and Mrs. Mary Smithman of Randolph, Ala., were visitors to Mrs. Mary Hicks last week.

Mr. and Mrs. Bill Ruddick and family, Mr. Donald Latham, Miss Ruth Hicks, Mr. Millard Reynolds and Mr. Bill Burnett witnessed the Auburn-Vandy game in Montgomery Saturday.

Mrs. Eugene Fuller is recovering from her recent illness.

Miss Mildred O'Neal of Washington, D. C., is home on her vacation.

Miss Guinevere Royster, daughter of Mr. and Mrs. Dan Royster, underwent an appendix operation in a Selma hospital last week. We wish for her a speedy recovery.

## CHILTON COUNTY TRAINING SCHOOL

The names of the pupils who made the Honor Roll at the Chilton County Training School for the first six weeks period are as follows:

All A's — Robbie McKinney, Catherine Zimmerman and Rebecca Smithman.

A's and B's — Elijah Goodwin, Curtis Zeigler, John Henry Ford, Estline Hill, Leslie Varner, Mary Ann Campbell, Leomer Looney, Marie Williams, Elzenia Bethel, LaFayette Williams and Ollie Jean Parker.

## RETURNED TO JASPER

Mrs. Minerva O'Rear, who has been the Chilton County Health Nurse for the past three years, has returned to Jasper, Ala., which is her home town. She is still connected with the Health Department and will serve in the same capacity there as she did here. Mrs. O'Rear and her outstanding work here will be greatly missed by the People of Chilton County.

## THE ANSWER — BETTER COWS

Ed Teague, API extension dairyman, compares 1945 profits from low and high producing cows: A one-gallon cow cleared her owner \$2 a year above feed costs (counting all feed at market value); a two-gallon cow made an \$83 profit; a four-gallon cow cleared \$227; a six-gallon cow cleared \$361 for her owner, according to figures gathered by Dairy Herd Improvement Associations in the United States.

Gov. Kilby, who served as Alabama's chief executive 1919-23, gave the State what has been pronounced as a progressive business administration. He began the State's child welfare program, did much for education and for highway construction, and made a start toward abolition of the convict lease system, later ended by Gov. Bibb Graves.

## MAPLESVILLE DEFEATS VERBENA 20 TO 7

The Maplesville Red Devils made it four in a row last Friday by defeating Verbena 20 to 7 at Verbena. The team as a whole played good football. All touchdowns and extra points were made on passes. Maplesville lost one of her players in Kenneth McGee who got his leg broken in the first quarter.

Devils are going to miss him bad against Isabella next Friday. The results of the games the Devils have played this year are as follows:

Maplesville—0      Hicks—12  
Maplesville—0      Marion—12  
Maplesville—0      W. Blotson—25  
Maplesville—24      Verbena—6  
Maplesville—13      Hicks—6  
Maplesville—19      Billingsley—0  
Maplesville—20      Verbena—7  
Maplesville plays Isabella at Maplesville next Friday.

## PATES CHAPEL

With all extra well in our midst, there were some visiting and moving last week.

Mrs. Nora Cook is visiting her son, Mr. Clifford Cook, in Tennessee.

Miss Ester Patterson spent Sunday with Miss Leone Cleckler.

Mrs. Harvey Davenport and Mr. Ermon Rabbery spent Wednesday of last week with Mrs. J. A. Cleckler. Miss Rena Ellison and Miss Ruth Ellison spent the week end with Elberta Porter.

Mr. and Mrs. Lee Hayes had as Sunday dinner guests Miss Louise Maddox and Miss Mary Evelyn Hayes, Mr. and Mrs. Enoch Hayes and Mr. Alexander Maddox.

Mrs. W. B. Maddox had as Sunday guests Mr. and Mrs. Horace Childress and Mrs. Glennie Childress.

Miss Louise Patterson, Jimmie Patterson, Preston Porter, Virgil Hayes and Carl Watley were the Sunday evening guests of Miss Marie Hayes.

Mr. and Mrs. Rufus Robinson had as their guests Mr. and Mrs. Brady Patterson and children Sunday.

Mr. and Mrs. N. Hayes were the Sunday guests of Mr. and Mrs. Lonnie Porter.

Mr. and Mrs. Greenie Littleton were the Sunday guests of Mr. and Mrs. Pink Hayes.

Mr. Sanders Champion has been unlucky and got his foot broken at his work and he and his family are spending a few days with friends and relatives.

Mr. and Mrs. Howard Bookholdt were the Sunday evening guests of Mr. and Mrs. Enoch Hayes.

Mr. and Mrs. V. A. Hayes's guests Sunday were Mr. and Mrs. Charley Hayes.

We are sorry to know that little Miss Geraldine Maddox was sick and couldn't go to school this week, but hope she will soon be able to go back.

There has been several moving in our community. They are as follows: Mr. and Mrs. Earl Hayes, Mr. and Mrs. Enoch Hayes, Mr. and Mrs. Evans Dawson, Mr. and Mrs. Ervin Pate and Mr. and Mrs. Louis Pate and family. We all wish them good luck.

Some were absent from B.Y.P.U. Sunday. So everybody come to Sunday School and B.Y.P.U. Sunday.

## PURE BRED JERSEY SHOW TO BE HELD IN CLANTON

Under the sponsorship of the Chilton County Jersey Cattle Club, a purebred Jersey Show will be held in Clanton November 22. This is the first undertaking of the newly organized cattle club and is certainly a step in the right direction in promoting better interest in better breeding and management of Jersey cattle in the county.

At the show, practically all of the purebred Jersey cattle in the hands of 4-H Club boys and girls will be exhibited. Although 4-H dairy work has not received the recognition beef projects have, it offers a greater and more lasting benefit to the county. The dairy cow has a permanent place on every farm in Chilton County while beef cattle production has definite limitations on many farms. Every effort directed toward better breeding, and management will lead toward higher production and increased value of the farms livestock.

The cattle will be broken down into four classes as follows: Females, under one year of age, 1-2 years, 2-3 years and above; males, 18 months and under, and above 18 months of age. From the above classes a champion male and female will be chosen.

In addition to the premiums and prizes offered for the best cattle, there will be an additional premium given for showmanship and the best fitted animal. A Showmanship Contest will be open for all 4-H Club members.

Three men recognized as leading dairy judges will judge the cattle and showmanship contest.

All recognized dairy or dual purpose breeds represented in the county will be exhibited at the show so a comparison of the different breeds of cattle may be made.

It is hoped that every person in the county interested in better dairy cattle will attend this show. The Jersey cows and bulls in the county will be exhibited and a good demonstration on judging will give us all a better idea of the qualities that we should look for when selecting breeding stock on a good family milk cow.

## SYPHILIS

The State Department of Health has designated Nov. 11 to Nov. 23 except Saturday Sunday, as the time for making this test in Chilton County

Blood Testing Stations have been arranged in practically every community in the county, as designated below. Please study these Stations and arrange to be present at one of them.

1. The law provides a fine for those failing to report.
2. Trained and certified nurses and doctors will serve the county.
3. A team of investigators will follow this test and check all records and census files for delinquents.
4. Negroes will go to white stations in communities where they have no other station and be taken when the white people have been served.

5. In case of illness one may have his test delayed by getting a certificate from his physician to this effect. The law then places the responsibility for this test later on the physician.

## NEWS FROM

## Alabama Mills, Inc.

MRS. B. L. VENABLE, Corres. Phone 116-R

A five-gallon pail of white inside paint was given to the Alabama Mills school. Out of the proceeds from the Halloween party the P.T.A. is hiring the inside of the school rooms painted with this enamel paint. The clean white rooms are very attractive and the pupils and teachers have plans to decorate them with pictures, poster drawings, etc. They also plan to put fresh curtains and shades at the windows.

Mrs. Haywood, Mrs. Moore and the pupils of the school went on an excursion to the woods Friday to get crab apples and autumn leaves. They had a picnic lunch and sandwiches, cookies, fruit and drinks. Although the crab apples have gone all the pupils and the teachers enjoyed the beauties of the woods.

## ATTEND STATE FOX HUNT AT WEBB PLANTATION

At Marion, Ala., 160 hounds were turned loose at 6:15 in the morning. We won 9th place in the show and 10th or 11th place in the field. The score wasn't completed when we left. We think Clifton County could have a field trial here, for we have some of the best running reds and grey fox in the State.

People come hundreds of miles to

attend a field trial and spend lots of money in three days. Boys, if you have a good hound, you ought to attend these hunts and you can see what your hound is. You can ride horseback and stay close to the hounds.

Come on, boys, and see if we can't have a field trial next year. Those who attend the hunt were: Buddie Ellison, Mr. and Mrs. Cargyle from Thorby and Dock Perry of Maplesville. We sure hope to attend next year.—Buddie Ellison.

## Best War Memorial I Know

There's an old war memorial in our town that I like to stop and look at now and then.

Back in 1865, folks gathered up all the bitter relics of battle and put them in a pile: cannon, battered rifles, broken swords, and rusted bayonets. Some of them from our side, some captured from the enemy.

They melted them down, and from this litter of war sprung a monument to friendship, tolerance and understanding—a promise that the bitterness and hatred were forgotten.

Since then, there've been all kinds of disagreements in this country, big and little. Prohibition was one—and there was plenty of bloodshed, misery and grief until the problem was resolved.

But from where I sit, it's part of the greatness of America that we remain a united country. We may disagree as individuals—but, accepting that difference of opinion, we can live in tolerance and mutual respect.

### MARKO JONES FETED AT BIRTHDAY PARTY

On October 26th, little Marko Jones was honored with a birthday party celebrating his fifth birthday at his home on the Selma Highway. A number of contests and games were played. The children were then served cake and punch from a lac-covered table which was beautifully decorated with colored streamers, hat favors and baskets of candy and gum for each little guest.

Those enjoying this lovely affair with Marko were: Martha Ann Lawrence, Alex Tyndal, Barbara Mims, Jimmy Dennis, Emily Kinner, Dwight Studdard, Bonnie Gayle and Carol Grey, Minnie Wade, John Reeder, Cathy, James Studdard, Mike Williams, Bonnie Smith, Tommy Davis, Mickey, Hudson and Judy Manning, Janie Lou Wade and Sue Ann Williams. Those assisting Mrs. Grady Jones in serving were Mrs. Brady Jones and Mrs. Clifford Manning.

## MACEDONIA

Services here were well attended Sunday Rev. Hand brought two wonderful messages.

The singing Sunday afternoon was enjoyed by all. We were glad to have as many visitors as we did. The Vickery Quartet was here and sang several songs. The opening song was directed by Mr. Marion Coffey, then prayer by our pastor, Rev. Hand.

The directors for the afternoon were: Eva Joe Bean, Elaine Maddox, Willie Nell Maddox, Margaret Bean, Ralph Hayes, Mr. Lawrence Hayes and Mr. Russell Bean of New Salem; Mr. Melton Vickery, Gwendolyn and Norris Vickery of May Hill; Misses Mary and Joyce Oates, Billie Hayes, Mr. Marion Coffey and Mr. J. C. Veazey, Mrs. Eddie Childress, Mrs. Melton Vickery and a girl from New Salem were pianists. We invite every one to come back and be with us the first Sunday afternoon in December.

Please remember, Macedonia ladies, our W.M.S. meets again Friday afternoon at 2 o'clock, November 8th. We are expecting Rev. and Mrs. Stuckey from Isabella to be with us. So be sure to come and bring some one with you.

Mr. Jimmie Crowson spent Sunday with Mr. J. W. Langston. Visitors at church Sunday were Rev. and Mrs. Hand's sons; Miss Myrtis Cowart and the Glenn Twins. We invite them back.

Mr. and Mrs. F. C. Gibson's visitors Sunday were: Mrs. Samuel Smithman and children, Allice Faye, Gerald and Larry of Randolph; Mrs. Matt Gibson, Mrs. Winston Langston and family.

Miss Lucille Rasberry, Mr. and Mrs. Elmer Crane of Birmingham and Mr. and Mrs. Woodie Rasberry and family spent Sunday with parents, Mr. and Mrs. Fleetwood Rasberry.

Mr. and Mrs. Pratt Crumpton and Marie's dinner guests Sunday were: Rev. and Mrs. Hand, Miss Myrtis Cowart, Mr. and Mrs. D. E. Moore and family, Mr. and Mrs. Floyd Nix and family and Mr. and Mrs. Marvin Oates and family.

Miss Dimple Jackson of Birmingham spent last week with parents, Mr. and Mrs. Jack Jackson.

Reports are that Mrs. Mollie Atchison has improved some.

Mr. Jack Smith had dinner with Mr. Proctor Davenport.

Mr. and Mrs. L. D. Atchison and Mrs. Clyde Atchison were visitors here Sunday afternoon.

### FARMERS TO RECEIVE COTTON CROP INSURANCE INDEMNITIES

According to a report from Watson Jones, Chairman of the Chilton County A.C.A., in regard to indemnities that will be paid to farmers who made application for 1946 Federal Crop Insurance, there will be at least three hundred (300) out of 547 applicants that will draw an indemnity on his insurance. Farmers who made application for Cotton Crop Insurance are reminded to take care of all gin and sales receipts and turn them in to your County P.M.A. office when you have finished picking and ginning in order to check whether or not you made the number of pounds of lint cotton that you were insured for.

Mr. Jones stated that two adjusters have been appointed in Chilton County by the Federal Crop Insurance Corporation to act on these claims. These two men are: J. Smolton Thornton, Clanton Route 2 and J. L. Cofer, Jemison Route 1.

Mr. Jones stated that the money that will come into the county for indemnity is far greater than the amount that will be paid to the corporation for premiums. According to Mr. Jones, Chilton County is one of the leading counties in the number of applications received for 1946 Cotton Crop Insurance and he believes that there will be more applicants for 1947 insurance than for 1946. The 1947 program has already been announced and information concerning it will be published as soon as it is assembled.

### PLANS FOR 1947 P.M.A. PROGRAM ANNOUNCED BY LOCAL OFFICE

The Production and Marketing Administration, Field Service Branch, has announced the 1947 Agricultural Conservation Program which begins January 1, 1947 and ends December 31, 1947. This assistance consists either of payment to farmers as reimbursement for part of the cost of performing conservation practices or of conservation materials and services furnished to farmers to be used in performing approved practices. Chilton County has been allotted to date \$61,214.00.

The following is a list of the approved practices for 1947.

1. Construction of standard terraces for which outlets are provided—70 cents per 100 linear feet.
2. Application of phosphate:
  - a. 18 per cent—63 cents per 100 lbs.
  - b. 19 per cent—67 cents per 100 lbs.
  - c. 20 per cent—70 cents per 100 lbs.
3. Application of 60 per cent potash—\$1.75 per 100 lbs.
4. Application of Basic Slag—35 cents per 100 pounds.
5. Application of liming materials:
  - a. Ground limestone—\$3.00 per ton for Chilton County.
  - b. Calcium silicate slag—\$2.00 per ton for Chilton County.
6. Establishing a satisfactory cover of kudzu—80 cents per 100 plants.
7. Establishing a stand of lespedeza sericea for the prevention of water erosion—18 cents per pound.
8. Establishing a satisfactory cover of crotalaria seeded in the fall of 1947—15 cents per pound.
9. Establishing a satisfactory cover of winter legumes seeded in the fall of 1946.
10. Establishing a permanent pasture by seeding adapted pasture grasses or pasture legumes. Payment rate per pound will be governed by the kind of grasses or legumes seeded and the number of acres seeded.
11. Construction of V-type drainage ditches on crop and pasture land. Payment rate will be governed by the kind and size of ditch constructed.
12. Construction of drainage ditches (other than V-type) on crop and pasture land—8 cents per cubic yard.
13. Construction of a farm pond for livestock water—10 cents per cubic yard of dirt moved and used in the dam or wing walls.
14. Establishing a stand of forest trees—\$1.60 per 1,000 trees.
15. Leaving on the land or turning under a satisfactory growth of annual lespedeza seeded in the spring of 1947—5 cents per pound.

In order to keep from exceeding the county limit, the minimum amount of assistance for each conservation practice to be carried out on a farm is the amount for which written approval is granted by the county committee. Written approval by the county committee will be given only where the farmer requests assistance before he begins the conservation practice. Requests for assistance may be made by farmers by contacting their county or community committeemen, or by telephoning, or calling at the county office.

### CLEANER EGGS

Try these tips from API extension poultrymen and you'll see that the eggs you gather are cleaner: (1) Add nesting material often enough to keep three to six inches in nests. (2) Remove damp litter. (3) Wire underside of roosts. (4) Have one nest for each 4 or 5 layers. (5) Keep layers indoors until noon.

### SAVE CROTALARIA SEED

Combine crotalaria seed when most of the pods are mature, but before too much shattering takes place. J. C. Lowery, API extension agronomist, says to spread the seed two or three inches deep on the floor of a well-ventilated room and stir every day for a week or so to prevent "heating."

### FARM SECURITY ADMINISTRATION

Effective November 1st, the activities of the Farm Security Administration and the Emergency Crop and Feed Loan agency were combined under the new Farmer's Home Administration, Boardman N. Ivey, County Supervisor announced recently.

For the time being, Mr. Ivey said, the services will be continued from the same offices with the same personnel in charge. There will be no interruption in loan services to farmers.

Under the new agency, Mr. Ivey said, it will be possible for farmers to obtain operating loans and farm ownership loans just as they did before. The loans are available only to farmers who are unable to obtain credit upon reasonable terms from other sources.

The opportunities for family type farm ownership, Mr. Ivey said, will be greatly enlarged. Under the new act, it will be possible for a small farm owner, whose acreage is insufficient for the needs of his family, to obtain a farm enlargement loan. It will also be possible for small farmers to obtain farm development or farm improvement loans for the construction of buildings, fences or other needed improvements. Veterans with pensionable disabilities will be able to purchase a small amount of acreage.

Mr. Ivey said the new agency would serve as a buffer against the inroads of another depression, in that its door will always be open to the farmer who is unable to obtain credit from other sources.

## NEW SALEM

The singing at the church was real good. We have changed our singing nights from Wednesday night to Sunday nights. We want to invite all singers and listeners to come out and help in our singing on each Sunday night. Also we want to announce that we are having a special "Thanksgiving Program" for our returned service men and boys of our community on Sunday, November 17th.

Everybody be sure and come on that date and bring a basket and spend the day.—Eva Jo Bean, Reporter.

## Good News For Folks Who Suffer From

- ✓ STOMACH ACHES
- ✓ SOUR FOOD TASTE
- ✓ ACID INDIGESTION

Do you feel bloated and miserable after every meal, taste sour, bitter food? If so, here is how you may get relief from this nervous distress.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles, else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory on human beings, have by positive proof shown that 888 Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the 888 Tonic formula, which contains special and potent activating ingredients.

Also, 888 Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red blood, you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of acids and other stimulants to counteract gas and bloating when what you so clearly need is 888 Tonic to help you digest food for body strength and repair.

Happy people 888 Tonic has helped. Millions of bottles sold. Get a bottle of 888 Tonic from your drug store today. 888 Tonic helps Build Sturdy Health.

## STILL MORE MONEY IN THAT WOODLAND

Though timber is selling high, there's still more money in those trees—and farmers can get it.

Here are the things that Cecil Clapp, API extension forester, says woodland owners should do to make more profit from their timber:

"First, sell your labor on your trees. Many owners make \$1 an hour cutting sawlogs, pulpwood and pilings and putting them at the roadside for the buyer. Farmer and buyer must understand specifications and price.

"Second, don't cut all your trees at one time, but cut some to sell each year. Not only this save a steady income, but a better job of selective cutting can be done."

## BIG NEWS TO QUAIL; THERE'LL BE MORE BICOLOR LESPEDEZA

Alabama quail will find more to eat when they look around for a place to board next year.

This good news for the State's favorite game bird is impossible because plantings of bicolor lespedeza—choicest of all quail food—are being made by more farmers each year. Planted as a field border, the legume's seed furnishes feed and the plant itself gives cover.

Bicolor lespedeza planting seed are scarce, so farmers who have stands should save seed from them this fall. Allen Pearson, API extension wildlife specialist, says to harvest the seed soon after the first killing frost. Store the seed in a dry place and out of reach of rats.

## \$1,000,000 PAID FOR CROP LOSSES

Five thousand Alabama farmers are \$1,000,000 to the good because they carried cotton crop insurance this year.

These farmers had losses ranging from one-third of their normal yield to complete cotton crop failures. "But," explained A. W. Jones, State production and marketing administration director, "insurance saved the day for them."

County PMA officers are taking applications for insurance on the 1947 cotton crop, and Jones believes that far more than the 11,000 farmers who carried insurance this year will have their crop covered next season.

Insurance protects the farmer from losses due to bad weevil, too much rain, drought and other hazards. The grower can choose the amount of coverage he wishes to carry—low, medium or high. Payment for losses will increase as the crops gets further along towards maturity.

## KILL CATTLE GRUB WITH SPRAY, DUST

Warning to keep a sharp lookout for cattle grubs was given farmers this week by W. A. Ruffin, API extension entomologist.

Bumps seen on a cow's back in late November or early December are signs that grubs—often called wolves or ex-worms—are just under the skin. If bumps are found, Ruffin says to spray cattle in December, again in January and a third time in February if needed.

Use a spray made by mixing in 100 gallons of water eight cups of pure, finely ground derris, cube, or Timbo containing four or five per cent rotenone. This mixture must be put on with a sprayer that can develop 400 pounds pressure. Spray the animal's back thoroughly and if lice are present spray them all over.

It is easy to handle, a dust containing 20 per cent rotenone may be used. Rub the dust thoroughly into the hair along the cow's back with the fingers or a stiff brush.

Since green vegetables should be eaten every day, Miss Hulsey suggests that families plant a variety of greens for the table this fall and winter.

Limited trading is often necessary in keeping livestock numbers balanced with feed supplies. But much trouble can be avoided if this trading is done through regulated sales, rather than from farm to farm.

Bangs disease in cattle and hogs, hog cholera, anthrax in sheep and cattle, and sleeping sickness in horses are some of the most serious diseases that may be spread from infected to clean herds. Most of these diseases also can be transmitted to human beings. Too, all external and some internal parasites are easily scattered by careless trading.

To avoid infecting clean livestock, Gregory suggests that all newly purchased animals be kept away from the farm herd for at least one month. Even in the case of high-priced breeding stock, this precaution should be observed, he says.

Sweet potato croquettes make a tasty winter dish. This recipe is good: Two cups mashed sweetpotatoes, one-half teaspoon salt, one-fourth teaspoon cayenne pepper, a dash of paprika, one egg beaten, one-half to one cup of chopped nut meats or parched peanuts and bread crumbs. Mix ingredients, make into croquettes, roll in eaten egg then in bread crumbs and fry in deep fat.

## ALABAMA POWER COMPANY PRESENTS \$436,863.27 TO THE DEPARTMENT OF REVENUE

Alabama Power Company today delivered to the State Department of Revenue of Montgomery a check for \$436,863.27 in payment of the Alabama hydro-electric kilowatt hour tax. This tax is levied only on investor-owned utilities. This check, which is \$38,581 more than in 1945 goes into the Special Educational Trust Fund of Alabama.

Each of Alabama's 67 counties, even those not served by Alabama Power Company, will be allotted a portion of these taxes. Twenty-one counties will receive more than \$5,000 each for high schools and elementary schools. They are: Blount, Calhoun, Chambers, Coffee, Covington, Cullman, DeKalb, Etowah, Franklin, Houston, Jackson, Jefferson, Lauderdale, Madison, Marion, Marshall, Mobile, Morgan, Talladega, Tuscaloosa and Walker.

The total of the amount paid by Alabama Power Company to be allotted to elementary and high schools is approximately \$340,207. Institutions of higher learning will receive \$59,334. The remainder will be allotted to other educational and miscellaneous services. Thomas W. Martin, president of the Company, invites attention to the fact that the kilowatt hour tax is only one of the many taxes paid state, county and city governments in Alabama. The Company's total 1946 taxes, including federal, will be approximately seven and one-half million dollars, he stated, or about 23% of the Company's total revenue.

## FSA BORROWERS USE AAA BENEFITS

Chilton County FSA borrowers have made an outstanding record in utilizing benefits offered by the Conservation Materials and Service Program (AAA).

According to data released by Joe Campbell, County Administrative officer of the P & M Administration, Chilton County FSA borrowers earned in 1945 92 per cent of their soil building allowances as compared to 78 per cent for the county as a whole. Mr. Campbell also said the figures for this year would be about the same.

This high percentage in percentages is due to the keen interest shown by FSA borrowers by turning out in large numbers to demonstrations and tours to experiment fields, where the main emphasis has been put on winter cover crops. They not only realize the value of winter cover crops as preventing erosion and increasing crop yields, but know that a good deal of money is saved by cutting down commercial fertilizer expenses. Recently a large group attended a tour of the Prattville Field where they were shown that vetch in corn-cotton rotation produces 1800 pounds seed cotton and 51 bushels corn as compared to 1150 pounds cotton and 35 bushels corn from commercial fertilizer.

In the above case where vetch is used there is a noticeable increase each year for the last ten years where commercial fertilizer shows no such increase each year. This fact proves the soil building value of the winter cover crops and the mere put in and take out process of commercial fertilizers.

## BE CAREFUL

Machinery is an all important item on the farm these days. But API extension agricultural engineers say the careless use of machinery tops the list as a cause of all farm work accidents. Injuries from tractor mishaps account for about half of all injuries from farm machinery.

## THE CHURCH OF GOD

P. O. Box 168, Pine Hill, Ala.  
Dear Editor and Publisher:

And to whom has made it possible and a blessing, as well as a source of help of value to many, I, the writer and family, Rev. Chas. H. Shaw, do wish to express our appreciation for the nice gift presented to us this year, The Chilton County News. And that's not all since leaving Chilton County and accepting the pastorate of the new church (with pastorage) at Pine Hill, Wilcox County, Alabama, the Chilton County News still follows up without a forwarding address. Well, the Lord bless a cheerful giver. You can't hide from God and not successfully from man. Fs. 139:3-5.

We have a nice church and a nice 5-room pastorage; a nice Sunday School of about 57 and expect to partition off and have two nice Sunday School rooms in the near future, one of which will be used for the pastor's study and prayer room—which is the source of a pastor's success.

We were honored Sunday night October 27th, to have the Rev. and Mrs. C. T. Douglas, radio speaker over Station WKAX, Birmingham, for the evening message. The writer and pastor being very ill wasn't able to be at service, but was told they had a wonderful service and a message of the hour. The house was filled to an overflowing capacity, even all standing room taken. Yet they stood with all eagerness and listened to the message, after which 17 came to the altar and knelt to receive something from our God, but so few people today are willing to GIVE UP THIS WORLD AND FOLLOW JES- US.

"Love not the world, neither the things that are in the world, if ANY man love the world, the love of the Father is not in him. For ALL THAT IS IN THE WORLD the lust of the flesh, the lust of the eyes and the pride of life, is not of the Father, but of the world; and the world passeth away and the lust thereof; but he that doeth the Will of God abideth forever."—1 John 2:15-17.

May the Lord bless all you unsaved readers with old-time Holy Ghost conviction is our prayer. Amen.

The writer is improving over Sunday and Monday, but still very weak and confined to the house and bed, but expect to be out in a few days.

Pray for his recovery and a breaking out and swelling on right arm in and below elbow. Thanks for this space and privilege of writing.—Rev. Chas. H. Shaw.

## SCRAP IRON NEEDED TO MAKE MACHINERY

There'll be more machinery next year if farmers in the county gather all scrap iron on their farms and sell it to scrap dealers.

Since 2,000,000 tons of scrap are needed in the U. S. each month to keep the steel industry going at full speed, the government is asking that scrap iron from farms and other places be put to work. J. B. Wilson, API extension agricultural engineer, says that if steel plants can't get enough scrap, manufacture of farm machinery may drop far below the present level.

Farms, railroads, equipment companies, and other heavy industries are best sources of heavy melting scrap needed by the steel plants.

## FRUIT TREES ADD MUCH TO FARM HOME

There are many things that make a house a home—and a fruit tree is one of them.

A tree is remembered well and affectionately by an old man for throughout the years it has given him shade, fruit in season and a home that was more beautiful.

"The fruit trees that we remember from childhood days were more than just trees to us," declares W. A. Ruffin, API extension horticulturist. "They were a real part of our home and our lives. So we should see to it that our children have the same opportunity of enjoying trees."

A good variety of fruit can be grown on every Alabama farm. Orchards need little space—one-fourth to one-half acre—and should be fertilized,

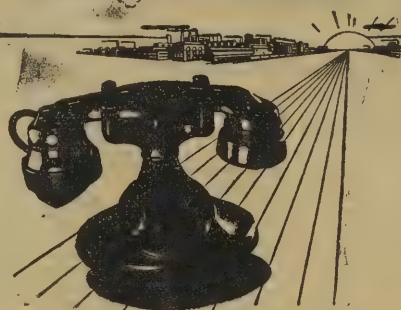

pruned and sprayed properly.

Points brought out by Ruffin are:

- (1) Plant the orchard on good soil. Sandy loam with a red clay subsoil is ideal.
- (2) Locate the orchard near the house. Do not set fruit trees in a low flat area because spring freezes may kill blossoms.
- (3) Good one-year-old plants are the best to buy.
- (4) Set out the trees from November through January.
- (5) From Birmingham north plant apples, peaches, plums, cherries, muscadine grapes, bunch grapes and pears. From Birmingham south to Montgomery add figs to the list and take cherries out. South of Montgomery do not plant apples or cherries.

A coat of paraffin inside the new garbage pail will prevent it from rusting, thereby lengthening the pail's life.

## How Do Telephone Earnings Affect Your Business?

As telephone service has grown so has your business. Today there are twice as many telephones as there were 20 years ago—five times as many as there were 30 years ago. More telephones have enabled you to reach more customers, and give better service, to the benefit of your own business. Consequently, the improvement and expansion of telephone service are vital to the future growth of your business.

To render good service and expand it, any company must have reasonable earnings. That is basic and fundamental. Telephone earnings today are not only the lowest in history but are dangerously low despite a record volume of business. This is because telephone expenses are increasing faster than revenues. The cost of furnishing service has increased tremendously, while telephone rates generally are lower than many years ago.

This condition is important to you because the quality and quantity of telephone service directly affect the progress and growth of your business.

- (1)—The amount of money paid out to provide telephone service is increasing faster than the amount taken in.
- (2)—Telephone earnings are the lowest in history.
- (3)—Reasonable telephone earnings are essential to good telephone service.

### SCRAP BOOK

#### WEEK'S BEST RECIPE

Salmon Casserole with Parsley Biscuits: 1 1/2 c medium white sauce, 1/2 c canned salmon, 1 c canned peas, 2 diced, hard-cooked eggs. Add flaked salmon, peas, eggs, to white sauce and pour into greased casserole. Top with Parsley Biscuits and bake in hot oven 11 to 20 min. or until biscuits brown. Yield: 6-8 servings.

Parsley Biscuits: 2 c sifted, enriched flour, 3 t baking powder, 1 t salt, 2-4 T shortening, 2 T finely chopped parsley, 2-3 to 3-4 c milk. Sift together flour, salt, baking powder. Cut in shortening. Add parsley. Add milk for soft dough. Turn on floured board, kneed gently 1/2 min. Pat out 1/4 inch thick. Cut and place on Salmon Casserole and bake.

#### WINTER STORAGE

The roots and bulbs have been stored before the killing frost can hit them. Bulbs should be kept in a cool, dry place until spring. When bulbs have dried, after being spread for three or four weeks, clean off foliage, pull off dried-roots but do not remove husks. You can easily store the bulbs, when dry, in paper bags. Put in paraffin flakes or crushed moth balls, 1 tablespoon of flakes to each 25 bulbs. Put the flakes in the bag first, cover them with a paper then add the bulbs.

#### MUSTARD BATH

Medical experiments find that a warm mustard bath accelerates the flow of body blood and increases metabolism. Fine as any steam bath and without the discomfort of very hot water to induce perspiration, the mustard bath is most effective. Three or four heaping tablespoons of dry mustard dissolved in a full tub of warm water, will do the work.

Most of the shadows of this life are caused by standing in our own sunshine. — Ralph Waldo Emerson.

Montgomery, Ala. — The Alabama State Docks and Terminals at Mobile recorded net earnings of \$1,093,000 for the fiscal year ending September 30, 1946, according to figures from the office of Finance Director Hayne Tucker. Of the original \$10,000,000 worth of State bonds issued to build the docks, \$7,325,000 was outstanding in September, Mr. Tucker said.

STATEMENT OF THE OWNER-SHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACTS OF CONGRESS OF AUGUST 24, 1912, AND MARCH 3, 1933, OF CHILTON COUNTY NEWS, PUBLISHED WEEKLY AT CLANTON, ALABAMA, FOR OCTOBER 1, 1946

STATE OF ALABAMA, COUNTY OF CHILTON.

Before me, a notary Public in and for the State and County aforesaid, personally appeared R. M. Tucker who having been duly sworn according to law, deposed and said that he is the Editor of the Chilton County News, and that the following is, to the best of his knowledge and belief, a true statement of the ownership management of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended by the Act of March 3, 1933, embodied in section 537, Postal Laws and Regulations, printed on the reverse of this form, to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: Publisher: Mrs. Mark L. Tucker Clanton, Alabama. Editor: R. M. Tucker, Clanton, Alabama.

Managing Editor: Clark Headley Clanton, Alabama. Business Manager: R. M. Tucker Clanton, Alabama.

3. That the known bondholders, mortgages and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: Peoples Savings Bank, Clanton, Ala.

The average circulation of this paper has been 2,021 weekly.

4. That the two paragraphs next above, giving the names of the owners, stockholders and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's knowledge and belief as to the circumstances under which stockholders and security holders who do not appear upon the books of the company are owners, stockholders and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association or corporation has

## FLOYD NEWS

We had a good crowd at Sunday School and at preaching Sunday. Saturday night Rev. Ashley delivered a good sermon and then showed us the picture of "The Man Who Forgot God." We all got a blessing out of it.

Next Sunday Rev. Frank Hill will preach for us at 11 o'clock. We would like to invite every one to come and hear him. I am sure you will hear a good sermon and get a blessing out of it.

Mr. and Mrs. J. S. Castleberry from Mt. Creek were the guests of Mr. and Mrs. John Hudman and family Sunday.

Mr. and Mrs. Daniel Hudman from Gadsden were visiting their parents over the week end.

Mr. and Mrs. John Pierce were present at church Sunday. We are glad to have them.

The Young Peoples' Class was a little larger Sunday, and we hope to have them all back next Sunday.

It is not safe to buy land or to lend money and accept land as security without first investigating the Title of the land. Often there are unpaid mortgages and judgments or other liens, affecting the Title, which an Abstract would set out. Therefore, when buying land or lending money thereon, it is important that an Abstract of Title be furnished. A few dollars spent for an Abstract is cheaper than going ahead and having a law suit a little later on.

## Sandy's Rooster Was Surprised

WHEN "Sandy" M. Sanderson answered his telephone one chilly and rainy morning, he learned that electric service was "out" on one of the lines in the territory where he serves as troubleman.

He rubbed the sleep out of his eyes, dressed, cranked his trouble truck and started out. He located the trouble about 16 miles from his home. After making the necessary repairs to the line, he chatted a few minutes with the farmer who had come from a nearby house. As Sandy started to get into the cab of his truck, the farmer asked: "What's that on your bumper, Sandy?"

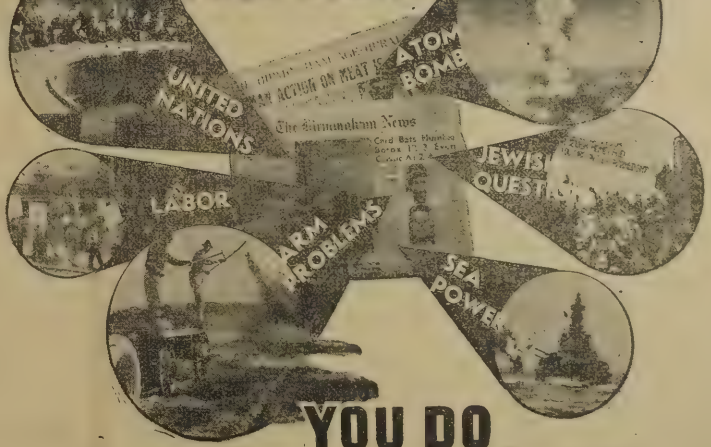

"Nothing," said Sandy, but stepped to the front of the truck to have a look. Perched on the bumper was Sandy's pet rooster—not in a very good frame of mind after that 16-mile surprise ride in the rain and cold. The rooster rode back home in the cab of the truck with Sandy.

That trip was an unusual one for a rooster but not unusual for Sandy and the other troublemen who help keep electric lines in good operating condition—at all times of the day and night, and in all kinds of weather.

**FAREWELL PARTY GIVEN MRS. MINERVA O'REAR**

One of the lovely parties of the Halloween Season was a surprise party given at the home of Mrs. Minerva O'Rear, who has returned to Jasper. Mrs. Cleo R. Cox was co-hostess.

The rooms throughout were very attractively decorated with yellow chrysanthemums and other fall flowers, carrying out the Halloween colors.

Appropriate gifts were presented Mrs. O'Rear in a decorated basket. As a further reminder of the Halloween season, a witch with broom and bell was admitted bringing a grab basket with a gift for each guest.

Glimpses into Minerva's future and contests were enjoyed, the prizes being won by Mrs. Beatrice Bryan, Miss Ann Dodge and Mrs. Ruby Davidson.

For the refreshments, the guests were invited into the dining room where they were served delicious punch, sandwiches and cookies from a beautifully appointed table.

Guests invited were Mesdames Minerva O'Rear, Beatrice Bryan, Nell Simms, Ruby Davidson, Sara Mullins, Lena Dodge, Misses Faye Woolley Ann Dodge and Helen Blake.

**GREEN FEED SPELLS HEALTHY LIVESTOCK**

Green feed will keep livestock in the "pink" of health during the winter months.

Vitamin A, which is obtained only from green feeds, is very important to the health and growth of farm animals. It is stored in their bodies for short periods only and must be resupplied every few days. Animals that are given green feed, even in small amounts, at regular intervals will be able to resist diseases much better than if no green feed is provided, states W. H. Gregory, API extension livestock specialist.

To supply green feed, the best system is to grow ample grazing crops for all livestock to graze every day. But if enough grazing is not available for full-time use, the health of farm animals will be much better if they are allowed to graze a green crop one day a week, Gregory declares.

## 2,382 PERSONS GET BLOOD TEST FIRST 2 DAYS

### Everybody In County Required To Take Syphilis Test

Dr. E. M. Moore, Chilton County Health Officer, announces that for the first two days of the syphilis blood test survey, 2,382 persons had their test. This is somewhat below expectations. Dr. Moore said that some persons were possibly avoiding taking the test through fear produced by silly rumors which are apt to be current in campaigns of this kind. Every possible measure is employed to insure sterile technique, a separate sterile needle being used for each person taking the test. Nor is their any pain incident to taking the test, the insertion of the needle producing no more than the slightest discomfort.

Dr. Moore pointed out that everyone should realize that the law requires that all people between the ages of 14 and 50, inclusive, to have this test during the time the survey is conducted in the county in which they live, and that records will be checked to see that everyone complies. It was also emphasized that the results of the tests are kept strictly confidential, and that in the event of a positive result, no one other than the person in question will know the result of the test.

## Nine Amendments Ratified By Voters

Voters of Alabama ratified all nine of the proposed constitutional amendments passed on at the November 5th general election. Unofficial returns indicate that it was not even close except in the case of one amendment, Number 4, popularly known as the Boswell Amendment. This amendment, adopted after a fight which split the ranks of Alabama Democrats, tightens up voting registration requirements, with the avowed aim of holding down negro registration.

## Chilton Boy Builds Boat With Only One Good Arm

January 27, 1945, at Enning, Germany, Cpl. Burnie Varden, of Clanton, Ala., got a load of shrapnel in his left arm. After that he had no use of his arm whatsoever. Almost immediately after receiving his wound, Cpl. Varden was hospitalized and his Infantry Division went on fighting the war without him. Later, the corporal was sent by ship to the States and placed in Holland General Hospital in New York. From there he progressed to Lawson General in Atlanta where he stayed 14 months, then to Brook Convalescent Hospital in San Antonio for one month.

Cpl. Varden left Brook Convalescent Hospital for a long-awaited furlough home, and while he was seeing homefolks his arm became infected. So the corporal turned himself in at the nearest army hospital, which was the AAF Regional Hospital at Maxwell Field.

His infection was treated and the corporal underwent several operations on his arm. And while he was convalescing he became interested in the carpentry shop of the hospital convalescent center. A former carpenter in civilian life, Varden set to work to build a small boat. With one good arm and small assal finished his project, a polished and varnished boat. Shortly after the boat was finished the corporal was told he would be able soon to leave the hospital. Thus, Corporal Varden and his boat will shortly be on their way back to Clanton where Varden takes up civilian life, open to a carpenter shop of his own and ride in his boat on his off hours.

(Editor's Note — A nice picture of Corporal Varden accompanied the story and may be seen at the News.)

The Rebel Quartet and the Henley Harmony boys quartet, heard over the Montgomery Station WMGK every Sunday morning from 8 to 9 o'clock, will appear together in "The Battle of Songs" Concert at Clanton Courthouse Thursday night, November 21st. This good clean entertainment is being sponsored by Thomas Junior High School P-T-A. Our former Chilton County friends, Floy and Martha Devaughn are part of the personnel. Come early, folks, as the crowd will be terrific. — Mrs. A. E. Smith.

## THOMAS JUNIOR HIGH SCHOOL P-T-A.

We will have our regular monthly P-T-A. meeting Thursday night, November 14 (tonight), at 7 o'clock. We urge everyone who can be to present for this meeting. We've gotten off to a good start this year, so let's see how many more parents we can get to cooperate with the teachers and for the good of their children. — Mrs. Aubrey Smith, President.

## To Conduct Red Cross First Aid Course In Clanton

DONALD ZEMLOCK

Mr. Donald Zemlock, special field representative of the American Red Cross will conduct a training course here December 9 to 20th. The training course, promoted through the Red Cross and Alabama Mills, will be open to anyone desiring this valuable first-aid training. The course will be a 30-day training held at the City Hall in Clanton on the above dates from 2 to 5 p.m. daily.

More and complete information will be issued in future issues of the News.

## UNION GROVE FARMERS' CLUB MET

The Union Grove Farmers' Club met Tuesday night, November 5th. Mr. Pete Giles was in charge. The subject discussed was strawberries. Mr. L. C. Shields gave us some very good information on producing strawberries.

We were very glad to have the Jimson F.F.A. Melody Boys to come and sing for us again.

The Jimson F.F.A. boys have organized a quartet and are doing some very good singing. We wish to invite them to come and sing for us at any time.

Everyone remember the meeting next Tuesday night and come prepared to join in the discussion. The time is 6:30 o'clock. — Robert Carden Secretary.

## JEMISON CHAPTER F.F.A.

The Jimson officers and several of the other members attended the recent county F.F.A. meeting held at Isabella. The Jimson Quartet also sang a few numbers at this meeting.

The F.F.A. has decided to have a winter roast and have invited the F.F.A. to attend this party.

The most recent things that the chapter has been doing, are running terraces and measuring land for the neighboring farmers around Jimson. The chapter is glad to do things like this to help out the neighboring farmers and would like to see other people interested in F.F.A. work. — Dane Lowery, Reporter.

## Positions Available In Welfare Dept.

Case work positions having a pay range from \$140 to \$165 per month in county departments of public welfare will be filled from an examination announced today by the Merit System Council for County Departments of Public Welfare located at Room 1 Highway Building, Montgomery 4, Ala.

Applicants must have graduated from an accredited college or university. The duties of the position, in the main, determining eligibility and need of applicants for assistance, rendering case work services to both family groups and children, interpreting public welfare laws, and doing related work as required. The majority of these positions require an automobile in order that workers may carry out their assignments.

Mrs. McKee, Chilton County Director of Public Welfare, urges qualified persons to file application for the examination prior to closing date on November 27, 1946. Further information may be obtained from the Merit System Council office in Montgomery, or Chilton County Department of Public Welfare.

## C. B. Cox Thanks County Voters

I wish to thank my friends for their confidence in me in electing me to the State Legislature. Not being able to see you all individually I will have to take this method to say I am grateful.

I want you to feel free to call on me at any time and to talk things over in regard to our County's needs. When I can be of service to you, please let me hear from you.

Sincerely,  
C. B. COX.

## CIRCLE SIX MET

Members of Circle Six of the Baptist W.M.S. were guests of Mrs. J. D. Griffin Monday afternoon. The meeting was called to order by the chairman, Mrs. W. C. Golden, who gave a most inspiring devotional on, "Rebuilding in Christ's Name."

The program chairman, Mrs. R. M. Tucker, presented the program on, "Rebuilding in Europe and China," which was given by Mrs. Clarence Cox, Mrs. Ben Sims, Mrs. Golden and Mrs. Tucker. The group sang the hymn for the year and the program was concluded with prayer.

A brief business session followed, after which the hostess served delicious cake and coffee to ten members and two visitors.

## HIGH SCHOOL P-T-A. TO MEET

The Parent-Teachers of the Chilton County High School will hold their regular November meeting Tuesday evening at 7:30 o'clock, November 19. The meeting was postponed from this week on account of the community concert.

The program of this meeting will be presented by the music department of the high school. The public is cordially invited. — Mrs. J. E. Gowan, President.

## Winners In Fish Story Contest J. A. Headley, Willis And Simpson Are Winners

The verdict has been announced. After considerable thought in the Chilton County News Fish Story Contest, the judges came forth announcing J. A. Headley as winner of first place and \$10.00; Bill Simpson winner of second place and \$5.00; and Harlem Willis third place winner of a year's subscription to the News.

One rule of the contest was that there be no misinterpretation of the contestants who entered fish stories. The rule: All stories must be true and must have occurred in Chilton County. Winners are those who seemed to have stories that seem, logically, true or could be so. To give readers three good fish stories in one issue and to show the winners' stories, the News is reprinting all three stories this week.

## Clanton Defeats Stubborn Montevallo Team 13 To 0

The Chilton High School Tigers won their fifth football game of the season last Friday night when they defeated a determined Montevallo eleven 13 to 0.

Clanton received the ball in the first quarter and marched straight for the goal, Wade scoring on a quarter-back sneak. Thomaston's extra point try was good.

Montevallo played Clanton with an offensive line-up heretofore unencountered by the Tigers. Clanton had considerable trouble stopping the Montevalloans in the first quarter but soon figured their plays out. There were no scores in the second quarter.

In the third quarter Clanton scored again when McCain scored. The try for the extra point was no good. The score: Clanton 13, Montevallo 0.

The Clanton team has five wins this season and play their final game of the current season Friday night here when they meet Wetumpka. Wetumpka is slated to have a strong team and are expected to give the Clanton boys quite a scrap. If anyone wishes to compare scores, here is the way they stack: Wetumpka defeated Auburn High last week 19 to 0. Wetumpka beat Hurt and Hurt was winner over Clanton. Wetumpka also defeated Isabella 46 to 0.

## Concert Season Opens With Full House

Community Concerts, Inc. of Clanton, opened the concert season here last Tuesday with the presentation of Appleton and Field, duo-piano concert artists.

The concert was held at the First Methodist Church in Clanton and a large crowd witnessed the splendid program offered by these artists. The church was packed.

This is the first time in Clanton's history that local citizens have had the opportunity of hearing programs of the quality offered through the Community Concerts. Clanton has the distinction of being one of the smallest communities in the nation sponsoring concerts of this kind.

The program Tuesday night was the first of the season. There are more to come. And, according to the attendance Tuesday night and the ovation, concerts in Clanton are going to make a big hit.

## PENSION ASSOCIATION MEETING

There will be a meeting of the County Pension Association at 10 o'clock, Saturday, November 25th.

It would be a pleasure to have all the citizens of Chilton County that are 65 years old and older to be present.

This Association with all the other groups of the State expects to join in an effort to make old age pensions a reality when the legislature meets next year.

Do you want to help us in our effort to help you?  
You can at least be present at a meeting occasionally. — Howard Roper County Chairman.

Tuberculosis kills seven times as many unskilled workers as professional people, three times as many skilled workers as professional people.

## Dr. Joe Hall Johnson Opens Office Here

Elsewhere in this issue is the formal announcement of the opening of Dr. Joe H. Johnson's office for the general practice of medicine and surgery. Dr. Johnson is the son of the late Dr. Arthur Johnson and will practice in the same office which his father used. This building having recently been renovated and new equipment installed.

Dr. Johnson was graduated from Vanderbilt University School of Medicine and served Internships in St. Thomas Hospital, Nashville, Tenn., and in Strong Memorial Hospital, Rochester, N.Y. He was honorably relieved from active duty in the Army in May, after serving in this country and in the Pacific Theatre.

Dr. Johnson is accompanied to Clanton by his wife and young son.

## Conservation Plans Made On Farms Of County

Complete soil and water conservation plans were made last month on the farms of the following: Curtis Barber, Joe E. Gowan, Mrs. Joe S. Green, N. J. Smith, Ben H. Looney, Hoover Moatts, C. A. Gilmer, L. G. Miller and B. C. Lenoir. All of these plans included a complete water disposal system, a year around grazing system, soil conserving and soil improving cropping system and proper care and management of woodlands.

The water disposal systems include properly constructed terraces emptying into vegetated meadow outlets. When these drainage systems are completed no surplus water from cropland fields will leave these fields without turning over a sod. The sod will filter the soil from the water and keep it on the farm and not let it be lost. The water disposal systems were planned by following as much as possible, the natural drainage system of the land. Nature has a drainage system for almost every field. It is essential, if we keep maintenance at a minimum, to follow this natural drainage system. Sericea and kudzu will be used as a covering for the water disposal areas. These crops will also be used for hay and temporary grazing.

The year round grazing systems include permanent pasture and temporary summer and winter grazing. Sericea will be planted on uplands of permanent pasture. Grasses and clovers will be planted on bottomlands of permanent pastures. Sericea has been found to give more grazing than any other plant on upland permanent pastures. Kudzu will be used for hay and temporary summer grazing. The kudzu will also have temporary grazing in the fall after frost. This frosted grazing will fill in the gap between the change from permanent pasture to winter grazing. Winter grazing on these farms will consist of Crimson Clover and Rye Grass and oats and vetch legumes.

Two-hundred and five pounds of unhusked Lespedeza-bicolor seed have been harvested this season in the Chilton Work Unit. These seeds will be cleaned, scarified and given to cooperators of the North Central Soil Conservation District for establishment of planned wild life areas on their farms.

## IT'S A GIRL

Mr. and Mrs. Norman Watson of Clanton are the proud parents of a bouncing infant and three-quarter pound girl, having named the new arrival Sharon Louise. Both mother and baby are doing fine.

Third place winner was Harlem Willis's story, as follows:  
Harlem Willis was out on his route last Wednesday down near Cargile Creek. At the near of Uncle "Babe" Edwards's barn Harlem noticed some water about knee deep on a gander. Harlem got his reel, rod and line rigged up and decided to cheat on the bass a little. After a few casts Harlem noticed the water bubbling. He five-pound trout at the Uncle "Babe" Edwards's old place.

## JERSEY CATTLE SHOW TO BE HELD NOV 22

### Several Hundred Dollars Offered In Prizes

As the date of the dairy show, November 22, draws near, the Jersey Cattle Club feels that the detailed plans of the show should be announced.

Mr. C. E. Teague, Dairy Specialist from Auburn, and Mr. A. A. Lauderdale, County Agent of Shelby County have accepted invitation to act as judges. Both men are very competent judges and the show feels that the cattle club is fortunate in having these men as judges.

Cattle are being clipped and fitted for the show and exhibitors are training their animals to lead and respond to the halter. Since the condition of the animal and the ability of the exhibitor to show an animal is all important in determining how well an entry places, prizes for the best fitted animal and best showmanship are being offered.

The members of the Jersey Cattle Club feel that a local show offers everyone in the county an opportunity to see the work being done with jersey cattle. 4-H Club members who are thinking about starting a dairy project should especially be interested in seeing the County Show as many of the animals in the show will be 4-H entries.

Judging will start at 10:00 a.m. and the various classes will be judged in the order as given in the premium and prize list below.

The prize for the Champion Jersey female is being offered by the Thorsby Cattle Club. The Jersey Cattle Club wishes to acknowledge this premium and thank the Civic Club for the kindly interest they have shown.

## FIRST ASSEMBLY OF GOD

If you do not attend Sunday School and church elsewhere you have a cordial invitation to come out to the First Assembly of God Church next Sunday morning at 10 o'clock for Sunday School and for preaching at the eleven o'clock hour. The pastor, Rev. Thomas D. Rachels, has been a great blessing to all who have heard him, so come out next Sunday morning and Sunday evening at 6:30 o'clock and fill your place in Sunday School and Church.

## JEMISON SENIORS TO SPONSOR PLAYS

Don't miss an evening of fun! The Senior Class of Jimson High School will present three one-act plays November 22, 1946, at 7:30 o'clock. You can't help but laugh at the deaf father and son-in-law in the play, "E.H." See what the boys think of the girls in, "Let's Make Up." Find out how Brock's two love affairs turn out in, "The Apple of His Eye."  
Admission — 35c.

## TOYLAND NOW OPEN

Herman Lecroy, congenial manager at the Clanton Firestone Store, says Toyland is now open at his place. Herman has hundreds of toys displayed for young and old. For a list of a few of the items, see his adv. elsewhere in the News this week.

## IT IS NOT THE SIZE

The other day I was talking with a chap who isn't getting along too fast, and who seemed "to have it in" for what he calls "big business" and big shots in general.

He referred with some satisfaction to the Biblical paragraph, which makes mention of how hard a job it is for a rich man to enter the kingdom of heaven, and then he went on to remark that money is the root of all evil.

Of course, he misquoted the saying, as it is so often the case. It is, "The LOVE of money is the root of all evil."

Here is where the joker seems to come in for a lot of folks. It isn't the riches but the love of them which endangers the pull with Saint Peter; and the chap earning \$15 a week who sleeps and plots and plans for money and would do anything to get it, is in the same miserable class as the meanest "millionaire oppressor of the poor."

It isn't what we DO so much as what we WOULD DO that condemns us.

The corner grocer who gives short weights has small cause to criticize when a sugar baron cheats the government.

The size of a man has nothing to do with saving him from the class to which he belongs.

It is the object in view that counts. What we need is a square deal for all, not for any class or group or line of trade for big or for little operators.

Remember the story about the billiard ball which looks pretty smooth, but if enlarged to the size of the earth would have higher mountains, deeper valleys and be a much bumpier globe than we now are living on.

If a lot of small fellows, whose little mean tricks are so petty they escape notice, had their opportunities enlarged to that of a great business, they might show up far worse than the men they "cuss out."

Everything should be estimated by per cent of opportunity and attainment, and not by any total.

Sure enough, it isn't the size that counts. — Trumbull Cheer in Covington County News.

## THE KIND OF COOPERATION NEEDED

The kind of cooperation that is needed in our Party to get things done is contained in a Day-Letter from Gessner T. McCorvey, Chairman of the State Democratic Executive Committee, to Gov.-Elect James E. Folsom on November 8th. A copy of his message to Mr. Folsom follows:  
Hon. James E. Folsom,  
Cullman, Ala.

Congratulations and all good wishes to our new Governor on his sweeping victory. We must not permit any honest differences of opinion among loyal Democrats on such issues as the Boswell Amendment to cause any rift in our Party ranks. I know that you will find all Alabama Democrats anxious to do everything in their power to make your administration one of the finest that Alabama ever had. All of us feel absolutely confident that you and our good friends, Haygood Paterson and Dan Thomas, in selecting our new Boards of Registrars, with the added discretionary powers now conferred on such Boards, will use splendid judgment and only appoint to these all-important positions men and women of judicial temperament who will be fair, honorable, upright, just and reasonable in the consideration of the applications of those seeking to register, to the end that no injustice be done to any of our citizens, whether they be white or colored. Alabama will then continue to have an electorate of which we all may well be proud. I sincerely believe that our new registration provisions, when some minor objections have been ironed out, will give Alabama the most workable and satisfactory suffrage laws of any Southern State, and that we will be the envy of our neighbors, with no race friction, bitterness or hatred and with all classes of our citizens realizing that the privilege of the ballot will be extended to them just as soon as they have qualified themselves to vote intelligently.

Youngsters may be more sophisticated than in our day, but children of Clanton can get mighty enthused about a hay ride.

## FOLKS & THINGS

### ABOUT TOWN

-By BEN

These kids can sure tangle you up. No sooner did we get the "mad off" because of the way they acted Halloween night at the schools than we give them a dance at the City Hall and they act like something out of a book—a good book. No one, under any circumstances could say anything against their conduct Friday night at the dance. Each and everyone of them behaved like ladies and gentlemen. Mr. and Mrs. G. H. Tucker, Mr. and Mrs. Cecil Ramsey and Mr. and Mrs. "By Ben" acted as chaperones. It is a pleasure to work with them when they appreciate it.

In one of our unguarded moments last week (it must have been the night after election) we asked the question in this column, "Why hasn't something been done about the City Park," or words to that effect. The Mayor called us early Thursday morning and gave us a mighty good answer. Says he: And we quote—"The City doesn't get control of the property until January 1st." Alright, whatever little Grimlin prompted us to ask that question knows the answer.

It's funny that housewives can't find any, but the politicians sure did pass out a lot of soft-soap in this year's election.

Our good friend T. L. McKee called Monday night to say goodbye for the winter. He has gone to Phoenix, Ariz., for the next several months. We will miss Mister Tom coming in to give us his opinion. Whether or not you agree with him, you have to admire him for his honesty in his opinion.

As a hint to the careless ones: Smoking, matches and misuse of electrical equipment and wiring are the chief causes of fires in Chilton County.

The Mayor and City Council are going to get tough about shooting fire-works in the city limits between now and after the holidays. There is a City Ordinance against such practice and according to the city fathers it will be enforced as nearly to the letter as is possible. The Mayor is anxious for everyone to understand and explain to the young folks the danger involved.

### FARMERS CAN KNOW THE QUALITY OF SEEDS

Just how good are those seed you saved this year?

You can answer this question by sending samples to H. L. Weir, chief seed analyst of the State Department of Agriculture, Montgomery. Samples will be tested for purity and germination, and service amounting to five dollars a month is free to Alabama farmers.

Whether saved for replanting on the farm or for sale, AFI extension agronomists say it is important to know the quality of the seed. Information on size of samples and other details of this testing service may be obtained from county agents.

### IS AWARDED TRIP TO 4-H CONGRESS

For their outstanding 4-H Club work during the year seven girls and eight boys have won free trips to the National 4-H Club Congress to be held in Chicago December 1-6.

Winners and their projects are: Mamie Lou Hardy, Coosa County clothing; Martha Frank Brunson, Geneva County, food preparation; Lyle Garner, Dale County, best 4-H records; Hillary Horton, Lawrence County, state dress revue winner; Mary Lois Clark, Houston County, healthiest girl; Carolyn Nixon, Sumter County, bee calf; Betty Jean Joiner, Tallapoosa County, canning.

W. D. Griffin, Perry County, healthiest boy; Lucy McIntyre, Etowah County, better methods electric; James L. Pollard, Perry County, poultry; Billy Street, Etowah County, field crops.

J. Lee Alley, Bullock County, Bobby Joe Mims, Chilton County, J. W. Skipworth, Lauderdale County, and Bois Sims, Cullman County, winners at district fair calf shows.

### VOTE FOR COMMITTEEMEN

Over 80,000 are eligible to vote in the 1200 community elections December 2-7, when Alabama farmers will choose their committeemen to direct the agricultural conservation program. W. B. Crawley, Pike County farmer and State PMA committee chairman, is urging all farmers to vote.

### FALL FRESHENING

Cows that freshen in the fall give more milk and make more money for their owners than those that freshen in the spring. API Extension Dairyman C. E. Teague believes dairymen should slowly change their breeding program so as to have as many cows as possible freshening during the fall months.

## MORAL ECHOES

Rev. D. W. Haskew, D.D.

One day I saw a honey bee battering a window pane. It buzzed on and down beating its wings against the pane, trying ever so hard to pass through the glass into its liberty and into its right to make honey. Finally in exhaustion it fell to the window sill, and the window being up a few inches at the bottom, from its resting place it flew out to liberty and life. How often have I seen men and women, fretting their very lives away at things that refuse to be gone. They try every way to get by them, through them and over them, but there is no use, they are right there. Finally they fall down into the depths of humility. They go down upon their knees, and from their knees they rise to liberty and service. There are things that come before us, we can not go through them, over them, or around them. Our only way is to go down upon our knees, and then He lifts the window.

"How do you know that you are a Christian?" was asked of a little girl who was rejoicing in her newly found experience. "It is this way," replied the child: "I heard some one knock on the door of my heart and as I opened the door, there stood Jesus. I invited Him to come in, and with a smile He stepped into my heart. Oh, He was such a wonderful guest. One day I heard another knock on the door of my heart and I turned to Jesus and asked Him to see who was at the door. He did so and on opening the door there stood the devil. On seeing who was in my house with me, the devil bowed and said, 'I beg your pardon, Sir, I am knocking on the wrong door.' Since that day I have always asked Jesus to answer the door of my heart when some one knocked upon it. That is why I know that I am a Christian. Jesus is with me and His presence keeps out all undesirable company." Could you find a better answer to the question? How do you know that you are a Christian?

A man came to me one day in great distress. He had offended his Jesus friend. He said that he had lost his temper and had said many things that he sincerely regretted. I listened to his story, and finally replied, "My brother, you did not lose your temper, you played it with all your might." The man had his temper. He did not

Veterans' Families To Benefit By VFW Social Security Amendments

Survivors of from 100,000 to 150,000 World War II veterans are grateful today to the Veterans of Foreign Wars for 1946 amendments which Congress incorporated into the Social Security laws of the nation. The VFW pushed the amendments for the past two years. Social Security officials now seek the overseas veterans' organization aid in locating 40,000 survivors of veterans who have died since the fighting ceased.

The amendments provide for coverage under the Old Age and Survivors benefits, a part of the Social Security set-up. Many veterans entered military service with social security protection they had earned in the course of previous covered employment and found at the time of their demobilization that they had lost their insured status, or that their services had reduced the amount of possible family benefits. This came about because the time spent in the service is not considered employment under Social Security and it acts to reduce the amount of potential benefits earned in jobs outside the services.

Other veterans had no chance to build social security credits through civilian jobs before entering the armed services. When demobilization came these men were without any social security protection for their families in the event of their deaths. The provisions of the amendments to the law follow the pattern set down by the Veterans of Foreign Wars. The organization had asked that time in service be credited as worth \$160 a month in social security credits. The Congress upheld such credits. In addition veterans are given more credits, which will increase the benefits survivors may receive, for each year in which they had a minimum of 30 days' active service after September 16, 1940.

Those eligible under the new amendments are:

1. Widow, aged 65 or over. She will receive monthly benefits for life unless she remarries.
2. Young, dependent children. They will receive benefits until they are 18 years old, unless they marry.
3. Widows of any age with young dependent children of the insured veteran in their care. They will receive monthly benefits unless they remarry or until the youngest child reaches 18. If the widow does not remarry, she may file again for benefits at age 65.
4. Aged, dependent parents of the insured veteran who leaves no widow or child under 18. Their benefits continue for life unless the parent remarries.

In the absence of any person immediately eligible for the monthly payments, a lump-sum payment may be made to certain specified relatives who pay burial expenses.

By the veterans' amendment, the Government assures the survivors of eligible veterans a minimum level of monthly social security benefits as shown in the following table:

| Years of Service | Widow | Child or Parent | Widow 1 Child |
|------------------|-------|-----------------|---------------|
| 1                | 23.48 | 15.66           | 39.14         |
| 2                | 23.72 | 15.81           | 39.53         |
| 3                | 23.95 | 15.97           | 39.92         |
| 4                | 24.18 | 16.12           | 40.30         |
| 5                | 24.41 | 16.28           | 40.69         |

| Widow, 2 Children | 4 Children | Lump Sum |
|-------------------|------------|----------|
| 54.79             | 62.62      | 187.86   |
| 55.34             | 63.24      | 189.72   |
| 55.88             | 63.86      | 191.58   |
| 56.42             | 64.48      | 193.44   |
| 56.96             | 65.10      | 195.30   |

In no case will the veteran be able to receive benefits in his own behalf under the new amendment. The amendment to the Social Security Act will benefit only the survivors of the qualified veteran.

Qualified veterans under the new amendment include:

1. Those discharged from the armed forces under circumstances other than dishonorable within four years and a day after the, as yet officially unproclaimed, end of the World War II.

FARMERS TO CHOOSE 3,000 COMMITTEEMEN

Alabama farmers will choose over 3,000 of their neighbors to direct the agricultural conservation (AAA) program in their communities and counties during 1947.

A committee of local farmers will be elected at the polls December 2 to 7 in each of the state's 120 counties, W. B. Crawley, state chairman of the agricultural conservation committee, announced this week. Also delegates to the county convention are to be named, and they will elect a three-member committee to head the program in each county.

Any person who is taking part in the 1946 ACP or who is carrying cotton crop insurance is eligible to vote in the election. This includes owners, operators, tenants and sharecroppers. All eligible persons are urged to vote.

**LAURELLA OWENS GROOMS-MAN AT WEDDING**

Miss Laurella Joy Owens, Clanton, was one of the groomsmen in the traditional Junior-Freshman Wedding solemnized at Blue Mountain College Saturday. This ceremony symbolizes the joining of the Junior and Freshman classes in bonds of friendship.

The bride, Christine Cole of Philadelphia, was given away by Dr. Lawrence T. Lowrey, President of the college.

**TRY DEEP LITTER**

Clean little in the chicken house will make the more comfortable and help in producing clean eggs. John Ivey, API extension poultryman, suggests trying the "deep litter" method. This calls for adding a new layer of litter on top of the old, rather than cleaning out the house each time litter is put down.

HOWARD BOOKHOLDT THANKS VOTERS

HOWARD BOOKHOLDT

Friends: I sincerely appreciate the vote of confidence you gave me on last Tuesday.

The fact that I used absolutely no political pressure or promises to secure votes means that those that voted for me did so because they wanted to and are expecting no special consideration in return. Therefore, I am obligated only to the County as a whole, and plan to fulfill this obligation to the best of my ability.

I sincerely appreciate the upright and honorable manner in which Mr. Maddox and the other candidates on

his ticket conducted their campaigns. I feel that Chilton County is headed in the direction of clean and wholesome politics.

### FAREWELL PARTY GIVEN MRS. MINERVA O'REAR

One of the lovely parties of the Halloween Season was a surprise party, given at the home of Mrs. Grover C. Walker, honoring Mrs. Minerva O'Rear, who has returned to Jasper. Mrs. Cleo R. Cox was co-hostess.

The rooms throughout were very attractively decorated with yellow chrysanthemums and other fall flowers, carrying out the Halloween colors.

Appropriate gifts were presented Mrs. O'Rear in a decorated basket. As a further reminder of the Halloween season, a witch with broom and bell was admitted bringing a grab basket with a gift for each guest.

Glimpses into Minerva's future and contests were enjoyed, the prizes being won by Mrs. Beatrice Bryan, Miss Ann Dodge and Mrs. Ruby Davidson.

For the refreshments, the guests were invited into the dining room where they were served delicious punch, sandwiches and cookies from a beautifully appointed table.

Guests invited were: Mesdames Minerva O'Rear, Beatrice Bryan, Nell Simms, Ruth Driver, Ruby Davidson, Sara Mullins, Inna Dodge, Misses Bay Wooley, Ann Dodge and Helen Blake.

### MRS. PRISCILLA JOHNSON ENTERTAINS

Miss Priscilla Johnson entertained a bridge game on Monday afternoon at the home of her mother, Mrs. N. S. Johnson, honoring Mrs. Abney Brown (Celia Gerald).

Decorations in the rooms were of chrysanthemums in shades of rust, yellow and white.

The guest list included: Mesdames John Higgins, Earl Grey, L. F. Gerald, Jr., Morris Popwell, Stanley Niven, Clair Norris, Leroy Martin, Bill Miller, Buck Tucker, Jeff Miller, John McKee, Harold Lawrence, M. R. Glascock, Jimmy Varnell, Charles Patterson, Joe Moore; Misses Billie Johnson, Mammie Moring; Mrs. John D. Burke of Montgomery.

Prizes were awarded to Mrs. Harold Lawrence and Miss Billie Johnson.

## PATES CHAPEL

Our attendance at Sunday School was not quite as large as has been but we had a very good lesson, and some visitors. We invite them back again.

Next Sunday and Sunday night are our regular preaching dates, also B. Y. P. U. Sunday night at 6 o'clock. On the account of rain our B. Y. P. U. was not as large Sunday night as has been but hope more will be there next Sunday night.

There will be a farmers' union meeting at the church Saturday night, November 16th, about 6:30.

Mr. and Mrs. R. C. Hayes were the guests of Mr. and Mrs. Chester Maddox.

Mr. and Mrs. Earl Hayes' guests Sunday were Mr. and Mrs. Hershel Maddox and two children.

Mr. and Mrs. J. A. Clecklers' guests Sunday were Mr. and Mrs. Ray Livecote and Mr. and Mrs. Harvey Davenport and children.

Mr. Sam Hubbard was the Sunday dinner guest of Mr. Bradie Patterson. Mr. and Mrs. Evans Dawson, with children and Mr. Herman McGary, were Sunday guests of Mr. and Mrs. Ollis Watley.

An event of great surprise was the wedding of Mr. John Price, the son of Mr. and Mrs. Odie Price, and Miss Louise Davis, the daughter of Mr. and Mrs. Davis of our community. We hope for them a long happy and prosperous life with part or all of it spent in our community.

Mr. and Mrs. Arline Dawson were the Sunday evening guests of Mr. and Mrs. Chester Maddox.

Mr. Erion Cleckler, Jessie Dawson Earlie Gene Dawson and Carl Maddox were the Sunday dinner guests of Mr. and Mrs. Arline Dawson.

Everybody come to church, Sunday School and B. Y. P. U. Sunday and Sunday night.

Don't forget the fifth Sunday evening singing that will be here in December. We wish to invite all.

### FARMERS PLAN USE FOR 1947 PROGRAM

Farmers were busy this week planning how they would use the recently announced 1947 agricultural conservation program to best advantage in building their soil.

With more local control given in next year's program, farmers in each county—through their county committees—will be able to choose soil-building practices that best meet local needs. The state agricultural conservation committee has listed 15 practices for which payments will be made, but county committees can select from these the ones needing most attention in their counties.

Approved practices include drainage ditch, terrace, and farm pond construction; use of lime, phosphate, basic slag and potash under legumes and pastures; seeding crotalaria, winter legumes, annual lespedeza, and permanent pasture grasses and legumes; establishing stands of sericea, kudzu, and forest trees.

### MAKE SEEDBED NOW FOR KUDZU CROWNS

To get a better stand of kudzu early next spring, prepare the land now. If the seedbed isn't made during November or December, bad weather usually keeps farmers from planting kudzu crowns on time, says D. R. Harbor, API extension agronomist. Farmers who wait until planting time to prepare the land may be "trained out" or get a seedbed that isn't firm enough for kudzu to live on.

Do the plowing now and leave only the planting and fertilizing to be done in February or March, Harbor advises.

Lay off rows 25 feet apart and bed back to make a low, flat seedbed. On this width row crowns should be set 3½ feet in the drill. Harbor says if home-grown crowns will be used, make rows seven feet apart and plan to set crowns six feet, or closer, in the drill to get hay and grazing sooner. Make all rows on the contour.

### EARLY POTATO GOAL IS UNDER '46 PLANTING

Alabama's 1947 goal for early commercial Irish potatoes was met this week at 21,900 acres—five per cent under this year's planting.

The reduction and Marketing Administration's State Office said there would be no cut in the 27,000 acres of fall and home-use potatoes grown in 1946.

Early commercial potato growers will be given individual farm goals by their county PMA committees before the year's end. Growers must plant within goals to be eligible for the U. S. Department of Agriculture's price-support for this crop.

### CLEAN BROODER HOUSE

Now is a good time to clean the brooder house and get ready for next spring's chicks. If a new brooder house is to be built, put it some distance from the laying flock's house, advises John Ivey, API extension poultryman.

Handle cups with care to prevent chipping and cracking. After dishes are cracked and the glaze is off they are not sanitary.

## J. C. Pattillo Thanks Voters

To The People of Clifton County: May I take this method of thanking every one of you for generously accepting me as your Clerk of the Circuit Court for another term.

I appreciate the handsome vote you gave me from the bottom of my heart and I shall do my very best to serve you in a fair, impartial and creditable manner.

Most sincerely yours,  
J. C. PATTILLO.

### WALTER R. SMITHERMAN

Mr. Walter R. Smitherman, age 71, of Maplesville Route 1, died Thursday 1:30 p.m. (Last). Funeral was held at 10:00 Saturday from Mulberry Church, conducted by Rev. R. W. Stuckey; interment was in Randolph Cemetery, in Bibb County.

He is survived by two sons, N. H. Smitherman of Maplesville, Ala., and Earl G. Smitherman of Montevallo, Ala.; one daughter, Mrs. E. C. Smith of West Point, Ga.; one brother, Stanley Smitherman, of Mobile, Ala.; nine grandchildren.

Flower girls: Sally Faye Clesner, Sara Nell Jones, Ruby Cooper, Betty Lois Conway, Marian Wells, Marcella Davenport and Mrs. Ara Calfee. Pallbearers: Willie Hayes, Claud Lawrence, Donovan Hayes, Roland Hayes, Vernon Smitherman and Bual Smitherman.

Spigener Funeral Home in charge.

### FARM SCRAP IRON MOVE TO PLANTS

More scrap iron is finding its way from Alabama farms to steel plants as local claimers work hard to make the drive quick.

These claimers—most of them farm implement dealers—are telling farmers that there will be more machinery when steel mills get the needed scrap iron. Steel, they say, is half scrap and leading steel centers show less than a two-week supply of scrap metal on hand.

J. B. Wilson, API extension agricultural engineer, suggests that communities without scrap dealers set up steel yards. These would prevent the loss of scrap and provide spare parts to keep many farm machines running, he said.

### DO THEM NOW

A few winter jobs that farmers should be thinking about are spreading lime, repairing and painting farm machinery, clearing pastures, and building and repairing fences. Do these jobs now to keep from having to do them during crop-making time, advise API extension farm labor specialists.

## Fred Smith Thanks Voters

By this means I wish to express my sincere thanks for your splendid support and cooperation in the election on November 5th. Now my goal is to serve you to the best of my ability and may you always feel free at any and all times to call on me when I can be of help to you. Let's continue to give our full cooperation and make Clifton County one of the best in which to live. Thanking you again, I remain,

Your friend,  
FRED SMITH.

### SCUPPERNONGS NEED TO BE PRUNED NOW

November is the best and safest time to prune scuppernongs and other varieties of muscadine grapes. Later pruning may weaken or kill the vines.

Old arbores not pruned for several years should be pruned heavily. W. A. Ruffin, API extension gardener, advises taking out most old wood and all dead wood. Main branches left should be those with plenty of current year's growth, which will bear next year's fruit. Do not prune well-kept arbores heavily, only enough to "open up" the vines.

Correct pruning, reminds Ruffin, will result in more and better fruit next season. Too much vine keeps out the needed light and causes fewer and smaller fruit to mature.

### HELP YOUR GARDEN BY SAVING MANURE

Saving barnyard manure is a small job that pays big returns.

A short time spent every few days in cleaning out stalls and barn lots and putting the manure in a pit, along with leaves and trash, will give just what many gardens need to boost their production. W. A. Ruffin, API extension gardener, suggests that to get the most from a year-round garden, manure should be saved on a year-round basis.

When manure is left in the lot, much of it is trampled into the soil and elements needed for plant growth are washed out by rains. Ruffin says manure is too valuable to be lost in this way, especially, since it often makes the difference between a poor and good garden.

To get the most good from vegetables, eat some raw, some cooked; cook quickly; use all the juices; strive to keep them crisp and plump.

R. Oates, Jack Jackson, W. A. Raspberry, D. E. Moore and Miss Maria Freeman.

Sunday will be time for Rev. Hand to be with us again. We urge every one who can to come to church.

Mr. and Mrs. J. D. Hayes are the proud parents of an 8-pound baby boy who arrived November 9th. They have named their new son David Lee.

Miss Maria Freeman and Mr. Hoyt Freeman visited Mr. and Mrs. Joe Ward Friday night.

Mr. and Mrs. F. C. Gibson and Mrs. Matt Gibson visited in Plantersville Sunday afternoon.

Several from here attended the singing at Pleasant Grove Sunday afternoon.

Mr. and Mrs. D. E. Moore and children spent a while with Mr. and Mrs. N. E. West at Lomax Sunday.

Mr. and Mrs. W. A. Raspberry spent the week end with Mr. and Mrs. Harvey Glasscock of Bessemer.

Mr. and Mrs. J. C. Veazey spent last week in Birmingham with their sons.

We were glad to have Mr. and Mrs. Odie Jones as our visitors at church Sunday and enjoyed very much to have Mr. Jones to teach the Bible Class. — Mrs. D. E. Moore, Reporter.

IT'S FAIR ENOUGH AND LITTLE TO ASK

If your cow could talk she would ask just a few small favors to repay her for the milk she gives.

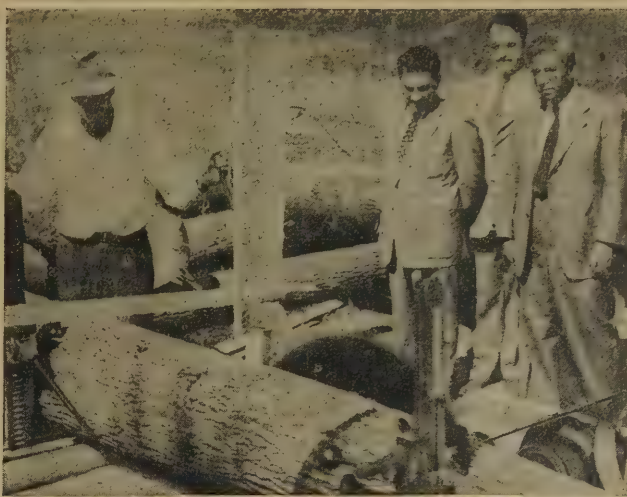

She would ask for a shelter to keep her out of the rain and cold... and for the place where she lives to be clean.

She would ask for plenty of fresh water... and not to be expected to break ice that might cover it this winter.

She would ask for green grazing crops... for all the hay she wants, night and day... for grain according to the amount of milk she gives.

She would ask for kind and regular care.

These things, says C. E. Teague, A. P. I extension dairyman, aren't too much for any cow to ask—for any owner to give.

### CARD OF THANKS

We take this means to express our sincere gratitude for every expression of kindness and sympathy during our recent bereavement in the death of our husband and father, Calvin Patterson. We especially thank Dr. Golden, the Martin Brothers, the Sandlin Quartet, Rev. J. I. Bice for his comforting words. Every one for the beautiful flowers, and our neighbors for every kind act.

May God's blessings remain with each of you as our prayer. — Mrs. Calvin Patterson and Children.

If dishes must be left to stand before washing, you will find it very worthwhile to rinse coffee and tea cups. When they are left with small amounts of the beverages in them, a dark, hard to remove stain results.

### Hoyt Freeman Thanks Voters Of Co.

It is impossible to teach each of you personally, so I take this opportunity to thank you for your splendid support on November 5th. My aim is to—in the future—give you the best services possible, so at any time when I can be of help to you, feel free to come to me. You will always find me ready to serve you. Thanking you again, I remain,

Your friend,

# Maplesville News

Sunday School attendance was good last Sunday. Several visitors were present. We always welcome visitors.

Bro. Wesley brought a wonderful message to a large congregation at the Methodist Church Sunday night. Everyone present enjoyed it.

Bro. Wesley goes to Mobile to the Methodist Conference Wednesday of this week. We hope they will send him back to the church here another year.

Mr. and Mrs. J. W. Gwin, Jr., and children from Trussville visited his parents over the week end.

Mrs. A. L. Dorsey spent last week visiting her children in Birmingham.

Mrs. F. H. Littlejohn spent last week with her son, Woodfin Littlejohn, and wife at the University in Tuscaloosa.

Mr. and Mrs. Joe Graham, Jr., and children visited Mrs. Graham's sister and family, Mr. and Mrs. T. E. McHugh, Jr., at Orrville Sunday.

Mrs. Mary Lou Marley of Winfield, Ala., is visiting her brother, Mr. J. R. Meharg.

Mr. and Mrs. Bob York and daughter, Mr. and Mrs. Eugene Kelley and little son of Birmingham visited the latter's parents, Mr. and Mrs. W. W. Kelley, last week end.

Mr. and Mrs. J. C. Davis and daughter, Majorie, spent last week end visiting their daughters and families in Anniston. Mr. and Mrs. A. D. Schurter, Mr. and Mrs. Dan Boyles. Mr. and Mrs. Monroe Hayes from Birmingham visited their parents here last week end.

To whom it may concern: The lucky number on the quilt and pig sold at the Halloween Party at the school house here are still unclaimed. The lucky pig number was 79; the lucky quilt number is 120. If the one's who have these lucky numbers will let it be known to the J. T. A. President, Mrs. J. R. Meharg, they can get the quilt and pig.

Mr. Dock Perry is in the Baptist Hospital and has had a serious operation on his leg.

We are glad to report Mr. Phelim Matthes is home from the hospital and is much improved from the operation for appendicitis.

Mr. and Mrs. J. W. Hayes spent last week with his parents, Mr. and Mrs. Betty Jeffcoats spent last Sunday with her daughter and family, Mr. and Mrs. Aubrey Dawson.

Curtis Kink visited his parents in Bessemer last week.

Mr. and Mrs. Clarence Allen Dennis from Ohio visited his parents, Mr. and Mrs. I. A. Dennis, last week.

Mr. and Mrs. Billy Gwin from Collier spent the week end guests of Mr. and Mrs. J. W. Gwin.

Mr. and Mrs. Georgia Gillespie left Sunday for a visit to Fort Knox, Ky., to visit his son, George, Jr., and to Vancova to visit his sister before returning home.

Mr. and Mrs. George Gillespie, Mrs. Wanda Clements and Mrs. Mae Davis visited last week.

## ALLOWANCE HIGHER FOR MAKING PONDS

If you're planning a farm pond, build it this year to save money.

Three times the regular agricultural conservation (AAA) allowance can be used now in farm pond construction. This special allowance will not be available next year.

A. W. Jones, State director of Production and Marketing Administration, says that the special allowance should cover about half the cost of building ponds. A payment of 12 cents will be made for each of the first 3,000 cubic yards of dirt in the dam and 8 cents for each additional cubic yard.

## Does Stomach Gas and Bloat Make You Feel Miserable?

If so, here is how you may get blessed relief in freeing your stomach from this nervous distress. It works this way: Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that 588 Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the 588 Tonic formula which contains special and potent acidulating ingredients.

Also, 588 Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is 588 Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people 588 Tonic has helped. Millions of bottles sold. Get a bottle of 588 Tonic from your drug store today and 588 Tonic helps Build Sturdy Health.

## ISABELLA

Bro. Stuckey preached two very inspiring sermons to a good congregation at Mulberry Sunday and Sunday night.

Miss Lorine Lecroy gave us a very interesting talk on B.T.U. work Sunday night. We need more at B.T.U. every Sunday night.

The monthly General Assembly of W.M.S. will meet at the church Wednesday, November 20th. Be sure to be present as we are to elect W.M.S. officers for 1947.

The Isabella football team played Maplesville team there. The score being 2-0 in favor of Isabella.

This community extends its sympathy to the family of Mr. and Mrs. Norman Smitherman and other relatives for the death of his father on Thursday, November 6th. The funeral was held at Mulberry Saturday morning with Bro. R. W. Stuckey conducting the service; Spigener in charge. The remains were laid to rest in Randolph Cemetery.

Mr. and Mrs. E. C. Lecroy spent Sunday in Mobile with her sister, Mrs. Floris Harris.

Miss Emma Lou McCraw from the Veterans' Hospital, Montgomery, spent the week end here with her mother,

Mrs. Emma McCraw.

Miss Lorine Lecroy from Gadsden spent the week end here with her parents, Mr. and Mrs. T. L. Lecroy.

Mr. and Mrs. J. H. Camp and children of Montgomery spent Sunday with Mr. and Mrs. E. S. Jones and other friends of the community.

Mr. George Kyser was among the visitors at Mulberry Sunday.

Mr. and Mrs. Milton Stevens and Annie Lee, of Alex City spent Sunday with her mother, Mrs. Ethel Cummings.

Bobby Stuckey and Lewis Hannah of Birmingham spent the week end here with Miss Truman Stuckey and other relatives.

Mrs. Leida Smitherman is on the sick list this week.

Mr. and Mrs. O. F. Davenport, Jr., and Linda of Montgomery, visited his parents, Mr. and Mrs. O. F. Davenport, Sr., over the week end.

Mr. and Mrs. Braxton Lecroy and Bobby, visited his parents, Mr. and Mrs. T. L. Lecroy, here for the week end.

## Cummings Reunion

On Sunday, November 10th, at the home of Mrs. Ethel Cummings. Most of her children gathered in a homecoming in honor of her sons, Casey Robert and Judson, and her daughter, Lona, who have been in the U.S.A. and all have their discharge and are at home here, except Lona, who is married and lives in a Northern State.

All enjoyed talking and being together in the morning. At 12 noon the table was spread with delicious food, with a centerpiece of fruit, with three cakes with welcome written on them, decorated the table besides the

## Isabella Edges Out Maplesville 2 to 0

The underdog bit back at Maplesville last Friday when Isabella crept over a favored Maplesville eleven by a score of two to 0.

The game, the first lost by Maplesville on their home field in several years, was closely fought all the way with the losers holding the statistical lead in every category except the actual score.

Maplesville threatened early in the first period but Isabella refused to give way. During the second and third quarters both teams played heads-up defensive football and no serious threats were made.

Not many minutes had elapsed in the final period when a long return on a blocked Maplesville punt, two short line bucks and a half-way to the goal penalty against Maplesville for molesting the ball between downs put Isabella two yards from pay dirt. The black and gold clad team rushed the pigskin over but fumbled it in the end-zone. Maplesville recovered it a touchback and giving Isabella that all-important two point lead.

In the closing moments of the game Maplesville took to the air with Walter Martin doing the heaving.

delicious food brought in by different members of the family.

All members of the family were present except two daughters—Lona and Quilla—and one son, Lloyd, and their families. All who were present enjoyed the day being together talking and making pictures.

Martin completed three (the third being ruled complete, because of interference with the receiver) for a gain of fifty-six yards. After a fourth completion for eleven yards Isabella took the ball on an interception and hung onto it till the end of the game.

For the record, Maplesville completed eight out of eighteen forward passes for a total of 92 yards, made nine first down and one hundred eight yards net rushing from scrimmage, while Isabella completed three out of

## Ed Carey Invents a Weed Killer

Ed Carey invented a new way to kill weeds... a special, homemade chemical you spray around the garden, so you don't have to grub around between the plants.

First and only time he tried it. It was death to weeds all right. Only thing is that it killed the plants, too!

Guess that's the way with all these well-intentioned schemes to end our troubles and correct the quirks of nature. Like Prohibition as a means of ending the abuse of drinking. Almost every body knows

—from past experience, or from looking at "dry" counties—that Prohibition kills respect for law and order, and substitutes the greater evils of gangsterism, hip-flask drinking, juvenile delinquency, and poisoned "hooch."

From where I sit, the only sensible thing is to do our weeding the old-fashioned way—like the brewers are doing with Self-Regulation. Watch out for abuses—but don't kill the plants!

## County Teachers Attend State Delta Kappa Meeting

Four Chilton County teachers attended the Annual State Convention of Delta Kappa Gamma Society at the Thomas Jefferson Hotel, Birmingham, on November 3. These teachers were Mrs. Edna Kinney, local president, Clanton; Misses Mary Clements and Charliette Nichols of Jemison; and Mrs. Luther E. Little, program chairman, Clanton.

The convention program was based

Auburn, Ala., over the week end.

Mr. and Mrs. William Gay (Bill) have moved to Plantersville, Ala. They have rented the house owned by Mrs. Rubie Mae Bjorck, recently vacated by the Sam Cox family.

Miss Mildred O'Neal came down from Washington, D. C., to be with her father, W. M. D. O'Neal, on his birthday.

Mrs. Charles Gay remains in a Selma Hospital. Mrs. Gay is improving and we're wishing her a speedy recovery.

on building teacher spirit and included addresses from Dean Agnes Ellen Harris, University and Dr. Loraine Pierson, Alabama College.

Current programs for the Chilton County Chapter are centered on "Improvement of the Teacher's Personality." At the last meeting Mrs. Bradley of Clanton discussed the teacher's role in the social and civil life of the community. She contrasted the early and modern attitudes toward teachers as part of their community and urged teachers to take part in worthwhile social and civic affairs.

"This is no time for slackening our fight for the teaching profession as such", stated Mrs. Bradley.

At the October meeting, Mrs. Edna Kinney led a discussion based on definite ways to improve personality. She stressed reactions to the religious, the moral, and the social part of every person and asked teachers to make the most of their character, intelligence, and appearance. In conclusion, Mrs. Kinney insisted that teachers set high standards for themselves and "become worthy of the task of teaching", through service to others.

## WAY IS EXPLAINED TO STOP TERMITES

You can stop those termites!

The first step is to make sure no timber in the building touches the ground. Use concrete, brick, or rock foundations. Have the building high enough off the ground to allow for circulation and light under the structure.

Next, API extension entomologists say to dig a trench six inches deep along the inside of the foundation.

Fill this with a 10 per cent solution of sodium arsenite (one pound of sodium arsenite mixed in one gallon of water. This will control termites for about two years.

Sodium arsenite is very poisonous and also dangerous if it gets near the eyes. It will kill plants when used within three feet of them.

Private Fred L. Honeycutt, Route 1, Thorshy, Ala., was given final discharge from military service from the Fort Sill Separation Station October 31.

The Alabama College Radio workshop will present a drama, "The Quality of Mercy," on Tuesday evening, November 12. This program will be heard over WAPI, Birmingham, and WHTB, Talladega, from 9:30 to 9:30 p.m. The cast included four veterans: R. E. Williams, Calera; Roy Parker, Calera; Collier Whitehead, Gadsden; and Marvin McCain, Cedartown, Ga. Others in the cast are Glenn McCain, Calera; Virginia Rice, Anniston; and Marianna Parsons, Talladega.

**How women and girls may get wanted relief from functional periodic pain**

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1. Taken like a tonic, it stimulates appetite, aids digestion, "lax" the bowels and relieves the "dumb" pains.

2. Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. It is helpful, you'll be glad you did.

## MT PISGAH MAN KILLED MONDAY IN ACCIDENT

Elton Lee Jones Is  
Crushed Beneath  
Loaded Truck

Elton Lee Jones, age 20, of Clanton Route 3, near Mt. Pisgah, was killed Monday afternoon about 3:30 at the home of his father, Mr. Wiley W. Jones, when he was run over by a truck driven by Mr. Ruff Gandy.

According to the Sheriff's office Elton Lee and Gandy were loading cottonseed meal onto Gandy's truck. When the truck had been loaded, Jones started walking off in front of the truck. Gandy, it was reported, stepped up the truck and had driven only a few feet when he hit Jones, crushing his body beneath the truck. Jones was loaded into a truck and died before they could reach the hospital.

Funeral services were held Tuesday at 2:00 p.m. at Mt. Pisgah, conducted by Rev. C. F. Barrett and J. R. Greenwood.

Young Jones is survived by his wife and one son, Cleveland; parents, Mr. and Mrs. Wiley W. Jones, of Clanton Route 3; five brothers—J. W. Jones of California, Clyde, Elijah, John and James, all of Clanton; four sisters—Louise, Willodean, Lillie Mae, Dorothy Pearl and grandfather, Mr. John Cleckler of Clanton.

Palbearers were: Jimmy Jones, Auklee Baker, M. S. Smithman, Eulas Headley, Odie Headley and Sam Smithman.

Flower girls were: Miss Merrill Jones, Miss Ruth Smithman, Mrs. Nell Smithman, Miss Lucille Headley, Mrs. Dollie Mae Cleckler and Miss Ollie Mae Headley.

Spigener Funeral Home in charge.

## TO PREACH AT PRESBYTERIAN CHURCH

Rev. J. R. McMahon will preach at the Presbyterian Church Sunday night, November 24th, at 7:30. Everyone is invited to attend.

## TIGER GRILL TO OPEN SATURDAY

Clanton's newest eating establishment, the Tiger Grill, located on the Maplesville Highway across from the old CCC Camp, will formally open Saturday, November 23rd. The Tiger Grill, managed by Messrs. Cecil "Clint" Jones and Horace Rutherford, will offer Clanton its only Curb Service cafe. It is also catering to the high school or younger set. They will serve plate lunches, sandwiches of all kinds, barbecue, etc. A swanky inside to the Tiger Grill has been modeled. For more about their place see their ad elsewhere in the News, or better still, pay this new place of business a visit.

## NOTICE

## Crippled Children's Drive Underway Now

I. S. "Dock" Levine, chairman of the Crippled Children's Clinic, announces that the Crippled Children's Drive for funds is now underway in Chilton County. Mr. Levine says the county is being asked for only \$1,500 this year. This is compared with some \$4,000.00 put up by the State to aid Chilton's 400-odd crippled children who need aid. If you wish to make a contribution, mail it to Mr. Joe Campbell, Clanton or Mr. Levine.

## MRS. WILKINS TAKES OVER BUS STATION CAFE

Mrs. B. E. Wilkins, well-known Clanton Cafe Proprietress, announces that she has leased the Bus Station Restaurant from the new owner, "Red" Fulmer, and will now serve three meals a day, plus a variety of sandwiches, etc. She also says that on week ends she will serve chicken in the back. Mrs. Wilkins says that she will see to it that her customers always get hot meals and will serve breakfast, dinners and suppers.

See Mrs. Wilkins' advertisement elsewhere in the News.

## FUTURE HOMEMAKERS OF AMERICA

The F.H.A. held its first program meeting in the library of Chilton County High School October 22, 1946. The theme of the year for the programs of the Clanton chapter is "Vocations for Women." The modern theatre is the topic in this month. Ethel Barrymore and her family was the review for the October meeting. This program was ably handled by Doris Robinson.

Plans for a joint meeting with the F.F.A. boys have been made. This meeting will be on November 22nd. The chapter members are looking forward to this meeting as it means a good time for all. — Frances Collins, Reporter.

## Community Meeting In Mt. Pleasant Com.

All farmers and their wives of the Mt. Pleasant Community are urged to be at Mt. Pleasant School Thursday night, at 6:30, if weather permits.

Mr. Adair will speak to us on the United Nations. The Clanton F.F.A. Quartet will sing a few numbers and we will conclude our program with a film entitled, "Power and the Land." We have had a nice crowd at our meetings so far, but let us make this a record meeting. — J. Reed Thompson.

## JEMISON CHAPTER F.F.A.

The Jemison Chapters of F.F.A. and F.H.A. held a joint social at the High School Auditorium Wednesday night November 13.

The party began by playing several games which everyone enjoyed. After the games the refreshments were served. Everyone reported to have had a very good time. — Dane Lowery, Reporter.

## PEOPLE URGED TO GET BLOOD TEST THIS WEEK

Over Seven Thousand  
Persons Already  
Tested In County

The county health officer, Dr. E. M. Moore, announces that while the turn-out for the first few days of the syphilis blood-testing campaign was considered somewhat slow, there has been steady improvement in the response of the public to this survey. A total of 7,544 persons had the test through Monday, November 18 the sixth day of the blood taking. Dr. Moore states, however, that this figure is still shy of this county's potential for the six days, and again wishes to remind the public of the requirements of the law, and of the great value of this campaign to the people of Chilton County and to the state as a whole.

Dr. W. H. L. Smith, Director of Venereal Disease Control in Alabama, was in Clanton on Monday, and while he expressed general satisfaction with the progress made thus far, he said the number of persons responding to date was still short of the previously determined figures.

Dr. Moore stated that he was aware of the fact that many persons outside the county and that their working hours were such that they will be unable to take the test during the regular schedule which comes to a close on Friday, November 22. To accommodate these people and any others who have found it an undue hardship to have the test during the regular period, a blood testing team will be on hand at the courthouse court room all day Saturday, November 23rd, from 2:00 to 4:30 p.m. Colored people will be tested.

Dr. Moore urges all persons who have not had the test so far, to do their part in the campaign and have their test before the program closes.

## Cooper Child Remains In Hospital; Improved

Hospital personnel at the Central Alabama Hospital stated Wednesday morning that William Cooper, age 10, was still unconscious, but improved. Young Cooper was struck by an automobile in South Clanton on Sunday afternoon, November 10.

It was reported that a group of children started across the highway just below Bowden's Service Station. All of the children stopped but Cooper who stepped in front of a speeding car driven by Flem Edward Gordon, a negro of Montgomery. The negro was placed in jail charged with reckless driving pending the outcome of the condition of the child.

## Farmers To Elect County And Community Comm.

Chilton County farmers will elect County and Community Committees according to a report from Watson Jones, Chairman of the Chilton County A.C.A. The week of December 2 through 9, 1946, has been designated as the time for the election to be held. Fifty-five (\$5) farmers will be elected during this period. They will take office January 1, 1947.

The 1947 program is based on what the farmers want more than any program prior to this time. County and Community Committees represent farmers by recommending a needed program, in determining allotments and otherwise administering program provisions. The committees, in addition to the above, will be responsible for the funds available to the county for meeting conservation needs.

Mr. Jones urges more participation so that the best farmers and farmers who have the confidence of the majority of farmers be elected. He further states that it is up to the farmers to make sure that the men elected are the men they think can do the best job.

Elections will be held in each community by the local community committees. Time and place will be announced in the near future.

Mr. L. A. Lambert left Tuesday for a business trip to Evansville, Ind.

## 35 Chilton Students Enrolled At Auburn

Final tabulation reveals that 35 residents of Chilton County are enrolled at Auburn for the Fall Quarter. This number includes 32 men, 26 of whom are veterans and 3 women.

Students from Chilton County who enrolled after pre-registration are: Robert H. Brown, junior in agricultural science from Maplesville; Robert G. Davis, freshman in agricultural science from Stanton; William L. E. Edwards, freshman in science and literature from Clanton.

William Thomas Callen, sophomore in pre-medicine from Clanton; James D. Heflin, sophomore in business administration, and Jesse A. Culp, sophomore in agricultural education, both of Clanton.

## CHILTON ASSOCIATION YOUNG PEOPLES' RALLY TO MEET AT THORSBY NOV. 24

The Chilton Association Young Peoples' Rally will meet with Thorsby Baptist Church on Sunday, November 24, 1946, at 2:00 p.m. The program is as follows:

Theme: "Chains That Bind A Broken World."  
Opening hymn.  
Prayer.  
Devotional by Mattie Lou Bearden.  
Report on RA Camp by Billie Reid.  
Hymn — "The Morning Light Is Breaking."  
"China," by Ida Mae Wilkins.  
"Africa," by Willie Gene Gray.  
"South America," by Lois Haun.  
"Japan," by Mary Nell Williams.  
"Europe," by Katie Dean Wright.  
"Holland," by Louise Wright.  
A special speaker.  
We ask that all churches in the Association be represented.

## Percy Minor Dies Of Sudden Illness

Percy S. Minor, age 41, died at his home Saturday, November 16, at 5:30 p.m. Funeral services were held at Clanton Baptist Church Sunday at 2:00 p.m., conducted by Rev. Roswell Owens and Rev. Jones.

Active pallbearers were: Walker Allen, Dewey Rock, Jimmy Morgan, Walter Vinson, Ray Downs, Billy Griffin.

Honorary pallbearers were: Prof. Patterson Hicks's Sunday School Class of the Baptist Church.  
He is survived by his wife, Mrs. M. L. Minor, and two sons, James Minor, both of Clanton; mother, Mrs. Nora Devaughn Minor of near Coopers; two brothers, A. D. of Birmingham, and Morris of Decatur; one sister, Mrs. Roy (Pearl) Downs of Clanton and Birmingham.

## Tigers End Season By Defeating Elmore Eleven 26 to 0

The Chilton County High School football team ended their 1946 season last Friday night here when they defeated Wetumpka's Indians 26 to 0. Clanton won six games out of nine played this year, losing to Centreville, Hurt and Lanier. They defeated Holt, Shelby County High, Siluria, Montevallo, Holtville, Wetumpka.

## LITTLE MYRA NELL HINES

Little Myra Nell Hines, age 2, daughter of Mr. and Mrs. John J. Hines, of Verbena, died November 17 at her home. Funeral services were held Monday.

She is survived by her mother and father; three brothers—J. D. Jeart Dean, and Willie Dean; two sisters Mary Estelle and Mary Nell; grandparents, Mr. and Mrs. O. F. Patrick of Montgomery, and Mr. R. H. Hines of Verbena.

## NOTICE

The Maplesville Masonic Lodge No. 706, meets the second and fourth Tuesday nights. Please send bill each month until further notice.

Yours very truly,  
J. B. HICKS, Sec.

## CLANTON F.F.A. ON RADIO

The Clanton Future Farmers Chapter will put on a thirty-minute radio program over WSGN Saturday, November 23, at 12:00.

This program was organized and will be put on by Chilton County boys. Everyone is urged to tune in on WSGN Saturday and hear this local talent.—Russell Williams, Reporter.

## Big Jersey Cattle Show To Be Held In Clanton Friday

## EPISCOPALIANS TO HEAR BISHOP CARPENTER DEC. 1

The right Reverend Charles C. J. Carpenter, Bishop of the Diocese of Alabama, will celebrate the Holy Communion and deliver a message for members of the Episcopal Church on December 1st. This meeting will be in the Presbyterian Church at 4 o'clock on that day.

All people interested are cordially invited to attend.

## Basketball Season Opens Here Friday

The Clanton Independent Basketball team, composed of local players will open the season here Friday night at the High School Gym when they play the Basketkaters from Collins Chapel.

The Independent team boasts a strong team this year, composed of the following basketball stars: "Punk" Johnson, "Buck" Daniels, centers; Snowey Melfon, Kermit "Beef" Jones, Billy Parrish, Coggins and Littlejohn, forwards; J. W. Johnson, Doc Baker, Deason and Mimi, guards.

The Collins Chapel Basketkaters is made up of a group of outstanding players from that section of the county. Their line-up includes: Cecil Jackson, Lloyd Williams, Matt Hilyer, Euell Hilyer, Willie Smith, Charles Rutherford, Stoney Jackson and Roy Blankenship.

Friday night's game will start promptly at 7:30 p.m.

## CLANTON CANNERY OPEN

The Chilton County High School Canning Plant will be open on Wednesdays by appointment for the purpose of rendering lard, grinding and stuffing sausage and canning sweet potatoes.

As many of the sweet potatoes over the county are running due to dry rot, it might be a wise idea to can a few so that you may have some potatoes next year.

Each patron is urged to bring along sufficient help, as the canning plant is here for you to use and not for us to use for you.

The cost for the use of the plant is as follows: Grinding sausage 2c per pound, grinding and stuffing sausage 2 1/2c per pound, rendering lard 3c per pound of raw fat, canning 6 & 7c for pint can and 8 & 9c for quart can.

## CITY IS PROUD POSSESSOR OF MODERN HOTEL

## Hotel Willingham To Have Formal Opening Sunday

The Hotel Willingham, formerly Thomaston Hotel, will have its formal opening next Sunday November 23.

The new hotel is being operated by Mr. G. O. Willingham, of Montgomery, who has many years experience in this line and promises to give Clanton and Chilton County the best hotel service in Central Alabama.

A complete remodeling job has been done on the building and new equipment bought throughout. Its more than forty rooms have been refurnished with new fixtures and all floors and woodwork have been redone. The lobby is furnished expensively and has been arranged to give a comfortable and delightful atmosphere to the customers.

As yet Mr. Willingham has not completed arrangements to open the Coffee Shop. This will be done in time and announcements will be made later as to the opening date.

You are cordially invited to attend the opening of this new, modern hotel next Sunday.

## GOLDEN RIVER BOYS AT STANTON THURSDAY

"Happy" Wilson and his Golden River boys will be at the Stanton Junior High School tonight for a basketball game at Thomas Junior High school. The program is being sponsored by the school. Everyone has an invitation to attend.

## Jersey Breeders From All Over County To Compete For Honors

Plans for the Chilton County Purebred Jersey Show are being completed and owners who are entering animals are looking forward to the coming show, Friday, November 22. All animals will be unloaded at the chute at the High School ball ground in time for the owners to give them a final grooming before judging starts at 10:00 a.m.

The best Jerseys in Chilton County will be exhibited at this show. This event should be of interest to every person in Chilton County who is interested in good dairy animals. Chilton County bulls representing some of the best breeding in the State will be exhibited. Owners of purchased females who plan to continue purebred breeding are urged to see and compare the merits of these animals.

Club members who have purchased Jersey heifers are very enthusiastic over being able to show their animals and compare them with other club members. By assembling these animals for the first time since they were brought in will give every club boy an opportunity to see how good a job he has been able to do with his animal.

Members of the Jersey Cattle Club feel that the time anyone spends in attending the show will be well spent. Jersey breeders feel that poor management and early breeding account for a great deal of the criticism given the Jersey breed. At the show visitors will be able to see the results of proper breeding and management in producing the ideal type Jersey cow.

Breeders and club members from all over the county will compete for show honors and awards. Below are listed the names of owners who are entering from one to four animals.

## COTTON GINNING REPORT

Census report shows that 5,262 bales of cotton were ginned in Chilton County from the crop of 1946 prior to October 1, as compared with 8,082 bales for the crop of 1945.

## CECIL MCKEE CROWS NINE-LB. TATERS

When it comes to growing "taters," Cecil McKee of Stanton is some sort of a champion "tater" grower. Cecil was recently displaying four sweet potatoes (Puerto Rica) that weighed a fraction under 2 1/2 lbs. The larger one weighed 9 1/4 lbs.

## VERMONT TO PLAY THOMAS JUNIOR TEAM

The Vermont basketball team will play Thomas Junior High in a basketball game at Thomas Junior High school afternooon. Everyone has an invitation to see these boys in action.

## DON'T FAIL THEM

Santa Claus is heading this way if the holiday array in the stores is the advance notice. Cards and wrappings have been on sale for some time, probably to give those who are mailing boxes to soldiers on duty overseas, ample opportunity to get the gifts mailed in time. To men in the Army, on foreign duty, the deadline for Christmas boxes was November 15. Spending Christmas overseas is difficult enough without having to miss the gift box because someone delayed shopping. We want everybody in occupation abroad to have a happy holiday. Christmas away from home makes every man sad in his heart. We hope you remembered to send that box overseas.

## NOVEMBER DAYS

Snuggling in for winter, November sees man banking the house, the shrubbery, covering the strawberry bed, mulching around fruit trees, wrapping climbing roses, cleaning roof gutters and drains. In the garden remain a few flowers of late summer and even a dandelion reminds one that there is May to come. The red berries and greening winter wheat touch the landscape with paint and the walnut fruit lies buried in the grass. Rustling leaves of oaks and maples fall all too soon. The squirrels, chickadees and man vie with each other in activity. There is a sureness about November days, a pace set for our preservation against winter, but it will relax its pressure when November chores are over. This is the month that offers Chilton County humans, long thoughts worked into its pattern of body's toil.

## CHURCHES AT WORK

Workable Christianity is evidenced by the 10,698,599 pounds of goods sent abroad by the American Protestant Churches. To relieve suffering, help the needy, these provisions worth over \$4 million, covers a year, ending this past September. All races and creeds benefitted and many foreign families have written to express their gratitude to the churches for this help. They hope, these Protestant Churches, to increase this amount this next twelve months, with UNRRA passing out of existence in December. But it is not just one group of churches that has given financial help. Practically every denomination has followed their teachings of brotherhood.

## THE SAME THANKSGIVING

It has long been a matter of pride with Americans that theirs was a land of plenty. Bidding friends and relatives to the Thanksgiving dinner was a way of celebrating earth's generosity. The old-fashioned feast was heralded by laborious preparations weeks in advance, making ready for the holiday's groaning board.

Outside fall winds and rain lashed the shutters and beat the whirling leaves into a sodden heap while inside the kitchen activity with its accompanying delicious odors made man grateful for his home and to the Pilgrim Fathers for initiation of the yearly custom. Who can forget the chopping and grinding that produced mincemeat, the mingling smell of raisins and currants, apples and spices that, added to the ground beef in the big wooden bowl, brought forth a pie unsurpassed in any land?

Finally Thanksgiving arrived with the household in a flurry of activity, visiting womenfolk bustling about in starched aprons to help with the last minute details. The table long with its extra leaves, embraced the smooth, snowy cloth and welcomed every piece of company china and silver. Relish dishes, the silver caster, stalks of celery standing upright in tall cut glass, dishes of pickles and molded jellies, golden butter and cranberry sauce, crowded the centerpiece of fruit or fall flowers. In steaming glory reposed the fat browned turkey oozing chestnut dressing and bring forth acclaim from a hungry assembly. Mountains of mashed potatoes, squash and candied sweet potatoes made color, boats of giblet gravy and a green vegetable to augment the already full menu. Appetizers and fancy salads took second place. Soup was surplus food. Delicious, savory Thanksgiving dinner midst those we loved. And always with the memory of the feast comes the recollection of the prayer that preceded it. Sincere and grateful words, uttered before the supplicants of the Lord's harvest.

Thanksgiving comes to us this year with its grace before meat. Notwithstanding present lacks Chilton County has abundant reason to give profound thanks. Today as in those yesterdays, we are favored by the beneficence of nature and the blessings of a benign providence.

A two-year-old catches a 2-pound fish with her hands while some men in Clanton can't do as well with a \$20 rod.

Helping others seems to be embodied in the Thanksgiving prayer of gratefulness for oneself.

It used to be that one could usually find at least two optimists to every pessimist.

## FOLK & THINGS

### ABOUT TOWN

-By BEN

### MORAL ECHOES

Rev. D. W. Haskew, D.D.

Ten thousand years is a long, long time  
To wait for a dream to come true.  
But 'twill seem but a day  
Dreaming centuries away,  
To wake at the end with you.  
And I know just as sure,  
As our soul endures,  
We'll meet some day, somehow.  
And I'll wake to your song  
With a love just as strong;  
Ten thousand years from now.

The other day about noon we were going home to lunch when we passed the Clanton Service Station. Dr. C. G. Lawrence was parked in front of the station and was out looking under the hood of his car with his flash light. We just wondered if he was getting ready to give his new car a tonicleotomy.

The Chilton County High School Tigers sure ended their season in a blaze of glory last Friday night. "Blacky" Cox and George Jr. McCain, along with all the other "Tigers" surely played a wonderful brand of football. It was the kind of football that warms the heart of the local fan, but the visiting "rooters" it turned them sick to their "stomach".

And at the football dance last Friday night at the High School Auditorium: We saw Melba Studdard, daughter of the Ben Studdards, home from the University for the week end having a wonderful time. . . Barbara and Bill Burnett, a couple of "aces" if we ever saw them, popular as ever. . . Grady Heflin, Jr., really a chip off the old block, but getting much bigger than the block. . . Miss Weson having more fun. She is proof positive that teachers ARE human. . . Our sweet little Sally Gowan, she stood up one day, dancing with a nice lookin' "toe-head". . . Lotta old married folks dancing too. . . Buddy Wade can't dance but he sure can play football. . . All the little Wade girls are cute as pie. . . And the Misses Caster all looking sweet. . . that Thomas Kennedy, visiting, stayed one year for C.C.H.S., remember? . . . By-the-way, who is that new Jeweler? As if we didn't know. That boy gets around. . . the well known Britt Giles taking care that the R. C. playing. . . and a bunch of the old-grads: Lois Rockett, Burnice Foshee, Ruth Jones, John Morgan Foshee, Charles Culp Charles Patterson, George Engle, Dan Alfred, Francis Speaks and Wilbur Prince. . . Britt's little brother, Jimmie, doing alright. . . The Lawrence boy, quite a "shiek," name of Richard. . . Red Smith, who drives the new green auto, steering this and that young lady around. . . Bobby Vinson had a wreck or sumpin'. . . Helen looks mighty nice tonight. We're talking about Helen Stroud. . . and we believe Colleen is being rushed. . . all the young'uns look mighty happy, there's Jean Messer, Evelyn West Tommy Holland, Etta Jo Mims, Evelyn Lowe, Barbara Hayes, Edwina Williamson. . . and just gobs of others. Gosh, must be wonderful to be young. We were young once.

The untimely death of our friend Percy Minor, saddens us. We were not an intimate friend of Percy, but we were a good friend and we shall miss the friendly good mornings that we exchanged each day as we went about our work. To Mrs. Minor we offer our sympathy and regret and have only to say, "We're sorry." When we think of Percy we think of the poem by one of our favorite authors. Percy was not an aggressive type, but he made friends and when he made a friend he kept him always.

The poem:  
Ain't it fine when things are going  
Topsy turvy and askew  
To discover someone sharing  
Good old-fashioned faith in you?  
Ain't it good when life seems dreary  
And your hopes about to end  
Just to feel the hand-clasp cheery  
Of a fine old loyal friend?  
Gosh! One fellow to another  
Means a lot from day to day  
Seems we're livin' for each other  
In a friendly sort of way.  
When a smile or cheerful greeting  
Means so much to fellows sore  
Seems we ought to keep repeating  
Smiles and praises more and more

### PLACE CHICK ORDERS

It's time to begin thinking about your poultry program for next year, say API extension poultrymen. Decide on the number of chicks you are going to buy and place orders with hatcheries now.

### CLEAN LOTS — BETTER PIGS

Clean farrowing lots are important in getting pigs off to a good start free of worms, says W. H. Gregory, API extension livestock specialist. About 1/4 to 1/2 acre is needed for each sow. The farrowing lots should provide grazing.

If you want to substitute sweet milk and baking powder in place of sour milk and soda in cooking, use four times as much baking powder as soda.

Sprouted potatoes may be eaten if they are peeled. The sprouts should never be eaten.

and more money. Some day they are going to die, and a pile of human bones will be all there is left by the side of their wealth.

If you want to know what greed will do for you, just read the Bible story of Ahab and Jezebel as they covet Naboth's vineyard and go the limit to possess it. A money-mad man will shove a pistol to your back and take what you have. He will corner markets and thwart government that he may take from others. He will enslave workmen and take advantage of the ignorant and the hungry that he may add to his holdings. There are money-mad breweries, making themselves fat at the expense of homes, virtue and human life, the sin of greed, covetousness is on top today.

When sweet potatoes are to be used in vegetable dishes or desserts, they should always be cooked with their skins on to save vitamins and minerals.

**AIDED BY MACHINES,  
FARMERS BUILD SOIL.**

Farmers who fell behind in building their soil during war years are getting back to the job in a big way.

Terracing, draining and clearing bottom lands, and use of phosphate and lime are increasing in every section of the state. Machinery is helping to get these jobs done quicker and cheaper.

J. B. Wilson, API extension agricultural engineer, believes that as more heavy machines and trucks become available farmer-associations and individual contractors will use these to step up the soil building program.

Crawler-type tractors for terracing and trucks for spreading lime and phosphate will save farmers money and be profitable to machinery operators, he believes.

SCARBROUGH - THOMPSON

Mr. and Mrs. J. W. Scarbrough 327 Redstone Park, Huntsville, Ala. announce the engagement of their daughter, Miss Betty Jo Scarbrough to Mr. Lee Thompson, of Huntsville. The wedding is to take place at preacher Bradum's home November 22nd.

The couple will make their home in Huntsville after a wedding trip to Chicago. Mr. Thompson is to be discharged from the Army the day of the wedding. Miss Scarbrough is a former resident of Clanton, Ala. She attended Chilton County High School before moving to Huntsville, Ala.

A strong endorsement of incoming Governor Jim Folsom's program for schools, old age pensions, and hard-surfaced roads and abolition of the poll tax was made by the state convention of the Alabama Farmers' Union here last week.

Aubrey Williams, publisher of the Southern Farmer, Montgomery, was elected president of the organization; J. B. Morton, Horton, vice president, and Orville Mastin, Clanton, secretary-treasurer.

Resolutions passed at the convention put the organization on record:

(1) Abolition of the poll tax.  
(2) Re-apportionment of the Legislature.

(3) A health program which would include physical examination, construction of hospitals and cooperative clinics.

(4) A \$40 per month old age pension with no "pauper requirement" to qualify.

(5) An increase in teachers' salaries and employment of teachers on a 12-month basis.

(6) A farm program to include homestead exemption, cooperative marketing, and processing of farm produce; low interest rate loans to tenants; support of Production Credit Corporation.

"Gambling in farm produce by Boards of Trade, Cotton Exchanges, and other speculators" was condemned.

Speculators were blamed for the drastic drop in cotton prices.

(7) Fair wage and Social Security program were approved and a labor policy which would insure fair collective bargaining.

In accepting his election, Williams said that he would lend every effort to making the Farmers' Union a vigorous champion of the working farmer. He said there was a need for an organization which would help the working farmer in all farm policies and programs from the community level on to Washington.

## SAVE SEED SUGAR CANE

Farmers in the lower two-thirds of the State who grow C. O. 290, C. P. 29-116, and C. P. 807 varieties of sugar cane should save seed stalks for planting and sale. Cut when plants are well matured but do not strip off blades. Put stalks in layers two feet deep and seven feet wide, and as long as desired use a turn-plow to throw dirt over edges of the layers, and put six inches of dirt on top of stalks.

TURKEY, FIXIN'S IN GOODLY  
SUPPLY FOR THANKSGIVING

There should be plenty of drumsticks and fixin's to go around on Thanksgiving, despite the heavy demand for poultry and turkey caused by the meat shortage earlier this fall, a survey by the nation's leading food distributor discloses.

Reduced military demands have more than offset the slight drop in this year's production as compared with the 1945 record figures, the report by A. & P. Food Stores points out, with the result that there will be at least as much if not more available for consumers. Heavy cold storage holdings add to the encouraging picture.

This year's turkey crop is placed by the U. S. Department of Agriculture at slightly in excess of 600,000,000 pounds, while the 1945 figure was the record 677,000,000 pounds. The 1946 poultry production is estimated at approximately 3,200,000,000 pounds compared with 3,700,000,000 pounds last year. Poultry in storage at this time is estimated at 230,000,000 pounds compared with 134,000,000 pounds in the same 1945 period, while holdings of turkey are three times greater than last year.

As for the fixin's, the 1946 potato crop is expected to hit an all-time high of 475,000,000 bushels; cranberry production is now estimated at more than 800,000 barrels compared with 656,000 barrels in 1945 and a 10-year average of 624,000; and onion production may soar to 37,500,000 fifty-pound sacks, two million more than the previous high set in 1944.

The heavy cranberry producing state of Massachusetts estimates its crop this year at 575,000 barrels, which is 14 per cent higher than 1945 and 33 per cent larger than average. Wisconsin production is expected to total 140,000 barrels, and New Jersey, third producing state, is placed at 90,000 barrels.

Celery, winter squash, nuts, grapes, pumpkin and apples are available in good supply, while the heavy wheat crop assures an ample supply of bread for dressing.

BETTER FLOCK CARE FILLS  
EGG BASKETS

Hens don't need pampering, but a little more care this winter will mean a lot more eggs.

Here's how John Ivey, API extension poultryman, says to put more eggs in the baskets:

1. For the flock have a house closed on three sides and open to the south. Hens need plenty of fresh air, but drafts cause colds.

2. Keep mash in hoppers all the time; feed wet mash at noon; in mid-afternoon feed 10-14 pounds of grain to each 100 hens.

3. Confine hens in the house until noon and then turn them on green grazing crops. If hens stay in the house at all times, cut green feed for them.

4. Keep plenty of clean, fresh water before the flock.

Salad dressing should be added to salads at the last minute before they are served. Most dressings have a tendency to cause fresh fruits and vegetables to lose crispness. It is smart to serve dressing at the table.

Hens on ready made dresses are usually sewed very loosely. It pays to rehem with secure stitches before wearing a "store bought" dress in most cases.

The amount of money paid out to furnish you with telephone service is increasing faster than the amount taken in. That's be-

cause telephone materials, wages, services, and new building costs have gone up tremendously, while telephone rates have remained as low or lower than they were many years ago. Telephone earnings are not only the lowest in history, but are dangerously low despite a record volume of business. Reasonable earnings are required to safeguard the full usefulness of the telephone for you and your community.

## Enforcement Continues On Pre-Decontrol Violations

"Even though most price controls were eliminated by President Truman's sweeping decontrol order, violations committed before the end of controls are still considered as such, and enforcement actions against those offenders will continue," OPA District Director Sam J. Watkins said recently.

Investigations of complaints that were underway at the time of the general decontrol order will be continued, and cases already in court will be "prosecuted to the limit," he explained.

"We are also carrying on without a break our enforcement of the Veterans Emergency Housing Program," Watkins said, adding that enforcement of several provisions of the housing program had been expressly delegated to OPA by Housing Expediter Wilson Wyatt.

"This essential program is continued in full force, and it is OPA's job to see that priority-built homes are available to veterans within the ceiling prices authorized," the Director explained, stating that any complaints of veterans' being "gypped" on new home sales should be reported immediately to Area Rent Control Offices.

Businessmen in Alabama whose prices were formerly under government control must retain their records for one year after the date on which that commodity or field was decontrolled, Price Executive B. B. Burton announced recently.

## Younger Set Enjoy Dances At City Hall

Here is a group of the Teen-Agers enjoying a dance at the City Hall, sponsored by the parents and financed by some of the Clanton businessmen.

Cooked celery adds a distinctive flavor to your meals. The tough outer stalks of the bunch can be nicely utilized by baking in a casserole.

If you do not have drying forms trace outlines of knitted garments such as dresses or sweaters on heavy brown paper before washing them. They may then be stretched to proper size while wet.

When you find that you have too much salt in your soup stock, the flavor may be improved by dropping a few slices of raw potato in the soup. The potato will absorb some of the excess salt. Of course, the potato should be removed before the soup is served.

## NOTICE

The Lowery Beauty Shop will remain open all day Wednesdays after this week.

Records of prices paid and received, invoices, bills of lading and other pertinent information concerning prices previously required by OPA orders must be kept available "for the businessman's own protection as well as for possible use by OPA," Burton stated.

# UNEMPLOYMENT BENEFITS IN CHILTON SHOWS SLIGHT DROP IN OCTOBER

Expenditures to Chilton County's unemployed last month and in the preceding month were as follows:

To veterans in October — \$32,463.  
To veterans in September — \$32,587.  
To civilians in October — \$5,951.  
To civilians in September — \$5,923.

In the state as a whole, October payments to unemployed veterans were \$1,995,000, a decrease of 26 per cent from September. Average number on the rolls at any one time was 16,525, against 26,815 in September.

Enforcement of the "seek work" policy was largely responsible for the decrease. Mere registration at an employment office is no longer enough. Claimants must actively seek work with employers likely to need their services and skills.

While only 1,567 were actually disqualified for failure to seek work knowledge of the new policy is known to have induced many veterans to leave the payment load voluntarily.

Jobless civilians drew \$79,000 in October, a decline of two per cent from September. Average number on the rolls at any one time decreased from 10,211 to 9,707.

Self-employed veterans drew \$1,490,000 in October, a decrease of 27 per cent from September. Recipients dropped from 20,819 to 15,480.

## STATE ASKS AID TO VETS

The State of Alabama, through its Department of Veterans' Affairs, today called upon Alabama Industrialists to provide jobs for handicapped veterans. C. C. Horton, Director of the Department, today addressed letters to heads of Alabama industry asking them to conduct a survey of their particular plants to determine what jobs could be filled by persons of varying degrees of disabilities. The letter pointed out that thousands of veterans with disabilities are now being discharged from military and Veterans Administration Hospitals, having attained the maximum physical rehabilitation, and are returning to their home communities.

"Most of these physically handicapped veterans are in receipt of small pensions or compensation," Mr. Horton said, "and many of them, unless otherwise inspired, will simply adjust their living standards to the point where they can exist on the Federal pension and will live all worth as self-supporting and producing members of society. Most of them would, however, take advantage of the education and training provided by Federal legislation and fit themselves for jobs in industry, if places could be found for their talents, despite any existing physical handicap," he said.

No surveys have been made by industry generally. The letter called upon them to reveal the types and kinds of jobs which could be satisfactorily performed by persons possessing the various kinds of physical impairments, and some information is desperately needed by those who counsel and advise handicapped veterans.

The letter contained a request that the recipient conduct a survey in his own plant and that the results be made available to the Department of Veterans' Affairs, and, through them, to other interested agencies and persons.

So far as is known, this is the first attempt to analyze job opportunities for handicapped war veterans in the nation.

# Maplesville Eleven Wins Over Isabella 12-6 To Even Record

(By Wiley Clinebuts)

The Maplesville High grid eleven broke over a confident Isabella team last Friday at Isabella to carry off a thrilling contest by a decisive 12 to 6. This traditional clash, the last game of the season for both schools, was grimly fought out against a background of intense rivalry heightened to fever pitch. Maplesville, eager for revenge after a 2 to 0 defeat the previous Friday at the hands of Isabella, received the opening kickoff and set the game in motion with a series of hard running plays. Isabella hung on, however, and midway in the first period Isabella's fleet captain, Coy Rasherby, ran around his left end, got into the clear and was off to the races. He sprinted 51 yards to open the scoring. The extra point failed to materialize and Isabella led 6 to 0.

Late in the second quarter a long run on an intercepted Isabella pass by Maplesville left half Eddie Rudnick was the signal for Maplesville to open up. Walter Martin, Maplesville passing fullback, had unlimbered his air attack and was driving down field when the half ended.

The second half was even more exciting. Early in the third period Martin resumed his command of the air and with clever cooperation on the part of receivers, Harold Walker, quarterback and Ralph Glass, left end, pushed Isabella back to their 10 yard line. Here the black and golds dug in and held until the ball went over on downs. However, on Isabella's first play after taking over Glass stole the ball for Maplesville from Isabella quarterback Mooney. Martin then passed to Glass in the end zone tying the score at 6 and 6. The attempt to pass the extra point over failed.

Isabella took the kickoff and began to drive, but Coleman Smith, Maplesville team captain, took the ball on an interception on Isabella's 35 yard line as the quarter ended.

Maplesville, sparked by Martin, opened the final period with a bewildering running and passing fury that sent Isabella reeling back to their own 7 yard marker. From there in three sledgehammer lunges Martin went over giving Maplesville her 6-point lead. That was the game. Both teams fought steadily on to the final whistle but no additional threats of note were made.

Maplesville outlasted Isabella down the line as they completed 7 out of 12 forward passes for a total of 99 yards, made 149 yards net rushing from scrimmage and 10 first downs and averaged 40 yards on punts.

Isabella completed 2 out of 13 forward passes for a total of 17 yards, netted 61 yards rushing from scrimmage and 6 first downs and racked up a 24 yard punting average.

## STATE FARM PROGRAM HAS BEEN PUBLISHED

Alabama's agriculture made a forward step this week when the publication of a state farm program was completed.

Known as THE ALABAMA FARM PROGRAM, the bulletin is said to be the first of its kind developed by any state. It is based on many years of study, research, and education in agriculture. Leadership in writing it was supplied by the Experiment Station and the Extension Service of the Alabama Polytechnic Institute, thereby furnishing land-grant college service on a state-wide basis.

The group of farm and business people and professional agriculturists who released the initial copies said the purpose of the publication is to set forth the principles of a farm program as a guide for the further development of the agricultural resources of the state.

The program carries the endorsement of M. J. Funchess, director of research, and P. O. Davis, director of extension. J. L. Lawson, assistant director of extension, was chairman of the committee that developed it.

The publication also bears the endorsement of farm men and women representing each major soil area of the state and representatives of the Alabama State Chamber of Commerce, Alabama Farm Bureau Federation, Alabama Bankers Association and Alabama Department of Agriculture and Industries.

In an introductory statement the

publication said, "The Alabama Agricultural Program is based upon the

The 353 cases of poliomyelitis (infantile paralysis) reported from the entire State between the first of the year and October 12, inclusive, included none from Chilton County, the State Department of Health reports

fundamental principle that agriculture should be self-supporting. This means that agricultural production and the prices of farm products should be based on a level that will yield incomes to the farm people comparable to those received by the remainder of the population."

## Good News For Folks Who Suffer From

✓ STOMACH GAS  
✓ SOBBY FOOD TASTE  
✓ ACID INDIGESTION

Do you feel bloated and miserable after every meal, taste sour, bitter food? If so, sure is how you may get blessed relief from this nervous distress.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, overweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that 888 Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the 888 Tonic formula which contains special and potent activating ingredients.

Also, 888 Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red blood you should eat better, sleep better, feel better, work better, play better.

• Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is 888 Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people 888 Tonic has helped. Millions of bottles sold. Get a bottle of 888 Tonic from your drug store today. 888 Tonic helps Build Sturdy Health.

## Major Hunting Season To Open Here This Week

Bobwhite Quail, Deer and Turkey  
Campaigns Open Wednesday;  
Duck Next Saturday

The greatest mass invasion of Alabama's hills, prairies and swamps in history is anticipated Wednesday, November 20, when the bobwhite quail, deer and turkey seasons open simultaneously. Just how many will take to the field is anybody's guess, but Game, Fish and Seafood Chief C. Graham Hixon of Alabama's Department of Conservation says well over 125,000 persons are eligible through purchase of hunting licenses.

One factor may slow down certain aspects of the invasion. High waters in the Tombigbee River basin may be a deterrent to the deer and turkey seekers.

Three days after these seasons open the most rabid of all hunters—ducks—go into action. The season on ducks, geese and coot open one-half hour before sunrise November 23.

The quail season remains as in the past, November 20-February 20, with a daily bag limit of 12 birds. Turkeys may be hunted November 20 through January 1 with one gobbler per day or five for the entire season, which includes the spring season of March 20-April 15. Deer have the same fall season of November 20-January 1 with one antlered buck per day and a total of three for the season legal.

Alabama's shortened duck season, set by the U. S. Fish and Wildlife Service, opens November 23 and closes January 6. This includes geese and coot. Seven ducks may be taken daily with 14 being allowed in possession except on opening day. Twenty-five coot a day or in possession is permissible under law which restricts, geese hunters to two of any kind in any combination, including brant, plus two snow or two blue geese, singly or in the aggregate, per day or in possession. Canada geese may not be killed in Alabama this season. One wood duck per day or in possession is allowed in the duck bag.

Shooting hours for resident game—quail, deer, turkeys, squirrels, etc.—are from daylight to sunset. On migratory waterfowl, the hours are from one-half hour before sunrise to one-half hour before sunset.

In all hunting, guns must be plugged to hold not more than three shells, one in the firing chamber and two in the magazine. Buckshot cannot be used on ducks, geese or coot. All hunters over the age of 16 years must possess hunting licenses and those who shoot migratory waterfowl must also possess a \$1.00 duck stamp—with their name written across its face in ink—which may be purchased at post offices.

Closed seasons are in effect on Canada geese, Wilson Snipe (Jacksnipe), woodcock, bears, beaver and alligators. The above season is closed until December 18th.

The season on sora, rails and gallinules will open November 20 and close January 21. Bag limits are 15 rails and gallinules a day or in possession and 25 sora per day or in possession.

## Added Income From Laying Flock Helps Couple Buy Farm

Mr. and Mrs. F. T. Williams of Route 1, Billingsley, can show you in facts and figures what an average size flock of good laying hens can do for you.

"We don't know what we would have done without them," Mrs. Williams remarked. "They feed themselves and us too, and when you live on a farm, a steady income from eggs sold each week makes things a lot easier than doing credit business all the year and paying up in the fall."

Seven years ago, Mr. and Mrs. Williams secured a loan through the Farm Security Administration to purchase the farm they are now living on. That year they went into the chicken business. They had about 25 hens when they moved to their farm, so they started with what they had. First, a new brooder house and a new 100 bird capacity laying house were built. Baby chicks were purchased from a hatchery which was recognized as having healthy, disease free chicks bred from stock with excellent laying records.

Profits from their first year ran about two hundred dollars. Since then it has increased to about nine hundred dollars each year.

Mr. and Mrs. Williams have a plan of buying 300 straight run White Leghorn baby chicks each year and keeping their laying flock built up from the young pullets they raise old hens from these chicks. Faulty pullets and the roosters are sold. By September the young hens are going into production and are placed in the laying house.

Mr. and Mrs. Williams feel that spending a few cents more for good baby chicks pays off in increased egg production.

An average of 100 layers are kept on hand the year around. During the fall, the flock will contain 150 or more hens. The old birds and non-producers are culled out during the winter months.

"We didn't buy into the chicken business, we grew into it," Mrs. Williams stated. "And we know our hens are helping us pay for our farm because we keep books on them."

It is easy to see why a hen must be a producer too, if she roosts in the henhouse on the Williams farm.

# Record Corn Yield Made In County By Joe Dennis

A record corn yield has been made in Chilton County this year. Mr. Joe Dennis of Clanton, Ala., Route 4, took a little time last spring to check on the hybrid corn demonstrations that were being started by 4-H Club boys. As the result, he decided to join them in their corn project work.

Mr. Dennis selected two acres of wetland for his project. On April 26th he planted Funks hybrid corn using 700 pounds of 4-10-7 per acre. On one acre he used 3 1/2 foot row spacing and on the other 4 1/2 foot spacing. Sixty days after planting, 300 pounds of nitrate of soda was used as a side dress and the corn was laid by.

After a great deal of guessing as to the yield, the corn was pulled and weighed. Unusual, but true, the yield was 210 bushels for the two acres. Although the corn was not weighed separately from each acre, Mr. Dennis states that he would be safe in saying that the acre where 3 1/2 foot row spacing was used produced 20 bushels more than the acre using 4 1/2 foot spacing. Had this acre been pulled and weighed separately, it would have in all probability been one of the high-

est yields in the state.

Mr. Dennis says that this corn was produced with as little work and per bushel expense as any he had ever grown. It was laid by with two plowings. According to Mr. Dennis any extra plowing would have reduced rather than increased his yield as the feed roots would have been broken.

Mr. Dennis had some close competition by club members and at the rate they are increasing their yields his record may not stand for long. Individual records on all projects have not been completed but the average yield is going to be in the neighborhood of 60 bushels per acre.

Mr. Dennis has produced corn belt state yields in Chilton County. Maybe it hasn't been done in Chilton County before but Mr. Dennis has shown us that it can be done.

If you want to substitute sweet milk and baking powder in place of sour milk and soda in cooking, use four times as much baking powder as soda.

## SOIL CONSERVATION NEWS

Mrs. A. B. Jones, Plantersville, Ala., Rt. 2, with the aid of the colored help has picked one-hundred and fifty-six pounds of kudzu seed for the North Central Soil Conservation District, and expects to get that many more. At the rate of fifty cents per pound of chaffy seed, Mrs. Jones will realize one-hundred and fifty to two hundred dollars this year from kudzu seed.

E. C. Richardson, Auburn, Ala., planned to start planting kudzu to determine the method and date of planting kudzu. The kudzu will be planted on Russel Gray's farm in the Enterprise Community. Other plantings will be made at Cullman, Athens, Wedowee, Greenville and Brewton.

Raymond C. Giles was busy last week cutting logs to have the necessary lumber cut to repair his house. Raymond also, discussed his District plan and how he was going to put Conservation on his farm this Spring. Kudzu, sericea and crotalaria were given emphasis. Raymond has also applied for kudzu seedlings through the North Central Soil Conservation District.

Raymond is a veteran of World War No. II.

Land preparation for sericea and kudzu should start now particularly if the land has been idle for several years and sedge grass has come. Remember next spring everything is to be done, so why not get this job off your hands now.

R. O. Williams, newly elected supervisor for the North Central Soil Conservation District, met with the other supervisors of the State and Mr. A. L. Harrell, District Conservationist, last week in Montgomery.

N. L. Roberts, a cooperator with the North Central Soil Conservation District, has approximately fifteen acres of kudzu that he has been giving two-thirds of the hay to get it harvested. Mr. Roberts states, "For the last two years I have sold each year more kudzu hay than the actual value of the land. People in this county do not know the value of kudzu."

## MACEDONIA

Services were very well attended Sunday, considering the bad weather. We hope there will be more to come to church next Sunday.

We have put the Southern Baptist in our Church Budget for the coming year, which our pastor, Rev. Hand was sure glad of. The Southern Baptist will go into thirty homes in this community.

The W.M.S. will be at the home of Mr. and Mrs. Joe Ward for their next meeting, since Mrs. Ward is an invalid and can't attend church.

Mr. and Mrs. Marion Cofer's visitors Sunday were Mr. and Mrs. Pratt Crumpton, Mrs. F. C. Gibson, Mrs. Winston Langston, Mr. and Mrs. D. E. Moore and family, Mr. and Mrs. Hardy Cofer and Miss Marie Crumpton.

Miss Evelyn Nix spent Sunday with Miss Mariah Freeman.

Mrs. E. C. Hand and son, Mr. Addison Hand, went to Birmingham Sunday to see Mr. and Mrs. Edgar off to Maryland.

Mr. Proctor Davenport spent Sunday with his brother and wife, Mr. and Mrs. Paul Davenport, of Maplesville.

Mr. and Mrs. Jimmie Ward visited Mr. and Mrs. Joe Ward last week end. Mr. and Mrs. Briggs Gibson and Mr. Leighton Gibson of Birmingham, came down last week to see Mrs. Mat Gibson and Mrs. Winston Langston and to kill their hogs.

Mrs. Becky Kates is spending a few days with her son and family, Mr. and Mrs. Morgan Davenport.

## STANTON

Mr. and Mrs. Roy Atchison visited their parents over the week end.

Miss Ruth Gregg and Miss Margaret Miller of Birmingham, Ala., spent a few days last week with Mrs. Stella Gregg and family.

Mr. and Mrs. Hilliard Gay of Fairfield, Ala., spent the week end with Mr. and Mrs. Grady Houston.

"Happy Wilson" and his "Golden River Boys" will be at Stanton Junior High November 21st.

Corp. Douglas Cook and wife have been on a few days visit to Mrs. C. A. Cook and Mr. Sheldon Cook.

Mr. and Mrs. O. V. Harrison have announced the birth of a son.

A newcomer at the home of Mr. and Mrs. Manly Farnell too.

Sgt. and Mrs. Mason Gay of St. Louis visited relatives here the past week. Mason has been in the Army for a number of years and has re-enlisted.

Mr. Cecil McKee had four Porto Ricans (potatoes) displayed this last week at The Times-Journal office in Selma, Ala. The largest of them weighed 9 1/4 pounds. All four weighed 26 1/2 pounds.

Mr. McKee is connected with the State Highway.

Mr. Henry Biscoe Passes After Long Illness

Mr. Henry Biscoe, age 77, of Plantersville, Ala., for many years a timber cruiser in Dallas and adjoining counties, died at his home at 11:20 p.m., November 9th, 1946. Funeral at 2:30, November 12th, at the Methodist Church; interment in the Methodist Cemetery.

Surviving are his wife, Mrs. Inez Cunningham Biscoe; one son, J. J. Biscoe, Plantersville, Ala.

Mr. Biscoe was connected with the Jackson Lumber Company at Rider-ville for a number of years; also the Frost-Sibley Lumber Company at Alberta, Ala., and later became a lumber cruiser.

Whiskey rationing ended in Alabama Monday, November 18, after being in effect more than three years. In announcing end of rationing, the ABC Board also announced that 15,000 cases of straight bourbon whiskey have been ordered by the State, expected to be available for sale in State stores in December. Some increase in the price of bourbon was forecast, effective December 1, with amount of increase not yet determined.

## ARMY RECRUITING STATION

Partially disabled combat veterans of World War II, who possess any of 103 MOS numbers may now enlist in the Regular Army, according to information just received from the War Department by T-Sgt. Aussant, of the local Army Recruiting Station. Terms of enlistment will be for three (3) years, and provided enlistment is accomplished on or before January 31, 1947, eligible veterans will be enlisted in the grade held at time of discharge. Detailed information about this offer may be had by calling at the local Army Recruiting Station located at U. S. Army Recruiting Sub-Station next door to Draft Boards, Clanton, Ala.

## FOREST IS SOURCE OF PINE SEEDLINGS

These shortage of pine seedlings at the State forest tree nursery need not reduce tree planting. AFI extension foresters say to plant wild seedlings taken from woodlands. In South Alabama set pines in December; and in north Alabama set them in February.

Grapefruit seed should be removed with a fork. This method of removal causes less bruising to the fruit and permits one to successfully dig for the deepest seed.

## Why Bert Won First Prize

Fella weren't surprised when Bert Children won first prize for his corn at the county fair.

Yet the judges admit it wasn't just because Bert had the finest ears of corn. He knew how to display them: neatly arranged, with the husks cleanly trimmed, and the booth white and spotless.

"Trimmings" sure make a difference no matter what you're offerin'—as Andy Botkin, keeper of the Garden Tavern, well knows. Andy doesn't just sell good beer. He sells it in a place that's clean and attractive...in nice surroundings that

belong with the enjoyment of a wholesome beverage of moderation.

And Andy, of course, is a whole-hearted supporter of "Self Regulation." That's the system by which the Brewers and tavern keepers themselves make sure that taverna selling beer are clean and orderly.

From where I sit, people like Andy also rate a "First prize." Not just for the quality of the product—but for the "trimmings" too.

## Warning Issued About Starting Fires In Dry Wooded Areas

The State Division of Forestry here, whose function it is to protect Alabama's forest resources in Chilton County, recently issued a warning to persons building fires and smoking in dry weather.

Although the number of fires which destroyed forest land last month in Forest District 5, of which Chilton County is a part, was approximately the same as last October, continued dry weather may mean an increase unless county residents take more precaution, forestry personnel said.

Of the 131 fires which have occurred in the district since January 1, bringing more than 11,718 acres of forest land, 90 per cent were the direct result of carelessness, Dan C. Royal, district forester, asserted.

The fire season normally begins at this time of the year and reaches its peak in March, simply because nature takes advantage of carelessness on dry, windy days, he explained.

**Brush Burning Serious**  
Brush and debris burning accounted for the greatest number of forest fires in that period with smokers and incendiary in that order.

The forestry divisions fought 49 fires which burned 5,776 acres due to brush burning and 42 fires which destroyed 3,450 acres due to hunters who neglected to extinguish their warning fires or cigarettes.

Twenty-three incendiary fires burned 1,889 acres during this same period with railroads, sawmilling and miscellaneous causes accounting for the remainder.

Brush burning is a considerable source of trouble because fires started on dry, windy days easily get out of hand, C. C. Gay, forest ranger, pointed out. The state requires residents to report the time and place of burning to the forestry division to lessen the possibility of accidents.

Mr. Gay said the division will prosecute persons who have started forest fires from unauthorized burning. By notifying the division, neighboring owners, and taking precautions one is entirely within his rights to burn, he added.

**Precautions Are Urged**  
He listed the following major precautionary measures:

Do not throw away lighted cigarettes and watch pipe ashes, while in the forest. Break matches into before throwing them away.

Ground out and rake around warning fires before leaving them. School children who build fires while waiting for buses should be especially careful.

Never burn trash or debris during dry, windy weather.

Headquarters for the Chilton Ranger District have been established in the courthouse in Clanton. Mr. Gay pointed out that he could be reached by calling 165.

The rangers rely heavily on volunteers in forest fire fighting, for at this time only extensive fire protection can be offered. The forestry division is ready at any time to assist land owners in any way, he pointed out.

He is equipped with tools for twelve men which include five gallon water pumps which can be strapped on the back; cutter rakes to be used on leaves; large rubber treated flaps to stamp out heavy grass and several kinds of axe and shovels. Chemicals are not used in fighting forest fires, Mr. Gay said. If the occasion demands an army jeep equipped with a 70-gallon panama water pump can be dispatched to a particular fire.

**PENSION ORGANIZATION TO HOLD STATE CONVENTION ATTALA, ALA.**

There will be the State Convention of the Old-Age Pension Association, Inc., in Attala, Ala., December 6-7 for the purpose of electing State officers of the organization and giving final approval to the Pension Bills to be offered Interim Committees and the Legislature. We already have able members of the Legislature to handle these bills for the Pension Organization. All Pension people are urged to be in this great meeting.

**MORE CONSERVATION URGED DURING 1946**

The State Production and Marketing Administration reported that county PMA committees have approved conservation practices on 71,000 farms.

A check shows that only about \$3,000,000 of the approved \$5,000,000 offered as assistance on these farms has been earned. A. W. Jones, State PMA director, urged farmers to carry out sufficient conservation practices before the year's end to earn the full amount.

November 1 totals of conservation materials obtained under the program show that about 55,000 tons of phosphate have been used; 46,000 tons of basic slag; 54,000 tons of liming material; 526,000 pounds of pasture grasses; 5,000,000 pounds of Austrian winter peas; 6,000,000 pounds of blue lupine; 2,000,000 pounds of hairy vetch; and 316,000 pounds of crimson clover. The report also states that over 9,000,000 feet of terraces were constructed.

Two cups of chopped apples added to each two cups of flour used in standard waffle batter will give variety in flavor and texture to the waffle.

## BOWLES

Mr. J. T. Bowles is feeling some better.

Mr. and Mrs. George Emfinger and little daughter visited Mrs. Emfinger's parents, Mr. and Mrs. Mims, of Clanton Saturday.

Mrs. Clyde Chandler and daughters, Frances and Sara Ann, visited Mrs. George Bowles a while Thursday.

Miss Willie Pearl Chandler visited Mr. and Mrs. J. T. Bowles Sunday morning.

Miss Frances Chandler spent Monday night with Miss Audrey Limbrick.

Mr. and Mrs. Charles Jackson visited Mr. and Mrs. H. C. Jackson Sunday afternoon.

Corp. A. T. Hathcock is at home now. He will receive his discharge in the near future.

### VERMONT SCHOOL NEWS

Our attendances have been very good the past weeks of school. We hope it will continue this way the rest of school.

We played Thomas Junior in basketball Friday, November 15th. Both boys and girls of Thomas Junior won in both games. The scores were 26 to 17 in favor of Thomas Junior boys and the girls were 10 to 32 for the girls of Thomas Junior.

We are going to play Thomas Junior at Thomas Junior's court Friday November 22, if its pretty weather. We hope we can do better than we did here.

## SHOULTS

The rainy cold weather brought our Sunday School attendance down to 35 Sunday, with two visitors, Mrs. I. D. Wilson, from Pensacola, Fla. We invite all our visitors to come back. Our B.T.U. also felt the effects of the bad weather Sunday night. The Lord was with a few and we carried the program on. We hope there will be more present next Sunday and Sunday night. We are trying to do some improvements on our church and grounds. We have had one coat of paint put on. We want to buy paint and put another one on and build new steps, etc.

If you are a member of Pleasant Grove Church No. 2 and would like to help financially to do this work (it will cost plenty), you can send your offering to Bro. Paul Oden or the church clerk, Mrs. Bessie Garner. The Lord will bless you in this gift. It will be used for the benefit of the church. Some have given and we appreciate it very much.

We have on our sick list Mrs. Lillie Nichols, Mrs. Fondan Wallace. We earnestly pray for them a speedy recovery.

Mr. and Mrs. Calhan Garner had as their guest Sunday Miss Novis Garner from Montgomery.

Mrs. Willie Hathcock gladly welcomed her son home.

Mr. and Mrs. W. M. Oden spent last week with their children in south Alabama. Their dinner guests Sunday were Mr. and Mrs. John Bowden from Birmingham, Ala.

Mr. and Mrs. L. D. Wilson and family are spending this next week with Mr. and Mrs. W. M. Lawley Lawley, Ala.

Mr. and Mrs. Louis Lenoir are spending a few days with Mr. and Mrs. M. L. Smith.

We welcome home Alfred Smith who has been in service in Japan.

Mr. and Mrs. G. C. Latham's guests were Dr. Lane and little girls from Birmingham.

Little Bobby Roy McAfee will have a birthday November 19th. We wish him a happy birthday. He will be six years old.

Mr. and Mrs. Dan Maddox had their son and wife, Sam Maddox and Marilyn Maddox with them this week end.

### STORE SORGHUM CANE SEED

In the northern third of the State where sorghum cane is grown, many farmers have saved seed of Hodo Honey, Orange, White African, Sugar Drip and Iceberg varieties. These seed should be threshed, bagged, and stored away from rats and mice.

## Tilling with a Hundred Teams of Steel

MORE power on the farm means more food for more jobs.

If a farmer had three teams of horses twenty-five years ago he was well equipped. Now, with over two million tractors and thousands of other power producers, most farmers command the equivalent of a HUNDRED TEAMS.

Wise use of their power, which can be packed into a few tons of steel, is enabling U.S. farmers to keep abreast of unprecedented food requirements. It is one of the secrets of national progress.

Steel horsepower does more than produce bigger crops with less labor. It has released, for production of human food, millions of acres once needed to feed horses and mules,

and has created thousands of new jobs for town and city people who process and sell the increased harvests.

The benefits of farming with steel are the result of teamwork between farmers and industry. The farmer knows what he needs; industry knows how to supply it at a price he can afford. This teamwork must continue if America is to remain a land of abundance.

Farmers need still more power. The country needs still more food. Uninterrupted industrial production will permit industry to catch up with the pent-up need for more farm power.

## One Killed, Several Persons Injured In Auto Accidents

### Curtis Melvin Martin Dies From Accident

One person was killed and several others injured in a series of accidents in Chilton County last week.

Curtis Melvin Martin, of Paducah, Ky., died in the Central Alabama Hospital last Saturday morning following an accident Friday night about three miles above Jemison.

Patrolman Champion reported the circumstances of the accident to the News Monday. Martin was driving a '41 Chevrolet coach. With him was his brother, J. C. Martin, and Hardy Burnett, both of Route 1, Calera. According to the patrolman the Chevrolet side-swiped a pick-up driven by Thomas Pritchett of Montgomery. When the Martin car hit the pickup it swirled across the road into a truck loaded with acetylene tanks driven by Thomas Phillip Gunter.

J. C. Martin received injuries, lacerated head and face, Burnette was critically injured receiving a crushed chest, lacerated face, head and limbs. Both J. C. Martin and Burnette were transferred to the Veterans' Hospital in Montgomery.

Curtis Martin, his wife and two children from Paducah, Ky., were visiting his father at Minooka. Late last Wednesday evening, November 20 about 6:00 p.m., four cars were involved in an accident in North Clanton just above the cottonmill road. A car driven by a negro, Elsie Johnson, of Jemison, was going south when he struck a car driven by Kenneth Zay, of Robertsdale, Ala. Zay was going north.

Sam Johnson, along with Mrs. N. S. Johnson and Ben Roberts were following Johnson. Zay's car swirled across the road after being struck by Elsie Johnson. Sam hit Zay as he crossed in front of him. Mrs. Johnson received a broken arm while Ben Roberts, who was lying in the back seat, received some injuries in the accident. The four cars were driven by Thomas Logan of Birmingham, who was going north, plowed into the rear of the negro's car after it had struck Zay. Logan's car landed up on the right side of the road. Logan received no injuries. Zay received severe cuts and bruises about the head.

The negro driver, Elsie Johnson, was charged with public drunkenness. On last Friday morning a Chevrolet pickup driven by Lester Lee Baker overturned on the curve just south of Thorshy. With Baker were Alice Headley, 23, who received slight injuries. Baker received a broken leg, head and chest injuries. He was later transferred to the Veterans' Hospital in Montgomery.

The truck was practically demolished.

Curtis Melvin Martin, age 31, died at a local hospital at 1:45 Saturday morning. Funeral services were held Monday morning at 11 o'clock at Collins Chapel, conducted by Rev. Homer Carroll, assisted by Rev. Blankenship of Calera.

Palbearers were: Morris L. Dame, A. C. McClellan, Earl D. Robinson, W. C. Jacobs, J. N. Turner and L. L. Hudson. Flower girls were: Mrs. Aileen Barnett, Mrs. J. T. Barefield, Gladys Martin, Mrs. O. C. Crim, Mrs. Jesse Allen, Mrs. Robert Johnson, Mrs. Lee Lanningham, Mrs. Carter and Mrs. C. P. Ellison.

He is survived by his wife, Mrs. Grace Robinson of Calera and Paducah, Ky.; father, Oliver M. Martin; two brothers, J. C. and Lawrence, all of Calera; four sisters—Mrs. Margaret Horton, Mrs. Louise Wilson, Mrs. William Adams, Miss Berna Martin of Calera.

Martin & Sons were in charge.

### Tuberculosis Asso. Holds Meeting.

The Chilton County Tuberculosis Association completed plans for the 1946 Christmas Seal Sale Drive at a meeting held in the offices of the Health Department on November 25. Members of the Association are: Executive Committee, Mrs. Joe Mullins, chairman; Miss Fay Woolley, Secretary; Miss Robbie Hardy, Treasurer. Advisory Committee, Mrs. Molly McKee, Miss Flora Harris, Mrs. Sophia L. Jones, Miss Louise Foshee, Mrs. Minerva O'Rear, Howard Bookhold and Dr. E. M. Moore.

The Seals will be in the mail on December 2nd. Everyone is urged to use the enclosed return envelopes and mail their contributions promptly. This will help the post office employees manage the Christmas rush.

A review of the Association's work in the past two years revealed the following: Over 2,500 school children, teachers and other adults working with the public have been X-rayed in a TB detection campaign. Several cases of TB were discovered in this survey, and these people are receiving the proper rest and care that will assure their hasty and complete recovery.

In confidence of a generous response to the Seal Drive the Association discussed plans for the fight against tuberculosis to be waged in 1947. With the people of the county conscious of the danger to every home and to every individual in the County from the great killer TB, it is believed that the response to the Christmas Seal Drive will make it possible to enlarge the work of detecting and controlling TB.

Appreciation was expressed for the fine spirit of cooperation evidenced throughout the County. Special attention was called to the excellent service rendered by the typing classes of the Chilton County High School under the efficient direction of Miss Myrtle Weston.

Praise was expressed for the splendid assistance given by the sixth grade of the Clanton Elementary School under the guidance of Mrs. Curry Thomas and Mrs. L. C. Warr. The Sixth grade students, by enclosing seals and letters while their teachers held a round table discussion on the menace to young people of tuberculosis. Pictorial charts showing the development of TB, lent by the Chilton County TB Association were used.

In December every child in the schools of the County will be given the bright red, double barred cross, a bangle symbolic hope for eradicating TB when every school child has knowledge of its symptoms and treatment. The value of the educational program is incalculable and is being stressed on every hand.

Appreciation was expressed for the excellent publicity campaign sponsored by the Kiwanis Club during the spring X-ray survey of adults holding key positions of contact with the public. The financial statement of the Chilton County TB Association for the past two years is to be published in the County papers. A review of the work already accomplished by Christmas Seal dollars will prompt everyone to give in the 1946 Seal Drive so that the fight against TB can be continued and expanded in 1947.

## Willie Green To Face Jury Here For Series Of County Burglaries

### Football Game Here Tonight--7:30

The Chilton County High School ball park will become Charity Bowl tonight when a football game between Marbury and the Clanton "B" team—or baby Tigers.

Proceeds from tonight's game are earmarked for benefit of the Crippled Children and USC Fund, and admission will be only 25 and 50 cents.

Members of the Clanton team to play will be those members of the teams who did not receive letters this year.

Everyone is urged to attend this game. The game would be a thriller and it is hoped that Clanton will turn out and make the game successful for sake of the Crippled Children and the USO.

The game will start at 7:30 p.m.

### Mrs. W. W. Hand Passes At 75

Mrs. Nancy Catherine Hand, age 75, wife of W. W. Hand of North Clanton, passed away at the home at 2:10 a.m. Friday, November 22, following a lengthy illness. She had been seriously ill for the past several weeks.

Funeral services were conducted from the Clanton First Baptist Church Saturday, November 23, at 11:00 a.m., with the Rev. Roswell P. Owens, pastor, conducting, assisted by the Rev. J. D. Hughes, long-time friend of the family. Interment was in the cemetery with Spigener in charge of arrangements. Mrs. Grady Heilman was in charge of the flowers. Pallbearers were sons-in-law.

Surviving are the husband and five daughters—Mrs. F. O. Robinson, Birmingham, Mrs. E. M. Hayes, Thorshy, Route 1, Mrs. L. H. Blanton, Clanton, Mrs. R. H. Bass, Birmingham, and Mrs. Bill Williams, Fairfield; three sons—W. C. Hand, Birmingham, G. E. Hand, Greenville, Bonnie Hand, LaFayette; two brothers, W. S. Clark, Mt. Creek and Lee Clark, Birmingham; three sisters—Mrs. J. L. Hand, Climax, Ga., Mrs. D. L. Hand, Montgomery and Mrs. H. H. Burkhardt, Clanton. Eleven grandchildren also survive.

Born Nancy Catherine Clark, daughter of Elias and Matilda Clark of Coosa County, the deceased was married to W. W. Hand in 1896. The couple would have celebrated their 50th wedding anniversary on Sunday, November 24. A member of the Clanton Baptist Church for the past twenty years, Mrs. Hand was active in the affairs of her church and always interested in the welfare of her friends and neighbors.

**JAMES EDGAR DENNIS**

James Edgar Dennis, age 60, died at his home in Maplesville, Thursday night, November 21st. Funeral services were held Saturday afternoon at 2 o'clock, conducted by Rev. G. G. Williams, Rev. J. D. Hopper and Rev. Reuben Bearden.

Palbearers were: U. S. J. C. and J. Q. Adams, B. E. and A. L. Dennis and J. B. Burnett.

He is survived by his wife, Mrs. Lottie Adams; two brothers, C. T. of Wadsworth, and B. D. of Clanton; three half-brothers—L. A. of Maplesville, H. G. of Clanton and J. E. of Clanton; sister, Mrs. J. A. Dykes of Clanton.

Martin & Sons were in charge.

### Special Jury Is Summoned For Willie Green's Trial To Begin Here Next Monday, Dec. 2nd

A special session of the Chilton County Circuit Court has been called and special jury summoned for the purpose of trying Willie Green who was apprehended here in September after allegedly committed a series of burglaries in Chilton County.

From reliable sources the News this week received information that the negro who practically terrorized county residents during the month of August, is an escaped convict from Virginia. In Virginia he was sentenced under the name of David Buner (Prison No. 39436).

Before beginning a wave of burglaries in Chilton County in early August of this year, Buner, alias Willie Green, has a criminal record that puts him in the professional bracket.

According to the News' information, which is unquestionably reliable, Chilton County's Willie Green had a criminal record like this:

In Fairfax County, Virginia, April 1, 1938, David Buner received a ten year sentence in the Circuit Court for burglary. On the same day he was convicted on two other accounts, all for burglary, and received ten years for each of those, making a total of three counts which he was convicted, on.

He was transferred to the Virginia State Road Camp No. 30 from where he escaped on July 5, 1938. While at large he committed another burglary and was recaptured on July 5, 1938.

On his last burglary, committed while escaped from the Virginia authorities, Buner (or Green) was tried in the Buchanan County Circuit Court on August 30, 1938. In this trial he was sentenced for an additional five years, at the same time receiving one additional year for escaping.

After the last sentence, he was again sent to Road Camp No. 30 where he remained until he escaped from there on August 16, 1944.

In August of this year, a series of burglaries began in Chilton County.

On August 10 the home of Mr. and Mrs. John Williams in Verbena was burglarized. The culprit made way with a loot of some \$300 in cash, some clothes, etc.

Other small burglaries were reported over the county the ensuing weeks. On Monday night, September 2, the home of Mr. and Mrs. E. B. Allison in Clanton was burglarized. The burglar made way with some \$87 in cash, cooking utensils, cigars and food and Mrs. Allison's wrist watch.

On the following night, Tuesday night, September 3, Willie Green (or David Buner) was shot in the hand while entering the home of Mr. and Mrs. B. M. Nabors just below Thomas Jr. High School about four miles south of Clanton. He was caught the same night in the barn of Mr. Aaron Dennis who lives nearby.

When caught he had in possession several articles that connected him with the series of burglaries. He had a pair of suspenders allegedly belonging to Mr. Williams. He had Mrs. Allison's wrist watch and a frying pan which the Allison's said came from their home.

David Buner, alias Willie Green, is now in Chilton County Jail after being returned here from Dr. Parrish to stand trial on the above three counts: the Williams burglary, Allison and Nabors burglaries.

### TIME WILL TELL

Soil must be sustained as it is used. For its own good America must conserve and maintain the farm land. Soil is not like other natural resources. Land that is fertile is not permanently so and the amount of fertile ground is not as enormous as we might think. Too bad we can't dig deeper as surface soil becomes poor, and strike it rich. When the topsoil is blown or washed away it is gone and it takes generations to replace its richness. Replacing topsoil restores the land's security, and it is inconceivable that we should lose our source of food because of ignorance or neglect of it. In the earlier days when the population was not so great, farmers didn't think it so necessary to protect the soil. Today having little undiscovered productive land, we must maintain that which we till. All types of mechanized equipment as cotton pickers, combines, corn-pickers, milking machines, tractors, increase production but without fertile soil the equipment is of little use.

We in Chilton County know of the help of the Soil Conservation Department, of the splendid work of the agents in districts throughout the country. Information is available to any one through this agency and all agriculturists should take advantage of their service.

### TIMING THE BRAKES

Winter driving is more dangerous than at any season and takes extra precautions. Checking brakes, chains on icy streets, workable windshield wipers, defrosters, are winter "musts." The heaviest burden lies with the patience of the driver, his physical well-being a definite safety factor. Analyzing 1,000 consecutive accidents in an ordinance depot in 1943, the greatest number occurred between 11:00 a.m. and noon. Little or no breakfast had been eaten by the workers who had the accidents which means that hunger through the morning leads to fatigue, poorer judgment, nervousness. An emotional up-set makes a poor driver. Grief, fear, anger, even excess happiness can divert mind from the job at hand. It is not just a checking of car brakes but of emotional braking as well.

### PLEASE, NOT THAT!

We voiced a faint protest when they suggested a peace-time use of radar, for locating schools of fish to save fishermen time and consequently to spoil their fun. When we recently read of a French scientist who claims a discovery to turn night into day, we loudly object. Lose night in Clanton? What of fireside comforts, the bedtime goodnight of children, the friendliness of lamplight, smoke curling against a winter night sky, the loss of darkness to cloak a goodnight kiss, the close of day's toil when body seeks its rest in soothing darkness, the joy of summer shadows cast by moonlight on lawns, the night cries of birds and animals, the beauty of stars bejewelling the dark sky? Night is man's right and may heaven keep it such.

### CAREFUL WITH THE COOKIES

Extension of canning sugar stamps was a relief to local households, but we had hoped that by this time there would be a greater supply on hand. Cane sugar shipped from Cuba is in smaller quantity this year than last. Sugar sent to Europe dips into our supply. With an increase in the country's population the domestic sugar allotment of a half-million tons more will have to go farther. The whole world's sugar production for this year is the least it has been in 25 years. Prospects for next year point to an increase but it is reported to be so small that the housewife will still have to watch in her baking, table use and canning.

A few Clanton folks only put on their best clothes and religion on Sundays.

They should turn the atom bomb to some peaceful public need, like exterminating mice, eliminating fleas and the common cold germ.

### ABOUT TOWN

-By BEN

They are still talking about that fine performance of the students at the Kiwanis meeting last Thursday night. The students were members of the Glee Club at Chilton County Training School, under the direction of Addie Mitchell. Male students under the direction of E. L. Mitchell also gave some beautiful numbers. Chilton County is proud of the work being accomplished at the School under Prof. Sledge.

Rumors are Flying: One is that our old friend Jim Platt of Vrbena will go to Draper Prison at Spigener after the first of the year. Not as a convict either—as "Boss." . . . And the one about the new Kaiser-Frazer automobile being ready for display in Clanton in the near future. . . . Wonder who started the one about the Car-Hops at the new Tiger Grill wearing shorts. It's too cold to wear shorts anyway. . . . Now pull your chair up close. This one is going to be dirty or smutty — We heard that schools might have to close down because of the shortage of coal. Sorry, that wasn't so smutty after all—not enough coal.

Bonnie Hand's mother died last week. He and Pearl were over from LaFayette practically all the week and the week before too. We sympathize with Bonnie and the whole family. We regret his loss, deeply.

This came from Powergrams, but we think the guy who wrote it knew the wife: "I've been thinking it over," said the husband, "and I've decided to agree with you." "It won't do you a bit of good," said the wife, "I've changed my mind."

We have a bad cold this morning—we got to install better heating facilities in our dog-house.

Welcome back to Clanton Mr. and Mrs. Carlisle Miller. Rev. Miller and his wife have been sent back to us by the Methodist Conference for another year. They have made themselves very popular since coming here and the Clanton Methodist Church has taken on new life under his guidance. May their work here be happy and fruitful.

There were big things at Hotel Willingham the week end. It was their formal opening and friends and well-wishers from all over visited the new hotel to give it their O.K. of approval and to meet the genial couple who will operate it. A decided asset to our City Hotel Willingham was needed badly and our prediction is that it will prosper under the experienced hands of the Willinghams.

Coming up are the dangerous driving months so it behooves us to dwell for a paragraph on that subject. You know a little skidding can go a long way and remember, you want to ease-up on a freeze-up.

Famous last words: "You know, I better get this windshield cleaned off, I can hardly see two feet in front of me."

Duty may come before pleasure, but most folks will take the pleasure first.

We live in the present, we dream of the future, but we learn eternal truths from the past.

MISS LAURELLA OWENS ON COMMITTEE AT BLUE MT. COLLEGE

Blue Mountain, Miss. — Miss Laurella Joy Owens, Clanton, Ala. is a member of the classroom visitation committee for Religious Focus Week at Blue Mountain December 1-6.

Fourteen outstanding -south-wide workers among young people will be on the campus during this week to conduct the program. Dr. Frank Leavelle, head of the department of Baptist student work with the Southern Baptist Convention, will lead the team of men and women. The chief purpose of Focus Week is to strengthen spiritual life on the campus, to relate religion to all phases of campus life, and to stress its place in different college courses.

### VOTE FOR COMMITTEEMEN

In a measure to the 100,000 farmers eligible to vote in PMA committee elections W. B. Crawley, State chairman of PMA, said: "Many problems which affect you will arise during 1947. Through the committeemen you elect you have a voice in national farm programs. By voting you can make sure that the local committeemen elected will be the ones most familiar with local needs."

### JACKSONVILLE STATE TEACHERS COLLEGE

Jacksonville, Ala. — Additional housing for veterans will be available at Jacksonville State Teachers College beginning with the opening of the Winter Quarter December 2, according to an announcement made this week.

Facilities for 50 students in the new government housing project will be completed by December 2; another 50 can be taken care of by January 1, 1947, and the remaining 50 at a date to be announced.

The facilities include apartments and single rooms, and are available to married couples and single men. Some dormitory space will also be available when a few veterans move into the new housing project, it was stated.

Persons interested are asked to contact the college office for reservations.

### Crippled Children's Drive Underway Now

I. S. "Dock" Levine, chairman of the Crippled Children's Clinic, announces that the Crippled Children's Drive for funds is now underway in Chilton County. Mr. Levine says the county is being asked for only \$1,500 this year. This is compared with some \$4,000.00 put up by the State to aid Chilton's 400-odd crippled children who need aid. If you wish to make a contribution, mail it to Mr. Joe Campbell, Clanton or Mr. Levine.

### TERRACING IS OFF FROM THE 1945 FIGURE

Terraces have been built on about 50,000 acres of Alabama farm land so far this year, J. B. Wilson, APF extension agricultural engineer, estimated this week. The year's end should see probably 65,000 acres terraced, as compared with 193,000 in 1945.

Wilson believes high labor costs and scarcity of equipment are big reasons terracing has fallen off this year. But, he added, with soil washing away farmers must fight back with what labor and machinery they now have.

On the brighter side he pointed out that several counties are attacking the problem by holding terracing schools to train men to lay out terrace lines and water disposal systems.

Heating rolls in the top of a double boiler keeps them soft and fresh. It avoids the too-crusty effect which often results from oven reheating, and saves heating the oven unless you plan to bake.

## MORAL ECHOES

Rev. D. W. Haskew, D.D.

Did you ever try the plan of being a good neighbor? That is the quickest and the best way on earth to work your way into the hearts of people. Visit them when they are sick. Feed them when they are hungry. Clothe them when they are naked. Comfort them when they are in trouble. Cheer them when they are despondent. Love them when they are unlovely. Think of your neighbors as the Christ who is near by. Listen to Him as he sums up your relation to Him, "Inasmuch as ye did it unto one of the least of these, ye did it unto Me." Father Bryan did this as long as he lived in Birmingham, Ala., and he was loved as no other pastor has ever been loved by the people of a great city. To be known as one who loved his fellowman is a title worth winning.

In a recent issue of the Chicago Tribune I saw a cartoon that represented man as having conquered almost everything but his disposition. I have been a student in the progress of man, and I am frank to tell you that men have made wonderful progress in every field, except his disposition. We are today just like Adam and Eve were in the Garden. We have the same desires, attitudes and disposition that they had. We can be just as disobedient, just as fault finding and just as disagreeable as they were. Let me assure you that there is nothing about you that calls for more

## ALABAMA COLLEGE NEWS

Montevallo, Ala. — Dr. Margaret McCall, Head of the Department of Health, Physical Education, and Recreation at Alabama College, has been appointed Basketball Chairman for the State of Alabama by the National Section on Women's Athletics. The personnel of her committee includes Miss Emma DeLacy Dillon, Director of Physical Education at Judson College; Miss Loretta Dyer, Director of Physical Education at Huntingdon College; Miss Mary Ravenscroft, Union Springs, Ala.; Miss Marise Daves, Director of Physical Education for Women at State Teachers College, Florence, Ala.; Miss Eleanor Lewis, of Clanton, Ala.; and Miss Gila Belcher, of Lanett, Ala.

attention and care than your disposition. It can make you, it can break you, in a few years time. I know women who would be finer in soul and life, if they would spend as much time in training their disposition, as they are spending time in trying to make beautiful the body. Disposition is more beautiful than paints and powders.

On a sundial in England some one has printed in clear type this statement, "Reader, it is later than you think." How many years of your life have already been ticked away? You may be quite young, you may live in the midst of life, you may be going down the hill toward the setting of the sun, it matters not where you are in life, it is later than you think. Oh, there is time enough yet for you to reform, for you to gain assurance for your family, for you to lay up treasures in heaven, but look out, my friend, it is a bit later than you think.

Bro. Stuckey brought us two very inspiring sermons Sunday and Sunday night at Mulberry.

On the fourth Sunday in December Mulberry will have a home-coming day for all our returned veterans, and we hope every one of them can be with us.

The Week of Prayer program for Foreign Missions will be held at the church on Wednesday, December 4, from 6:00 p.m. until 8:00 p.m. All our W.M.S. women are expected to be present.

On the fifth Sunday in December Bro. Gandy from Louisville, Ky., will preach at Mulberry. He is a nephew of O. F. Davenport, Sr.

This community extends its sympathy to Mr. and Mrs. Max Hayes and family in the recent death of Mrs. Hayes's mother, Mrs. Hand, of Clanton.

Mr. and Mrs. O. F. Davenport, Jr., and baby of Montgomery, visited his parents, Mr. and Mrs. O. F. Davenport, Sr., over the week end.

Mrs. W. T. Tucker, who has been ill, is improving.

Mrs. Emma Manning has returned home after spending a week with her daughter, Mrs. C. T. Farmer, of Titus.

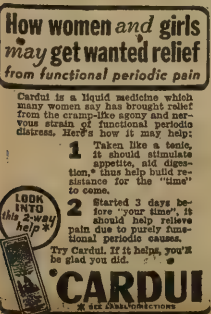

Bartley and Omar Giles and Mrs. Ella Lenoir carried their mother, Mrs. Charlie Giles, to New Orleans Monday to the hospital, as she will have an operation there on her throat. This community wishes her operation to be very successful.

## A THANKSGIVING PRAYER—

Dear Lord, we thank thee for the day our president has proclaimed the time to voice our gratitude for blessings we have received in the past year. Oh God, give instead of offering daily thanks that you have let us live and know the joys of life; of friends and those held dear to see the earth's abundant yield at this time of the year and so we bow in thanks to thee for blessings, great and small with kind hearts and humble prayer. Dear God, accept them all—Mrs. E. E. Mayfield, Maplesville.

## PATES CHAPEL

As we were blessed with another beautiful Sabbath day, with a nice crowd at Sunday school and B. Y. P. U.

There could be more I know. If we will just stop and think after we are blessed with all the things we are can't just give about two hours every Sunday morning to our church work and about two every Sunday night. If we will just give this much time every Sunday what a fine Sunday school and B. Y. P. U. we could have. Let's all try this and see if we aren't blessed and will want to still continue coming. And watch what a blessing for our small children as well as the older people.

We get up early and get the kids off to school on school day so let's get them ready on Sunday to go to Sunday school. If mother and dad both could come each Sunday let's one come and bring them if they are too small to come alone.

Mr. and Mrs. H. E. Maddox and daughter, Rosa L. Linda spent the week end with Mr. and Mrs. Channel. Mr. and Mrs. Earl Hayes and Mr. Evans Dawson were Sunday dinner guests of Mr. and Mrs. Louis Pate. Also Mr. and Mrs. Doward Mims spent a while Sunday evening.

Mrs. Catherine Dawson spent Wednesday with Mrs. Earl Hayes. Mr. and Mrs. Richard Bolton and children, Mr. and Mrs. Tom Porter and daughter, Mr. and Mrs. R. C. Hayes, Richard and Mae Hayes were the guests of Mr. and Mrs. C. H. Hayes Sunday.

We are glad to report that the daughter of Mr. and Mrs. James Scott is somewhat improved after being in a serious condition last week. Jessie Dawson and mother Mrs. Dawson spent the week end with Mrs. Hubbard Gothard who has been sick but is better.

Mr. and Mrs. Coy Liveoak spent Saturday night with Mr. and Mrs. Claude Dawson and family. Earlie Gene Dawson was Friday night guests of Mr. and Mrs. Coy Liveoak.

Mr. and Mrs. Roy Liveoak and Mr. and Mrs. Erastus Clecker and children and Mr. Enon Clecker spent Sunday with Mr. and Mrs. J. A. Clecker.

Miss Ester Patterson spent Saturday night with Mrs. Pink Robinson.

Mr. and Mrs. J. C. Scott and family and Miss Evelyn Hayes were the Sunday guests of Mr. and Mrs. W. B. Maddox and daughters.

Mr. and Mrs. Enoch Hayes and daughter Helen visited Mr. and Mrs. Rascoe Maddox Sunday.

Mr. and Mrs. Arline Dawson were the Sunday dinner guests of Mr. and Mrs. C. A. Maddox; also, Mr. and Mrs. Howard Boockholdt and Mrs. Claude Dawson spent a while Sunday evening.

Little Audria Gene, Earline and Glenys Dawson spent Sunday evening with Little Annette and Geraldine Maddox.

Mr. and Mrs. Enoch Hayes have moved back to their new home.

## Chilton Tigers End Season With Six Wins, Three Losses

## Graduation To Take Heavy Toll From Present Squad

On Friday night, November 15th, the Chilton County High School football team played their final game of the season defeating Wetumpka 26 to 0.

The Tigers, coached by Mr. Eddie Waters and assisted by Cecil "Clint" Jones, this year won six of their nine games, dropping games to Centerville, Hurt and Lanier. Although they lost these games, the Tigers made a splendid showing against all of them. They won games over Holt, Shelby County High, Siluria, Holtville, Wetumpka and Montevallo.

Clanton loses its entire backfield with graduation with the exception of Geo. McCain, Jr., who was a star performer all season. They lose Cox who sparked the team to run up large scores against their opponents this year. Other backfield men lost by graduation will be Mims, Wade (Capt.) and Burnette.

The whole line will be lost by graduation with the exception of Hoover Armstrong. Graduation will get:

Ends, Leon Thomaston and Matthew Thomaston; Herbert Dennis, tackle, center, Bobby Jo Chancellor; guards, Higgins and Smith.

The Clanton team will feel the loss of all of these boys, but there are several second stringers who saw plenty of action this season during next year. Present outlook for next year's team is this:

Geo. McCain, Jr. (weight 155), back; Hoover Armstrong (155), end; Clyde Blalock (186), tackle; Hubert Thompson (150), end; Curtis Seals (154), end; Geo. Bradley (115); David Arnold (175), Jimmie Stroud (150), Maxwell Hargrove (168), Gene Murphy (157), Byron Lowery (170), Billy Gentry (140), Johnny McKinney (150), Jimmy Giles (146), John Luker (140), Jerry Studdard (132), Fred Clecker (130), Joe Mullins (145), Kenneth Smith and Jimmy Jones.

The scores for this year's Tiger games follow:

Clanton 6-Hurt 19.  
Clanton 6-Centerville 18.  
Clanton 14-Holt 7.  
Clanton 7-Columbiana 6.  
Clanton 4-Lanier 14.  
Clanton 40-Siluria 0.  
Clanton 48-Holtville 0.  
Clanton 13-Montevallo 0.  
Clanton 26-Wetumpka 0.

## Methodists Urged To Make Liberal Gifts To Orphanage

Again the call to all Methodists of Alabama and West Florida comes from their "other children" at the Methodist Children's Home at Selma as a reminder of their obligation to provide for the maintenance of these helpless ones for the year 1947, by remembering them with liberal contributions on "White Christmas" Sunday, December 22, in their respective churches and in a generous spirit.

The Board of Directors of this Home, composed of leaders of the North Alabama Conference and of the Alabama Conference, through their Chairman, Kenneth E. Cooper of Birmingham, in supporting this call, point out that the Methodist Children's Home is struggling with the problem of the high cost of living daily.

It must pay the pyramiding price for all food and clothing for an average of 130 children that the ordinary family pays, and in addition must endeavor to keep a full staff of matrons and others to look after the children, in spite of salaries, twice as large, paid by government and business. The present dire trend in child-care requires more helpers and better trained helpers. Hence the cost of operating this Home has greatly increased from every angle.

Virgil McCain, Superintendent of

the Home, points out that "the policy of the Methodist Children's Home is to accept any normal child within the prescribed age limits, if there is a real need for doing so, whether or not parents are living. Our home is not so much concerned about the status of parents as of the child. If the child needs care we are glad to take him in."

Headquarters for this "White Christmas" campaign have been established at 606 First National Building, Birmingham, with Mrs. O. H. Horton in charge, where full information with reference to this campaign and supplies for a "White Christmas" program in churches, Sunday Schools and Young People's Departments may be obtained. These include suggested three minute talks, "Dime" cards, collection envelopes, posters, a new 1946 pamphlet and other suitable material.

## WALNUT CREEK NEWS

Next Sunday, December 1st, is our regular preaching time at this place. Everybody has a special invitation to attend, as Rev. Greenwood's brother, Rev. Isam Greenwood, from Fort Payne, Ala., will fill the 11 o'clock hour and you'll really want to hear this Baptist man bring the message. Come.

## A Lesson In Conservation

Wewere sitting on Bill Webster's porch the other night, when the talk turned to forest preservation, soil erosion, and other things that affect a farming community.

Judge Cunningham says: "It's all right to worry about conserving our natural resources," he says, "but there's a far bigger problem when it comes to conservation—and that's preserving our democratic way of life. Our sense of freedom, our respect for one another's rights."

From where I sit, the Judge is right. All America's great resources, our abundant natural wealth, are lost the minute we lose the right to work them as free people in a free land!

Whenever you see or hear of an encroachment on our rights whether it's the right to free speech, or the right to vote as we see fit, or the right to enjoy a friendly glass of beer in licensed, law-abiding places... watch out!

## W. L. Sanders Thanks Supporters

I wish to thank the many voters for their support in the election of November 5th. I appreciate the high plane on which the campaign was conducted, and that none of you have a price tag hanging to your conscience.

It is not a question of whether we won or whether we lost, it is simply a question of how fair we played the game.

I take my defeat as a candidate to the Legislature, but will in no way surrender my courage to defend the principle for which I stand.

The official campaign for equity, justice and the golden rule is not over, and will not be over as long as men cast ballots labeled with dollar instead of principle.

This condition should be alarming to both Democrats and Republicans who stand for honest, efficient government.

When Democracy is placed on the market and our best citizenship fails to purchase it with the price of principle, then society can get ready to reap it's reward.

Again, I want to thank you for your

support and influence in the recent campaign, and that all of the good citizens of Clifton County rally their influence behind a new campaign for better citizenship in Clifton County.

Let us emphasize that buying and selling votes is in violation of the laws of our State as well as the laws of decency, that such is a traitor to our forefathers who bled and died for the right of the ballot. Let us try to convince them that they may repent and become real citizens that will build on the kind of principle that has no price.

Yours for good citizenship,

W. L. SANDERS.

### CLANTON CANNERY OPEN

The Chilton County High School Canning Plant will be open on Wednesdays by appointment for the purpose of rendering hard, grinding and stuffing sausage and canning sweet potatoes.

As many of the sweet potatoes over the county are ruining due to dry rot, it might be a wise idea to can a few so that you may have some potatoes next year.

Each patron is urged to bring along sufficient help, as the canning plant is here for you to use and not for us to use for you.

The cost for the use of the plant is as follows: Grinding sausage 2c per pound, grinding and stuffing sausage 2 1/2c per pound, rendering lard 3c per pound of raw fat, canning 6 & 7c for pint can and 8 & 9c for quart can.

Denmark had the first Christmas Seal Sale in 1904. The money raised was used to help needy tuberculous children. Seals have been sold in this country since 1907 to fight tuberculosis.

Einar Holboell, Danish postal clerk, first thought of a "health" Christmas Seal. His idea was tried in this country in 1907. Christmas Seals have been sold here ever since to support tuberculosis control program.

## Maplesville News

Our community was made sad last week by the death of Mr. J. E. Dennis and Miss Minnie Foshee.

Mr. Dennis passed away suddenly last Thursday night about 9 o'clock. He was one of the leading members of the Baptist Church here and also a deacon. He was a good Christian man and had many friends and will be greatly missed in this community. His funeral was held at the Baptist Church Saturday morning at 10:30 o'clock, conducted by Rev. J. D. Hopner, Rev. Grady Williams and Rev. Paul Oden. We extend to his widow and other relatives our deepest sympathy.

Miss Minnie Foshee passed away Friday morning at 9 o'clock, just twelve hours later than Mr. Dennis. She was a member of the Baptist Church also. She was a good Christian woman and an active member as long as she was able to attend. She had many friends and will be greatly missed. Her funeral was held at her residence at 11:30 o'clock, conducted by Rev. Paul Oden. We extend to her relatives our deepest sympathy.

Twenty-nine members were served supper at the P-T-A. meeting at the schoolhouse last Thursday night. Miss Louise Foshee gave a talk on nutrition. The purpose of serving supper to the parents was for them to see what is served to the children for lunch every day.

Mrs. W. E. Coburn spent last week end in Birmingham with her sister whose husband is very ill.

Mr. and Mrs. Cleve McGee and daughter, Nina, from Columbiana spent the week end with her relatives and friends.

Mr. Jessie James Hayes, Jr. went by plane to California last Friday to bring his brother Willard home who has been ill for some time.

Mr. and Mrs. Wilburn Smith, Mr. and Mrs. Walter McAlpin from Bankston visited Mr. and Mrs. J. R. Meherg last week end.

Mr. Ellis Kimbrough's mother from South Carolina is here to spend the winter with us.

Miss Bloum Crumpton spent last week in Jasper visiting her sister and family, Mr. and Mrs. W. B. Bankhead.

Mr. and Mrs. W. K. Littlejohn from the University spent the week end with his mother, Mrs. E. H. Littlejohn.

Mrs. W. W. Kelley visited her son and family, Mr. and Mrs. Eugene Kelley, in Birmingham last week.

Mr. Frank Atchison, conducted a prayer service at the Methodist Church last Sunday night. Everyone was glad to have Bro. Wesley and his wife present and are glad the Methodist Conference saw fit to send him back to this church another year.

Mr. and Mrs. J. C. Davis and daughter, Marjorie, visited relatives in Selma Sunday.

Bobby Graham arrived home last week. He has been with the Army Occupational Forces in Germany.

Mrs. Russell Lawley from Enley visited her mother, Mrs. Emma Smith, last week.

Mr. and Mrs. Y. T. York are the proud parents of a baby boy born on November 11.

Mr. and Mrs. Garland Smith and Sonny, spent last week end visiting relatives in Tusculosa.

Mr. and Mrs. Harry Lawley from Lawley visited Mrs. Net Bearden and Miss Virgie Bearden last week end.

### SOIL CONSERVATION NEWS

Complete soil and water conservation plans were completed this past week on the following farms: Tolbert Raspberry, W. R. Hayes, Grady Barber, J. Sam Johnson, W. M. Moore and Audie L. Brown.

Tolbert Raspberry already has sericea for grazing and kudzu for supplementary hog pasture and plans the balance of his pasture for sericea as there is no bottom-land pasturing that would be easily cleaned up. Tolbert states: "The reason most folks' cows don't eat the sericea is like most permanent pastures is that it grows so fast the cows can't keep it eaten down. I had the fattest cows this year I have ever had and they ate sericea and it still came high."

Dewey Collins evidently is sold on kobe lespedeza, and it can hardly be beaten for soil improving, hay seed production and temporary pasture. Mr. Collins is in the market for two thousand pounds of kobe lespedeza seed. This is enough seed to seed five acres.

Ernest Edwards, a cooperator of the North Central Soil Conservation District, took two seed patches of Manganese Bur Clover and Yellow Flowering Vetch. Both of the plants grow from late fall until late spring and they are both receding. Mr. Edwards is planning to use these plants for winter grazing in combination with sericea for summer grazing. For winter grazing this time he is using crimson clover and rye grass. Mr. Edwards states, "Green grazing in winter is cheaper than any other kind of feed."

In 1907, Miss Emily P. Bissell, welfare worker in Wilmington, Del., promoted the first Christmas Seal Sale to raise money to aid a small hospital.

Alford Smith has returned from Ft. Benning, Ga., hospital where he had a check-up on his operation.  
With the Lord's help our sick list shows improvement.

Mr. and Mrs. Bill Hatcock had as their guests Saturday night Mr. and Mrs. Ira Hambrick and children from Camden, Ala.

### ALABAMA TUBERCULOSIS ASSOCIATION

A total of eight persons died in Chilton County from tuberculosis last year, according to the Chilton County Tuberculosis Association, who this week cited figures based on a report issued by the U. S. Health Department and the Alabama Tuberculosis Association.

"Since statistical studies have shown there probably are nine cases existing in a community for every annual death from tuberculosis, the mental picture of 72 cases in Chilton County presenting a challenge and threat to every person in the county," it is reported.

Mrs. Joe Mullins is Chilton County chairman of the 1946 Christmas Seal Sale which presents an organized appeal for the funds which will help prevent and control tuberculosis. The annual Seal Sale is the only campaign held to raise funds for the voluntary tuberculosis associations of the nation, she said, adding that 95 per cent of the Seal Sale money remains in Alabama and a minimum of 75 per cent stays in the county in which it is raised.

Stressing that tuberculosis is a highly communicable disease, Mrs. Mullins said national statistics prove that the majority of cases are never reported to health authorities.

"But by multiplying our known TB deaths last year by nine, we can estimate the tuberculosis load actually existing in Chilton County. Actually, only 40 cases are known and recorded by county and state officials."

The death of each of the eight people who lost their lives to the disease last year was a needless death, because tuberculosis can be prevented and cured. The surest way to show our interest is to get behind the Christmas Seal Sale and raise sufficient money to organize a strong movement to help prevent and control the disease," she said.

Ten of the known cases on health department files were newly reported the past year, demonstrating the highly contagious nature of the disease, Mrs. Mullins said. The possible unsuspecting victims in our midst who are not known to health officials and are not aware themselves they have tuberculosis present the threat to the whole population of the county.

"Because tuberculosis works under cover and tricks its victims into a long siege of illness or possible death, it is our job to bring it out into the open and wage a fight to stamp it out in Chilton County. Chest X-rays for all adults and tuberculin tests for all lower school grades could be the first battle strategy in starting a fight to rid the county of tuberculosis."

"Sufficient dollars from the Christmas Seal Sale could assure such a movement here—could provide health officials with vital assistance needed to carry out a control program."

The Christmas Seal Sale opened November 25th and will continue until Christmas, Mrs. Mullins said.

### U. S. SAVINGS BONDS DIVISION

American farmers, enjoying the best year's income in their history, today are putting away millions of dollars a day in U. S. Savings Bonds, according to a report just received by Ed Leigh McMillan, State Chairman. U. S. Savings Bonds Division for Alabama, from the Treasury Department in Washington.

That the same savings bonds they bought to help win the war are an excellent investment in peacetime, too," Mr. McMillan commented. "The average farmer today recalls what happened after the last war, when high prices hit the toboggan in May, 1920, and farmers were hit hardest of all producers, more than 400,000 farm mortgages were foreclosed and many farm families were so deep in debt that it took them 20 years to get back on sound financial footing. They don't want to be caught unprepared again, so they are laying up reserves."

"Most farmers are buying E Bonds, which are literally the best investment on the market today, paying almost 3 per cent, compounded semi-annually, if held ten years to maturity. Elderly farm folk who expect to retire before ten years and desire regular income for retiring are buying Series G bonds, which pay 2 1/2 per cent per annum for 12 years; the mailman brings the interest check each six months."

"Farmers who in the hard times after the first World War, had to sell Liberty Bonds for less than their face value for them appreciate the removal of that risk on the present Savings Bonds, which always pay back, in principal and interest, at least as much as you have invested. Very few holders of E Bonds realize that the return on these bonds, if you hold them six years, mounts as high as 4 1/2 per cent. Compound interest is a great thing if you're the receiving end of it."

American farmers generally are in far better financial shape now than they were 15 months' ago after the first

## Civic and Music Leaders Over State Eye Clanton's Concerts

Civic and music leaders all over the state have shown great interest in our newest cultural enterprise, community concerts. Music educators in the colleges and Alabama Federation of Music Clubs leaders have expressed their hearty approval of and best wishes for our project to your publicity chairman and others. Several Birmingham music lovers came down to the Appleton and Field program, opening concert of the series, because "we have not had enough piano in our own series" and to hear a duo-piano team "superior" to those offered in Birmingham the last few years."

The hearty response of our own citizens is, however, the best testimonial to the success of community concerts. Almost every member of the association was present, and the appreciation and enthusiasm with which this fine program was received was an inspiration to Miss Appleton and Mr. Field who complimented the Clanton audience. These young artists have been playing the same program in all the large cities, starting with New York and have received good press notices, but they seemed to get a thrill out of initiating Clanton Community Concerts and the sincere enjoyment of our people. Up to date, our musical fare in non-professional or student recital programs has been largely classical or romantic (has these schools of music were well interpreted) but we got a thrilling introduction to modern repertory in the Appleton and Field performance.

The Artists Committee is confident that Walter Casel, Metropolitan baritone singing here January 24, and John Sebastian, harmonica specialist appearing February 26, will carry on the high standard set November 11.

Our thanks to "Bob" Oglesby, Mrs. W. H. Kliner, Mrs. Omar Reynolds, Mrs. Edie Ellis and "Doc" Levine, first executive board of Clanton Community Concerts, and to "Doc's" workers who put across the charter membership drive. — Mr. Raymond P. Mims, Publicity Chairman.

World War, Mr. McMillan stated Farm mortgages in early 1920 totalled \$10,000,000,000 in the nation; now amount to about half that. Farmers invested over \$5,000,000,000 in U. S. Savings Bonds in 1941-45 and have been adding to that steadily in 1946.

The teachers of the Alabama Mills, schools wish to thank the friends of the school who supported the box supper Friday night. The twenty dollars cleared will be used to help pay for the transportation of hot lunches for the children.

Here we go—all set for Thanksgiving dinner with gobbs of swell brown turkey. Whoops! Happy Thanksgiving everyone and many drumsticks to all of you.

## FARMERS TO ELECT COUNTY AND COMMUNITY COMMITTEEMEN

According to a report from Joe S. Campbell, County Administrative Officer, Election Time is here again—time for elections of county and community committeemen to administer the Agricultural Conservation and other national farm programs. The important thing is to make sure that the committeemen who are elected represent the choice of the majority of farmers in the community. This will be certain if every eligible farmer votes. So the job is to get every eligible farmer to the polls on election day. Annual elections make it possible for farmers to have committeemen who are most familiar with local problems and needs, and who they feel can therefore best administer the farm program.

To make sure that the farmers' voice is heard in forming and carrying out national farm programs, Congress directed, in the Agricultural Adjustment Act, that farmers elect annually, from among their own number, community and county committeemen to administer the Agricultural Conservation Program.

Any person who participates in the 1946 Agricultural Conservation Program—including owner, operator, tenant, or sharecropper on a farm where these programs are being carried out—or any person who has a contract with the Federal Crop Insurance Corporation, is eligible to vote in local committeemen elections.

A nominating committee consisting of three members has been appointed to nominate all offices to be held by community committeemen in each community. The names will be placed on a ballot and will be voted secretly by each voter. The election will be held in each community at a place and day to be announced later. This is the first time the farmers have been allowed to vote a secret ballot in these elections. Farmers will also elect a delegate to the County Convention which will be held immediately following community elections to elect the 1947 County Committee. Democracy works only if citizens make it work. One way they do this is by voting—by expressing their wishes through the ballot.

The election of farmer-committeemen is "democracy in action," and it is successful only as farmers take an active part in choosing the committeemen they want. The whole committee system hinges on the community election.

So the important thing is TO GET OUT THE VOTE!

## AUBURN GETS PRE-WAR CHRISTMAS HOLIDAY

Auburn, Ala. — Students and staff members at API were rejoicing today over announcement of an old-fashioned pre-war Christmas Holiday schedule by Auburn's President L. N. Duncan.

Students will leave Auburn on Wednesday, December 18, following graduation ceremonies and will not return to classes until Monday morning, January 6, 1947. Faculty members will observe the same holiday schedule. API administrative staff will be on vacation from Saturday noon, December 21, until 8:00 a.m., Monday, December 30, when offices will reopen.

The Crippled Children's Drive is now underway in Chilton County to help this little girl and more than 400 other crippled children in Chilton County carry on a normal life and grow to become citizens. You are now being asked to contribute to this drive which will mean everything to these children. If you haven't already made a contribution, do so immediately. Contributions may be mailed to Mr. Joe Campbell, Clanton.

## ISABELLA

(Too Late For Last Week)

There was a very good crowd at Mulberry Sunday for Sunday School, although the weather was bad and a small crowd at B.T.U. Sunday night. Isabella P.T.A. met at the school last Monday night. Business session held and program given.

The Mable Woodward Circle met with Mrs. Jessie McCraw last Wednesday in their regular meeting. Program was given from Royal Service. Refreshments served. Five members present.

Isabella football team played their last game of the season with Maplesville team here. Score 12 to 6 in favor of Maplesville.

Mr. and Mrs. Bill Jones and family of Birmingham are spending their vacation here now with the former's parents, Mr. and Mrs. Charlie Jones. Mr. and Mrs. Robert Stuckey of Birmingham spent the day Sunday with Miss Truman Stuckey here.

Mr. and Mrs. Hubbard and son and wife of Brunsfield spent Sunday with Mr. and Mrs. W. T. Tucker and family.

Mr. and Mrs. Pet Carter and family and Mrs. Cydell Cobb and David spent the week end in Auburn visiting Mr. and Mrs. Roy Davis.

Mrs. E. S. Jones and Lloyd spent Saturday in Birmingham shopping and attending Alabama - Vanderbilt ball game.

Mr. and Mrs. Oliver Manning and children of Memphis, Tenn. spent two days last week with the former's mother, Mrs. Emma Manning, here.

Mr. and Mrs. Emmett Conway of Birmingham spent Sunday here with Denson Conway and family.

Mr. and Mrs. E. C. Lecroy and Mr. and Mrs. L. S. Calfee visited Homer Legroy and wife Sunday at Marion.

Mrs. Emma Manning is spending this week with her daughter, Mrs. C. T. Farmer, at Titus, Ala.

## Thanksgiving Dinner At Wilkins Cafe

Thursday is Thanksgiving. Thanksgiving Day means turkey dinners and the Wilkins Cafe (formerly the Bus Station) announces that they are preparing a complete Thanksgiving Dinner for Thursday.

Mrs. B. E. Wilkins, the new proprietress, when asked about her Thanksgiving Dinner, stated that she would have everything to serve that should be served on Thanksgiving. She is offering plenty of turkey, cranberry sauce, green peas, dressing, olives, celery and pumpkin pie. If that is not sufficient she has a variety of other foods that the family will enjoy. For drinks there is coffee, milk, soft drinks, tea, and fruit juices.

Mrs. Wilkins is going to prepare meals for families as well as individuals. If you desire to give your family a real Thanksgiving dinner, Mrs. Wilkins invites you to visit her cafe. If you want a table especially prepared for the family, call her at 64 and state the number in your family and visitors that will be there. She will have your dinner ready and waiting.—Adv.

## LAB FINDS CAUSES OF ANIMAL DEATHS

Free service to determine causes for death of farm animals is being given by the State Veterinary Laboratory at Auburn.

If cattle or other livestock begin to die from unknown cause, the owner or his veterinarian can call on the laboratory to find why the animals died.

When blood samples or droppings are received at the laboratory, a quick and accurate study is made. The owner is notified immediately of the cause of death. Then the farmer can treat the disease and control its spread.

A pamphlet which gives directions for preparing and mailing specimens may be obtained by writing the laboratory.

Since 1908, Christmas Seal Sales have been conducted on a nation-wide scale to support local, State and National programs to further tuberculosis control.

When the first Christmas Seal Sale was conducted in this country, tuberculosis was the leading cause of death. Today it has dropped to seventh place but still kills at the rate of one person every 10 minutes.

## ORDER FERTILIZER NOW

Be sure to place orders for next year's fertilizer needs now, if this hasn't been done. API extension agronomists say those who wait until planting time to order their fertilizers may find they waited too long.

The 40th annual Christmas Seal Sale in the United States will be conducted from November 25 to December 25 by 2,900 tuberculosis associations in all the states, District of Columbia and the territories to raise funds to fight tuberculosis.

## Does Stomach Gas and Bloat Make You Feel Miserable?

If so, here is how you may get blessed relief in freeing your stomach from this nervous distress. It works this way: Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment, sour food, send indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with overdoses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps build sturdy health.

HOME AGENTS STUDY  
BETTER GARDENING

After a busy session of brushing up on latest gardening facts, home demonstration agents are ready to start a big garden campaign in every Alabama county.

Nine garden training schools have been conducted in all sections of the State by W. A. Ruffin, API extension gardener. Dressed in work clothes, the agents plowed, hoed and planted in farm gardens. They studied vegetable varieties, planting dates, fertilizers and other points necessary for successful gardening.

The agents will use this training when they stress gardening at all home demonstration meetings held during January. Throughout the year they will bring farm women in their counties the latest and best information on growing vegetables.

SUGGESTIONS ON HANDLING  
SEEDS ARE LISTED

Planting seed worth thousands of dollars are being saved by farmers for next year's crops. To help farmers do the best job the API extension service offers a few tips on treating and storing seed harvested this fall:

- (1) Clean the seed soon after harvesting.
- (2) Spread crotalaria and grain sorghum on a floor and stir seed often enough to prevent heating. Do this until seed are thoroughly dry.
- (3) Scarily crotalaria and sericea seed.
- (4) Fumigate corn and grain sorghum to kill weevils.
- (5) Send seed samples to State Department of Agriculture for germination and purity test.
- (6) Put seed in new or clean sacks and store in a cool, dry, ventilated room.

COOPERATIVES USED BY  
58,000 FARMERS

Seventy-one cooperatives owned by 50,000 Alabama farmers are doing a 12½ million dollar business each year. Through these cooperatives farmers are making more profit on what they sell and are buying at a good saving. J. A. Beatty, API extension marketing specialist, predicts that farmer-cooperatives in the State will grow both in number and size. The cooperatives serving their members best, he said, are those formed where there is an economic need for them, and where members give loyal support, provide adequate financing, and run the cooperatives on a sound business basis.

FALL FRESHENING HELPS  
PRODUCERS TO MARKET MILK

Alabama dairymen know that when prices come back down and buying falls off, there'll be keen competition in milk production.

C. E. Teague, API extension dairyman, predicts that with normal times Grade A producers probably will have to sell some milk at manufactured milk prices during flush seasons unless they freshen their cows in the fall. Fall freshening will allow producers to set a high base in the fall and winter when milk is usually short. Ten they will be able to sell a greater amount of Grade A during spring and summer than those dairymen who have a low base due to producing low in fall and winter and high during spring and summer.

Farmers who sell ungraded milk to plants should have their cows freshening in the fall so the biggest milking period will come when field work isn't pressing. Teague said plants need a steady stream of milk the year around to insure regular operation.

EPISCOPALIANS TO HEAR  
BISHOP CARPENTER DEC. 1

The right Reverend Charles C. J. Carpenter, Bishop of the Diocese of Alabama, will celebrate the Holy Communion and deliver a message for members of the Episcopal Church on December 1st. This meeting will be in the Presbyterian Church at 4 o'clock on that day.

All people interested are cordially invited to attend.

Since making inquiry as to the homeplace of the elusive "Kilroy" we have had quite a number of replies from persons laying claim to knowledge of his native habitat. Some of these replies could be true, but most are purely imaginative. We are now engaged in weeding out the best for reproduction in ARMY TALK through the cooperation of Clanton County News. In the meanwhile, if there is anyone in Clanton who has not sent us the information we seek, and who knows absolutely where Kilroy came from, get it in the mails to us right away.

Tarnished gilt buttons and costume jewelry, as well as picture frames may be freshened by using a small bottle of gilt paint and a small brush for applying. The color may be softened by mixing a little rouge with the paint in a saucer and blending well. Try out your color on another article until the shade is just what you want.

Stanton Pupils Enter  
Oratorical Contest

Shown above are three students of Stanton Junior High School, Stanton, who are competing enthusiastically in The Birmingham News-Age-Herald junior high school oratorical contest, with the school's principal.

They are top (left to right), Essie Lou Jones, W. D. Halladay, principal.

Bottom (left to right), Earline Gay and Marie Plummer.

There is no greater interest in The Birmingham News-Age-Herald oratorical contest anywhere in Alabama than at Stanton Junior High School, Stanton.

W. D. Halladay, principal of the school, is the father of Maxine Halladay who won the state championship in The News-Age-Herald senior high contest while at student at Oakman.

## CONGRATULATIONS

To Mr. and Mrs. B. O. (Buddy) Willingham on the successful opening of Hotel Willingham in Clanton. Your hotel is unquestionably a great asset to Clanton and the visiting public. We wish for you the most success and may your stay in Clanton be enjoyable, as well as successful.

## GARDEN VALUABLE

Some 200,000 Alabama farm families produce over \$20,000,000 worth of vegetables in their gardens each year. In addition, 50,000 gardens are grown by people who live in towns and cities.

The old "GI" chowline is being made easier for the boys from Clanton who still wear the uniform. Yesir, the men who control the bread-basket have gone all out for better meals for the boys.

Cedar or pine Christmas trees may have their green color preserved by soaking the branches in a strong solution of sulphate of ammonia (ordinary commercial fertilizer). Use 1 quart fertilizer to 2 gallons of water. The branches should remain in the solution from 24 to 72 hours.

High School, Oakman, in 1938. Mr. Halladay, who is conducting the contest for his school, realizes the value offered by this competition and is doing all he can to increase interest in the community.

Two contests are conducted, one for senior high schools; the other for junior high. Combined schools which have both senior and junior grades may compete in both contests, provided they enroll in both. Elementary schools which have junior high work may compete in the junior high contest.

The contest subject is: "The Kind of Education I Want in High School and After."

State finals for both contests will be held at Birmingham-Southern College, Birmingham. Birmingham-Southern will award tuition scholarships valued at \$2,700 to state finalists of the senior high contest. The News-Age-Herald will award cash prizes to state finalists of both contests and will pay railroad fare and hotel bill for each visiting state finalist and chaperon.

Canned fruit juices often lose the fresh fruit flavor because the air has been removed during vacuum processing, say research chemists of the U. S. Department of Agriculture. A simple way to restore the fresh fruit flavor to canned juices is to pour the chilled juice back and forth from one tumbler to another just before serving.

**CULL BROODY HENS**  
Breaking hens from broodiness takes a great deal of time—usually more than most poultrymen have to spare. So John Ivey, API extension poultryman, says they usually should be culled from the laying flock.

WILLIE GREEN  
CASE MOVED  
TO AUTAUGA

Counsel Claims Too  
Much Newspaper  
Publicity Given

The case against Willie Green (or David Buner) whose trial came up Monday for allegedly committing a series of burglaries in Chilton County, has been transferred to Autauga County. The case will probably be heard in Autauga County in the first session of the Circuit Court there next year.

Judge Glover made the decision after hearing the counsel's plea that an unbiased and unprejudiced jury could not be selected in Chilton County, following the publication in the Chilton County News and The Union-Banner of articles in last week's issue to the effect that Green was an escaped convict from Virginia.

Green's defense counselors claimed that since one or the other of the Clanton newspapers go into practically every home in Chilton County, a jury could not be selected that had no knowledge of Green's previous convictions. With the knowledge of previous convictions, the counsel pleaded, the jury that was selected could not give an honest and unbiased verdict.

The article that appeared in last week's Chilton County News, gave dates and circumstances under which David Buner (Chilton's Willie Green), was sentenced on three burglary charges in Virginia in 1938. The article also stated that Green was at present an escaped convict from the Virginia Penitentiary.

Plantersville Couple  
Wed For 63 Years

When it comes to a successful married life, Mr. and Mrs. C. E. Levens of Plantersville deserve some sort of a bouquet.

Recently at their Plantersville home, Mr. and Mrs. Levens celebrated sixty-three (63) years of married life. To mark this occasion there was a family reunion.

Present at this reunion were eight children, 18 grandchildren, and 11 great-grandchildren. These included two sons, B. J. and B. E. Levens and daughter, Mrs. Lucy Tuford, all of Plantersville; Mrs. Eugene Conner and Mrs. John Perkins of Birmingham; Mrs. R. H. McFarland, of York, Ala.; Mrs. J. L. Young, of Wetumpka, and Mrs. John Jones of Selma.

Escaped Soldiers  
Strip, Rob Victim

Last Sunday four soldiers at Fort McClellan overpowered the MP guard Pfc. West, stole an army vehicle and escaped from the army stockade.

The escaped prisoners, known as Jones, Myrre, Carter and a negro named Griffin, brought West to near Hefflin, Ala., where they carried him off the road, stripped him of his clothing, took his belongings and left.

Just east of Calera Sunday afternoon late the soldiers overtook Mr. C. Burkhalter of Sylacauga. They forced him off the road. The soldiers carried Burkhalter over near the Bibb County line west of Calera. There they took some \$36 from Burkhalter, a watch, stripped him of his clothes and left.

Highway Patrolmen Hugh Champion and Luther Kendrick, who reported the events, said no trace had been received of the soldiers whereabouts at present. They said reports had been received that the prisoners were believed to have been seen in Greensboro, Kendrick and Champion recovered the army vehicle near Calera.

Chilton TB Assn.  
Leads Alabama

Miss Flora Harris, retiring treasurer of the Chilton County Tuberculosis association received high praise from Mr. K. W. Grimley, Executive Secretary of the Alabama Tuberculosis Association. Mr. Grimley wrote as follows: "You have turned in one of the nicest summaries of expenditures and work done of any of our county tuberculosis associations. Please do accept my congratulations on the very real contribution which you have made both individually and as a committee to the tuberculosis control program. You have certainly taken Chilton County and made it into an example which we can use most effectively in talking about programs of this kind throughout the state."

The Chilton County Tuberculosis Association, at the November meeting, expressed appreciation for the excellent and efficient manner in which Miss Harris has handled the financial affairs of the organization. Miss Harris is now a member of the advisory committee.

Miss Harris commended the organization on their selection of Miss Robbie Hardy as treasurer. Miss Robbie Hardy assumes her duties as the 1946 Christmas Seal Drive opens. She said, "I am happy to help in the splendid Health program sponsored by the TB Association."

Christmas Seal Dollars should be mailed to Chilton County Tuberculosis Association, Miss Robbie Hardy, treasurer, Box 226, Clanton, Ala.

TOT MISSING  
OVERNIGHT IS  
FOUND UNHURT

Gray Child Of  
Clanton Strays From  
Montevallo Farm

Montevallo, Ala. — Blond, blue-eyed Randy Gray, 2½-year-old son of Mr. and Mrs. Horace Gray, of Clanton, was found safe in the woods near Montevallo at 9:30 a.m. after being missed since 11:00 a.m. the day before.

The child was suffering from exposure, and a physician was hastily summoned. The child was found by Robert Jarvis, of the Pea Ridge Community, near here. Jarvis was a member of the searching party which looked all night long for the missing boy.

Jarvis said he found the boy in some underbrush two miles northeast of Montevallo.

"I heard him crying in the underbrush," Jarvis, farmer said.

Jarvis said the first thing the boy asked was: "Is daddy coming?"

Then when the father, Horace Gray, Clanton painter, approached with his other son, 5-year-old John Gray, the 2½-year-old missing boy exclaimed: "Johnny sees me!"

The parents feared the boy may have fallen into one of two creeks and three lakes that dot the mountainous terrain into which the child wandered Tuesday morning with the 5-year-old brother, John Reid Gray. The older brother was found safe about 100 yards from the house into which his grandfather, Whit Brown, was moving. He was discovered shortly after the parents sounded an alarm for their two missing children.

More than 350 persons of this community waded through mud and water all night long, using searchlights, miners' lamps and ordinary flashlights in their hunt for 2½-year-old William Randall Gray.

An appeal over Birmingham radio stations early Tuesday afternoon brought additional searchers from Montevallo, Clanton, Dogwood Mines and even Birmingham.

The parents, Mr. and Mrs. Horace Gray, live on the Selma Road near Clanton. They had come to the 370-acre farm near here to which Whit (continued to page 4)

Billie Cox Is  
Wounded

Billie Cox, of Clanton, who is a soldier, stationed at Craig Field, Selma, was wounded by pistol fire last Sunday night when a negro's pistol accidentally fired.

According to Chief of Police Anderson Cox and his wife, Mae Popwell Cox, were about to board a bus for Selma. The negro was stepping off the bus when he dropped a pistol that fired striking Cox in the leg. The negro grabbed his pistol and ran. Cox was treated at Lawrence Clinic. His condition was not serious.

Thanksgiving Wreck  
Injuries Mont'g Couple

Mr. and Mrs. Thomas H. Lowe, of Montgomery, received minor injuries last Thursday when they were struck by a car driven by a negro, indeed Farris, of Birmingham, three miles below Verbena. Mr. and Mrs. Lowe were going north. The negro, Patrolmen Kendrick and Champion reported, failed to make the curve striking the Lowe car.

Mr. and Mrs. Lowe were carried to the Central Alabama Hospital for treatment of cuts and bruises. The negro was uninjured.

FARM SHOP AVAILABLE

The Vocational Agriculture farm shop at Chilton County High School will be open to farmers each Wednesday afternoon from 1 o'clock until ten o'clock.

Farmers are urged to bring in their farm equipment and do the needed repairs during the winter. New farm equipment will be hard to get for some time yet.

There will be no charge for the use of the shop and tools.—J. Reed Thompson, Vocational Agriculture Teacher.

Navy Divers Aid In  
Search For Two  
Lost Men

Search was still being made Wednesday for two of the three men drowned in the Coosa River above Lay Dam last Sunday afternoon.

The two men who remain to be lifted from the river bed are Leo Kayser and George R. Mitchell, both of Bessemer; Mitchell was a recently discharged veteran.

The body of Arthur Green, a Jefferson County Solicitor, was found early Monday morning.

The Sheriff's office reported Wednesday morning that Navy divers had been secured to aid in the search.

It was reported that a party of four were out in the river fishing last Sunday afternoon. The waters got rough and tilted the boat. A fourth member of the group, Washington Pitts, of Bessemer, made his way safely to shore after the boat capsized. The boat was near Point Creek ½ mile above Lay Dam. It was reported that the water was about fifty feet deep at the point where the boat capsized.

Coroner Leroy Martin and Sheriff I. A. Nivens of Clanton led a search-party to the river banks soon after the word reached Clanton that the boat had gone under.

The search continued all night Sunday night, Monday and Monday night until the water got too rough. The search was continued Tuesday with divers, aiding in the search.

As the News went to press Wednesday Kayser and Mitchell remained to be found.

HENRY C. RUTHERFORD

Henry Coleman Rutherford, age 15 years, died in Roper Hospital at Charleston, S. C. The body arrived here over the L. & N. Railroad Monday at 10:30 a.m. The funeral was held at 2:30 p.m. Tuesday from Mr. and Mrs. Robert Teel's residence here in Clanton, conducted by the Rev. Carlisle Miller; interment was made in Clanton Cemetery.

He is survived by his parents, Mr. and Mrs. M. A. Rutherford; one brother, Lawrence E.; one sister, Miss Mary Esther Rutherford, all of Charleston, S. C.; grandmother, Mrs. Margaret Rutherford, of Clanton, Mrs. H. C. York, of Montgomery, Ala. Spigener Funeral Home in charge.

Negro Accidentally  
Shoots Self While  
Going Hunting

Jessie Lee Little, 70-year old negro of Clanton, accidentally shot himself on the old highway north of Clanton last Saturday about 1:30 p.m.

According to reports from the Coroner, Leroy Martin, Little had started hunting in a buggy. He got out of the buggy to put a dog in. His gun, a 12-gauge shot gun, was lying across the seat. Little would push the gun back and forth. He pulled the trigger and accidentally set it off. The lead struck the old negro in the stomach killing him immediately.

ETHERIDGE S. HAY

Etheridge S. Hay, age 21, of Clanton, died at a Wetumpka Hospital, November 25th. Funeral services were held at Highland Baptist Church November 27th, at 2:00 p.m., conducted by Rev. Homer Carroll; interment in adjoining cemetery.

He is survived by his parents, Mr. and Mrs. W. H. Hay, of Clanton; five brothers—R. W., Orville, Edward, of Clanton, W. H., of Langdale, Virgil, of Santuck; two sisters, Mrs. T. J. Goodman, of Tallapoosa, and Mrs. W. Langley of Mobile.

Palbearers: Harold Culp, Doss Billingsley, Eugene Kelley, Winston Lockhart, Ed Langston, Melvin Langston and Lamar Powell.

Spigener Funeral Home in charge.

## HERE WE GO AGAIN

Off on another honeymoon, with President Truman offering good will to the Republican Party that controls Congress. Everybody happy and brotherlove and harmony beating out the melody. Although sincere in their joint anxiety to work together for the best interest of the nation, the administration and the GOP will find that many honeymoons are short lived. It is not impossible that the two could unite under a banner of unity. Perhaps the friction that existed between the Republicans and Southern Democrats in Congress will be eliminated in the new body. With a positive understanding between the White House and the 80th Congress, it may work more effectively for the country's good than before. It has been possible to be bipartisan on foreign affairs could it not be so with domestic issues? January will bring the period to find the answer.

## A BLAZE OF GLORY TO COME

As the north wind blows one thinks back to days of slacks and shorts. Winter's outlook is long but spring finally makes its demand and moth balls finally claim their woolens. A note to lift the downhearted, at this time, is the announcement of the official spring colors for gentlemen's wear. Harken to merchandise of liberty gray, skyline red and harbor blue, and cheer up! The top 25 quality houses that create ensembles for men, from socks to hats, will strongly influence the trend to color. Men of Clanton will blossom when spring sun turns her kindly cheek. Too early to plan for gardens we might dwell on thoughts of how we will look in a wardrobe of skyline red. Ladies, look to your laurels.

## MAN'S GOOD WORKS

In November the parishioners of a Baptist church in a small New York Town, harvested two acres of carrots planted last spring. Termed 'The Lord's Acre,' the yield of 1,000 bushels is to bring money for the furtherance of a world mission crusade. Topping the carrots, sorting into bushel baskets, these members will bring about \$2,800 into its church coffers for the good work. From man's endeavor, by co-operation with his fellows, his effort will spread the gospel through a harvest of carrots. Benefits from the seed sown in the name of the Lord, are here demonstrated. Christianity is vital to U. N. success, we read. Well, here is a church that has transcended the barriers with but two acres of farmland.

One wonders if sports isn't more of a character-builder for the fans than the players, on the basis of being tolerant and good losers

## FOLKS & THINGS

### ABOUT TOWN

by BEN

Well, folks, old man fly lit on us this week and we are trying to write the column from a bed pillow. The wife is on one side with a bottle of Vick's nose-drops and a bottle of aspirin is on the other, going down fast. Other than feeling like we been run over by a Jeep coming and going, we feel fine.

One of our local merchants tells us that he is doing a promising business. He says that the manufacturers promises it to him and he promises it to us.

'Looks like the Christmas Season is here again and everybody will be in a grand rush from now until December 24th to finish up that last shopping list that they wrote to take the place of the one they lost and had made to take care of the one that they had made first but couldn't buy any of the items because all the merchants had sold out. There should be a moral in that paragraph and we think it is "SHOPEARLY."

From now on its Dr. Daniel Boone. Our most ardent fisherman turned hunter last week and came home with a deer. We're speaking of the hunt enjoyed by Dr. W. C. Golden, R. C. Williams, James Dennis, L. E. Foshee, M. D. Foshee, Jr., Jesse Frank Foshee, Albert Bowes, M. R. Lancaster, Dr. Joe Edgar, Dr. J. P. Hayes, B. L. Venable, Mr. Murray, Leo Headley, Chester Davis and R. W. Lowe. Dr. W. C. Golden, we understand, is the only one who got a deer. We also understand that the doctor made the remark that it was two deer hunts he had been on—his first and his last.

An old familiar landmark in Clanton is this week being torn down. The old house across the street from the Baptist Church is being wrecked by Charlie Wade. The Easterlings have lived there for years and the house is one of Clanton's older homes. What Charlie is going to put in its place remains to be seen. Although, you can bet that Charlie will replace the old building with a modern structure.

Beatrice Bryan, the Circuit Clerk's clerk at the courthouse is always good for a paragraph. On her desk she has a glass paper weight. Inside the glass as written on a piece of paper the three "R's" of life, which she gives as "Romance, Rent and Rheumatism."

The charity football game played in Clanton last Wednesday night was well and good with some \$90.00 going into the Crippled Children's Clinic. What we want to know is why can't Clanton play a post-season game on Thanksgiving Day as they do in Birmingham with funds from this game earmarked for the Crippled Children. We believe the game would be a walloping success.

We bet there were a lot of hogs died with the sore head in Clanton County the first of this week.

Wish we could be lucky like Jack Lawrence. He won \$144 at the drawing last Tuesday afternoon—just like that; out of the clear blue nothing.

## LOCAL MEN NOW IN EUROPEAN THEATRES

Furstenfeldbruck, Germany — Several Alabama men have recently arrived at this European Theatre Army Air Forces Reinforcement Depot, situated in the pine woods near the scenic Bavarian lake country.

While at this post, which was formerly a crack Luftwaffe flying school, they will have an opportunity to enjoy the famous scenery of one of the most popular tourist resorts of pre-war Europe. Under the augmented recreation, education and orientation program presided over by Col. Malcolm N. Stewart, post commander, they will find regularly scheduled bus runs into Munich, picturesque capital of Bavaria, and one of the art centers of Germany. They will also be afforded a tour of the notorious Dachau Concentration Camp.

After their processing and orientation is completed at this base, the following Alabama men will be assigned to permanent stations with the Occupational Air Force in Europe: Pfc. James W. Carroll of Louisville, Ala., and Pfc. Dewey L. Lewis of Clanton, Ala.

## DEMAND FOR MEAT

Alabama Farmers who produce cattle and hogs economically can expect a good profit next year because demand for meat early in 1947 will continue strong, say API extension livestock specialists.

## MORE NEWS ABOUT F.H.A.

The F.H.A. met in the Library November 26, 1946.

This was a program meeting and this month's subject was "Radio Artists." The program was a very interesting one on "The Life of Kate Smith," with Peggy Ramsey in charge. Evelyn Lowe gave a brief history of Kate's family. Then Peggy gave the Life of Kate, bringing out all the important events of her life. To close the program we sang, "God Bless America," a song Kate made famous.

At the close of the program we discussed our Christmas Party, which could not wait until our business meeting of December 10th. The date of the party was set for December 6th. The F.H.A. boys will be our guests.—Frances Collins, Reporter.

## CROP INSURANCE

1947 cotton crop insurance is now being offered for sale to every farmer in Alabama. W. B. Crawley, chairman of the State PMA Committee, urges growers to carefully consider carrying insurance next year.

Half a large turkey yields considerably more cooked meat than a whole small turkey of the same weight, say home economists of U.S. Department of Agriculture. For instance, an 11-pound half turkey gives 15 to 20 per cent more than an 11-pound whole turkey.

Turning the garden now will cause some erosion. But the facts that many insects can be killed and nature enriches the soil greatly offset the erosion damage.

The amount of money paid out to furnish you with telephone service is increasing faster than the amount taken in. That's because telephone materials, wages, services, and new building costs have all gone up tremendously, while telephone rates have remained as low or lower than they were many years ago. Telephone earnings today are not only the lowest in history, but are dangerously low despite a record volume of business. Reasonable earnings are required to safeguard the full usefulness of the telephone, for your community.

Out of the long ago we have read of the old blind lamp-lighter. This poor man had mastered the streets of his home town, and had secured the position of lamp-lighter. He would go up and down the streets in the late afternoon, opening the gas jets and lighting the flames. Tired men and women walked home in safety from the lights that he had set to burning. After this man had made it light for others, he himself, had to stumble on his way home in the darkness. He had made it bright for others and this brought joy into his heart. You may not always be in the light yourself, but you know what it takes to brighten the path of others. Then it becomes our duty to create a light that will shine on the path of those about us. Create a light, even though you be in the dark yourself.

One part fat to 3 or 4 parts lean makes sausage of best quality which will fry itself and not be too dry. Add 5 teaspoons salt, 4 teaspoons sage and 2 teaspoons black pepper for each 4 pounds of mixed meat. For even distribution, sprinkle the seasoning over the meat before it is ground. Grind meat coarsely the first time and as finely as desired the second time. Double grinding thoroughly mixes fat, lean and seasoning.

ROTONONE CONTROLS CATTLE GRUB AND LICE

Cattle grubs and lice that cost Alabama farmers thousands of dollars yearly can be controlled—and December is the time to start fighting them. Beef cattle need more feed to fatten, dairy cows give less milk, and many animals are killed when infested with these winter pests. But W. A. Ruffin, ARI extension entomologist, says that rotenone applied as a spray, dust, or dip will keep animals free of grubs and lice.

Spraying at 400 pounds pressure is the most effective way to apply the poison. The spray is made by mixing in 100 gallons of water eight pounds of powdered derris, cube, or timbo that contains five per cent rotenone. Ruffin advises that if only grubs are present cover the animals' backs, but if also treating for lice spray all over. Use about a gallon of the mixture on each four head of cattle. Make the first spraying in December, another

COLLINS CHAPEL

(Too Late For Last Week)

Mr. and Mrs. Vellie Littleton and grandson, Ronald Marcus, visited relatives in Sylacauga Sunday, November 17.

Mr. and Mrs. Holly Jones and son, Joe Earl, were the guests of Mr. and Mrs. Green recently for dinner.

Mr. and Mrs. Herman Gore and daughter, Sarah Nell, spent Sunday afternoon with Mr. Gore's parents, Mr. and Mrs. Lee Gore.

Mr. and Mrs. Marshall Eddy and Miss Francis McKaney visited Mr. and Mrs. Jody Bean and family Sunday, November 17.

Mr. and Mrs. Marion Smith and daughter motored to Collinsville, Ala. to visit Mr. Smith's parents recently.

Mr. and Mrs. Eddie Hall and Shirley, visited Mr. and Mrs. Clyde Little in Birmingham Sunday, November 17.

Mrs. Julius Smith and son attended church Sunday at Collins Chapel Sunday and spent Sunday afternoon with Mrs. Smith's parents, Mr. and Mrs. Perry Gore.

Collins Chapel P-T.A. met Friday night, November 22. Mrs. Strain called the meeting to order. Mrs. Vellie Littleton read the devotional, Psalms 34, and gave a very helpful talk on "Guiding Our Youth Through Education." Indeed we enjoyed her good talk.

Miss Sadie Johnson read the program's for the coming year that Mr. Smith, Mrs. Strain, Mrs. Vellie Littleton, Miss Schurter and Miss S. B. Johnson had made out. Now, parents, you missed something fine when you missed Mr. Lewis McGee's talk on "Transportation on Buses." Mr. McGee wants cooperation of all parents, teachers and pupils. Mr. McGee's highest aim is "to care for the child." Do not miss our P-T.A. in December.

Mrs. Ruth Benson was our new P-T.A. member. Glad to have her. Mr. Smith made a financial report to the P-T.A. Watch for the December announcement of the Collins Chapel P-T.A. This community is interested in the Collins Chapel School.

Mr. and Mrs. Virgil Long, Mr. and Mrs. James Jackson and Mr. and Mrs. Oden Jackson visited Mr. and Mrs. Andrew Jackson Sunday, November 17th.

Mr. Miles Benson had for his visitors Sunday Mr. and Mrs. Reuben Gore and children.

Rev. Lawley was in the pulpit at Collins Chapel Sunday and delivered a fine sermon.

Mr. and Mrs. Emmett Popwell of Clanton visited Mr. and Mrs. Hubert Aycock the week end.

Mr. and Mrs. Charlie Maddox and daughters attended the singing Sunday afternoon at Center Hill.

Willard Wyatt has entered the second grade at Collins Chapel School. Glad to have him. Willard comes from Mr. Pleasant School.

Preston Bean was home this week end to see his parents, Mr. and Mrs. Harlan Bean.

Mr. and Mrs. George Murray of Clanton attended church Sunday and spent Sunday with Mr. and Mrs. Jerrill Hubbard.

Mr. J. L. Johnson and sisters enjoyed the hospitality of Mr. and Mrs. Perry Gore Sunday for dinner.

Preston Bean was the guest of his parents last week end.

We are so sorry to know that Mrs. Strain's father, Mr. John Benson, is very sick.

Mrs. Grady Littleton, Jimmie and Virginia Ann, visited Mr. and Mrs. Russell Littleton Sunday.

Mr. and Mrs. Winford Jackson and sons visited Mr. and Mrs. Reuben Jackson Sunday.

Mr. and Mrs. Russell Bean, Evie Joe and Margaret Ann, went to Center Hill Sunday afternoon to the singing.

Rev. Lawley and family visited Mr. and Mrs. Lee Gore Sunday afternoon.

Mr. Bob Burks was an early caller on Mr. and Mrs. Joe Jackson Monday morning on business.

A dust that contains 2 1/2 per cent rotenone can be used to treat small herds of dairy cows, 4-H Club calves, and other cattle that are easy to handle. One pound of dust will treat six to eight animals.

If cattle are to be shipped, Ruffin says to use 10 pounds of five per cent rotenone in 100 gallons of water. A good wetting agent should be used in the dipping vat. Two ounces sodium lauryl sulphate or two pounds wettable sulphur in 100 gallons of water are satisfactory for this purpose.

GARDENERS GET SET FOR ANOTHER YEAR

Home gardeners are finishing up the year's work by getting their gardens ready for another season.

W. A. Ruffin, ARI extension gardener, reports that farmers in every section of the State are putting down manure and breaking their gardens. Better yields and fewer insects next year will be the results of this work done now, he said.

Two cotton baskets of stable manure need to be spread on each 100 feet of row. On sandy soils also apply a gallon of basic slag or ground limestone. Ruffin says to then flat break the garden and leave in this shape until early spring when it should be disked and laid off in rows.

It is not safe to buy land or to lend money and accept land as security without first investigating the Title of the land. Often there are unpaid mortgages and judgments or other liens, affecting the Title, which an Abstract would set out. Therefore, when buying land or lending money thereon, it is important that an Abstract of Title be furnished. A few dollars spent for an Abstract is cheaper than going ahead and having a law suit a little later on.

## Gray Children

(continued from front page)

Brown (Mrs. Gray's father) was moving Tuesday to help in the transfer.

As the furniture was being moved, the two children playing near their grandfather's new home disappeared. The estate on which they became lost is known as the Mudd Place, owned by Douglas Kirkpatrick, Birmingham automobile dealer. Overseer of the estate is T. R. Knowles, brother-in-law of Mrs. Gray.

Late Tuesday night members of the search party found a few threads of blue cloth caught on a barbed-wire fence about two miles from where the child disappeared. The child was wearing blue clothing and it was believed he may have walked into the mountainous terrain now being searched.

School was dismissed in Montevallo early in the afternoon so the older school children could join the search. Business men of Montevallo and surrounding communities closed shops to aid in the hunt. Many of them were still probing waters of lakes and creeks studying the area Wednesday, and after a sleepless night, they expressed determination to stay on the job until the child is found.

"We are reverently hoping and praying the child will be found alive," said the boy's grandfather. "We are doing everything we possibly can to find him," he continued.

The child's father, Horace Gray, a painter of Clanton, also was up the entire night and refused to take any rest this morning. About 12 state highway patrolmen joined the searching party.

Bro. Hand brought us two very inspiring sermons Sunday and Sunday night.

The lunch the WMS prepared and brought to church Sunday was enjoyed by all. We want to thank Mr. Proctor Davenport and Jake Smith for the two large fruit cakes. They sure did help out. This dinner was planned by the social committee, Mesdames Harvey Davenport, Marvin Oates and Eymon Rasberry.

The afternoon singing was very well attended. Mr. Maaron Cofer directed the opening song, then prayer by Bro. Hand. The directors were Miss Mary Oates, Joyce Oates, Avonnie Langston, Mr. Billy Hayes, J. C. Veasey, J. W. Langston. Pianists were Mesdames E. C. Hand, Eddie Childress and Miss Marie Crumpton. We hope to have more singers the first Sunday afternoon in January.

The WMS ladies will meet at the home of Mr. and Mrs. Joe Ward Friday at 10:00 a.m. for a day of prayer. We urge all the ladies of this community to be present. Bring some sandwiches and spend the day.

Andy Davenport is home on furlough after being overseas for eighteen months. We were all glad to have Andy back at church with us Sunday.

Visitors at church Sunday were Mr. and Mrs. Willie Hayes and baby of Clanton, Mr. Leighton Gibson and friend of Birmingham, Miss Myrtice Covatt of Clanton and a boy friend of Miss Loune Oates a Mr. Williams. We were glad to have them and invite them back.

Mr. Pratt Crumpton, Winston Langston and Raymond Waldrop made a business trip to Birmingham last Friday and had dinner with Mr. and Mrs. Doyle Thacker.

The follow-up committee was nominated to prepare a Xmas program and tree. The committee consists of Mesdames Harvey Davenport, D. E. Moore and Pratt Crumpton.

Misses Loune Oates and Kathleen Rasberry of Birmingham spent the holidays at home.

Mr. and Mrs. D. E. Moore's visitors during the week end were Mrs. W. L. Garner of Maplesville, Mrs. Otis Moore and sister, Billie and little daughter Vivian Faye of Phoenix City.

Mr. and Mrs. Floyd Ward and children and Mr. and Mrs. Jimmie Ward spent the holidays with parents, Mr. and Mrs. F. A. Ward.

Mr. F. C. Gibson has returned home after a ten day deer hunt in Baldwin County.

Mr. and Mrs. Woodie Asberry made a trip to Birmingham last Tuesday to get their new refrigerator.

Mr. and Mrs. F. C. Gibson visited Mr. and Mrs. R. C. Moore of Six Mile Sunday.

## COLLINS CHAPEL

We all are so glad to see Peggy Burnette back in school after spending a few days in the Clanton hospital. Sue McKinnon spent Thanksgiving week-end with her relatives, Bobbie Gray, of Clanton.

Robbie Aycock is wearing one shoe. He stuck a nail in the other foot.

Mr. Julius and Miss Lucille Barrett visited Mr. and Mrs. F. E. Barrett Thanksgiving.

Mr. and Mrs. E. Langston of Sylacauga were the guests of Mr. and Mrs. M. B. Adams recently.

Rev. McNunley was in his pulpit Sunday at New Salem and delivered a good sermon.

Mrs. Arthur Davis, Jackie, Sue and Judy enjoyed Thanksgiving dinner with Mrs. Susie Benson.

The weather has turned some colder and people are killing hogs.

Arrived Monday night, December 2nd: a boy at the home of Mr. and Mrs. Alford Davenport.

## Eight People Died In Chilton County Last Year From TB

"Just suppose a member of your family happened to be one of the eight people who died in Chilton County last year from tuberculosis."

"Just suppose you were one of the persons in Chilton County who at present are known by health officials to have the disease."

"Christmas Seals are on the job to fight tuberculosis. Are you doing your part to protect your home and others by buying and using them so their mission of saving lives can be successful?"

This challenge to increase the fight against tuberculosis was underscored this week by the Chilton County Tuberculosis Association, issued as a reminder that "Christmas Seals" protect your home against a disease which kills more Americans every year than all other communicable diseases.

Describing tuberculosis as the chief murderer of Americans in their prime—as the leading cause of death in the 15 to 35 age group—the Association urged increased purchase of Christmas Seals as a means of financing a prevention and control program to avoid further needless loss of life in Chilton County.

"Tuberculosis can be prevented and cured," they said, "if every person who can, will add to the fund designed to fight the disease on a wide-scale basis. The Christmas Seal is the only campaign held to finance work of the volunteer tuberculosis associations."

Alabama's tuberculosis death rate was 48.7 per 100,000 in 1945, according to State Health Department records, with 1,434 persons losing their lives to the disease. The records show that eight deaths occurred in Chilton County last year.

"Just suppose it happened to you—or a member of your family."

Nice attendance at Sunday School Sunday. Ninety-seven present. Church services following and a nice crowd present. The pastor's subject was, "The Home."

Won't you join our P.T.A.? Mrs. Bill Ruddle is President; Mrs. Mildred S. Burnett is Secretary. They're doing a nice job this year and have a full year planned.

The polls will be open from 8:00 a. m. until 4:00 p.m. at each voting place, December 7, 1946. It is very important that you make a very special effort to vote in this election. Secret ballots will be on hand for voting. The nominees are already listed on the ballots. However, if you do not approve of any of the nominees there is a place left blank on the ballot for you to write in your choice. We hope that we will have a large percentage of the farmers voting in this election. VOTE FOR YOUR CHOICE!

Remember that most flowering plants must have sunshine to bloom. Therefore, a south window is the best location for indoor winter flowers. Foliage plants which are grown for their decorative leaves, may do well at north windows.

## METHODISTS' "WHITE CHRISTMAS"

Birmingham, Ala. — Messages from various sections of Alabama as well as West Florida indicate that Methodists and other lovers of childhood are preparing to make liberal response to the call of the Board of Directors of the Methodist Children's Home at Selma for generous contributions on "White Christmas," December 22, to assure the maintenance of scores of little ones at the Home during 1947.

These messages received at "White Christmas" campaign headquarters, 606 First National Building, Birmingham, with Mrs. O. H. Horton in charge, also show that friends of the Home generally realize the need for increased contributions to meet the pyramiding cost of all food, clothing and other needs, including the cost of operating this Home.

Answering many inquiries, it is also pointed out by the chairman of the Board of Directors, Kenneth E. Cooper of Birmingham, that many new children are coming into the Home now. The aftermath of war is having its ill effect on the lives of many children. Most children entering the Methodist Children's Home are half orphans, some few are full orphans and others have both parents living, mostly court cases.

As a result of these conditions, the Home is serving more children than ever before, although the stay of many is more or less temporary, pending the adjustment of family situations. During a period of twelve months the Home has cared for more than 180 children, and the turnover was 60 during this period.

Due to war influences, including break down of family life in so many homes, the number of children with behavior or personality problems has greatly increased, and one result has been that most children now received at this Home are very young children, requiring a better trained and much larger staff, adding to the cost of operating the Home.

Checks made payable to the Methodist Children's Home may be sent to Virgil McCain, Superintendent of the Home, at Selma.

## Grammar School P-T.A. To Meet

The Grammar School Parent-Teachers held their December meeting on Monday evening. The program was most beautifully presented by the program committee, and was in the form of a Christmas pageant, with the children from the various grades giving the music and pantomime. The setting was most inspiring. The program was enjoyed by a large attendance.

## WITH OCCUPATIONAL AIR FORCE

Furstenfeldbruck, Germany — Here to do his bit in "winning the peace," Pvt. Earl H. Corley, son of Mrs. William Corley of Clanton, Ala., has arrived at the European Theatre Army Air Forces Replacement Depot, and will soon be assigned to permanent duties with the Occupational Air Force. From this depot he may be assigned to units serving Army Air Force planes in Germany, Austria, Italy or France. While here, in the heart of picturesque Bavaria, he will have an opportunity to enjoy the scenic beauties of the wooded foothills of the Alps. He will also be able to visit the notorious Dachau Concentration Camp.

Located about 20 miles from Munich, this \$15,000,000 former Luftwaffe flying school was Germany's Randolph Field. Now under the command of Col. Malcolm N. Stewart, Hampton, Va., it is one of the best equipped and most attractive air fields in Europe. At present several thousand G.I.'s each month are processed and orientated for their occupation duties at this key

## PATES CHAPEL

As we have been blessed with warm spring weather, we are blessed now with some cool weather. But most everybody is welcoming cool weather with great pride because it is hog killing time.

But we are unfortunate in having several in our community sick. Little Willard Dawson has double pneumonia but is some better and Helen Dawson and Mr. and Mrs. James Scott's baby was carried to the hospital for a check-up; also little Helen Hayes has the chicken pox but we hope them all a speedy recovery.

Mrs. Nora Cook has just returned from her sons in Tennessee. As well as to Georgia to the funeral of her brother. She has our greatest sympathy.

Mr. and Mrs. Hershel Maddox were the guests of Mr. and Mrs. Chester Maddox Sunday.

Mr. and Mrs. Lee Childress was the guest of Mr. and Mrs. Wilbert Maddox Sunday.

Miss Sara Lee Caton was Sunday guest of Miss Ester Patterson.

Mr. and Mrs. Coy Liveoak's guests Sunday were Mr. Maaddox, Jessie and Earle Gene Dawson.

Mrs. Coy Liveoak spent one day with Mr. and Mrs. Claude Dawson last week.

Mrs. Earl Hayes, Mrs. Charley Hayes, Mrs. Rena Maddox and Mrs. Claude Dawson spent the day with Mrs. Arline Dawson last Wednesday.

Mrs. Jim Dawson has been spending a few days with Mr. and Mrs. Evin Dawson while the baby has been sick.

Everybody come to Sunday school Sunday and BYPU Sunday evening singing.

From where I sit... by Joe Marsh

Taxes Versus Sudden Death!

Our town may not be the wealthiest in the country... but we're mighty proud of how we've spent taxpayer's money on improvements—like the railroad overpass on highway one.

I remember during Prohibition when hip-flask drinking caused a lot of nasty accidents at that railroad crossing. Folks agitated for an overpass—but the very law that made that crossing dangerous deprived us of the funds to correct it. (Beer alone, pays us over two million dollars a day in taxes.)

That went on all over the country... still is, in local Prohibition areas. Prohibition takes millions away in taxes, adds millions more to the cost of law enforcement.

But from where I sit, even that staggering burden is a drop in the bucket compared with the costs that can't be measured. The breakdown of law and order, gangsterism, juvenile delinquency, and all the other evils that accompany a law like Prohibition!

Miss Katrena and K. Lemone Yielding spent the holidays at home with their parents, Mr. and Mrs. R. L. Yielding.

The Army will avoid competing in the purchase of items in short supply in Clanton for which there is a civilian demand. In addition the Army will hold other purchases to a minimum of current requirements in the Third Army Area. Instructions have been sent to commanders of all posts, camps and stations in the seven southeastern states. Citizens of Clanton will naturally benefit by this latest directive of the Seventh Army, in compliance with War Department policies.

Good Follow-up To  
Concerts Expected

On November 11, Appleton and Field, young duo-pianists, initiated Clanton's first year of professional concerts playing to a capacity house of enthusiastic and proud citizens. Artists and audience alike seemed to be highly pleased with the occasion. Appleton and Field showed not only exceptional technical ability and fine ensemble, but a warmth and sincerity rare in so young a team. They faithfully interpreted classical and romantic music, but gave a special spontaneity to modern compositions which were comparatively unknown to Clanton music lovers.

J. R. Oglesby, Jr., President of the concert association and I. S. Levine, who led the membership drive anticipate a good followup in Walter Cassel, baritone, who sings in Clanton on January 24. A final concert, February 26, by John Sebastian, harmonica virtuoso, completes the series, which is limited to three because of the small church auditorium which can accommodate a membership of only 500. It is hoped that the success of these concerts will expedite the much needed larger auditorium Clanton has been planning.

**HERE'S HOW MUCH HOG DRESSES OUT**  
Hog killing time is on the way and many farmers are asking how much their hogs will dress out.  
API extension livestock specialists reply that each 100 pounds of live hog will produce about 55 pounds of trimmed pork cuts ready for the kitchen. This includes ham, bacon, shoulder, sausage, spare ribs, and pork chops plus 10 to 15 pounds of rendered lard for good measure.  
Yields of meat will vary some, but on average 200 pound hog will provide about twice 55 pounds, or 110 pounds, of meat and 20 to 30 pounds of lard. Three of those hogs will give about 400 pounds of pork and lard.

The recent championship rifle and pistol matches conducted at Ft. McPherson in Atlanta, and at Ft. Benning in Columbus, attracted quite a lot of attention. Frim all reports the matches were a great success with many civilians from all over the Third Army Area competing and winning a number of valuable awards.

Good News For Folks Who Suffer From

- ✓ STOMACH GAS
- ✓ SOUR FOOD TASTE
- ✓ ACID INDIGESTION

Do you feel bloated and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief from this nervous distress.  
Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.  
To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.  
Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.  
Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Shaky Brains.

### ENTERPRISE SCHOOL NEWS

We are very proud of our basketball teams. We had a nice game with Mt. Pleasant last Friday, December 6, at our school. The boys' score was 70-19 in favor of Enterprise. The girls' score was 11-8 in favor of Mt. Pleasant. We shall play again Friday, 13th.

The 9th Grade had charge of chapel program last Friday. The program consisted of a negro minstrel, and another stunt by the Junior III's. Sewell Miller and Jimmie Woodley from Jemison, also came down and played and sang for us. It was enjoyed by all. Sewell and Jimmie, by their band, will be at the school auditorium to put on a concert Friday night, December 13th, at 7:30. They are fine music makers, so everyone come out and hear them. The admission will be 15c and 30c. Come one, come all.

In addition to the concert there will be extra attractions. There will be a contest for the pretty girl and ugly man with cakes as prizes. Come on out and let's enjoy the fun.

Don't forget the concert. Be sure to come or you will miss some good entertainment. — Sarah Bowles, Reporter.

### BUSINESS MEN'S CLUB FORMED IN CLANTON

#### New Organization To Elect Officers After Holidays

On Tuesday night of this week a group of business men of Clanton formed the nucleus for a business men's organization, which will be brought into completion and working order shortly after the holidays. Temporary officers have been named, as well as committee on arrangements.

Provision was made for the temporary officers to call a general meeting of the business men of the city shortly after the holidays for the purpose of effecting a permanent organization, drawing up by-laws, etc. Further announcements will be made in the papers from time to time.

### SOIL CONSERVATION NEWS

Lit Cox, of Enterprise Community, cooperator of the North Central Soil Conservation District, is very much pleased with the returns he got on an acre and a half of sericea. The first growth was used for hay. The yield was a little over a ton to the acre. The sericea was then left for seed production. The one and a half acres yielded five hundred fifty-eight pounds of scarified seed from seven hundred forty-eight pounds of unblended combine seed. Combining costs were \$15.00. Figuring the hay at \$25.00 per ton and the seed at 30c per pound Mr. Cox netted in round figure \$110.00 per acre. This is a little above what most farmers receive per acre, counting the amount of labor the other crops received. Mr. Cox is planning to plant three or four more acres next spring.

W. A. Williams, cooperator of the North Central Soil Conservation District of Baker Community, got a rather late start on combining his sericea. Two-thirds of the seed had already fallen off before he started combining; however, he is harvesting a little over a hundred pounds of clean seed per acre. Mr. Williams stated, "If I had gotten here at the right time I would have harvested over a ton of clean seed from my seven acres."

Three and one-half acres of cotilaria were harvested last Saturday by J. N. Dennis's combine. The yield was one thousand and thirty-three pounds of rough unclean seed. These seed will be processed and planted back in Chilton County this coming spring.

B. C. Lenoir, west of Jemison, cooperator of the North Central Soil Conservation District, has some nice grazing that his cows are cashing in on for him. Mr. Lenoir plans to plumb four acres of alfalfa next fall with his ryegrass and crimson clover are now growing.

### CLANTON INDEPENDENTS PLAY TWICE HERE THIS WEEK

This week's schedule for the Clanton Independents Basketball team as follows:

The Independents are still in the undefeated column with five wins and no losses.

### GETTING LAST DROP OF LARD FROM HOGS

All tricks in the book are being used by Alabama farm families this year to get every drop of lard they can from hogs they kill.

For more and better lard, API extension livestock specialists suggest grinding the fat before rendering it. Separate ruffle or gut fat from lean fat and trimmings and render them separately.

A moderately slow fire is best and frequently stirring is necessary to prevent sticking. When a few cracklings dipped from the fat fry themselves dry the fat should be removed from the fire.

After the lard is strained, cool rapidly as possible and stir occasionally while cooling. This makes the lard whiter and gives it a finer texture.

### The Messiah To Be Presented Dec. 15th

The public is cordially invited to attend.

### Lucien P. Giddens Addresses High School P.T.A.

In a brilliant discussion of the A.E. A. legislative program, Mr. Lucien Giddens, director of personal relations of the Alabama Education Association, stressed that "The atomic age belongs to those who are trained to interpret it." Adding that the new age has brought new freedoms and consequent responsibilities. He pointed out that World War II was fought because we, as world citizens, failed to assume these new responsibilities.

Mr. Giddens explained that this training for world citizenship must be brought about mainly in the schools where we must have more character training. He explained that education is more than information and that information without character training is disastrous. The tragedy of today lies in the distressing negotiation of 600,000 teachers to more lucrative fields. One out of every three teachers today holds an emergency certificate and thus is unqualified to instruct the nation's youth in character-building or the arts or the trades.

In explaining how we can remedy this situation, Mr. Giddens explained the following points of the A.E.A. legislative program:

1. An average salary of \$1,800 for the Alabama teacher.
2. Extension of the school term to nine months.
3. Provision of sufficient teachers to relieve the overcrowded classroom condition.
4. Provision of adequate school physical equipment.

This program will cost millions of dollars which may be procured by: (1) Allotting the state income tax and the balance of the general fund to education; and (2) demanding Federal aid. The present Federal Bill for aiding states of low educational standards (Alabama is fourth from the bottom) would bring Alabama about \$19,000,000 if it is passed.

The long range view for Alabama takes in a program which will require \$75,000,000, and the tragedy in today's schools will not be corrected by a miracle, but by the understanding and hard work of civic organizations of which the P.T.A. is an important one.

### TIMBER MARKETING IS VALUABLE TO FARMERS

Higher prices for timber sold plus better care of woodland were benefits farmers got when they used Extension Service's timber marketing program this year.

In the 36 counties where the program is in effect, farmers asked for specialists' advice when they sold 61,000,000 board feet of saw timber, 13,500 cords of pulpwood, 12,900 poles and piling, 6,500 cross ties, 7,400 cords of fuelwood, and 27,300 fence posts. This timber was removed from 21,266 acres of woodland and sold for \$993,000.

Cecil Clapp, marketing specialists, estimates that marketing help made it possible for farmers to get 25 per cent —about \$250,000—more for timber sold. Added value obtained through proper timber management practices is considered above the cash benefits received, he adds.

### Mrs. Emma Connell

Mrs. Emma Connell, age 68, died at 9:00 a.m. Saturday at a local hospital. Funeral was held at 2:00 p.m. Sunday at Mt. Springs Church, conducted by the Rev. M. Lockhart; interment was made in the church cemetery.

She is survived by her husband, W. N. Connell; one daughter, Mrs. Burline Thompson, Clanton; one brother, Mann Mims, of Clanton; one sister, Mrs. Lettie Minor, of Sylacauga; five grandchildren; six great-grandchildren.

Palbearers: Earl Thompson, Paul Thompson, Bud Cleckler, Milton Cleckler, Luther Headley and Lonnie Minor.

Flower girls: Janie Lockhart, Evelyn Connell, Louise Mims, Marie Connell, Dorothy Lockhart and Thelma Minor.

Spigener Funeral Home in charge.

### On His Way Home After Overseas Tour

### Features Of New Kaiser Automobile

New, advanced body lines, unprecedented seating width and increased visibility are features of the new 1947 Kaiser Special automobile now on public display here for the first time.

Careful attention to the factors which provide passenger safety and comfort has been given in designing the automobile, a product of Kaiser-Frazer Corporation. The new 100-horsepower car is a full-size, six-passenger automobile with a wheel base of 123 1/2 inches.

A major achievement in passenger comfort has been gained in the new automobile by location of the rear seat well forward of the rear axle and wheel housings, so that all passengers are seated in the best riding positions. The advanced location of the rear seat provides greater space in the rear luggage compartment, and has made possible unsurpassed width of seat cushions, 62 inches both front and rear.

Increased visibility has been provided by moving the front pillar posts back, increasing the angle of 765-square-inch windshield, and providing greater side vision for the driver. Exceptional rear vision is provided too, by the 44-inch wide rear window.

Mechanical features include an all-steel body with safety glass throughout, and a rigid box-type frame, large self-centering brakes and extra wide wheel rims which provide steering safety and stability on turns at high speeds.

Longer-stroked shock absorbers have been incorporated into the chassis design for riding comfort and to enable the driver to maintain perfect control. Independent front wheel suspension is effected through helical springs, while semi-elliptic springs, rubber mounted with rubber inserts between the leaves, are used in the rear.

Exterior door handles are of a new type which operate by gentle pressure on a "trigger" concealed in the inside curve of each handle. The handles are designed so that there are no open ends to catch in clothing.

Interior appointments are featured by push-button door latches, an attractively designed instrument panel and deep cushion seats.

With an overall length of 203 inches,

### ALL DROWNING VICTIMS ARE RECOVERED

#### Last Body Lifted From River Bed Last Saturday

The last body of the three who drowned in the Coosa River Sunday, December 1, above Lay Dam, was recovered last Saturday morning, six days after the three went down.

Coroner Leroy Martin reported the order in which they were found and means as follows:

Arthur Green, the first recovered, was found early Monday morning, December 2. He was found by a party by Mr. L. B. Wingo of Birmingham. Green's body was found floating about 250 yards below where the boat went down. He was floating by means of a life cushion.

George Mitchell, the second recovered, was found at 11:45 a.m., Friday morning, December 6th. Mitchell's body was pulled up by Ruben Smithman and Winston Owen, Wilson Harris, a relative of Mitchell, was in charge of the crew. According to Coroner Martin, the only clothes remaining on Mitchell's body was his underwear and his left shoe. His body was found about 135 feet below where the boat sank and about 150 yards from the bank.

The body of Leo Kayser, the last of the three, was found Saturday morning, December 7th, at 10:43 a.m. He was pulled up by Woodrow Black and Lewis Spraggins. Kayser was fully clothed and was identified by relatives. His body was found 300 yards down from where the boat sank and 200 yards from the bank.

Funeral services for all the victims were held in Jefferson County.

## UP TO YOU

If the consumer resists, refuses to buy goods at high prices, the price line will get under control, the invasion on the public's pocketbook will cease. In places where beef was quoted at \$1 to \$1.25 a pound, it put the meat before those willing to pay this high price but found other shoppers who refused this inflated cost and were going to do something about it. Protesting, yet buying won't dent the economic pressure. But, a united front against high prices by means of a buyer's strike, will get a response. In some places, butchers, not wanting to get caught with high priced meat stocks in a falling market, have not met the increase from the wholesale house. Only in such co-operation will we get relief from these costs.

## THIS IS A RELIEF

Such furbelows as delight women, as trimmings and frills on their ensembles, again become legal. Lifting the wartime ban on skirt fullness and length, pockets and ruffles, finds a welcome response from Clanton ladies. There will still be the market for slacks, overalls and blue jeans that made that style so popular during defense industry, but most women are happy to return to a frivolous display. As a result of the order, women won't have to haul and pull skirts every time they sit down, which has been a bone of contention for some time. With the lifting of a war ban on so many items, this recent edict concerning women's apparel makes glad the feminine heart that hankers after fuss and feathers.

Plan as though you would live forever. Live as though you would die tonight.

How those responsible for the Atlanta fire last week can sleep nights, we do not understand.

We thought there were laws and regulations about fire-doors and fire-escapes.

We still say that something is wrong in our set-up when one man can do to our people what John L. Lewis was doing to them.

What our next governor, James E. (Big Jim) Folsom's plans are for naming his department heads seem to be the conversation of many in Chilton County these days. And it also seems that Mr. Folsom is keeping his plans pretty much to himself.

That new idea of photographing smells isn't new. We got a picture of ourself taken not too long ago that "stinks."

## BOWLES

Mr. George Bowles visited Mr. Clyde Chandler a while Sunday morning.

Mrs. Clyde Chandler and daughters, Willie Pearl and Sara Ann, spent Friday with Mrs. I. L. Williams.

Miss Willodean Moore spent Thursday night with Miss Sue Rawlinson.

Mr. and Mrs. G. C. Hathcock entertained with a birthday dinner in honor of their son, Herman, who has just returned from overseas.

The table was very beautiful with a large birthday cake as a centerpiece. It was Herman's 20th birthday. Those present were: Mr. and Mrs. G. C. Hathcock and sons, Herman, Grady, A. T. Eugene, and Miss Frances Mae Hathcock; Mr. and Mrs. Vernon Hathcock, Mr. and Mrs. Ralph Martin and Mrs. Humphries of Tuscaloosa; Mr. and Mrs. W. B. Chandler and son, Wayne; Mrs. Cora Chandler, Mr. Calvin Chandler, Miss Dixie Chandler and Flynn Chandler of Montgomery; Mr. and Mrs. J. E. Chandler and son, Grady, of Birmingham; Mr. and Mrs. Reuben Devaughn and children, and Mrs. Eula rown of Mt. Pisgah Community; Mr. and Mrs. Clyde Chandler, Misses Willie Pearl, Frances and Clyde Ruth Chandler, Little Gordon, Mrs. and Sara Ann Chandler and Miss Dolly Sue Black. The afternoon guests were: Mrs. Nellie Hathcock, Miss Ruby Nell Hathcock and Mr. and Mrs. George Scott; Mr. Barney Hathcock, Mrs. Ramsey and Miss Bettye Ramsey of Birmingham. Everyone enjoyed the day very much and left wishing Herman many more happy birthdays.

Mr. and Mrs. I. L. Williams and sons, Chester Lee and Henry, spent a while Sunday evening with Mr. and Mrs. Clyde Chandler.

POULTRYMEN ENTER BREEDING CONTEST

Alabama contestants will compete with poultry breeders from 11 other southeastern states in the 1947 phase of the country-wide Chicken-of-Tomorrow program.

This was announced in Chicago last week at a two-day meeting of the national committee supervising this three-year, better meat-type breeding project. The committee, comprised of representatives of both Federal and state departments of agriculture, state colleges and leading poultry associations, decided that the five top contestants in each of the state contests next year will compete in one of the five regional trials which will be held later in 1947. Area prizes next year will total \$3,000, while the national championship will be decided in 1948 when A & P Food Stores, which is underwriting cost of the program, will award \$5,000 in cash to the most successful breeder.

A sub-committee consisting of Dewey Fermoehlen and H. L. Shrader, both of U. S. Department of Agriculture; Clyde C. Edmonds, Salt Lake City; Dr. George Jaap, Ohio State University, and D. D. Slade, Lexington, Ky., was appointed to investigate facilities available for location of the 1948 contest. Birds entered during the last year will be raised in a 12-week growing period in one central plant so that

Did we remember last week to congratulate Lois and Raymond Sims on their "blessed event?" It was a boy and we hope favors his mother—now look out, Raymond, you're bigger than we are. Well, not bigger around maybe, but you grew taller. However, that's nothing that iodine won't cure. What we were going to say was, we wish the youngster many glad years of happy living and congratulate him on two fine parents.

Leo Thompson is coming right along on that new building over beyond the Post Office. It is going to be a "big thing" and impresses on us more and more the way Clanton is growing.

Dent Williams of the Central Alabama Motor & Implement Company, who is Distributor of the Frazer and the Kaiser automobile, got a brand spanking new Frazer the first of this week and has it on demonstration at his show room in South Clanton. You can read elsewhere in the News this week your personal invitation to come down and inspect this new automobile.

Folks used to go around wise-cracking about "no soap" this and "no soap" that. When you say "no soap" now, boy you ain't kidding.

Yep, it's true. You spend the first two years of a kid's life trying to teach it to talk. Then you spend the balance trying to get it to shut up.

Clanton's merchants surely have their windows decorated pretty for the Christmas season. We're not going sick our neck out and try to say which is prettier, you just come on in and look them all over and decide for yourself.

Did you hear what "Chick" Wade told the fellow who brought him a watch to fix the other day? You know "Chick" and Tooney Reeves run the Clanton Jewelry Company. The fellow told "Chick," "O! course the mistake I made was in dropping it." "No," said "Chick," "The mistake you made was in picking it up again."

Talking to Roy Roper the other day and he is getting ready to call a meeting of the leaders in all clubs, churches and other public spirited organizations in the City to get ready for a drive for a City Park. This is badly needed as we have stressed many times before and whatever the committee named to do forward this movement we are behind them one-hundred percent. As you know the City has already purchased the property but it takes more than a piece of land to make a City Park.

Now we know what a terrible thing it is to think your off spring might grow up to be a train caller or a bus caller. We can sit at our typewriter and hear the golden voice of Red Fuller calling the buses ever so often during the day and we shudder and say, "No, no, a thing like that just couldn't happen to me." But, alas, one never knows, does one?

A little boy from the city was describing the pig he had seen. "It was in a pen, and it was afraid of the little pigs. The little pigs chased the big pig around in the pen and after a while the big pig fell down from exhaustion, and the little pigs ate all the buttons off his vest."

Especially glad to see beef and pork more plentiful—are our horses.

Glad to hear A. A. Bazzel is back home from the hospital and doing better. We have missed Arthur's smiling countenance around town since he has been "laid up."

Thursday night, (tonight) and tomorrow night the Senior play will be presented at the City Hall. Miss Barton, the director, has worked hard drilling the children in their parts and you will certainly miss a treat if you fail to see one of these performances.

Wonder why they nicknamed B. N. "Judge" on that last hunting trip.

uniform conditions will apply.

Five regional meetings were announced for early January, to be held in Kansas City, Milwaukee, Atlanta, New York and on the Pacific Coast. State chairmen will select then the site and date for regional contests, in which uniform hatching dates and growing periods will be observed.

In reviewing this year's contest, Mr. Slade, who is national committee chairman, pointed out that 44 states are participating. Of these, 33 states have staged local contests in 1946, with many of the winners looking like formidable contenders for regional honors next year or national awards in 1948.

White Plymouth Rocks and New Hampshire breeds have been predominant among entries awarded certificates of quality this year, winning first place in ten and seven states, respectively. Other popular breeds include Rhode Island Reds, Cornish-White Rock crosses, Barred Rocks, Barred

Enterprise Students Write Of Half Holiday

**OUR HALF HOLIDAY**  
At our last P.T.A. meeting the room that had the most mothers and others present were to get a half holiday. Our room, the fourth grade, won.

Our teacher, Mrs. Wells, wanted to carry us to see something we had never seen before. We piled into Mrs. Wells's and Mr. Bookhold's trucks and were off to Clanton to go through the Post Office, to the Quick Freeze Plant, and the water works.

Mr. Sutly showed us all about how the mail was handled at the Post Office.

Then we went to the Quick Freeze Plant. There we were shown how meat was cured and sliced. We saw the lockers through and almost froze to death.

Then we went to the water works. There we learned how the water was purified and stored in a large tank to go to all parts of Clanton.

We then came back to the Ten Cent Store and had some ice cream.

It was now time to come back to Enterprise School and from there home.

We really did enjoy our half holiday. — Carolyn Martin, Fourth Grade.

**OUR TRIP**  
The Fourth Grade from Enterprise School took a trip to Clanton.

We first went to the Post Office and saw how the mail was put into boxes so that the Postman might take it to the people in the town and on the routes.

Then we went to the Quick Freeze and saw the hogs as they were killed.

Then we went back to the water works and a man showed us how the water was purified and stored.

Then we went back to the 10c store and each got some ice cream — Mattie Lou Bearden.

**ON MY HALF HOLIDAY**  
When the Fourth Grade won the half holiday at P.T.A. meeting, our teacher, Mrs. Wells, carried us to Clanton.

First, we visited the Post Office. We saw where the mail went when it was put in and how they stamped it and divided it, and where they put up the packages and where they sold and kept the stamps. Then we went down stairs and saw the boiler.

We went from there to the Quick Freeze. We saw the hogs ready to dress and saw them hung up to freeze, ready to cut up. Then we went in the locker room. Then daddy weighed each one of us and we went to see the cattle and chickens before we left.

We came back to the water works. Mr. Bialock showed us how he made water and told us how many gallons he made a day — 250 thousand gallons.

We went from there to the Ten Cent Store and got some tacks, ball and got some ice cream and candy. I sure did enjoy it all. — Nelma Joe Bookhold, Fourth Grade.

OUR TRIP TO TOWN

Last Friday afternoon, the fifteenth of November, we, the Fourth Grade of Enterprise, went on a trip to Clanton.

Mrs. Wells, our teacher, took all of us on two trucks. The boys on one and the girls on another and we headed for town.

When we got to Clanton the Post Office was the first place we visited. We marched in and Mr. Lowe showed us around. He showed us the mail boxes and where the money was kept, and next, we saw the "secret room and the boiler room. It was very interesting.

Then we went to the water works and Mr. Bialock was gone to lunch.

We went to the Quick Freeze. Mr. Culver showed us where the meat is cured. Next, the lockers, where each person's meat is kept. Next, the chicken picker and where they kill hogs. The most exciting thing that happened was that Mr. Culver fastened us up in the storage room. It was very cold in there.

Then back to the water works. It was very interesting to know how the city gets its water and how it is purified with some kind of powders. When we came over to town we went to the Five and Ten Cent Store and then back to the schoolhouse. We had a very good time and learned a lot. We won this holiday by having the most parents at P.T.A. We went to the Five and Ten Cent Store while in town and got ice cream and other things. I weighed 66 pounds. — Written by Charles Wayne Dennis.

OUR TRIP

I go to Enterprise School. I am in the Fourth Grade. Mrs. Wells is our teacher. She took us for a trip to Clanton, Ala.

First we went in the Post Office and saw where they stamp the mail.

Then we went from there to the Quick Freeze Plant and saw the meat of hogs and cows already dressed and where they kept it in the plant.

We went to the water works and saw how they pumped the water.

Then we came back to town and went in the 10c Store and stayed a while. We bought some ice cream

TO RECOMMEND ABOLITION OF ABSENTEE VOTING

Montgomery, Ala. — The Alabama Legislative Council at a recent session at the capitol voted to recommend abolition of absentee voting to the legislature of 1947. The proposal was brought before the council by Senator W. O. Walton of Chambers, and carried by a vote of 8 to 1, with Senator

Gordon Madison of Tuscaloosa casting the only negative vote. At the 1945 session of the legislature a bill to do away with absentee voting passed the house of representatives, but failed to emerge from committee in the senate.

Other recommendations by the Legislative Council included raising the minimum driving age from 15 to 16 years. The age limit was lowered from 16 to 15 at the 1945 session, but after a tryout the change has evoked considerable disapproval.

Mr. and Mrs. Herman Gore, Janice and Sara Nell, had supper with Mr. and Mrs. Harris Miller at Mitchell Dam.

Mr. and Mrs. Lloyd Bean and Betty Sue made a nice visit in Sylacauga Sunday.

Mr. and Mrs. R. E. Burks called Sunday morning to see Mr. and Mrs. Joe Jackson.

The Collins Chapel P.T.A. will meet Friday night, December 20th. There will be a good speaker here. Come, parents and friends, come.

### NOTICE TO NON-RESIDENT

The State of Alabama, Chilton County — Circuit Court in Equity, November 18, 1946.  
Freddie C. Vinson, Complainant, vs. Emmeline Bailey Kellock Vinson, Defendant.

In this cause it is made to appear to the Register by the affidavit of Freddie C. Vinson that the Defendant is a non-resident, and that her place of residence and post office address is unknown, and that such address cannot be ascertained after reasonable effort; and, further, that, in the belief of said affiant, the Defendant is of the age of twenty-one years.

It is therefore, ordered by the Register that publication be made in the Chilton County News, a newspaper published in the County of Chilton once a week for four consecutive weeks, requiring her, the said Emmeline Bailey Kellock Vinson, to plead, answer, or demur to the bill of complaint in this cause by the 20th day of December, 1946, or after the expiration of thirty days thereafter a decree pro confesso may be taken against her.

Done at office in Clanton, this 18th day of November, 1946.  
M. D. FOSHEE, Register.

**CHRISTMAS HOLIDAYS FOR UNIVERSITY OF ALABAMA**

Christmas holidays for the 8,300 students at the University of Alabama begin on December 20, Dean of Admissions William F. Adams has announced.

Registration for the winter quarter will begin on January 3 and continue through January 7 with the first classes of the winter term beginning on January 8th. Final examinations for the fall quarter begin on December 16. All students who intend to register as majors in the department of music for the winter quarter have been requested to make application with Dr. Alton O'Steen, head of the department indicating the field in which they intend to major. Crowded conditions and facilities make it imperative that pre-registration approval be given for incoming music majors, Dr. O'Steen said.

**HIGHER PRODUCTION—LESS LABOR**

Farmers produced during war years from a fourth to a third more than ever before with 10 per cent less than the normal farm labor supply. This trend in greater production per worker is likely to continue, agricultural economists say, depending upon the extent of mechanization and use of efficient farming methods. The outlook for the year ahead is more optimistic for the farmer who can keep abreast of these trends.

✓ STOMACH GAS  
✓ SOUR FOOD TASTE  
✓ ACID INDIGESTION

Do you feel bloated and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief from this nervous distress.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that 888 Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the 888 Tonic formula which contains special and potent activating ingredients.

Also, 888 Tonic helps build-up non-organic weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalizers in counteract gas and bloating when what you so dearly need is 888 Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people 888 Tonic has helped. Millions of bottles sold. Get a bottle of 888 Tonic from your drug store today. 888 Tonic helps Build Sturdy Health.

## SHOULTS

Our pastor, Bro. Paul Oden, brought us two very inspiring messages Sunday and Sunday night. Our attendance was very good. We invite anyone who can to attend our Sunday School and B.T.U.

We elected two new group captains for B.T.U. They were Coleman Smith and C. R. Sewell.

The W.M.S. ladies of Pleasant Grove met last Wednesday evening for their meeting. They reported a very interesting lesson studied. They took a special Lottie Moon Christmas offering.

Miss "Polly" Smith had as her dinner guests Sunday Juanita McAfee, Joyce McAfee, Marjorie McAfee, Artie Hathcock, Carolyn Hathcock, Verma Chatman, Ethel Chatman, Barbara Sewell, Alvis Lawrence and Letta Mae Garner. They all reported a wonderful time.

Coleman Smith had for dinner guests Sunday Irby Sewell.

We are sorry to have on our sick list Mrs. Gin Nicholas. We ask all the praying people to pray for her;

that, if it is the Lord's will, she might get well. Especially pray for the family.

Little "Buster" Smith is reported to have a very bad cold. We hope that he will not have pneumonia again, as he has had it one time this winter. He is the son of Mr. and Mrs. Hutson Smith.

Mr. Hutson Smith spent the week end at home with his family. He works at Bruton, Ala.

Mr. Alvis J. McAfee, Mr. Milford Thompson, Milford Thompson, Jr., and Joe Phillips, all from Altoona, Ala., down to Robert McAfee's Saturday night to go coon hunting. They reported a nice hunt but—no catch.

Mr. and Mrs. Lewis Mitchell and children were the visitors of Mr. and Mrs. Robert McAfee Sunday.

December 10th was the birthday of Mr. Robert McAfee. We wonder if were lucky enough to get a birthday cake? It's so near Christmas.

To blanch almonds or raw peanuts for roasting, pour boiling water over them and hold at simmering temperature (185 F.) for 3 minutes. Drain and slip off loose skins by pressing the kernel between thumb and forefinger. Spread the blanched kernels on absorbent paper and dry overnight at ordinary room temperature.

## BUY CHRISTMAS SEALS, SAVE HUMAN LIVES

Christmas Seals mean human lives. They mean the difference between life and death to many tuberculosis stricken people in Alabama and throughout the nation.

More important still, they mean protection against tuberculosis for every citizen of the state—for every one who cares enough to safeguard his home and family from the oldest and most persistent killer of mankind.

With this statement, Mrs. Joe Mullins, chairman of the 1946 Christmas Seal Sale for Chilton County, called upon the citizens of Chilton to demonstrate added interest in stamping out tuberculosis by buying and using Christmas Seals.

"A total of eight deaths from tuberculosis occurred in Chilton County last year. Eight people died because they did not discover they had the disease until it was too late.

"It's probable there are more than this number dying in Chilton County now from the disease—dying because they will not recognize their plight until it is too late.

"The mission of the Christmas Seal is to aid in preventing and controlling tuberculosis, through education

and early discovery of infection. If every person in Chilton County would become sufficiently interested to have a chest X-ray made, many deaths would be prevented because the germ is caught in time.

"No home is safe until all homes are safe because tuberculosis travels fast and works under cover. The use of Christmas Seals, on letters and packages reminds the world that tuberculosis is communicable, preventable and curable."

## STILL WILL PAY

The poultry and egg boom seems to be over, says J. A. Beatty, API extension marketing specialists. But, he adds, since so many producers have reduced their flocks, it will pay farmers to buy enough baby chicks to fill their laying houses with pullets next fall.

berculosis is communicable, preventable and curable."

The Christmas Seal Sale will continue until Christmas, Mrs. Mullins said, adding that a minimum of 75 per cent of all money raised will remain in Chilton County for local tuberculosis control work.

Autumn leaves make splendid holiday decorations. To preserve them, press with a warm iron to preserve the color. Then soak the leaves in a solution of 1 part glycerin to 9 parts water. When thoroughly soaked, remove from solution and press between blotter. The leaves will remain flexible forever, and may be glued to branches where leaves are gone, or used in table decorations.

Professional dressmakers advise home seamstresses to continue using the old rule—"Press as you sew."

### PRICE PICTURE

With ceilings removed from nearly all farm products prices received by farmers during the middle of November were 84 per cent higher than when the U. S. entered the war and 29 per cent higher than on V-J Day, say A. P. I. extension marketing specialists.

### GOOD PROSPECT FOR FEDERAL AID TO EDUCATION

Montgomery, Ala. — There is still a good prospect for Federal aid to education, according to Mr. E. B. Norton, former Alabama State Superintendent of Education and now Deputy U. S. Commissioner of Education. Dr. Norton, who stopped in Montgomery briefly a few days ago on his way to attend the national P-T.A. Congress in New Orleans, said that there is a tendency for Democrats and Republicans to get together on the question. He pointed out that while pending legislation on the subject of course died with end of the 79th Congress, there is strong support for Federal aid in both parties, including Senator Taft of Ohio, and other Republican as well as Democratic leaders. Dr. Norton was further encouraged over the fact that the National Council of Chief State School Officers, at its recent session at St. Louis, with 37 states represented, endorsed Federal aid to education on an equalizing basis.

Dr. Norton resigned as Alabama's State school superintendent last June 15 to go to Washington as a division director in the U. S. Office Commissioner of Education, making him now next to the top man in the U. S. Office of Education.

### RE-GIN, TREAT SEED TO UP COTTON YIELD

An extra \$100,000 went to Alabama farmers who reginned and treated their cotton seed before planting last spring. Over 20 plants processed 420,000 bushels of seed.

Crops from these seed averaged 250 pounds of seedcotton per acre more than crops from seed not reginned and treated, says J. T. Belue, API extension cotton specialist. Figuring on the basis of one bushel of seed per acre and 10 cents per pound for seedcotton, the increased yield was worth over \$100,000.

Growers face a serious shortage of planting seed for the 1947 crop. By cooperating with local ginners, farmers will be able to get their home-grown seed re-ginned and treated before planting next spring. This offers many of them the best opportunity to secure good planting seed, Belue declares.

### FISH FIRST YEAR

A new farm pond properly stocked in January and fertilized correctly will give good fishing during the following fall, say API extension fish specialists.

### BASKETBALL FANS TO WITNESS STRONG CLANTON TEAM

Clanton will carry forth into the realm of the basketball world this year with one of the best teams in the State of Alabama. Already the 1946-47 edition of the Clanton Independent Basketball team is being talked about.

This year's team shows prospects of being stronger than ever. An all-state team composes the quintet and a number of other top-notch basketballers complete the team.

The team's roster looks something like this: "Punk" Johnson, Earl "Snowy" Melton, Curtis Daniels, J. W. Johnson, Buck Daniels, Dock Baker, Junior Coggins, Billie Parrish, Kermit Jones, James Minor, Alton Seales, Luther Scott, J. W. Littlejohn, and Red Mims.

The team this year is being managed by Jimmy McDow and Robert "Boh" Alfred.

Last Saturday night the Independents defeated Moore-Handley Hardware of Birmingham with ease. The game was played at the local gym with the Clanton Quintet giving the Magic City team a 56 to 30 shellacking.

In a preliminary game the Clanton Independent "B" team defeated the Clanton County War Veterans 26 to 21.

The war veterans' team, managed by Hiram Littlejohn of Clanton, is composed of the following players: Erskin Coggins, forward; Oliver Melton, forward; Knock Gillespie, forward; Lige Jones, forward; Leslie Hamilton, forward; Royce Culp, center; Harold Littlejohn, center; Mack Littlejohn, guard; Gene Davis, guard; Charlie Jones, guard; Hubbie Jones, guard; Harold Culp, guard.

The War Veterans will play Draper Prison there on Friday night, December 27th.

### NO CHRISTMAS LIGHTS FOR CITY DURING UPEY SEASON

Mayor Leo Thompson informed the News Tuesday night that Clanton this year would again have to go bare of the customary pre-war Christmas lighting. Mr. Thompson stated that the situation was taken up with the Alabama Power Company officials. The Power Company informed him that due to a shortage of wire and electric fixtures, it would be impossible for them to light up the city, as they were doing good to meet their present requirements for the scarce electrical supplies.

### IT'S A BOY

Mr. and Mrs. Ray Enfinger are the proud parents of a fine 7-pound boy who made his arrival on Friday the 13th, at the Central Alabama hospital. They have named the young fellow Russell Ray. Both mother and son are doing nicely.

### PRESBYTERIAN PAGEANT TO BE GIVEN CHRISTMAS EVE

At a candlelight service "The Shepherd's Story," a pageant will be presented Christmas Eve at 5 o'clock in the Presbyterian Church.

Members of other churches who are participating in this pageant are Mrs. Carlisle Miller, Mrs. Dick Kemp, Sally Gowan, Don Marcus, Cooper Speaks, Henry Grady Hefflin and Joe Melkins.

Mrs. B. F. Hayes is the general director and is in charge of the music, and Mrs. Blake Hudson is supervising the costumes.

The public is cordially invited to attend.

### MRS. NELL E. SCOTT

Mrs. Nell E. Scott, age 42, died at the Highland Avenue Baptist Hospital in Birmingham Tuesday about noon. Funeral services were held Thursday at 11 o'clock at Shiloh Church.

She is survived by one daughter, Virginia Smith; one son, William Scott; both of Clanton; one mother, J. P. Poole, of Mobile; three sisters — Mrs. Lonnie Weldon, Mrs. A. C. Culp of Clanton, and Miss Vera Poole of Birmingham; mother, Mrs. Allie Poole of Clanton and Birmingham.

### CHRISTMAS PAGEANT SUNDAY AT METHODIST CHURCH

The Christmas pageant, CHILD OF PROPHECY, will be presented at the Clanton Methodist Church this next Sunday, December 22, at 5:00 p.m. The offering at this service will be given for the benefit of the Methodist Children's Home in Selma, as a White Christmas offering.

The pageant is under the direction of Miss Helen Parrish, who will be assisted by Mr. Maurice Brauns and the choir. The public is cordially invited.

A cordial invitation is also extended to all who have no other church home in Clanton to come to the eleven o'clock preaching service next Sunday, at which time Rev. Carlisle Miller will be a Christmas message.

### BAPTIST-METHODIST UNION SERVICE CHRISTMAS DAY

Rev. Roswell Owens and Rev. Carlisle Miller announce that there will be a union Christmas Day service at the Methodist Church at 9:30 a.m., Christmas Day, December 25th. Members of all denominations are cordially invited to participate in this Christmas Day worship service.

### PICTURE SHOW AT GRAMMAR SCHOOL

As a reward and a gesture of thanks it was the pleasure of the local Health Department to present a picture show to the two sixth grades at the Clanton Grammar School, Mrs. Warr's and Mrs. Thomas's rooms.

It is gratifying to the Health Department to know that these children show such an enthusiastic interest in things pertaining to their personal health as well as the public health program. They gave their time and money to promote the county-wide program for the control and prevention of tuberculosis in this county and we hope that as the years go on, they will bring profit to themselves and to this community. It was a pleasure to give them of our time and we hope to be able to repeat shows to this group and others — E. M. Moore, M. D., County Health Officer.

### CARD OF THANKS

We wish to express our sincere thanks shown by the many friends during the death of our infant daughter.

Especially do we thank Dr. Charles and Joe Moore, Miss Garner and the nurses. — Mr. and Mrs. Ed Langston.

### BILLY JEAN LANGSTON

Funeral services for Billy Jean Langston were held at 2:30 p.m. Sunday from Highland Church, conducted by the Rev. Homer Carroll and Rev. E. J. Deason. Spigener Funeral Home directed. Interment was made in the church cemetery.

She survived by her parents, Mr. and Mrs. Ed Lee Langston; grand parents, Mr. and Mrs. W. A. Smith of Clanton; Mrs. Lou Langston, of Fletcher, Ala.

Flower ladies were: Mrs. Clarence Mims, Mrs. Frances C. Miss Martha Hamilton, Mrs. Helen Littlejohn, Miss Gene Snyder and Mrs. Ruby Braswell.

### If You've Got Trouble, Then Read This Sad Yarn

Calvin Robinson, the News' linotype operator, must go home every night and he lives on the Higgins Ferry Road — now rolled and tumbled preparatory to paving. Here's his route home:

From Clanton by the airport; out by the Duke old M-16 road, on around to his left until he hits the Refuge Road; turn right on the Refuge Road on by Benny Johnson's old place, across Hog Creek; then cut by Bud Mims's old place; then take back to the left across by the Pleasant Jones's and Alvin Cline; then park his car at a neighbor's house and walks the rest of the way.

### DEEP SOUTH QUARTET TO CONCERT HERE SAT. NIGHT

The Deep South Quartet of Birmingham, will appear in concert at the courthouse Saturday, December 21, at 7:30 p.m. They have a program that is unequalled by any other group of singers in the country. Attend this concert and it will set the melodies ringing in your heart. The program will be very appropriate for the season of the year. Come, rain or shine.

### CHRISTMAS PROGRAM

There will be a Christmas program at Concord Church on Monday night, December 23rd, beginning at 7 o'clock. There will be a Christmas tree following the program. Everyone has a cordial invitation to be present and enjoy this lovely program.

### EMPLOYMENT OFFICE CLOSED

The local branch of the Alabama State Employment Office will be closed from 12 noon on December 24, until Friday a.m., December 27th.

### COTTON GINNING REPORT

Census report shows that 5,652 bales of cotton were ginned in Clanton County from the crop of 1946 prior to December 1, as compared with 8,745 bales for the crop of 1945.

### ENTERPRISE SCHOOL NEWS

The girls had a nice game at Mt. Pleasant last Friday, with the score 14-17 in favor of Mt. Pleasant. The boys' game was forfeited to Mt. Pleasant.

The entertainment last Friday night was a success. We had a nice crowd. The concert was comical, which made it more enjoyable. The pretty girl cake was won by Eunice Davis, and the ugly man cake was won by Rollan Minor.

A one-act comedy entitled, "Daphne So Delicate," was presented by the Junior II's last Friday at chapel. A unique presentation with two boys of the class portraying the role of girls.

### MORRIS JOHNSON INJURED IN PLANE CRASH

Morris Johnson, who was due home this week for the Christmas holidays is in a Ladd Field Hospital, Fairbanks, Alaska, due to a plane crash on the field as he and several officers were taking off for the States and the Christmas holidays. Morris had his leg broken and will be confined there for a short period after which he will leave for Clanton to spend a long furlough with his wife and children.

Mrs. Johnson is in Birmingham at present with her mother, Mrs. Ware, where she is awaiting her husband's return.

### SHELBY COUNTY'S OLDEST CITIZEN PASSES AT 97 YEARS

Mr. W. T. Darnell of Vincent, Ala., and the oldest and most beloved citizen of Shelby County, passed away at his residence at 5:30 o'clock Thursday morning. Mr. Darnell had been a member of the Baptist Church for 75 years.

In 1872 he married Miss Mary Jane Stealy, who passed away 14 years ago. Surviving are three sons — S. T. Darnell, Anniston, W. J. Darnell, Birmingham, P. J. Darnell, Vincent; two daughters, Mrs. Rosa Bates and Mrs. Ada M. Atkinson, of Vincent; 10 grandchildren, eight great-grandchildren and two great-great-grandchildren. Funeral services were held at 2:30 p.m. Saturday at the Vincent Baptist Church, with burial in the Vincent Cemetery; Riddouts Brown Service directing. Conducting were Rev. Brock, pastor; Rev. J. A. Butler, of Sylacauga; Rev. Ledford, Vincent Methodist Church.

### WE INVITE

The Y.W.A. girls of Bethsalem Church are putting on a Christmas program Monday night, December 23, at 7 o'clock, at the church. Come and bring some one with you and some type of gift and we will draw names and have an Xmas tree after the program. Come and be on time.

## Rural Telephones Operating Throughout Chilton County

(By Clark Headley)

Rural telephones, long a post-war dream of our rural citizens and merchants alike, are now a reality. Any section in Chilton County, rural or otherwise, is now as close as your telephone. The county is connected almost throughout by telephone with the addition of this rural exchange.

Upward of 300 telephones have been installed in the county in the past few weeks and now are in operation. Work is not complete as new phones and new subscribers are being added daily.

A representative of the Southern Bell Telephone Corporation stated Tuesday that he wouldn't estimate the number of telephones that will eventually be installed in the county. More will be added as time goes along.

Work on this project began early this year when representatives of the company covered the county adding on subscribers. The first telephones, however, were not added until late summer and early fall.

Rural citizens throughout the county are expressing their appreciation for this added convenience.

In attempting to be of public service to those who recently installed telephones and others alike, the News is publishing in this issue the names and telephone numbers of persons who

### NOTICE

recently have installed a telephone. The numbers below are subject to change without notice and some are not correct as they stand.

This list will be corrected and kept up to date from time to time and published in the News at two or three week intervals—as regular as changes warrant.

To give each new telephone subscriber a rural directory, the News has now available a listing of the names printed below. Copies of this may be obtained by any one so desiring same free by asking for a copy at the News office.

Southern Bell Telephone Corporation will publish a more complete (with City members) directory as soon as possible, we have been informed. When this will be no one knows at present. It will be some time after the work in Chilton County is completed.

According to our information, a telephone exchange may be set up in Maplesville to take some of the load off the local exchange. If and when this will be done is also uncertain.

Below is the Rural Telephone Directory as we have it now:

Due to the fact that Christmas falls on Wednesday, the day the News is usually printed, we are left with the alternative of coming out a day early or a day late. We have decided to come out a day late and thereby give you a better paper than you would get otherwise. All correspondents please forward your correspondence in as usual. Look for your News Friday instead of Thursday. — The Editor.

### THIS, WE CANNOT IGNORE

Following is a resolution duly and properly proposed and adopted by the Chattahoochee Valley Post No. 67, of the American Legion, in regular session at the Lanett Athletic Hall Tuesday night of this week, relative to the use of fireworks during this Christmas Season:

"Whereas, the American Legion, Post No. 67, desires to remind the people of the Valley that many of the veterans who have returned during the past year are men who have recently seen combat duty abroad.

"Whereas, it desires to remind the people of the Valley that many of these men, though they appear to be perfectly healthy, are still suffering from shock and battle fatigue, and are not completely mentally readjusted to peace.

"Therefore, the American Legion resolves that all of us be considerate of these veterans, who have given so much of their time, their courage, and their health to keep this land of ours free and refrain from shooting fireworks during this holiday season. Even though the fireworks, which are beginning to blast, are fired in a manner of celebration, they only tend to recall to the memories of these men, the horrors which they experienced in war—the things which they are striving so hard to forget.

"The American Legion has no desire to dull the holiday season for anyone. It only asks that we all remember those who gave so much, and refrain from this one thing which would make Christmas so uncomfortable.

Chattahoochee Valley Post No. 67"

We think the above resolution is self-explanatory. We further believe that as this message is brought before the people of the Valley that it will mean an end to celebrations with fireworks. We simply cannot ignore this plea. When faced with the facts of the above resolution it will simply be impossible for anybody to derive pleasure from the explosion of fireworks. It is an appeal far and above anything which comes from the facts of laws or ordinances against the possession or use of fireworks.—The Editor. — Chambers County News, Lanette.

### THE HIGH SCHOOL ANNUAL

We wish to commend the Faculty and Student Body of the Chilton County High School on their decision to publish a school annual this year. It is something that has been missed and needed for a long time and will be appreciated highly by the Alumni as well as the graduates and other students.

Maplesville High School started publishing an Annual several years ago and it has proven very popular with the students.

### BE CAREFUL DURING THE HOLIDAYS

Carefulness is due every consideration during the next two weeks and your efforts may save a life. During this season of the year more accidents happen than at any other time in the year and it is the duty of each and every one to do his or her part in accident prevention.

### MERRY CHRISTMAS

We will take this opportunity to wish you, one and all, a very merry Christmas and a happy New Year. We love Chilton County and her people and we appreciate your co-operation throughout the past year in helping us publish a readable newspaper. May our associations in the future be as pleasant as those that have passed and may we be able to continue to serve you and yours in our humble way for a long time to come.

Our Christmas wishes to you carry with them all the comforting warmth and radiant good cheer that we can heartily forward to you.

## FOLKS & THINGS

### ABOUT TOWN

—By BEN

That Dock Levine is a sight and a mess. The other day Mrs. Levine spent fifteen minutes trying to sweet-talk us into a paragraph about her pretty window down at the store and Dock spoils the whole thing with a few words. Says Mrs. Levine: "I read your column the first thing every week. I wouldn't think of reading the paper until I have first read Folks & Things." Well that was fine and we were just feeling big when Dock comes back with: "Aw, reading a column is just a habit." Now we ask you, was that nice?

Here we go again. "Jangle nerves, jangle nerves, we're trying to think of something nice to give the Missus and to save us we can think of nothing new. It's the same old thing year after year and if there is something new under the sun to give your wife, we wish someone would let us know. 'Course whatever we buy her will be a surprise 'cause she wants a wrist watch with diamonds and the Five & Ten Cents Store don't sell 'em.

Gotta take our hat off to the cast of the Senior play. Those kids did a swell job, and that includes that Junior of mine, and that typical "mean widdle kid," and played his part mighty fine. The star of the show was that Cooper Speaks. He was well worth anybody's time and money to see. Sally Gowan was good as the lead opposite Cooper. Mertice Baker played the part of the sister and did it well. Matthew Thawley as school principal and Morris Moatts as his son both turned in good performances. Charles Taylor as the father was very good. Carol Caster played the part of the maid and Carol is always perfect in anything she is assigned to do. Lois Minor, Martha Wingard, Marylene Reed, Tommie Sue Littlejohn, Donald Marcus, all contributed to the cast. Doris Robinson couldn't be beat as the mother and, oh yeah, we forgot to tell you that cute little Grace Lawrence played opposite Robert Tucker as the "girl friend." To tell you the truth if you missed seeing it, you really missed something.

Donald Watson, our Staff Photographer, took a couple of nice pictures of the senior play the other night, but we couldn't get them off and back in time for the paper. Wish we could have. Both shots were very good. Donald took the picture we run several weeks ago of the student dances at the City Hall. At the time we promised Donald a by-line, but forgot to pass the word on to the composing room and he never did get credit for the picture. Donald takes a good picture and has a sack of getting good shots. We understand that he will take most of the pictures for the CCHS Annual that will be published just after the first of the year.

It must be awful not to have a young child around to give you an excuse for buying and playing with Christmas toys. Every Christmas the wife worries us to death for fear we will break the baby's plaything when all the time

we are only trying to show the offspring how the thing works. We are too old for that foolishness and of course it is a terrible bother to have to get down in the floor and make the clowns tumble, and the trains too, and run, and the tops spin, and throw the dart games, but you know, being a thoughtful father, we will condense to spend the morning, and the afternoon, helping the kiddies. Wish we got those kind of presents.

Two hillbillies who had never been on a train before had been drafted and were on their way to camp. A food merchant came through the train selling bananas. The two mountaineers had never seen bananas and each bought one. As one of them bit into his, the train entered a tunnel. His voice came to his companion in the darkness: "Jed, have you eaten yours yet?" "Not yet," answered Jed. "Why?" "Well, don't touch it. I've taken one bite and gone blind as a bat."

Watch for the list of rural telephone subscribers printed in this issue of the News. It will be worth your while to cut this list out and paste it up somewhere near your telephone. At present the list is not complete and some of the numbers will be changed occasionally, but every few weeks the list will be revised and brought up-to-date until the Telephone Company publishes their Directory.

Is Friday the 13th a lucky or unlucky day for the Ray Infingers? Ray and Myrtice bought their marriage license on Friday, the 13th. Ray went to the army on Friday, the 13th. Their first boy arrived on Friday, the 13th. We know not whether it is lucky or not, but we do know that the both of them are very happy over the last happening on Friday, the 13th. However, if Ray will take our advice he will be very careful of the month of June, 1947. That is the next time that the 13th comes on a Friday, and incidentally the only time that Friday, the 13th, appears on our calendar for 1947.

This week is our Special Christmas Edition and we have saved some "Special news" for it too. The wife's sister, Mrs. J. S. Keel, who is better known to many in Chilton County as Kaskie Wilkins, and who now lives in San Diego, Calif., has presented her husband with twins. A boy and a girl. Their names—Bryan Stanley Keel and Pamela June Keel. We think this is "Special news" because there has never been a set of twins in our family anywhere. In fact, we never have been able to afford a set of twins. We can, however, feel good for Kaskie and Johnnie and wish them and their wonderful little family a lot of luck and a lot of the best always.

I expect to pass through this life but once... if, therefore, there be any kindness I can show, or any good things I can do for my fellow human beings let me do it now. Let me not defer it, or neglect it, for I shall not pass this way again.

The Yuletide Season brings joyous Greetings to all our customers and an appreciation for the considerations we have enjoyed during the past year. Our Good Wishes to you and yours.

PATES CHAPEL

We are thankful for the nice attendance we were blessed with Sunday and Sunday night and we are also thankful for the good conduct we have been having because we know that it takes all to cooperate to make a good success and we believe every family in this community wants a success in our church work and are planning to start the New Year off with a success. Let's everybody come and do our best and also close our old year with a good record.

Let's make the first Sunday a 100 percent for Sunday School. We can do it if we will try. So let's everybody try to come and tell someone to come because we want this many present as our goal for a beginning of the new year. It is just two weeks ahead.

We were blessed with two wonderful messages Sunday and Sunday night. Bro. Crumpton delivered the message Sunday morning and Bro. Cook delivered the evening message after B.Y.P.U. Also Bro. Cook's children sang a song in B.Y.P.U. which was greatly enjoyed by all.

Mrs. Pink Cleckler, Mrs. Mary Smith, Mrs. Odie Price and Mrs. Leon and Porter were the Monday evening guests of Mr. and Mrs. Claude Dawson's family.

Mrs. Oscar Underwood spent the day Sunday with Mrs. Pink Cleckler.

Miss Louise Maddox Sunday night was the guest of Miss Gladys Scott of Mt. Carmel community.

Mr. and Mrs. Claude Dawson spent Monday in Birmingham.

Don't forget our 5th Sunday evening singing in this month. We are expecting a large crowd and plenty of good singing. So come one come all beginning at 1:30. Bro. Crumpton will also bring our 5th Sunday morning and evening messages.

We are planning on having our Christmas program and tree Tuesday night, December 24 in place of Monday night. Everybody that wants to draw names to exchange gifts at the Christmas tree please come or send your names Sunday and someone can draw for you if you cannot come. As we would like for everyone to have a part in the program, be sure you enter and draw a name. Names were drawn Sunday and Sunday night but there were some that were not there.

Bro. Cook and family spent Sunday with his mother, Mrs. Nora Cook and Mr. and Mrs. Herschell Maddox.

In Birmingham citizens are being urged not to buy Christmas trees that do not have the red tag that signifies that they are eligible. The State Forestry Department is urging everyone to save and spare the Christmas cedar.

QUOTES OF THE WEEK

"You will see bread at \$15 a loaf."—Elliott Roosevelt.

"I'm not tired, sleepy, hungry, or mad."—Rep. R. L. Doughton, on his 83rd birthday.

"American men are too long-winded."—Lady Rothermere, London visitor, who's got as far as New York.

"Management is impressed with the absolute necessity of having the good-will of employees in a successful enterprise."—Board Chairman Ira Mosher, National Association of Manufacturers.

"Both labor and the general public will suffer by another spiral of rising wages and rising prices. Labor would do well to pause before making excessive demands now."—Lawrence Fertig, economist.

"I like Broadway. You can get coconut milk there."—Joel Kupperman, 10, quiz kid.

SHOULTS

Our Sunday School and B.T.U. Sunday and Sunday night were well attended. [The Lord has wonderfully blessed us this fall with beautiful weather. Folks, come on to church and show the Lord you are thankful for it.]

The sick in our community is improving.

Next Saturday night, December 21, 1946, we are going to have an Xmas tree at the church. Misses Polie Smith is coaching an Xmas play to be given at the tree. Many thanks to her. Come with an Xmas prayer in your heart. Bring some one with you.

Mrs. G. C. Latham had for dinner guests Sunday Dr. Lane and two little daughters from Birmingham, Ala., and Misses Ruby Lee Latham from Birmingham.

Mrs. Annie Sewell was honored with Mrs. Daisy Jarrett and children Sunday.

Mrs. Hutson Smith spent Sunday

with her mother, Mrs. Annie Sewell.

Mrs. Robert McAfee had two of her Sunday School pupils Sunday, Helen Maddox and Artie Hathcock, for dinner.

Mrs. Lewis Mitchell and children spent Saturday night with Mr. and Mrs. Robert McAfee.

Mr. and Mrs. Charlie Smith has as

dinner guests Sunday Mr. and Mrs. Robert Keener from Selma.

Everyone from this community wish you and yours a Merry Christmas and a Happy New Year.

Don't forget next Saturday night at 6:30 the Xmas tree and play. Bring all gifts that you would like to put on the tree.

In Appreciation at Christmastime

Arrival of the Christmas Season reminds us of our obligations to the fine people of this community.

We appreciate the excellent treatment we have received and take this means of sending our Greetings to each of you.

Sunday School was well attended last Sunday. Bro. Hopper filled his regular appointment at the Baptist Church Sunday morning and Sunday night, bringing a good message at each service.

We extend to Mrs. F. A. Shanks our deepest sympathy over the death of her brother, Mr. Walker Collins, who passed away some time Sunday night. In going to awake him Sunday morning he was found dead in his bed.

We extend to Mrs. W. E. Coburn and family our deepest sympathy in the death of her sister's husband, Mr. W. E. Chambers, who recently passed away in Birmingham.

We are sorry to report Rev. Charles Haggard and Mr. Lux Seale are on the sick list this week. We hope they both will soon be well again.

The P.T.A. will meet Thursday at 3:00 p.m. for a Christmas program, given by the second and third grade pupils. All parents are cordially invited to attend.

Mr. and Mrs. George Johnson from White Hall spent last week with their daughter and family, Mr. and Mrs. Robert Chambers.

Mr. and Mrs. Monroe Hays and baby from Birmingham visited her parents, Mr. and Mrs. John Maples, last week end.

Mr. and Mrs. W. E. Coburn spent last week end with their daughter and family, Mr. and Mrs. J. J. Hayes, Jr., in Birmingham and with Mrs. Coburn's sister, Mrs. W. E. Chambers.

Mr. Frank Mcketvey from Starke, Fla., is here to visit his sister and family, Mr. and Mrs. C. B. McGee, until after the Christmas holidays.

Mr. and Mrs. W. W. Kelley and son, Fred, visited Mr. and Mrs. Gene Kelley and Gene, Jr., and Mr. and Mrs. J. F. Bowden and family in Birmingham last week end.

Mr. and Mrs. Walter White Roper of Birmingham, visited her mother,

There will be a Christmas program at the Mill Village Church next Sunday night at 7:30. The subject of the program is "Christmas Giving." Miss Eloise Parker will take the leading role of Mrs. Christian and Jackie Harris will play the role of her selfish little son. The program will bring out the spirit of Christmas giving.

### Drive Safely During Holiday Season Urges Motorists Association

Alabama motorists today received a timely warning from the Alabama Motorists Association that traffic hazards to children during this Christmas season will be greater than any year since before the war.

"Automobile drivers are earnestly requested to keep this fact in mind," AMA president Mark Hodo declared, pointing to the fact that during war years few skates, bicycles and other toys were available to children.

"Let's not turn what should be the happiest period of the year into the most unhappy period of our entire lifetimes," he urged.

### WETUMPKA MAN CLUBBED IN OWN GARAGE

Cliff Turner, well-known Wetumpka filling station operator, was clubbed over the head with a pick handle Monday night. It is reported that Turner drove into his garage to place his car up for the night. Mrs. Turner heard his yell for help and flicked the garage light on just in time to see the man run off. Mr. Turner was carried to a Wetumpka hospital.

### The Study Club Has Yuletide Program

The December meeting of the Study Club was held on Friday, the 6th, with Mrs. J. Watts Moore as hostess. Holiday greenery, clusters of red berries and the traditional candles made a lovely setting for the occasion.

A short business session was presided over by Mrs. Norman Roberts, president.

There is something wordless and holy in our thinking about Christmas. The message of Christmas, under the direction of Mesdames John Mullins and Hugh Jones was presented in most impressive manner.

"Oh, Come All Ye Faithful" was played softly during the lighting of candles.

"A Christmas Wish" was extended to club members and guests by Mrs. John Mullins; "The Christmas Story" from the Gospel of Luke, Alice Deramus. Special attraction was the playlet by a group of children. As the muted tones of "Holy Night" were heard, the children came slowly into the room, some seating themselves on the floor and others grouping

around the chair of the reader, Mary Elizabeth Mullins, for "The Christmas Story," written by the "Sisters of Notre Dame de Namur. Mary Elizabeth read the story to her attentive listeners — Linda, Kathie and Julie Wade, Joanne Scott, Jackie Hayes and Edwin Mullins. At the close of the story John Deramus played, "Silent Night, Holy Night" as the children sang. "Excerpts from the Biblical Story of the Prophecy and Fulfillment." Mrs. Hugh Jones; solo, "White Christmas," Mrs. Eric Ellis; Accompanist, Helen Hayes. Story—"Lovely Tree," Mrs. John Mullins.

After the program the guests were invited into the dining room, where a beautifully appointed table was laid for tea. The centerpiece was a crystal bowl of white snapdragons and chrysanthemums with white tapers burning in crystal holders at each end of the table. Mrs. John Deramus poured tea and coffee.

Thirty-eight members and guests enjoyed this lovely hospitality of the hostess.

### STANTON

The chicken supper sponsored by the P.T.A. was a grand success. Extra nice cats and a large crowd. Mr. and Mrs. Howard Bookhold and son of Clanton was among the crowd. Sympathy is extended to the many friends and relatives of Dr. F. M. Barnes. Dr. Fred Barnes was a native of Chilton County, having been born and reared in the Southeastern part of the county. Dr. Barnes died Tuesday afternoon in a Montgomery hospital, buried Wednesday morning at 11 o'clock in Greenwood Cemetery, Montgomery, Ala.

First and third Sundays in each month preaching services at the Baptist Church. Rev. W. D. Holladay, pastor. Prayer services every Wednesday night. "Wout' you attend these services?"

Mr. and Mrs. Bill Ruddick and family spent Sunday in Selma, Ala., with Mr. and Mrs. A. L. Osborne and family.

P.T.A. meets every Tuesday after third Sunday.

That explosion that you heard and which scared several in our community around 1 o'clock Friday afternoon was due to the dynamiting of a ditch in Mr. Frank Reynolds's pasture by Mr. Red Glasscock, County Agent. Several people came down from Maplesville, Ala., and watched this work being done. A. J. Job, Mr. Glasscock, and others were present.

Many people throughout this section will be interested to know Mr. J. F. Gregory (Jeff), son of Mrs. Mary Gregory Walker of Selma, Ala., was married last Tuesday to (Mrs. Ruth) Stanton of Selma, Ala. The Gregorys are former residents of this section and have many friends and relatives here. Our congratulations and good wishes.

Expected home from A.P.I. this week. Little Bob Davis for the holidays.

Miss Helen Heffner has recently completed a salesmanship course and has in her home a news agency offering every magazine you can name. Helen has been crippled all her life, in fact, just now beginning to walk a little with crutches. She would appreciate visitors and always enjoys contacting people. Helen has a bright outlook and deserves much credit. The State recently gave her a new Underwood and Mr. Holladay, Principal of Stanton Junior High School, is teaching her touch system which will greatly aid her in her work.

MERRY CHRISTMAS! HAPPY NEW YEAR. — Ruth Hicks, Stanton, Ala.

### OVER ALABAMA

BY LUCIEN F. GIDDENS

State Senator Paul J. Hooton, 47, of Roanoke, is one of the most experienced members of the legislature. He has served previously in both houses. He has a clear view of the obligations of an individual citizen in a democracy, and laments the fact that "we some-how have lost the art of real citizenship." He says that this art can be regained in great measure, and partly by better training at home and school.

Hooton attended the schools of Roanoke and the state university. He has been a member of the school board since 1929 and city attorney since 1936. He was a corporal in World War I. He is not exceptional in enjoying fishing, but he is exceptional in enjoying "working in the yard and washing dishes at home."

State Representative A. C. George, of the same city, says Alabama must have "better educated boys and girls, and by all means the teachers should be better paid."

A youthful and promising state representative is Attorney Franklin C. Evans, 28-year-old veteran of the last war.

He was for four and one-half years a first lieutenant in the signal corps, serving in Europe, the Aleutian Islands, and mid-Pacific. He is very interested in the work of veterans' organizations, is an active member of the American Legion, and is Post Commander of Veterans of Foreign Wars at Butler.

Evans says that "Alabama must provide more opportunities for our people in order to keep them in the state." He thinks that better education will be one step in this direction.

Dr. N. C. Denton, member of the house of representatives, is a retired physician and has served as mayor of Oneonta. At 64 years of age, he believes in youth, and urges that Alabama give better training for citizenship and service to the state in the future. He received his degree in medicine at the old University of Nashville.

State Representative Frank L. Haynes, 48, is principal of the junior high school at Hodges. He attended Howard College and the University of Wisconsin. His career includes service in those varied ways: athletic director and football coach at Carson-Newman College; farmer; private in the infantry in the first World War. He is a sportsman also, refereeing football games, and keeping bird dogs and running hounds.

Haynes says the state needs "a bet-

## A VISIT FROM ST. NICHOLAS

'Twas the night before Christmas, when all through the house,

Not a creature was stirring, not even a mouse;  
The stockings were hung by the chimney with care,  
In hopes that St. Nicholas soon would be there;  
The children were nestled all snug in their beds  
While visions of sugar-plums danced through their heads;  
And Mamma in her 'kerchief, and I in my cap,  
Had just settled our brains for a long winter's nap,  
When out on the lawn there arose such a clatter,  
I sprang from my bed to see what was the matter.  
Away to the window I flew like a flash,  
Tore open the shutters and threw up the sash.  
The moon on the breast of the new-fallen snow  
Gave a lustre of mid-day to objects below. . .

When what to my wondering eyes should appear,  
But a miniature sleigh and eight tiny reindeer,  
With a little old driver so lively and quick,  
I knew in a moment it must be St. Nick.  
More rapid than eagles his coursers they came,  
And he whistled, and shouted, and called them by name:  
"Now, Dasher! now, Dancer! now, Prancer and Vixen!  
On, Comet! on, Cupid! on, Donner and Blitzen  
To the top of the porch! to the top of the wall!  
Now dash away! dash away! dash away, all!"  
As dry leaves that before the wild hurricane fly,  
When they meet with an obstacle, mount to the sky;  
So up to the house-top the coursers they flew,  
With the sleigh full of toys, and St. Nicholas too. . .

And then, in a twinkling, I heard on the roof  
The prancing and pawing of each little hoof.  
As I drew in my head, and was turning around,  
Down the chimney St. Nicholas came with a bound.  
He was dressed all in fur, from his head to his foot,  
And his clothes were all tarnished with ashes and soot;  
A bundle of toys he had flung on his back,  
And he looked like a pedler just opening his pack.  
His eyes—how they twinkled! his dimples how merry!  
His cheeks were like roses, his nose like a cherry!  
His droll little mouth was drawn up like a bow,  
And the beard on his chin was as white as the snow;  
The stump of a pipe he held tight in his teeth,  
And the smoke, it encircled his head like a wreath. . .

He had a broad face and a little round belly  
That shook when he laughed, like a bowl full of jelly.  
He was chubby and plump, a right jolly old elf,  
And I laughed when I saw him in spite of myself;  
A wink of his eye and a twist of his head  
Soon gave me to know I had nothing to dread;  
He spoke not a word, but went straight to his work,  
And filled all the stockings; then turned with a jerk  
And laying his finger aside of his nose,  
And giving a nod, up the chimney he rose;  
He sprang to his sleigh, to his team gave a whistle,  
And away they all flew like the down of a thistle.  
But I heard him exclaim, ere he drove out of sight,  
"HAPPY CHRISTMAS TO ALL, AND TO ALL A GOOD NIGHT!"

## Victory Report Proving To Be Good Reading

General Marshall's Victory Report, report to the nation on behind the scene operations during World War II, is proving to be very interesting reading and much in demand.

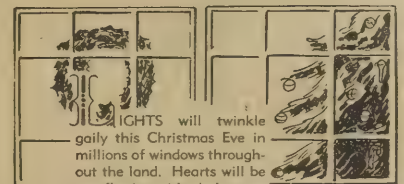

This book, being distributed by the Veterans of Foreign Wars in Chilton County, has listed the names of every person from the county who saw service during the last conflict. It is a good book for a souvenir and is unexcelled in factual information concerning the war in Africa, Europe, Asia and the Pacific. It is bound to last for

a long time and is printed in large type to make it easy to read. It is also full of illustrated maps that shows every move by the Allied armies during their drive for a successful conclusion of the war.

Anyone in Chilton County may obtain a copy of the book by seeing a member of the VFW or reporting by the Chilton County News. The supply is definitely limited.

According to Senator Walsh of Massachusetts it took 60 years of agitation to enact reasonable child-labor legislation in that state.

The State of Ohio leads all others in capacity for the production of both electric furnace steel and Bessemer steel.

LIGHTS will twinkle  
gaily this Christmas Eve in  
millions of windows throughout  
the land. Hearts will be  
overflowing with gladness as  
families everywhere toast  
the Yuletide season.

Here's a hearty wish for  
you, friends, as you enjoy  
this festive occasion. May  
the Season be a merry one  
full of contentment, joy and  
goodwill.

Merry  
Christmas

## Hodening Horse Of British Isles

Strange miracle plays were always intrinsic parts of the holiday season in the British Isles and in many such traditional performances, one of the characters rode a grotesque hobby horse. Gradually, the horse assumed the characteristics of a star performer and in time, stepping out of the play altogether, began going from house to house—singing and dancing, and sometimes even taking out on their visits.

Of course, the "Hodening Horse" was not a horse at all, but a long, covered with a cloth, and with a head, but no body, and with a tail, but no end. It was a grotesque, but it was a horse, and it was a star performer. It was a horse, and it was a star performer. It was a horse, and it was a star performer.

## Open Air "Festas"

Vs. Santa Claus

Santa Claus has firmly entrenched himself in the hearts of Brazilian youngsters, although his traditional chimney had to be abandoned—very few homes being equipped with such things, and it never occurs to the small fry that it might be fun to spy on Santa; the children beg to step up, at once, to participate in the grown-up festivities and perhaps accompany their parents to midnight meals.

Since it really is June in January south of the equator, Christmas in Brazil is a midsummer festival. Midnight mass on Christmas Eve is celebrated with greater or lesser pomp throughout the land, preceded by dancing "festas" and gala late suppers.

## Many Are the Legends of Ancient Yule Log Customs

Old books and legends surround the Yule Log with much mystery and superstition. Thus, it must be touched and lighted with scrupulously clean hands, certain types of persons—such as squinting or flatfooted—are unwelcome while it is burning and, should the fire go out during the night, bad luck is portended for the New Year.

Less superstitiously, Tyroleans decorate their log with paper flowers and bright ribbons. Wine is poured over it by the youngest child of the household who offers a prayer that the fire may warm the cold, the hungry children, and the weary first year, and all may enjoy heaven's blessing and peace.

## Does Stomach Gas and Bloat Make You Feel Miserable?

If so, here is how you may get blessed relief in freeing your stomach from this nervous distress. It works this way: Everytime food enters the stomach, a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that 888 Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the 888 Tonic formula which contains special and potent activating ingredients.

Also, 888 Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice plus richer blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-eating of soda and other stimulants to counteract gas and bloating when what you so dearly need is 888 Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people 888 Tonic has helped. Millions of bottles sold. Get a bottle of 888 Tonic from the drug store today. 888 Tonic helps build sturdy health.

## Name of Jesus Found Carved in Palestine

Urns recently discovered in a cave on the Jerusalem-Bethlehem road, believed to be the oldest archeological record of Christianity, dating back to 70 A. D., contained the name of Jesus carved on them. It is believed that the carving was made by an eyewitness to the crucifixion. They were found on 11 early Christian burial urns.

## Lyons First Born Welcomed Warmly

"... Put the Son of Man hath not come to say his head."—St. Matthew 23:10. At Beaumont hospital in Lyons, France, the first infant received on Christmas Day is luxuriously welcomed with great ceremony; the tradition contrasting the lot of the infant Savior and that of one of His most helpless little ones.

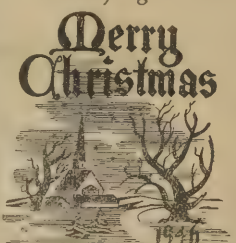

## Nola Birthplace Of Church Bells

The use of church bells is said to have been inaugurated during the fifth century by Bishop Paulinus of Nola, in Campania. Although the derivation is doubted by some authorities, it appears that the Latin word for bell—*campanula*—was derived from the bishop's town, Nola, and district, Campania.

## When the Infant Jesus Selected His Playmate

According to various legends, the Holy Family travels about on Christmas Eve. Long ago—in England—sick babies were carried to the threshold at midnight. If the child recovered, it had been healed by the passing Christ; if the baby died, the Holy Child had chosen the infant to be His playmate in heaven.

## California Has Mile Long Avenue of Lighted Trees

The trees comprising the mile long Avenue of Christmas Trees in Altadena, Calif., are descendants of the Deodar Cedars of India which grow upon the slopes of the Himalayas. While traveling in India in 1882, Capt. Frederick J. Woodbury gathered the seeds which he planted later on his ranch in California. When the seedlings were about two feet tall, the captain's sons transplanted them to line the wire driveway leading to the ranch residence.

The once private driveway at the foot of the Sierra mountains is now a busy public thoroughfare and Capt. Woodbury's seedlings, illuminated each year at Christmas, attract thousands of visitors annually.

## THREE YULE 'FIRSTS'

Chase to being "first" on a Christmas card as held up these early designs.

"Which came first?" and "who thought of it first?" are the two questions asked since time immemorial. These questions have baffled historians, challenged detectives, caused law students to burn the midnight oil—but most of all—have intrigued the public. For the last few years there's been a big to-do about the "first" Christmas card and the subject has fascinated many greeting card collectors, art dealers, museum curators and a sizable portion of the American and British public.

The earliest Christmas card on record, in the light of recent findings, appears to be that of W. M. Egley, dated 1842. Discovered in a mass of skating prints by the British museum, it is indisputably a Christmas card and seems to have been produced for general use. It resembles the early New Year's cards of German origin with its various scenes enclosed in a half-circular, half-ruled trelwork and it depicts the Christmas pantomime "Harlequin and Columbine," a puppet booth, skaters and other scenes relating to the holiday season. Its sentiment reads "A Merry Christmas and A Happy New Year to You."

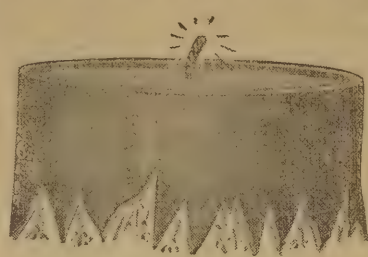

Until the Egley card was discovered, the first known Christmas card was, for years, thought to have been the one designed by J. C. Horsley RA for Sir Henry Cole in London in 1846 who wanted a card to send to his friends at Christmas. Horsley's card was lithographed by Jobbins of Warwick Court and a thousand copies struck off. These were colored by hand and featured among other scenes a merry family group holding filled wine glasses aloft.

An eminent American authority on greeting cards and a relentless collector of early creations, E. D. Chase of Boston claims that he has found what he believes to be the "first" Christmas card—but until some scientific corroboration is forthcoming we must consider his discovery a "dark horse" in the running. That it is a very "early" card—there can be no question. Our collector traced R. H. Pease, the lithographer whose name appears at the bottom of the card, down to the year 1839 where the letter was listed in the Albany, N. Y., directory as an engraver. The thing, however, that stumps the experts is the fact that there is no date on the card itself.

SYNCHRONIZE YOUR WATCHES... It's zero hour as children everywhere get their Christmas scout cars and tanks for an all-out assault. It is the first time for several years that rubber tires have been included with toys of these types.

# Do you think steel profits are big?

Recently in a nation-wide poll most people guessed that steel profits were about 20 cents on each dollar of sales. They said 10 cents would be about right.

Actually, for the past ten years steel company profits have averaged less than 5 cents on each dollar of sales.

Although profits continue low, wages, employment and production are near record levels.

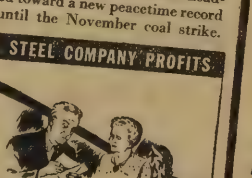

The number of wage earners is not far from the highest in peacetime steel history—20 per cent above the 1929 level.

Despite strikes earlier in the year, steel production in 1946 was headed toward a new peacetime record until the November coal strike.

Weekly wages in steel industry in the third quarter of 1946 were 63% higher than in 1939.

Average profit per dollar of sales in 1946 is lower than it was in most good prewar years.

## Letter To Santa

"I wrote a note to Santa Claus  
I thought it would be fun.  
I said I'd like a lot of things  
Especially a gun.  
But Father shook his head and  
said  
That wise old Santa knew  
I'd shoot myself or someone else  
And that would never do.  
So then I wrote and asked him for  
A sleigh with jingle bells,  
An auto, and a train of cars,  
And a pound of caramels.  
But sister May she cried  
Oh, don't ask for all those noisy  
toys  
And Santa knows that candy  
Ain't good for little boys.  
So then I wrote and asked him for  
A music box to play  
And a watch just like my father's  
To tell the time of day.  
But brother Tom he laughed and  
said  
Your brain must be askew.  
Old Santa never brings such things  
To little kids like you.  
At first I felt discouraged  
But now I'm not because  
My mother says that no one knows  
The mind of Santa Claus.  
She says it's safe to let him bring  
Whatever he thinks best,  
And mother has, I truly think,  
More sense than all the rest."

## Sheng Dan Jieh— A Holy Festival

The celebration of Christmas is  
gradually becoming widespread in  
China as more and more families  
are converted to Christianity.  
Sheng Dan Jieh—literally, Holy  
Birth Festival—is the Chinese name  
for Christmas. Private homes are  
decorated with large white posters  
inscribed with Chinese characters  
meaning Peace, Good Will, etc. The  
Christmas tree is also popular; sym-  
bolically called the Tree of Light, it  
is usually made of paper mache  
and, trimmed with paper flowers  
and ornaments, it is not artificially  
lighted.

Gifts are exchanged within fam-  
ily circles and there are "surprises"  
for the children: American lead  
pencils, picture books and even east-  
of Christmas cards are exceedingly  
popular.  
Early mass on Christmas morn-  
ing is the focal point of the relig-  
ious observances. Lantern-lit pro-  
cessions enter dark churches before  
dawn and, after mass, wend their  
way home singing Chinese transla-  
tions adapted to the original melo-  
dies of "Hark, the Herald Angels  
Sing," "Silent Night," and other tra-  
ditional Christmas carols.

The average number of wage ear-  
ners in the iron and steel industry last  
year was 496,000. The number of  
stockholders was 432,704.

Kansans boast that the city of  
Wichita has become one of the na-  
tion's airplane manufacturing centers.

## Christmas Poem

The time draws near  
the birth of Christ.  
The moon is hid; the  
night is still;  
The Christmas bells  
from hill to hill  
Answer each other in  
the mist.

Four voices of four hamlets round,  
From far and near, on mead and  
moor,  
Swell out and fall, as if a door  
Were shut between me and the sound.

Each voice four changes on the  
wind,  
That now dilate, and now decrease,  
Peace and good-will, good-will  
and peace.  
Peace and good-will, to all mankind.  
—Tennyson.

## Christmas Trees, Cribs and Ceppi

Christmas trees and cribs, with-  
in respective spheres of influence,  
provide focal points for observances  
of the season.

Various legends claim to tell the  
story of the first Christmas tree;  
actually, evergreen decorations  
were so closely associated with pa-  
gan celebrations that they were  
banned by many ecclesiastics of the  
early church.

According to literature, the first  
Christmas tree was set up at Stras-  
bourg, Germany, in 1604; even  
then, the cry rose against heathen  
customs and, as late as 1881, the  
Rev. Henry Schwan was severely  
criticized for setting up a Christ-  
mas tree in his church in Clevel-  
and, Ohio.

St. Francis of Assisi received  
special permission from the pope to  
present a tableau of the nativity  
scene. This first crib, set up at Gre-  
ccio, Italy, in 1223, was an imme-  
diate sensation; the renaissance  
endowed the cribs with ornate pa-  
gentry and, modernly, the crib is  
to southern Europe and Catholic  
countries what the tree is to Amer-  
ica and northern lands.

Eighteenth century Italians were  
fond of a fantastic decoration  
called the Ceppo. Pyramidal in  
construction, the Ceppi were made  
on a framework of lathes with  
transverse shelves rising to three  
or four stories, depending on the  
overall size of the Ceppo.

The whole thing was covered  
with colored paper, tufts, tassels,  
fringes, tiny pine cones, and little  
flags; a manger scene was repre-  
sented on the lowest shelf, while  
the upper ones were covered with  
small gifts, etc.; wax tapers were  
placed along the sides and a large  
gilt cone ornamented the top. Al-  
though the original designer prob-  
ably never saw a Christmas tree,  
the Ceppo—aided by a little imagi-  
nation—bridges the gap between  
Christmas cribs and trees.

## Star of Bethlehem Phenomenon of Age

The Star of Bethlehem has been  
the subject of extensive research  
and discussion.

Modern astronomers have consid-  
ered several natural phenomenon  
theories without attaching too much  
weight to any such hypothesis.

Skeptics regard the whole thing  
as mere invention, colored with  
Oriental imagery, designed to honor  
Christ; and faith accepts the star as  
the supernatural phenomenon which  
proclaimed the birth of Jesus.

The first chapter of the goss-  
pel according to St. Matthew be-  
gins:

"The book of the generation of  
Jesus Christ, the son of David, the  
son of Abraham . . ."

And confirming Bethlehem as the  
city of David, the angel of the  
Lord declared:

"For unto you is born this day,  
in the city of David, a SAVIOUR,  
which is CHRIST the Lord." St.  
Luke 2:11.

Considering tradition, which ac-  
cepts that King David's shield  
formed a six-pointed star, the Star  
of Bethlehem appropriately  
" . . . stood over where the young  
Child was," St. Matthew 2:9.

## Christmas Was At One Time Illegal

The Puritans disliked the cele-  
bration of Christmas, preferring  
their own celebration of Thank-  
sgiving.

In 1659 the high court of Massa-  
chusetts held that "anybody who is  
found observing, by abstinence from  
labor, fasting or any other way  
such day as Christmas Day shall for  
each and every offense be fined  
five shillings."

assets are 1,800 miles "of navigable  
waterways and" approximately 4,600  
miles of railways.

## Candles Originally Were Symbols of Light and Joy

Since the beginning of time man  
has sought to prolong the day and  
dispel the terrors of darkness with  
watch-fires, torches, beacons, etc.

According to St. Jerome, candles  
are used by the Church not so much  
as a means of dispelling or conquer-  
ing darkness, but rather as an ex-  
pression of Christian joy.

At the age of 42 years Theodore  
Roosevelt was the youngest person to  
become President of the United States.  
At the age of 68 years William H. Har-  
rison was the oldest.

They were John Adams, John Quincy

- It is said that the coming year's weather may be forecasted by cocking an eye at the sky during Christmas week. Here are a few of the beliefs, conflicting in many details:
- If the sun shines through the apple tree on Christmas Day, there will be a good crop the following year.
- If ice will bear a man before Christmas, it will not bear a mouse afterwards.
- Thunder and lightning Christmas week means much snow the balance of the winter.
- Rain causes more damage than frost before than after Christmas.
- At Christmas if meadows are green, at Easter they will be covered with frost.
- If windy Christmas Day, trees will bear much fruit.
- A wet Christmas means an empty granary and barrel.
- A green Christmas makes a fat graveyard.
- A warm Christmas means a cold Easter.
- A green Christmas is followed by a white Easter.

### Karkantzari's Fear Of Burned Leather

Christmas fires burn brightly in Greek households throughout the holiday season, and Macedonians have their old shoes for the purpose of burning them at Christmas time since the odor of burning leather is said to be offensive to the Karkantzari.

The Karkantzari are mysterious creatures which wander about the rural communities of Greece between Christmas and Epiphany. Dreaded because their gremlin-like tricks make life generally miserable for everybody, the Karkantzari are particularly fond of attacking and peating persons who are a bit frowsy after an unusually hearty meal.

Of course, the orthodox Greek priest effectively banishes the Karkantzari when he comes around with his copper vessel of holy water and cross entwined with sprigs of basil. The priest dips the cross into the vessel and sprinkles each room with the holy water—after which the Karkantzari are expected to disappear and not return until the following Christmas.

### Original Vitamin Factor

In Worcestershire, mistletoe was thought to render cattle prolific and vert bad luck from the dairy herd.

### Wassail Bowl For Auld Lang Syne

The Wassail bowl goes around in Scotland—and elsewhere—at New Year's time.

The origin of the custom is really lost in antiquity: Saxon ancestors probably quaffed their ale from the polished skulls of defeated enemies, and the Rowena legend must be classified as "presumably fiction."

Rowena is reported to have offered her father's guest—Prince Vortigern—a bowl of wine with the salutation "Lord King, wass-hael," literally, "To Your Health." Draining the bowl with one draught, Vortigern fell in love with Rowena and they lived happily ever after.

Anyway, in time the bowl itself became an ornament of graceful design—decorated with branches of greenery which formed a canopy over the bowl. The mixture within was warm and included ale, sugar, spices, sweetened wine was added by hosts who could afford it, apples floated on top of the decoction, sometimes called "lamb's wool" or the "old man's beard." The poorer classes carried a bowl decorated with ribbons around the neighborhood, begging that it be filled, so they, too, might enjoy the Wassail.

The custom of making short calls on New Year's Day was in full swing throughout America about 1900. Newspapers carried columns of "at home" notices specifying the hours during which visitors would be received. A succession of "open houses" and punch bowls sometimes minimized the courtesy accorded to hostesses—receptions were often "crashed" by bibulous strangers; hence, the publicly announced "open house" custom has fallen into decline and, New Year's calls now being exchanged only by intimates, the Wassail bowl goes 'round in private.

The state of Missouri is rich in minerals, most valuable of which are coal and zinc and lead ore.

### Mince Pies of Deep Christmas Tradition

No Christmas dinner would be complete without mince pies. While they have long been a part of our Christmas tradition, they originally had a deep symbolic significance.

Patterned after the manger in which Christ was born, they were oblong in shape. The crust, baked a golden brown, represented the gold brought by the Three Wise Men.

### A Volunteer Santa Speaks His Heart

"I know what it is to be a disappointed kid on Christmas morning—"

"I always wanted a boat, but my folks were poor and I never got one—that's why I became Santa Claus, I guess.

Volunteers of America worker plays hostess to some of the organization's Santas.

"Working for the Volunteers of America, I've played Santa to thousands of youngsters during the last 18 years. I read a lot of minds, too, during the depression when people plodded past my cardboard chimney; folks are happy now and the carols, that gave them a far-away look while war almost blacked out the Christmas Spirit, make them smile and drop coins in the chimney."

"It's fun to have a part in the happy Christmases of so many youngsters. Most of those that I see come downtown with their mothers, and I try to get a nod of approval before I make any definite promises—kinda make sure the kids won't be disappointed."

"Just the same, I can't help thinking about the kids I never see who want dolls 'nd dishes, drums and sleds, picture books, skates, trains . . . and boats; what a lot of helpers Santa needs to see that all these things get to the right places at the right time!"

"Wish we could be sure there will be no broken hearts this Christmas."

As feeble as were the colonies, yet, under the impulse of liberty, and the blessings of God, they gloriously triumphed in the contest.—John C. Calhoun.

### First Watch Night Service Held by Pioneers in 1770

In addition to the more or less hilarious secular celebrations on New Year's Eve, many religious denominations hold special "watch-night" services from nine or ten to twelve o'clock.

The custom was inaugurated by St. George Methodist Episcopal church in Philadelphia, where the first "watch-night" service was held in 1770.

### Saint Sylvester's Feast Day Marks End of Year

The feast of St. Sylvester, who was Pope from 314 A. D. until his death in 335, is observed by the Roman and Anglican churches on December 31.

In Germany and Belgium the morning of St. Sylvester's Day is commemorated religiously, while the afternoon and evening are devoted to various kinds of horseplay in anticipation of the coming New Year.

### \$1,554,715 SPENT FOR PUBLIC WELFARE THIS YEAR

Montgomery, Ala. — Alabama's expenditures for public welfare for the fiscal year 1945-46, ending September 30, 1946, amounted to \$1,554,715, compared with \$1,279,586 for 1944-45, an increase of \$275,129, according to a report issued by the State Commissioner of Public Welfare, Release by Governor Sparks of a \$750,000 conditional appropriation for the fiscal year 1946-47, the largest increase in the state's welfare department since 1933-34, and its matching by Federal money, figures prominently in the increase. The total for 1945-46 was made up as follows: State funds, \$3,379,204; Federal funds, \$5,041,326; and local funds, \$3,134,185. By far the biggest item of expenditure was for old age assistance, \$2,322,282, and to dependent children was the second largest, \$2,044,573.

A number of families receiving aid increased from 12,200 in September 1945, to 52,004 for September 1946. The report pointed out that the status of the relief program really includes:

In the

one of the almshouses in Alabama for a period of eleven years, as protection has been made for people to remain in their own homes, or those of friends or relatives, instead of going to the poor house. On Sunday, December 16, 1946, the almshouse did not have an almshouse.

Dunn outlined principal needs of the public welfare program as follows: simplification and improvement of the welfare program, whereby Alabama's welfare program is made more efficient; Federal legislation to amend the Social Security Act to provide for grants to States on the basis of each State's economic capacity; Federal participation in all aspects of the welfare program; extension of Federal social insurance programs as to coverage, benefits and amounts included. Finally, "Further strengthening of public understanding of the welfare service as a safeguard to all people."

### STATE MAKE DRIVE TO COLLECT DELINQUENT INCOME TAXES

Montgomery, Ala. — The State Department of Revenue has launched an extensive drive to collect delinquent income taxes. J. A. Stephens, chief of the department's income tax division, declared today that a survey has shown numerous delinquents on State income tax, especially among taxpayers who have profited by higher tax and stimulated business resulting from war conditions. He listed domestic workers and contractors, sawmill operators, professional men and State, county, city and federal employees as persons most likely to have to pay the tax. He expressed belief that there are many taxpayers in the smaller towns and rural sections who have had sufficient income to require making of returns, even though their incomes in normal times was not sufficient.

Stephens pointed out that every individual with a net income of \$1,500 or more if single, or \$3,000 or more if married, regardless of additional credit deductions, is required to make a return, and that returns are also required from partnerships, regardless of volume of business and profit, and from all corporations doing business in Alabama.

In the delinquent tax drive, the department will be to accept voluntary returns without imposition of delinquent penalties, if it is shown that the de-

linquency was not due to willful negligence or intent to evade payment, Stephens said. He added that if delinquency is continued until it becomes necessary to assign an agent of the department to make an investigation and secure proper returns, delinquency penalties of at least 25 percent will be applied. Proper forms for making returns may be obtained from the Department of Revenue, State Capitol Montgomery.

### Lincoln Issued Famous Emancipation January 1.

The Emancipation Proclamation was issued by Abraham Lincoln on New Year's Day, 1863.

The Proclamation abolished slavery in those states and parts of states which were in rebellion on that date and, though other days are observed in various parts of the country, January 1 is the date most generally observed as Emancipation Day.

### MACEDONIA

(Too Late For Last Week)

We were so glad to have as good attendance as we did at Sunday School and B.T.U. Sunday night. We had some new members to which we were glad to enroll. They were Mrs. Tommie Morris and children and Mrs. Jack Jackson.

The W.M.S. meeting at Mrs. Joe Ward's Friday was indeed a wonderful day of prayer. There were twelve present. At the noon hour a table of good eats were spread. When the time came for business, curtains for the church was discussed. We planned for the W.M.S. to do this. An offering was taken. The treasurer gave her report and we have \$21.00 in the treasury. The meeting closed at three o'clock with prayer by the pastor, Rev. E. C. Hand.

Next Sunday is our regular preaching day by pastor Rev. E. C. Hand. We have planned to have the Xmas program and tree on Xmas Eve night, December 24th.

We was sorry that the Junior Sunday School teacher, Mrs. Winston Langston, was sick and could not be at church Sunday. We wish her a speedy recovery.

Miss Marie Crumpton spent Sunday with Mrs. Mary Oates.

The W.M.S. ladies wants to thank the following men and boys who gave us money on the curtains Sunday night. Those who gave \$5.00 were: Mr. Pratt Crumpton, Marvin Oates, D. E. Moore, Proctor Davenport, Coy Raspberry, Coker Hayes and Billy Hayes. Mr. Floyd Nix gave \$2.50; Howard Davenport \$1.00, and Mr. Ben Glasscock \$2.00. This made us \$61.61 in the W.M.S. treasury. If there is anyone who wants to give something on these curtains, please see one of the following committee: Mesdames Winston Langston, D. E. Moore and Marvin Oates. It will sure be appreciated!

Mr. and Mrs. Briggs Gibson spent

Sunday night with parents, Mr. and Mrs. F. C. Gibson.

Mr. and Mrs. D. E. Moore's visitors Sunday were: Mr. and Mrs. Pratt Crumpton, Mr. and Mrs. Floyd Nix and children, and Uncle Zack Jones; Mr. and Mrs. N. E. West and daughter, Kathryn, and Mrs. P. K. West of Lomax came by a while in the afternoon.

Mr. and Mrs. Harvey Glasscock of Bessemer spent the week end with daughter and family, Mr. and Mrs. Woodie Raspberry.

We was glad to have U. V. Waldrop who is in the army at church Sunday night.

### Fun at Dingley Dell

When they were all tired of blind-man's bluff, there was a great game at snap-dragon, and, when fingers enough were burned with that, and all the raisins gone, they sat down by the huge fire of blazing logs to a substantial supper and a mighty bowl of wassail, something smaller than an ordinary wash-house copper, in which the hot apples were hissing and bubbling with a rich look, and a jolly sound that were perfectly irresistible.

"This," said Mr. Pickwick, looking round him, "this is indeed comfort."

"Our invariable custom," said Mr. Wardle, "Everybody sits down with us on Christmas Eve, as you see them now—servants and all; and here we wait till the clock strikes twelve to usher Christmas in, and while away the time with forfeits and old stories. Trundle by, rake up the fire."

Up flew the bright sparks myriads as the logs were stirred, and the deep, red blaze sent forth a rich glow that penetrated into the farthest corner of the room and cast its cheerful tint on every face.

"Come," said Wardle, "a song—a Christmas song, give you one in default of a better."

"Bravo!" said Mr. Pickwick. "Fill up!" cried Wardle. "It will be two hours gone before you see the bottom of the bowl through the deep rich colour of the wassail; fill up all round, and now the song."

From Charles Dickens' "Pickwick Papers."

### Leading Carols

By LYNN CONNELLY

A SONG which made its appearance in 1942 entitled, "White Christmas," is in its fourth year and well on its way to permanent recognition as a Christmas favorite.

The amazing popularity of "White Christmas" as a yuletide song reached its peak last year when a poll conducted to establish the favorite carol of servicemen revealed that 22 per cent of the votes went to this early war song written especially for the occasion by Irving Berlin, graduate of Tin Pan Alley.

The birth of the song was entirely by accident despite rumors to the contrary which attribute its conception to the war. Actually, it was composed in 1940. A Hollywood studio had an idea for a motion picture to be called "Holiday Inn," co-starring Fred Astaire and Bing Crosby. The theme of the picture was based on the holidays of the year and a song was needed to represent each holiday. Irving Berlin was contracted for the composition. The picture, released in 1942, was synonymous with our second wartime Christmas, and in that year the song sold one million copies in four months. Although nothing is done on the part of the publishers to exploit the song, it automatically rings the register each year as the holiday season approaches. Berlin calls it his favorite song, with the exception of his "God Bless America" written during World War I. "It's difficult to predict a song's future," says Berlin, "but judging from its past, I would say "White Christmas" has a very good chance of becoming a permanent song along with other Christmas carols."

#### LITTLE OL' SANTA

The little ol' santa propped under our tree . . . is little the worse for wear . . . he's lost a leg and an arm, you see . . . but no one seems to care. Not that we're unsympathetic, rather, we are just a bit nostalgic.

Time was when our santa, bright and new, benignly welcomed Tommy and Sue . . . as they tiptoed downstairs to see . . . their presents spread beneath the tree . . . very early Christmas morning.

"The Tommy and Sue have outgrown their toys . . . and entwined their hearts with grown-up joys . . . that little ol' santa, propped under the tree, symbolizes Christmas—as Christmas ought to be . . . with toys for children, good will among men . . . on earth, Peace dawning.

## CHRISTMAS CANDLES

Candles shaped like pine trees can be made to include the smell of pine in the candle wax.

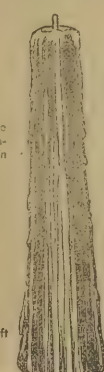

Snowball candles are left to give frosted effect.

Lilies or other flowers may be molded while the wax is still warm.

In making a cottage candle the windows, doors and shrubbery are painted in by hand.

Big oversized jumbo candles may be made of various colors, of sizes to fit some particular nook in the house.

### Saint Nicholas Day in Holland

When Christmas rolls around in Holland, it is quietly and religiously observed; St. Nicholas Day, December 6, is the day of gift-giving and jollification.

For weeks, life-sized figures of St. Nicholas have decorated shop windows and men dressed as Nicholas have stood in front of business establishments, and driven around in horse-drawn carts delivering parcels.

At last the great day arrives: if there are several children in the household, sometimes they are gathered together from neighboring households, Bishop Nicholas (dressed in full vestments and accompanied by his Moorish servant) attends the children's party and impresses them by his knowledge of their shortcomings and chides them fatherly before distributing the trinkets and gifts he has brought for them.

After the youngsters have had their fun, the grown-ups sit around a festive table and open their "surprises." Small gifts are baked in loaves of bread, packed in enormous crates, wrapped in bales of paper—each wrapper directing the present to a different person: the longer the donor and final recipient remain unknown, the greater the general jollification.

Indicative of the spirit of the season, packages containing gifts are often entrusted to strange passers-by who are instructed to leave the parcel on such and such a doorstep and ring the bell.

There are about 100 miles of welded railroad rails now in use in the United States.

## Mistletoe Distinct As Yule Decoration

Mistletoe, that distinctive Christmas green so common in many parts of America, is usually thought of as merely good holiday decoration or as a creator of open season on ladies fair for otherwise bashful swains.

Mistletoe did not always hold this position in our lives. The Druids called it "all-heal," and thought it held many miraculous virtues. The Scandinavians dedicated it to their goddess of love, Friga. Probably this goddess of love is responsible for the custom of kissing under the mistletoe.

The power to heal, to protect against sickness, to perform magic deeds—all these and more are the qualities ascribed to this plant in legends, traditions and even in ancient histories and literature.

Mistletoe is a parasite, which infests branches of various trees of both hardwood and conifers, but mainly on hardwoods. One species is found exclusively, however, on conifers.

Among the Celts and others mistletoe which grew from the oak was considered to have peculiar magical virtues not possessed by that from any other trees. Some even considered it to rare as to be only cut with a gold knife.

Another old tradition is that the mistletoe supplied the wood for the holy cross, as previous to that time it was a forest tree but after the crucifixion was condemned to exist only as a dwarf parasite.

Mistletoe was taken over into the Christian tradition in due course and dedicated to the Christ Child. An old rhyme reads:

The mistletoe bough  
At our Christmas board  
Shall hang to the honor  
Of Christ our Lord.

CHRISTMAS IN MIDDLE AMERICA . . . While the Christmas customs vary in the ten Middle America republics, bells play an important part in every country. This bell in church tower at Panama City plays a big part in their holiday celebration.

### Santa Claus By . .

#### . . Any Other Name

Santa Claus is inseparably associated with the spirit of gift-giving in America, but in other lands, various gift-bearers are just as eagerly awaited.

Commemorating the arrival of the Magi on Epiphany, the Wise Men leave presents for good boys and girls as they pass through Spain and other Catholic countries during their annual journey to Bethlehem.

Italian Befana and Russian Babouska are variously reported to have hesitated to follow the Wise Men, misdirected them, and refused shelter to the Holy Family; in their respective countries, these two ageless wanderers slip toys beneath the pillows of sleeping children—still looking for the Babe of Bethlehem whom they have never found.

Christkind, in keeping with the German idea of Christmas, is the messenger of the Infant Jesus who brings happiness to good children; Polish and Hungarian youngsters search the house for strands of angel hair—conclusive evidence that the Holy Angels are near to bestow gifts upon the worthy.

In France, the Yule Log is allowed to burn momentarily, extinguished and covered with a cloth. After the Log has failed to yield gifts, the children are sent to ask pardon for their omens in private. Meanwhile, parents place the presents beneath the cloth to be discovered by the returning children.

Syrian legend sends the Gentle Camel of Jesus, laden with gifts, riding over the desert on Epiphany Eve—exhausted by the hasting Wise Men, he was blessed with immortality by the Christ Child.

The identity of the gift-bearer is immaterial; but it is vital that no child be disappointed; no trusting heart betrayed; lest the magic hour passes, leaving broken dreams and twisted emotions to wander across the wilderness of eternity.

### Smash the Pinata

#### South of Border

Smashing the Pinata is a red-letter feature of Mexican Christmas festivities.

An earthen jar is filled with nuts, candies and small gifts. Elaborately disguised and decorated with tissue paper, etc., it often represents a doll's face or an entire figure—perhaps a bull fighter.

Children of the household, blindfolded and armed with a club, are each given three chances to break the Pinata. Inasmuch as the basic earthen jar has been selected because of its fragility, it shatters easily, releasing a shower of goodies and trinkets and causing everyone in the party to scramble for a share.

### Wise Men Patron

#### Saints of Travelers

The Three Kings of Cologne have become patron saints of travelers, and very appropriately, too, since the Wise Men traveled considerably even after their death.

Biblically we know very little about the Wise Men. Church tradition, based on the three specifically mentioned gifts, has established three Wise Men and identified them as Caspar, Melchior and Balthasar; the Kings of Tarsus, Arabia and Ethiopia, respectively.

Legend advances that on their way to Bethlehem, the Magi met at Ur and St. Matthew states that having adored the Christ Child, they departed into their own country by a different route. Whether each returned to his own country or whether all three journeyed into one country are matters for conjecture. Legend continues that they were baptized, distributed their wealth among the poor, and went about preaching the doctrine of peace and repentance; all three seem to have suffered martyrdom in India at the same time.

In the fourth century Empress Helena, mother of Constantine, arranged for the transfer of their bodies to Constantinople.

When the Greek Emperor was overpowered by the first crusade in 1096, the holy remains were sent to Milan where they were enshrined until the latter part of the 12th century when Frederick Barbarossa ordered their removal to Cologne.

The Archbishop of Cologne adorned the relics with precious jewels and enshrined them within the Cologne Cathedral; in time, anything which touched the skulls of the Three Kings was considered as a charm against accidents, hence, the Wise Men became popular patron saints of travelers.

### STATE HEALTH DEPARTMENT

Montgomery, Ala. — Only three states had a larger ratio of illegitimate births to total live births in 1944 than Alabama, according to information received by the State Department of Health from the Bureau of the Census.

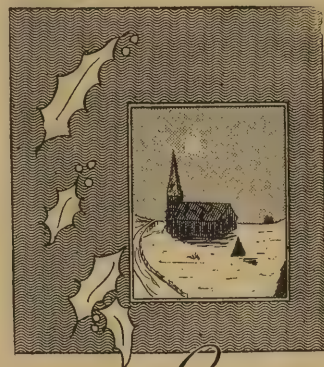

The Alabama rate of 75.2 illegitimate births for every 1,000 live births was exceeded only by those for Mississippi, North Carolina, South Carolina and the District of Columbia. This State's white rate was 14.3 per 1,000 live births, while its "nonwhite" (Negro) rate was 182.8 per 1,000 live births.

The area of Continental United States in square miles is 3,738,393.

## Edible Manger In Ukraine Rituals

In the Ukraine an elaborate Christmas Eve supper breaks a 30-day fast during which no meat has been eaten. Twelve courses are served, one for each of the twelve Apostles: buckwheat and mushroom soup, pancakes in flax, prunes, fish, bread, and nuts are included in the menu.

An additional course of honey and porridge is also served; called Koutis, the dish represents the holy crib; the porridge represents the straw—as in the manger—and the Holy Infant is symbolized by honey and fruit: the honey is also considered symbol of the spirit and blood of the Saviour.

## January 20 Will Be Inaugural Day For Next Governor

Alabama's four-year change of administration will take place in January when Gov. Chauncey Sparks will bow out of the picture and James E. Folsom will take over the helm of the ship of State. Plans are being perfected for ushering in the new regime inauguration day, fixed by law the first Monday after the second Tuesday in January, falls this time on January 20. First step in the process of change will come a week earlier, with convening of the new legislature, Jan. 14. The January session is limited to ten calendar days, and no new laws can be passed at this time, the brief session being for purposes of organization, election of officers, appointment of committees and other details. It is customary for the legislature, shortly after convening, to receive a valedictory message from the outgoing Governor, pointing with pride, reviewing and recommending. Soon after his inauguration, the new Governor likewise submits a message, outlining his program and charting a course.

January 20 will be a gala day, with an inaugural parade up historic Dexter Avenue, expected to be the most colorful and elaborate in many years, with silk hats and frock-tailed coats in evidence, and atmosphere befitting a great State occasion. The theme of education will be stressed in the parade, and schools of the various counties have been asked to send appropriate floats. Superintendent of Education A. R. Meadows said today that about 60 counties are expected to be represented. After the parade will come ceremonies featuring administering of the oath of office by the Chief Justice of the Supreme Court, and the inaugural address of the new chief executive, with the inaugural ball coming as the climax of a day devoted in part to solemn ceremony and in part to joyous festivities.

Although no legislation can be passed at the January session, a highly important action immediate after convening will be election of the Speaker of the House of Representatives. The Speaker not only presides over sessions of the House, he also appoints its committees, powerful factors in carrying out any legislative program. Several aspirants for the speakership are already active.

After concluding its ten-day January session, the legislature will adjourn, to meet again in regular session the first Tuesday in May. If past procedure is followed, interim committees will be named to map a legislative program in the interval. Under a constitutional amendment ratified in November, 1946, the legislature when it comes back in May, can remain in session for 36 legislative days, which

means that only the days on which the legislature actually meets count against the session, with recess days in between not counting. Under this procedure it is expected that the session will be stretched out considerably longer than the 60 calendar days hitherto allowed.

Although he will take the oath of office on January 20, Gov. Folsom will not actually become Governor until the next day. The question of exactly when the term of the old Governor ends and the new begins was determined years ago by a court decision, which held that the outgoing executive is Governor until midnight of inauguration day.

Other State officials elected in 1946 will take office at the same time as the new Governor, and appointive department heads will also take over at that time. While there have been instances where a Governor has reappointed a department head, he usually brings in new men, the old officials fading out of the picture along with the Governor who appointed them.

## Free Diagnostic Program Is Big Aid To Alabama Farmers

Alabama farmers are reaping valuable rewards from free diagnostic service available through the State Veterinary Diagnostic Laboratory says A. E. Carnes, assistant extension service editor.

Writing in the current edition of "This Month in Rural Alabama," monthly publication of the State Extension Service, Carnes points out that authorities estimate U. S. farmers lost \$25,000,000 annually through livestock disease.

"Alabama has a laboratory that can aid in practically stamping out her share of this loss," he said. Established in June, 1942, by the State Agriculture Department in cooperation with Alabama Polytechnic Institute, it operates under supervision of the state veterinarian, Dr. R. S. Suggs. Dr. W. E. Cotton, lecturer and consultant at A.P.I., has been director of the laboratory since establishment.

"The laboratory plays an important part in the rapid control of a disease outbreak in any section of the state," Carnes declared.

He cited the following as an example of how the laboratory's facilities may be employed:

"If a farmer's cattle or other livestock begin to die from an unknown cause, this farmer or his veterinarian has the privilege of mailing suitable specimens from diseased animals to the laboratory for diagnostic service.

"In the case of chickens or small animals," he added, "it is considered best to ship the animal. In either case the specimen should be sent in without delay.

"When the specimens or animals are received they are given a quick but accurate diagnosis in the laboratory and a report dispatched to the owner or veterinarian which enables launching of immediate control measures."

Carnes listed anthrax, a cattle disease which can be transmitted to man, as one killer which has been kept under control through cooperation of the state's veterinarians and the diagnostic laboratory.

Among the poultry diseases which the laboratory has assisted in combating, he said, is pullorum which is sometimes incorrectly referred to as B.W.D. or white diarrhea.

The extension editor explained that the state laboratory does not seek to supplant the local veterinarian but to supplement his efforts by assisting in diagnostic work.

Checks recently mailed out to counties for their share of the gasoline tax from November collections were the biggest on record, each county receiving \$15,946.31. This represents a substantial increase over a year ago, the figure for November, 1945 having been \$12,466.25 per county.

There are about 100 miles of welded railroad tracks now in use.

## "Buy Christmas Seals" Urges Local Tuberculosis Association

Residents of Chilton County who have not yet acknowledged receipt of their 1946 Christmas Seals were urged to do so promptly in a statement issued this week by Mrs. Joe Mullins, Seal Sale chairman.

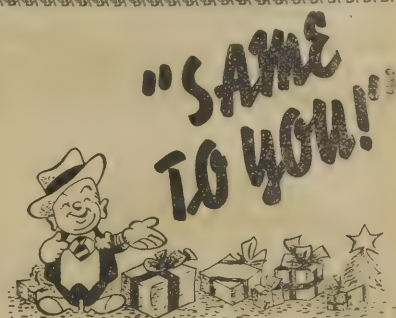

"Next week is 'Christmas Week,'" said Mrs. Mullins, "and giving good health through the purchase of Christmas Seals is a gift none of us want to forget. Christmas Seals bought in the spirit of the Yuletide season will benefit Chilton County throughout the coming year.

"In the rush of holiday preparations, people sometimes forget to acknowledge their Christmas Seals. We are

eager to have all returns in as soon as possible because the work of planning for tuberculosis control and prevention next year depends upon the success of this Christmas Seal Sale."

Persons wishing to purchase Christmas Seals who did not receive them through the mail may obtain them by contacting Mrs. Mullins, the chairman said.

"Let us all remember the eight people who died last year from tuberculosis in Chilton County, and let us dedicate our 1946 Christmas Seal dollars to a strong determination to avoid further needless death from this evil killer," Mrs. Mullins said.

## Family Christmas

Held in Germany

Christmas is a family affair in Germany and preparations begin well in advance of the holiday.

The Advent wreath is hung on the first Sunday in Advent. This large wreath has a red candle to begin with; an additional candle is added each Sunday until Christmas and paper stars are added daily. The stars are inscribed with Bible passages which are memorized by the children of the household.

Everyone occupies precious moments making gifts for loved ones: perhaps a soap rose, a paperweight, toys for the younger children, an embroidered handkerchief or table cover: there are dozens of cookies and special cakes to be baked and everything must be finished the day before Christmas — stores and restaurants are closed, too — so that servants and tradespeople may spend Christmas Eve with their families.

After church services on Christmas Eve, one of the family goes into the parlor—where the Christmas tree has been set up and decorated with ornaments treasured from year to year. At the first notes of "O Tannenbaum," the whole family rushes in and gathers around the tree; several familiar carols are sung, and then the presents are distributed.

Sometimes Christmann — Father Christmas—joins the festivities and asks each child to say a verse; correct recitations are awarded by Christmann from pockets bulging with goodies and trinkets.

Romans Started  
Christmas Boxes

Boxing day has been a day of gifts to public servants since Roman times. It originated as a pagan custom for the Romans observed the rite during their winter feast of Saturnalia. Later, when the people became Christians, the gifts were handed during Mass to the priests, who placed them into boxes. The feast was then known as Christ's Mass and the boxes as Christmas boxes, not to be opened except by being broken.

All manner of tradesmen soon realized that the idea was a good one, and it became a common practice for apprentices and others to take a box round to their business acquaintances, singing carols the while.

By the time Pepys wrote his famous diary, Christmas boxes were well established, and he mentions them several times in his writings. Swift also has a word to say about them in his "Journal to Stella," written in 1710: "By the Lord Harry, I shall be undone here with Christmas boxes."

One public servant, the "bellman," who enjoyed the privilege of soliciting Christmas boxes, was in some respects the forerunner of the postman, often being commissioned to deliver letters. At the approach of Christmas he would push poems of his own composition under the doors of townsmen whom he had served. They were reminders that recognition was expected on Boxing Day.

try using melted alum to fasten the pins on.

Canned mushrooms and their juice not only add to the flavor of holiday gravies, but also extend the gravy.

Paper boxes containing spices, raisins, etc., can be resealed easily by using adhesive tape to hold the flap down. This keeps air out, and helps retain the freshness of the boxes' contents.

Before cutting material which ravels easily, lay the pattern on the cloth and mark around the pattern with a wax crayon. Then cut on the waxed line.

November Payments  
To Unemployed Lower  
Than October

Expenditures to Clanton County's unemployed last month and in the preceding month were as follows, according to an announcement in Montgomery by Frank R. Broadway, state director of industrial relations:

To veterans in November — \$22,297.  
To veterans in October — \$32,463.  
To civilians in November — \$4,537.  
To civilians in October — \$5,951.

In the state as a whole, November payments to unemployed veterans totaled \$1,428,510, a decline of 28 per cent from October. This was the largest percentage of decline between any two months since the program began in September 1944. The reduction primarily was the result of voluntary withdrawals from the claims load. Out 783 veterans were disqualified for failure to seek work and 373 exhausted their benefit rights.

For the fifth consecutive month, no payments were made to Lowndes County civilians.

WINTER GRAZING IS  
STUDIED BY FARMERS

In all sections of the State groups of farmers are seeing and studying the value of winter grazing crops.

Tours organized by county agents have attracted great numbers of farmers interested in increasing and improving their acreages in these crops. Proof that winter grazing is popular is the fact that the 500,000 acres planted in 146 for this purpose set a new high in the State.

Extension Service agronomists say that vetch, crimson clover, and calcey peas are seeded on most of the acreage. Many farmers began turning livestock on these crops in September and will get nine months of grazing from them.

PREFERENCE ENDED FOR GI MACHINERY

No new veterans farm machinery preference certificates will be issued. A. W. Jones, state director of Production and Marketing Administration, announced this week. All certificates will become void February 8, 1947. This action was necessary because

of the cancellation of War Food Order 135. Since veterans priority certificates on new farm machinery are good for a period of 60 days, no new certificates have been issued since December 9. In making this announcement, Mr. Jones advised that outstanding certificates may be extended to, but not beyond, the termination date of February 8th.

Christmas Minus a Santa Claus

Do you believe in Santa Claus? The children of Middle America never heard of old Saint Nick, even though their holiday celebration compares happily and merrily to our own. Picnics and outdoor excursions are traditional events of the day, for Christmas comes in mid-summer weather there. Weeks before the holiday, families in El Salvador, Mexico and Panama prepare tiny clay or wooden figures for the creche which most homes display during the universal holiday. In Guatemala, Costa Rica and Cuba, images of the Virgin are carried through the streets. Christmas celebrations and customs vary in the ten republics which comprise Middle America—Mexico, Guatemala, El Salvador, Honduras, Nicaragua, Costa Rica, Panama, Cuba, Haiti and the Dominican Republic.

MORAL ECHOES

Rev. D. W. Haskew, D.D.

A celebrated Belle of Paris constantly whitewashed her body with a prepared cosmetic, but one day after her medicated bath she found that she was as black as tar from the top of her head to the end of her toes. She was an Ethiopian complete. In great alarm she sent for her physician and seeing that she was a chemical product, and knowing how to absorb and counteract colors, he gave her a sulfuric bath, and soon restored her body as a member of the Caucasian race. Once again she was a white woman and as pretty as ever. Many a man, many a woman, has gone out into one night's revelry and changed the color of character from white to black, and to restore the whiteness to that character is not so easily done. Only Jesus has the power to wash the soul and make it as white as the snow.

Every summer when the climbing season arrives for the climbing of the Alps, the Swiss people hold a very solemn service of consecration. The guides for mountain climbers bring all the ropes, old and new, and pile them in a great heap, and they are blessed by their pastor. Prayer is offered over them that they may bear the strain and stress that is required of them. Reverently the guides are commended to the mercy of God, that

fireworks climax the festival in most of these republics and marimba bands play in bunting-bedecked parks while whole families trek from farm to village, visiting relatives or joining in the public merry-making. Mexican families string their patios with colored lanterns and hang the pinata, a large clay jar shaped like a bird or animal and filled with fruits, nuts and candies purchased at the picturesque Christmas stalls in the markets. The children are blindfolded and armed with long sticks. They reach for the pinata until one child breaks the jar and the sweets tumble out to be shared by all. Despite the various forms of observing the Christmas holidays, Middle America is united in its celebration of peace with its bright hope for inter-American interdependence.

they may be kept safely in their climes, and that no traveler may suffer harm or hurt on the mountain side. They have a dangerous task and they begin in prayer, trust and faith. In like manner you should begin every day of your life. Hold a consecration service each day and leave your work and your life in the hands of God.

Every Spring I have observed "Flying Ants" as they come from an old stump, or some form of decaying wood and fly away as if they were insects with wings that could be trusted. They fly well for a short time and distance, but their wings leave from the body of the ant and to earth it falls. The flying ant starts well, but soon it loses its wings and its flying is all over. My young friends, be cautious when you start out on the wings of youth. Be sure that you have trustworthy wings, character that will not fail you and then you can fly and the sky will be your limit. It is the dependable virtues of youth, that will hold steady as you travel on the earth or in the air. To lose your character wings is fatal to you, as it is to the flying ant when it loses its wings.

REPAIR TERRACES

Now is a good time to repair old terraces that have filled in or run over during the summer. Open outlets so that water from heavy winter rains will drain off without carrying top soil with it. Extension Service agricultural engineer adds that construction of new terraces should be finished as early in the winter as possible so that they will be firmly settled when planting begins in the spring.

PRE-REGISTRATION AT AUBURN CLOSED

Pre-registration at Auburn has closed and approximately 5,500 students have registered for the 1947 winter quarter, Registrar Charles Edwards said today. New students, freshmen and transfers, will register on January 3-4. All classes will begin Monday, January 6, 1947.

FARM INCOME DOWN

For the first eight months of this year income to Alabama farmers from cash marketings totaled \$100,333,000—about five percent less than for the same period last year. Wichita, Kansas, began to be a grain market and milling center as early as 1874.

**Peace and Good-Will**

The time draws near the birth of Christ:  
The moon is hid; the night is still;  
The Christmas bells from hill to hill  
Answer each other in the mist.

Four voices of four hamlets round,  
From far and near, on mead and moor,  
Swell out and fall, as if a door  
Were shut between me and the sound.

Each voice four changes on the wind,  
That now dilate, and now decrease.  
Peace and good-will, good-will and peace,  
Peace and good-will, to all mankind.  
Tennyson.

**Jews Celebrate the Festival of Lights**

To the Orthodox Jews, the Christmas period was the "Festival of Lights," called Hanukkah or Chanukah. Jewish history relates that in 165 B. C. a large force of Maccabees met and vanquished an army of Syrians.

Judas Maccabees entered Jerusalem with his army and found it a place of desolation. He began the work of purification and on the 25th day of Kislev it was finished and a sacred light was lit.

In their destruction of the temple the sacred oil was practically exhausted, but they did find a jar which they judged would burn one day. It lasted eight days, therefore each year the Jews decree that the eight days previous to December 25 be celebrated.

**Real St. Nicholas Of 4th Century**

St. Nicholas is popularly associated with Christmas and gift-giving presumably because once during his mortal existence he reportedly endowed three dowryless maidens with three purses of gold.

Historically—as the Archbishop of Myra, Nicholas was a member of the council of Nicaea. In 325 A. D., Constantine the Great called together the theologians of the Christian world in the first complete general council of the entire Christian church.

The council, assembled near Constantinople, and presided over by the still unbaptized Constantine, proclaimed the first exact definition of Christian teaching—as embodied in the Nicene Creed—and marks the beginning of Christianity as it is understood today.

**Deciphers Story of Old Syrian Tablet**

A scholar at Yale university recently translated an inscription on a clay tablet found in Northern Syria which comprised the oldest known narrative of the miraculous birth of an exceptional child, "antiquating similar tales familiar in Old Testament literature."

The ancient tablet was one of several unearthed during a series of archaeological expeditions begun in 1929 at Ras Shamra, the site of ancient Ugarit, and the translation was made by Dr. Julian J. Obermann, director of Judaica research at Yale.

He said the inscription, in cuneiform alphabet, formed the prologue of a Canaanite saga about a certain Daniel, who lived more than 1,000 years before his namesake who invaded the lions' den, and how he begat a son named Aqhat.

**Check on Germs**

(Emerson Yorke Studio)

The patch test, which this youth is taking, is one form of tuberculin test—the test which shows whether tuberculosis germs are present in the body. It does not reveal whether the lungs are diseased. Positive reactors should have periodic chest X-rays to be sure their lungs are healthy. Tuberculin testing programs, accompanied by health education, are supported by tuberculosis associations from funds raised through the sale of Christmas Seals.

# Methodists Urged To Give Generously On "White Christmas" Sunday, Dec. 22

## VETERINARY HOSPITAL

PARRISH & HAYES

CLANTON

ALABAMA

With "White Christmas," Sunday, December 22, drawing closer, the Board of Directors of the Methodist Children's Home at Selma, in a final appeal, again calls on Methodists of Alabama and West Florida to make plans for generous contributions on that date in their respective churches to assure the proper care for the scores of children in this Home during 1947.

It is pointed out that in spite of all difficulties of past years the Methodist Children's Home has grown larger, is taking care of its children better, and is living within its means. Everything is being done to provide a home atmosphere for the children rather than the institutional usual type.

When the little ones reach school age, they attend the public schools of Selma, and it is a matter of record that their standing compares more than favorably with the average. The children are also at an early age taught the dignity of labor, with the girls assisting in the kitchen, dining room, laundry and other domestic duty, while the boys of proper age are stilled with a love of work on the farm, in the dairy, caring for the livestock and similar chores.

Their religious and cultural needs

## St. Lucy Honored Throughout Sweden

St. Lucy's Day, on December 3, inaugurates the Christmas season in Sweden.

On that day the prettiest girl in the household is chosen to impersonate Lucy; very early Christmas morning she will go through the house awakening the household and giving each person a cup of coffee or some sort of sweetened beverage. Her costume is traditionally a white dress with a red sash, and she wears a wire crown entwined with bilberry twigs—similar to the American cranberry—studded with nine candles.

Liturgically, St. Lucy was martyred about 300 A. D. The story goes that Lucy gave her dowry to the Christians—whose courage she admired—instead of turning it over to her fiancé. The enraged young man informed against her and she was condemned to be burned at the stake; unharmed by the flames, she did not die until thrust through with a sword.

Lucy is commemorated somewhat diversely in Switzerland where she is the legendary wife of Father Christmas. Wearing a round cap over her long braids, a laced bodice and a silk apron, she marches around the village with Father Christmas and distributes gifts to the girls while he looks after the boys.

## Children's Day New Year's in Bulgaria

Bulgarian children receive small gifts on Christmas Day from Grandpa Koleda—an ancient winter god—but New Year's Day is really the children's holiday.

Dressed in their newest and best clothes, the youngsters bear gifts to their elders: they receive presents and small sums of money in return. In rural communities the older children visit neighbors: switching the householder with cornel rods, they wish him a happy and prosperous New Year. The word "surva" is repeated frequently—the visitors expecting to be served with goodies—but if the supply is exhausted, the situation is accepted with characteristic good humor.

The holiday season climaxes on Epiphany. The orthodox priest leads a procession to the river and, commemorating Christ's baptism, tosses a cross into the water: sometimes the ice has to be broken, but youths dive for the cross unhesitatingly—the retriever supposedly receiving a special blessing.

## ALABAMA COTTON HAS GOOD STAPLE LENGTH

Nearly 99 of every 100 bales of cotton grown this year by Alabama farmers had a staple length of 15-16 inch, or longer.

A recent Production and Marketing Administration report states that only 1.1 per cent of the crop had a staple shorter than 15-16 inch and the average was over one inch. Better than 45 per cent of the crop was mid-dling and above in grade.

By the end of November, 731,140 bales were ginned and J. T. Belus, API extension cotton specialist, predicts that the year's total will be about 800,000 bales.

The year's average yield of lint cotton is estimated at 253 pounds per acre, as compared with last year's 324 pounds. Unfavorable weather and boll weevil caused this drop.

## FERTILIZER OUTLOOK IS FAR FROM BRIGHT

The fertilizer outlook for next year is far from bright, J. C. Lowery, A PI extension agronomist, told farmers this week.

Manufacturers have not been able to get all materials needed for mixed fertilizers and nitrogen for top and side dressing will be short. Lowery said that as the picture is now, there won't be enough fertilizer to fill all needs.

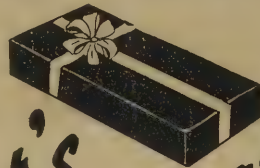

"Farmers should work out their fertilizer needs with local dealers now. Those who wait until planting time to try to get fertilizers will probably be out of luck," he warned.

are also well provided for and every effort is made to bring them up to become well rounded men and women of character and a credit to their community.

Interested friends are urged to apply to "White Christmas" campaign headquarters (Phone 7-4071) located at 606 First National Building, Birmingham, with Mrs. O. H. Horton in charge, for any needed supplies for carrying out a "White Christmas" program in the churches, including suggested "three minute talks," dime cards, plays, pamphlets and other suitable material.

Virgil McCain, Superintendent of the Methodist Children's Home at Selma, hopes for a large response to meet the pyramiding costs for food and clothing and other needs for an average of 130 children during 1947. Checks made payable to the Methodist Children's Home may be mailed to him at Selma, Ala.

NEWS FROM AUBURN BY  
WOODROW BRELAND

Auburn, Ala. — Auburn students are staking out claims in their native state, judging from the large number of first quarter graduates remaining in Alabama to make their livelihood.

The API Journalism Class reported 23 of those receiving degrees and found these interesting facts: Three-fourths of the graduates want to remain in Alabama. Only seven native Alabamians have accepted jobs outside the state. 27 already have jobs in Alabama on graduation, and 14 have positions in their own home towns. Four out of five of-state students plan to stay in Alabama to work.

Here is an interesting sidelight: Miss Helen Merle Warren of Alexander City has some very definite plans of her own. She's to be married on graduation day. Five other young ladies will be married soon.

As an example of enterprising new home town businesses, the Bailey brothers, R. E. and J. C. Jr., from Jacksonville plan to go into a joint lumber business of their own.

Thus 37 of the 78 have already accepted position and nine more are deciding which of several offers to accept. Seven plan to enter graduate schools. The remainder includes those women students who have indefinite plans or seek no professional career.

Less than 30% are still in quest of jobs a week before graduation day. The Alabama demand can hardly be expected to fit every whim. One student who is receiving an Aeronautical Engineering degree regretted that there are no large aircraft factories

here to offer the kind of job he wants. Only four are accepting jobs in line with their major fields of study. More than 90% are to work in positions for which their college training has fitted them.

THOMAS W. MARTIN, "SOUTH'S  
MAN OF THE YEAR"

Thomas W. Martin, president of the Alabama Power Company, and Chairman of the Board of the Southern Research Institute, has been named the "South's Man of the Year," by DIXIE BUSINESS, editor of the publication, said today.

Selection of the man to receive the award was more difficult this year, Lee added, because of the outstanding job done by southern business leaders in reconversion. The choice of Martin, he said, was one of universal appeal especially since the Alabama industrialist has rendered such efficient leadership to the Southern Research Institute, regarded by many of the South's leaders as the outstanding development in the South in many, many years.

Martin's picture will appear on the cover of the winter issue of the magazine and a detailed account of his activities during the past year will be reviewed in the publication, the editor added.

Long active in civic and industrial development in the state, Martin has used his own company extensively to further such development. He is one

of the original founders of the Alabama State Chamber of Commerce, and served as chairman of the Talladega War Plants Conversion Committee, which laid the foundation for the sale of the Brecon plant near Talladega to desirable manufacturing interests. He was honored for his work with this group at the annual banquet meeting of the Talladega Chamber of Commerce and the City of Talladega presented the leader with a resolution expressing their approval.

The Southern Research Institute held its annual meeting in Birmingham late in November and scientists from all over the nation attended the session and were outstanding in their praise of Martin.

The board of trustees of the State Department of Archives and History, at a recent meeting at the capitol, adopted a resolution supporting the United Daughters of the Confederacy in an appeal to the legislature for a law requiring Alabama history to be taught in public schools.

The board also went on record as recommending the adding of the east and west wings to the Department of Archives and History building. The wings were designed in the original plans, but have not yet been built. It was suggested that they might be made memorials to Alabama and Alabamians in World War II.

Alabama's cotton crop is estimated at 800,000 bales, as of December 1, by the Cooperative Crop Reporting Service. This represents a decline of 14 percent from the 1945 crop of 921,000 bales, and 21 percent below the ten-year average, from 1935 to 1944. Average yield per acre was placed at 253 pounds, compared with 324 pounds in 1945, and a ten-year average of 249. Alabama's yield per acre, though off from last year, is above the national average of a fraction over 230 pounds per acre.

In 1850 one-eighth of the people of the United States dwelt in cities of 8,000 or over. By 1900 this number increased to nearly one-third.

### Heavy Damage At CCHS Will Not Hamper Schoolwork

Work Will Continue Uninterrupted Due To Efforts of Faculty And School Officials

When the Christmas holidays come to an end this week the students of Chilton County High School will continue doing business in the same old stand. This feat was accomplished by hard work and cooperation of our County School Board and our school officials.

Damage at approximately \$90,000 was suffered last Thursday when a fire of unknown origin came near getting out of control and destroying the entire school building. The gymnasium was a complete loss and only the brave work of our volunteer fire department saved the building from being a total loss. The fire was checked after ruining two classrooms between the gym and the front hallway. Much equipment and supplies were burned.

Beginning Monday morning, December 30th, the school buses will run as usual and classes at the Chilton County High School will continue. The heating equipment has been fixed and according to Mr. Bookholdt's report Wednesday morning all will be in readiness for the children to get back to their studies.

### Preston Bean and Miss Edna Vickers Are Wed

Preston Bean, who has just returned from the army and Miss Edna Vickers were married Sunday afternoon at the home of Mrs. Pearl DuPre. Preston is the son of Mr. and Mrs. J. H. Bean. Rev. Carroll performed the ceremony. The room and hall were beautifully decorated.

The double-ring ceremony was performed. Miss Ruth Sessions was bride's maid and Stonewall Jackson acted as best man.

The newly weds left for a short honeymoon trip.

### STEWARDSHIP INSTITUTE AT PRESBYTERIAN CHURCH

The United Church is having a Stewardship Institute during the week of December 30 to January 3rd with sessions each night at 7:00. The Rev. assistant Superintendent, W. A. Edwards, of the Southeastern Christian Conference, will assist the pastor in conducting the institute. All members and friends of the church are urged to take advantage of the sessions to get a better understanding of Christian Stewardship.

Perhaps a key to friendships To buoy us all year through.

We bid you welcome, New Year-our dreams we trust with you,

Forgetting ills of all the past, we start the book anew.

### Quiet Christmas Observed In City And County

A very quiet and peaceful Christmas was observed in Clanton and Chilton County this Christmas. Few wrecks occurred and those that did were of a minor nature. No serious injuries or deaths from fights or accidents occurred to mar the holiday and no serious injuries were reported from the use of fireworks.

It was reported to the News Thursday that the City jail doors stood open wide with no inhabitants and none seemed inclined to be interested in its free rooms and board.

The Christmas Eve crowd of buyers was large but there seemed to be no rush any certain hour. Throughout the day the shoppers came in a steady march through the stores making their last minute purchases and were gone to their homes putting on the finishing touch to their tree or their menage. All in all it was just the kind of a Christmas that Christmas should be. A Christmas of Peace and Plenty.

### A PROCLAMATION BY THE DIRECTOR OF CONSERVATION

Under and by virtue of the authority of law vested in me as Director of Conservation and in pursuance of the provisions of Act No. 464 of the Legislature of Alabama (regular session 1943) approved July 10, 1943, providing that on and after the 12th day after the first publication of this proclamation, the same shall be in full force and effect.

NOW, THEREFORE, I Ben C. Morgan, Director of Conservation of the State of Alabama, do hereby proclaim that all of Chilton County, Alabama, shall be under organized forest fire protection by the Division of Forestry of the Alabama Department of Conservation. And I do hereby further direct that a copy of this proclamation shall be published once a week for two consecutive weeks in a newspaper published in Chilton County, Alabama.

I do hereby further proclaim that beginning with the 12th day after the first publication of said proclamation in such newspaper, the lands herein above described shall be deemed in an area under organized forest fire protection.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the seal of the Department of Conservation to be hereunto affixed in the City of Montgomery in the State of Alabama, this 14th day of December, 1946.

BEN C. MORGAN.

Director of Conservation of the State of Alabama.

### ENTERPRISE SCHOOL NEWS

Our school lunch room served a bountiful lunch last Friday. We think our lunchroom was the only one open last Friday over the whole county.

The 7th grade had chapel program. Dolly Sue Black, one of the students composed the play used "Tom's Dream". The entire program was splendid.

The Jr. is also had a surprise birthday dinner, given in the honor of Dolly Sue. Everyone really enjoyed the dinner, and parted wishing her many more happy birthdays.

Every room had a nice time Friday opening the gifts. We all parted Friday at noon. We wished each and everyone a very Merry Christmas.-Reporter.

### ISABELLA

There was a large crowd at Mulberry Sunday for Homecoming day. The day and the program was a success in every way.

Bro. Bill Gamble, instead of Gandy, preached a very inspiring sermon Sunday morning after Sunday school. At noon lunch was spread outside with plenty to eat for everyone, and several boxes sent to our shut-ins in the community.

A program in charge of Mrs. Malie Smith, in honor of our service men and women were given in the afternoon. The program consisted of songs with Casey Cummings leading. A talk was given by Mrs. Vera Griffin. And Thanks given for answered prayer followed by prayer by Bro. Bill Gamble. Song, Sweet Hour of Prayer. With a prayer of thanksgiving for the return of our servicemen and women by Rev. R. W. Stuckey. Then Mrs. Flossie Wells presented service men and women present souvenirs from the church and gave to each family represented a souvenir for their service men and women absent.

Dismissal prayer by Mrs. Era Davenport.

Sunday night a very beautiful and inspiring Christmas pageant was presented by the children from the Jr. Primary and Beginners Depts., with Mrs. Aveline Lecroy and Mrs. Molly Smith in charge. A nice love gift was given for our orphanage at Troy.

Everyone who attended enjoyed the entire day.

Mrs. Molly Smith entertained the WMS of Mulberry last Wednesday night. The home was decorated throughout, carrying out all the holiday ideas with holly, mistletoe, candle lights, etc. Games and contests were enjoyed by all, with Mrs. R. W. Stuckey, Mrs. Aveline Lecroy, Mrs. Gladys Turner winning prizes.

Gifts were exchanged and refreshments served to the 18 present. Little Mickey Kliner has been on the sick list of our community.

Miss Truman Stuckey is spending the holidays in Birmingham with her brothers.

Mrs. R. C. Vessey is improving after being seriously ill at her home here. Mrs. Charlie Giles came home last week from a hospital in New Orleans. She is doing nicely at the home of her daughter, Mrs. Pleas Lenoir.

Mr. and Mrs. Braxton Lecroy and son and Mrs. Lorene Lecroy spent several days here this week with their parents, Mr. and Mrs. T. L. Lecroy.

Mr. and Mrs. Howard Olden and Joyce from Foley, Ala. were among the visitors at the Home Coming Sunday.

Mr. and Mrs. Gamble, father and mother, Bro. Gamble and his wife from Bessemer were with us at Mulberry Sunday.

Mr. and Mrs. Earl Thomas and family were also visitors at Mulberry Sunday.

Miss Katrina Yielding and K. Le-more are here with their parents for the holidays.

Gordon Conway, Hansel Groom and Hudson Calfee are here also for the holidays.

Mrs. Emma Manning and Mrs. Mary Manning attended a school lunch shower given in honor of Miss Forman in Titus, last Thursday.

We are sorry to hear that Alvin Ellison is in a hospital in Atlanta, Ga., suffering from the loss of an eye.

### Deputy Sheriff T. J. Thornton Passes After Sudden Illness

Final rites were held Wednesday morning at Chestnut Creek for Deputy Sheriff T. J. Thornton who passed suddenly at his South Clanton home last Monday afternoon, December 23. It is reported that Mr. Thornton was on duty when he suffered a heart attack. Mr. Thornton was rushed home where he died about one hour after being taken ill. He was 55.

Services were held Wednesday morning at 10 o'clock at Chestnut Creek, Coopers writers, Martin and Sons of Clanton directing.

Law enforcement officers acted as honorary pallbearers.

Active pallbearers were Newt Popwell, Terry Marcus, Walter and Dave Moore, Clari Norris and Arthur Mitchell.

The deceased is survived by the wife, Mrs. Rena Crew Thornton; two sons, J. S. and Adelle Thornton of Clanton; two daughters, Miss Clarice Thornton of Montgomery and Mrs. Willie Marie Armstrong of Clanton; four brothers, Will Thornton of Montgomery, Houston Thornton of Spigner, Charlie Thornton and Eddie Thornton of Whitney, Texas; three sisters, Mrs. Ann Hilyer and Mrs. Rosa B. ## OUR DISASTROUS FIRE

A disastrous fire visited us last week when the Chilton County High School burned. This is the second fire at that institution within eight years, the first destroying it completely. Last week's fire did less damage but still left a scar that will trouble us for the next year.

Why now, since the worst has happened, can't we rebuild a school as befits a small city of our size and importance? Instead of erecting or adding to what is left of the present structure, why can't those officials in charge of our educational system have plans drawn to take care of the requirements of our children and see that they are obtained regardless of politics or individual thinking?

The children should come first in our plans of the future. Clanton and Chilton County needs a finer, larger high school, complete with gymnasium and auditorium and lunch-room for the growth and advancement of our children.

With the right amount of cooperation and initiative we can get what Clanton needs. It is your duty to do your best to see that we do.

The Chilton County High School children of today are our businessmen and our housewives of tomorrow.

## A TRAFFIC PROBLEM

One of the most bothersome problems confronting the City Fathers at this time we believe is our traffic problem. Any fine or penalty placed against a traffic violator is not done so because of any personal feelings what-so-ever but to uphold the city statutes. Lots of our citizens take it as a personal matter and condemn our Mayor and Council, when it is our citizens own failure for not obeying traffic laws.

We cannot but agree with some of our local merchants and businessmen that entirely too much space in our small business district is marked off as "loading zones" and other "prohibited" zones. This works a hardship on all of us who just want to stop for a minute to transact business or trade with a local merchant for an item or two and then be on our way. One of the biggest helps to our traffic situation would be the owners and clerks either leaving their cars at home (if they live in walking distance of their jobs) or parking their cars a short distance from the business district and walking to their place of work.

There is no denying that something must be done about the situation as it now stands. This can only be accomplished through the cooperation of all our citizens and to this end we feel that all of us should lend our efforts.

### RABIES INCREASING IN U. S.; CONTROL NEEDED

Although many do not realize it, one of the most dreaded diseases

Rabies Losses in 1944. known to man—rabies—is steadily on the increase in this country. The la-

test available figures show that in 1944 for the first time, cases of rabies in animals and man passed the 10,000 mark. In some localities wild foxes and other animals have contracted the disease, and have roamed the countryside spreading it. Horses, cows, pigs, and other livestock have become victims of rabies, along with human beings.

The average person may well ask—"What can we do about it?" Perhaps the best answer is provided in a recent report of the U. S. Livestock Sanitary association which emphasizes "the alarming increase of rabies in certain areas." The report cites the fact that effective control in aggressive programs has centered on large scale vaccination of dogs. The reasons for recommending this control program include these facts:

Dogs are still the chief spreaders of rabies. In communities where all dogs have been vaccinated, rabies has been virtually wiped out. The quality of rabies vaccine has been so improved in recent years that it is extremely dependable, thus removing the objection formerly voiced by persons who were opposed to anti-rabies vaccination. With such a vaccination program, authorities recommend that all stray dogs be impounded, and that dogs being shipped from one area to another be required to have a rabies-immune certificate.

The saving of the life of a single child, it is pointed out, would be worth all these precautions.

## Good News For Folks Who Suffer From

- ✓ STOMACH GAS
- ✓ SOUR FOOD TASTE
- ✓ ACID INDIGESTION

Do you feel bloated and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief from this nervous distress. Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is minutely effective in increasing the flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so really need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

Earnings are Falling DANGEROUS

The amount of money paid out to furnish you with telephone service is increasing faster than the amount taken in. That's because telephone materials, wages, services, and new building costs have all gone up tremendously, while telephone rates have remained as low as lower than they were many years ago. Telephone earnings today are not only the lowest in history but are dangerously low despite a record volume of business. Reasonable earnings are required to safeguard the full usefulness of the telephone for you and your community.

**WEEK'S BEST RECEPT**  
**MASHED POTATO DUMPLINGS:**  
Cook 3 large potatoes in boiling salted water until soft. Drain, peel and mash add 1/4 t salt, 1/4 t nutmeg, 1 t melted butter, 2 t flour, 1 t melted fat, 2 unbeat eggs. Beat thoroughly. Shape into balls. These are very good with our favorite dish, sourkraut. To have dumplings fluffy and tempting, proper steaming is necessary. Use a pan with tightfitting lid and do not remove cover during steaming. Dumplings on kraut take about 10 minutes to steam. This recipe makes six dumplings.

**FROZEN FOODS**  
Housewives are finding new ways to package products for home freezing. They find many ohme cooked foods may be successfully frozen. Cakes in artens, as with other baked goods in heat-sealed cellophane that is moisture-proof, steam, hash, chicken-a-laking in waxed containers as used for freezing fruit. One housewife showed the way to freezing eggs by breaking them in the refrigerator tray, freezing, shaking out the egg cubes, wrapping in cellophane for frozen storage in a carton.

**GLAZED SWEET POTATO**  
Take six large red baking apples hollow them out to a shell one-half inch thick. (Use pulp for applesauce for another meal.) Fill the apple cups with two cups mashed, seasoned sweet potatoes. Place in a shallow pan. Melt one half cup of orange marmalade and pour over top of each apple. Bake in moderate oven until apple shells are tender and potatoes are thoroughly warmed. Baste frequently.

**INSPIRATIONAL**  
He that ruleth his spirit is better than he that taketh a city.
